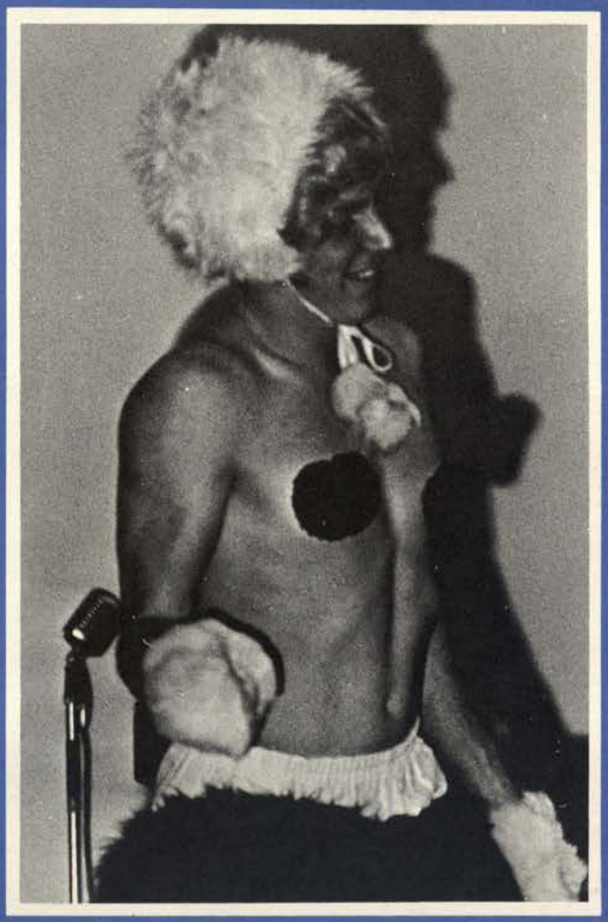
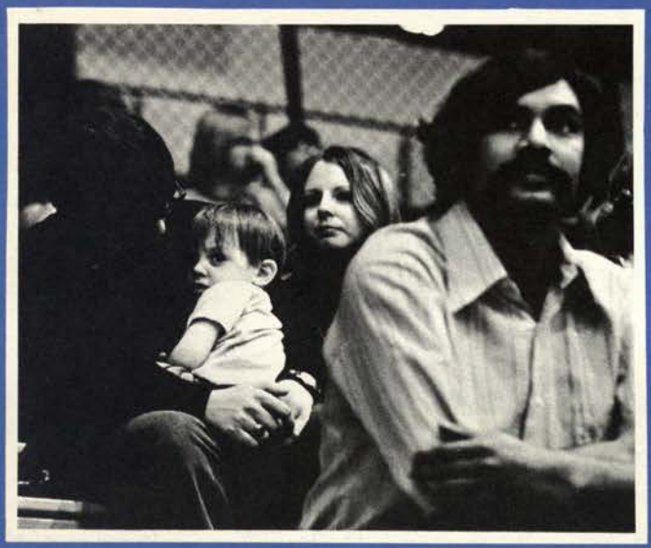
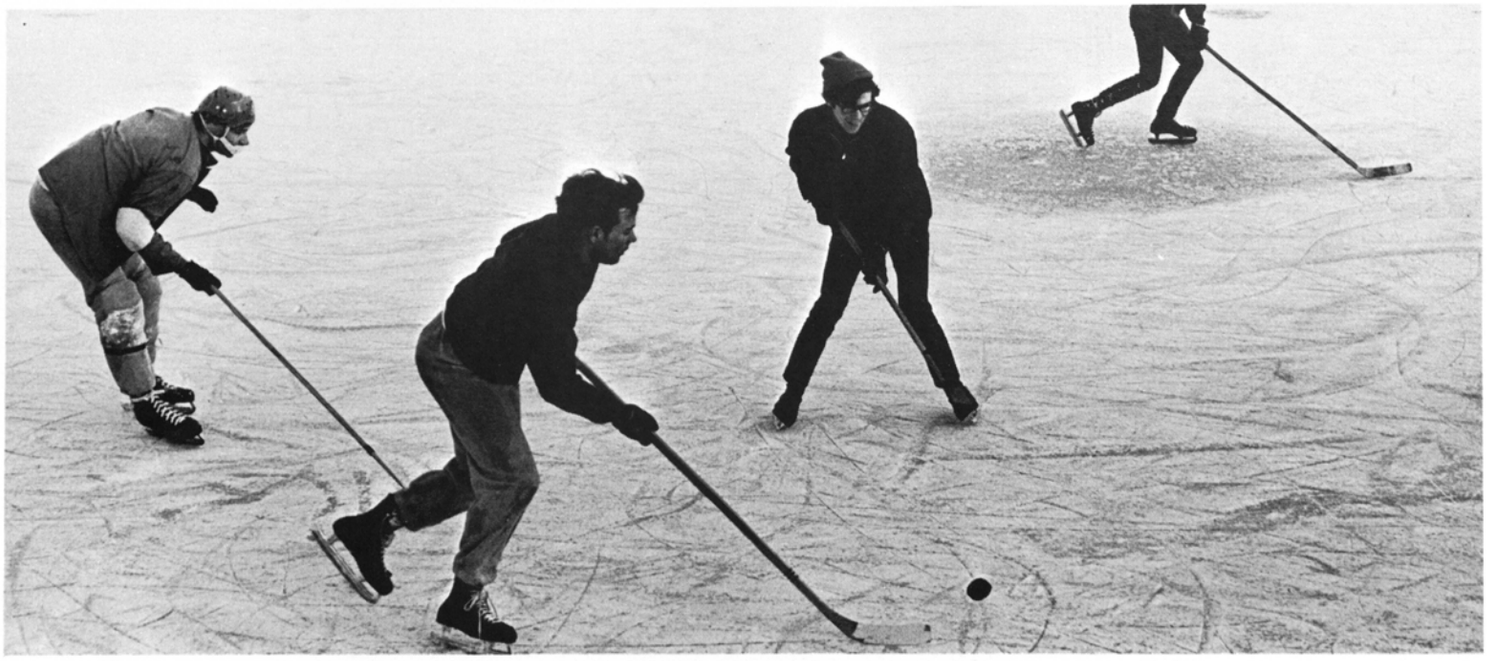
GREEK WEEK '72

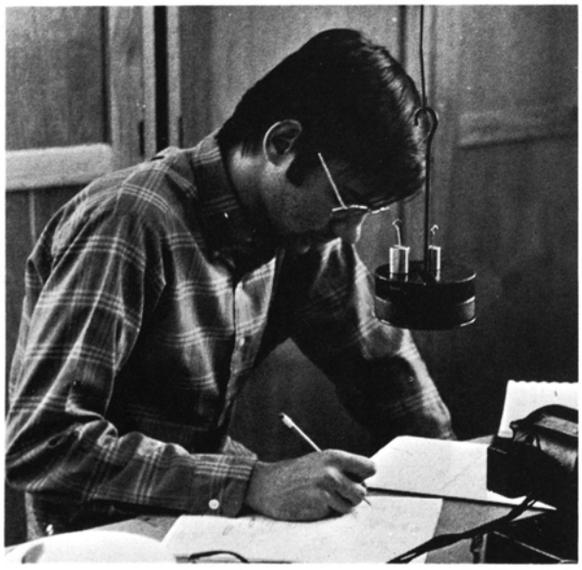


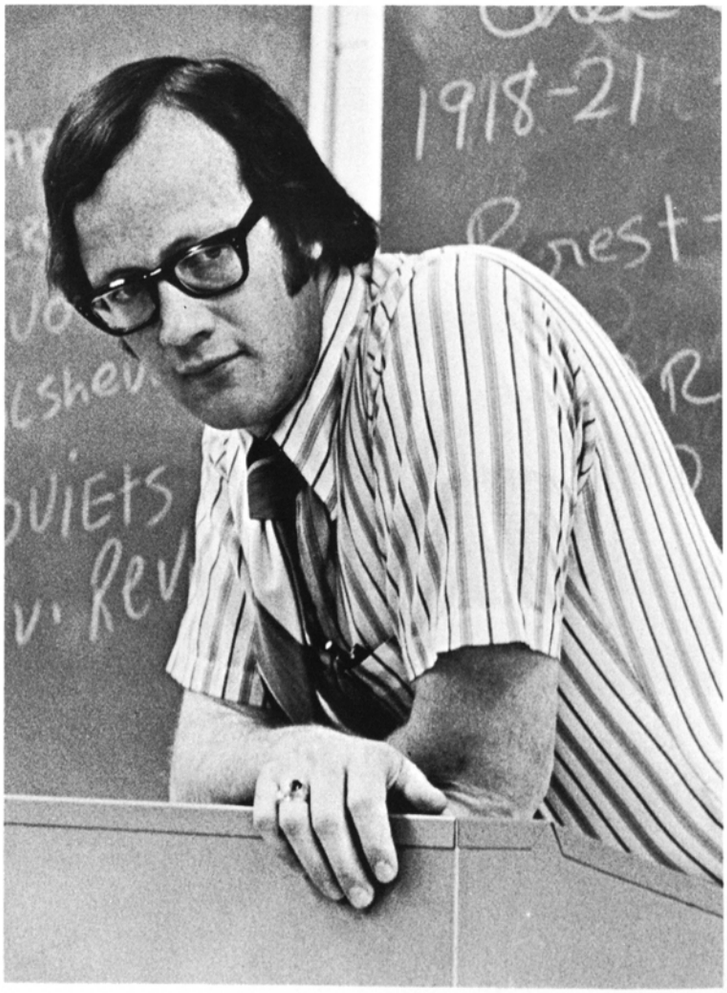
People



The University is People...

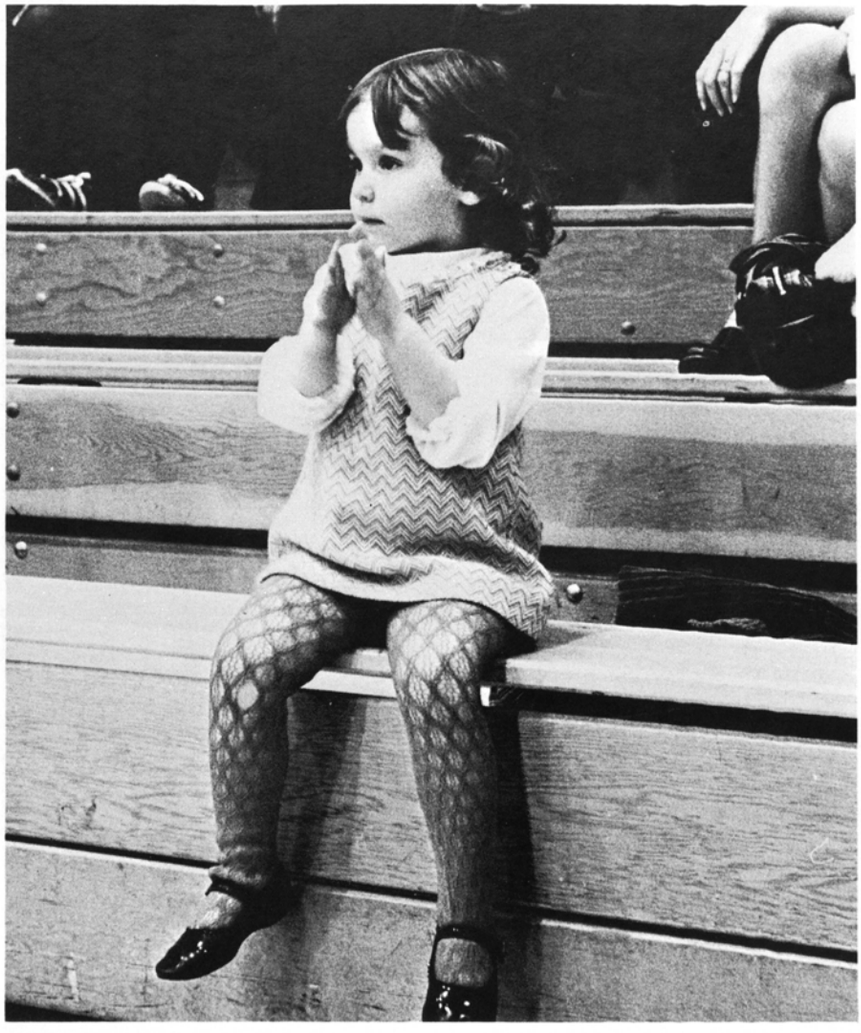




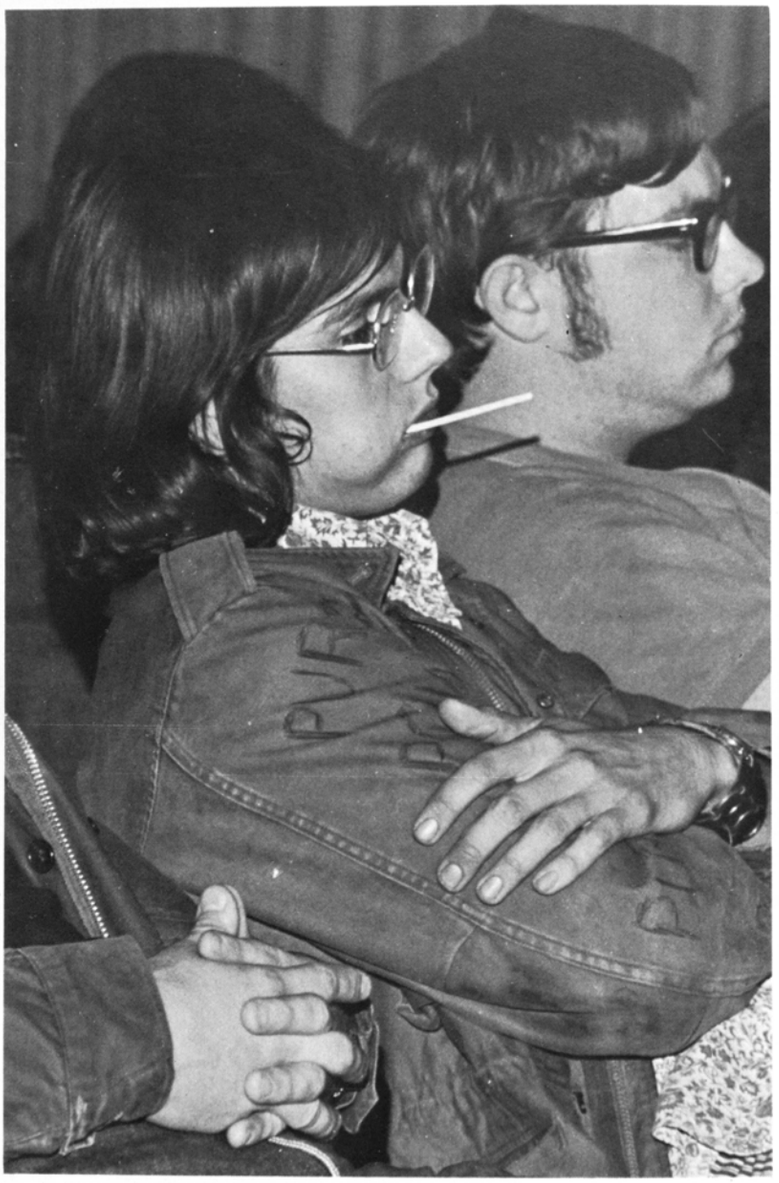


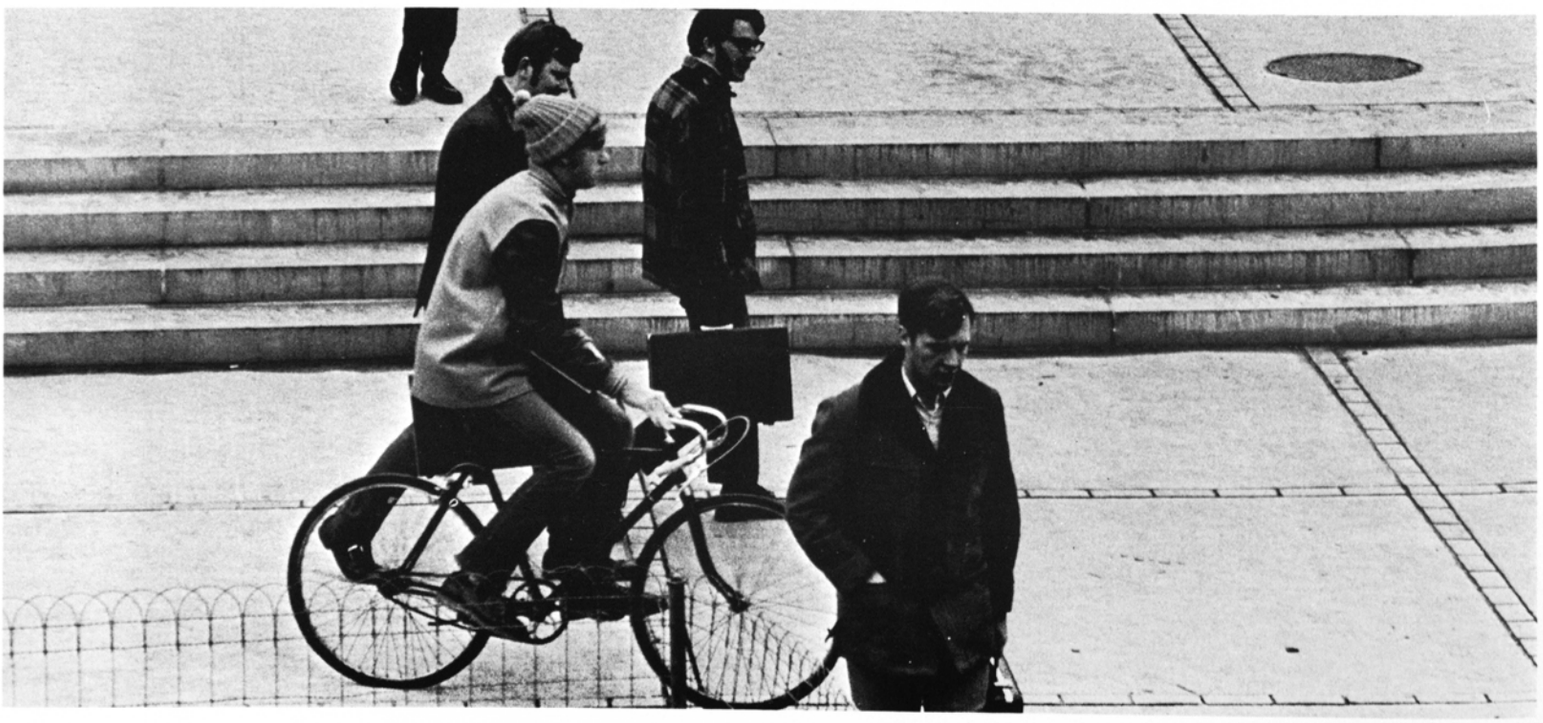
1918-21

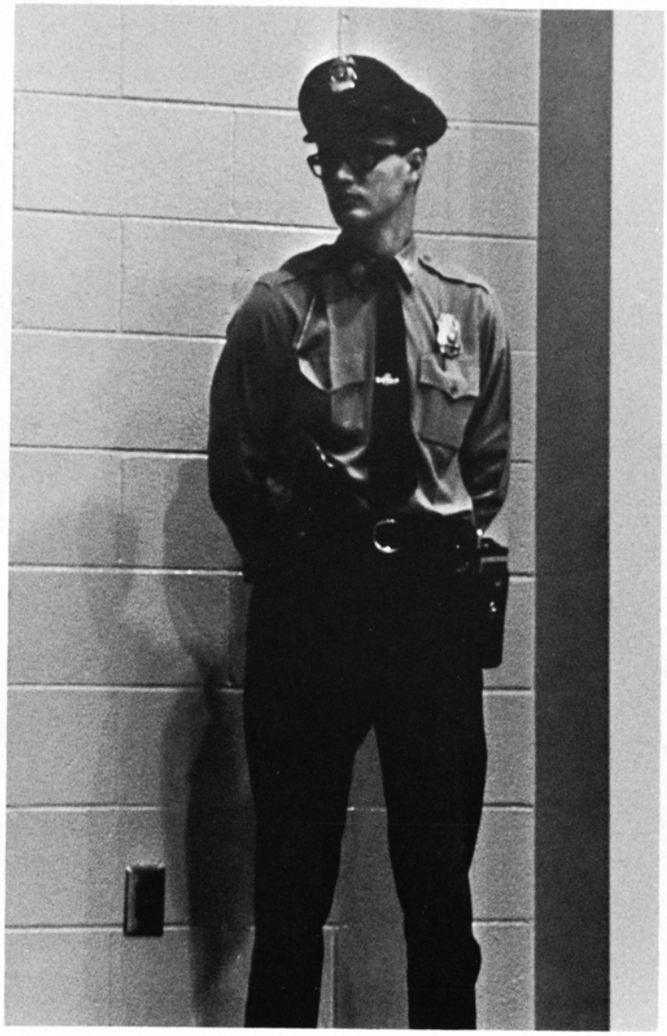
"People is all everything is, all it has ever been,



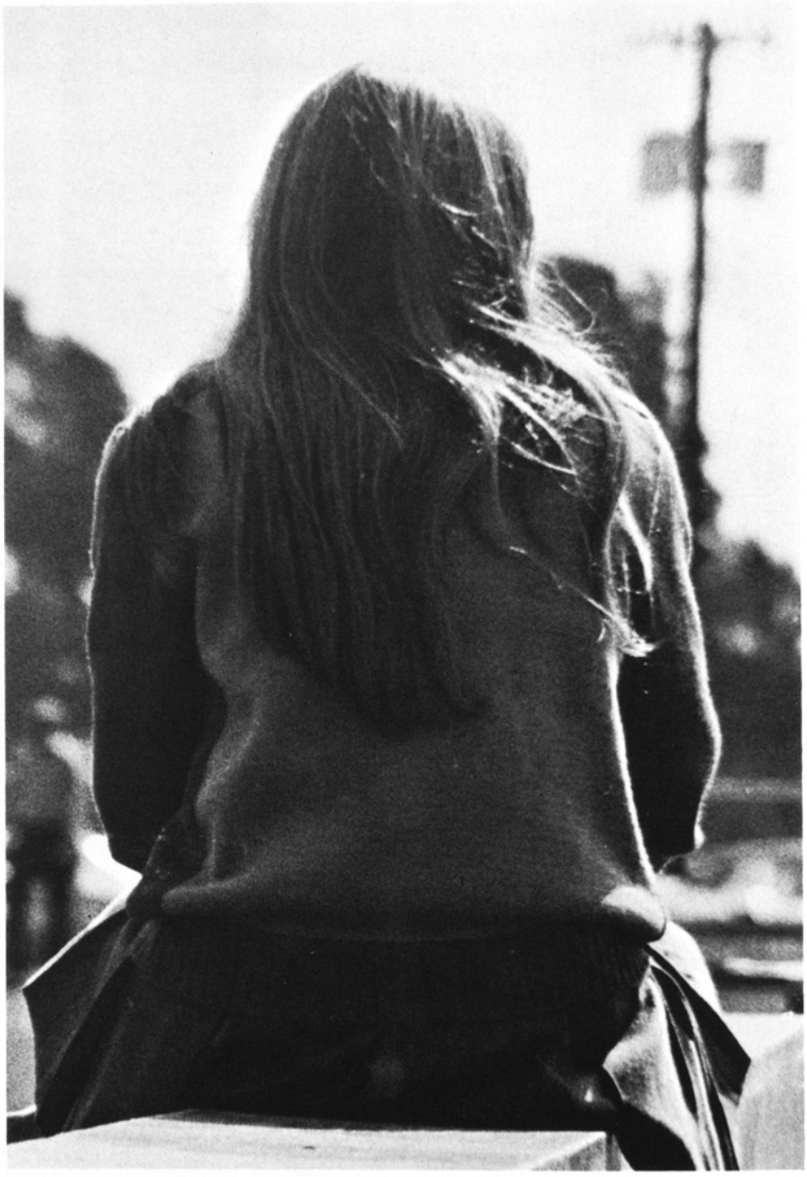
...all it can ever be."



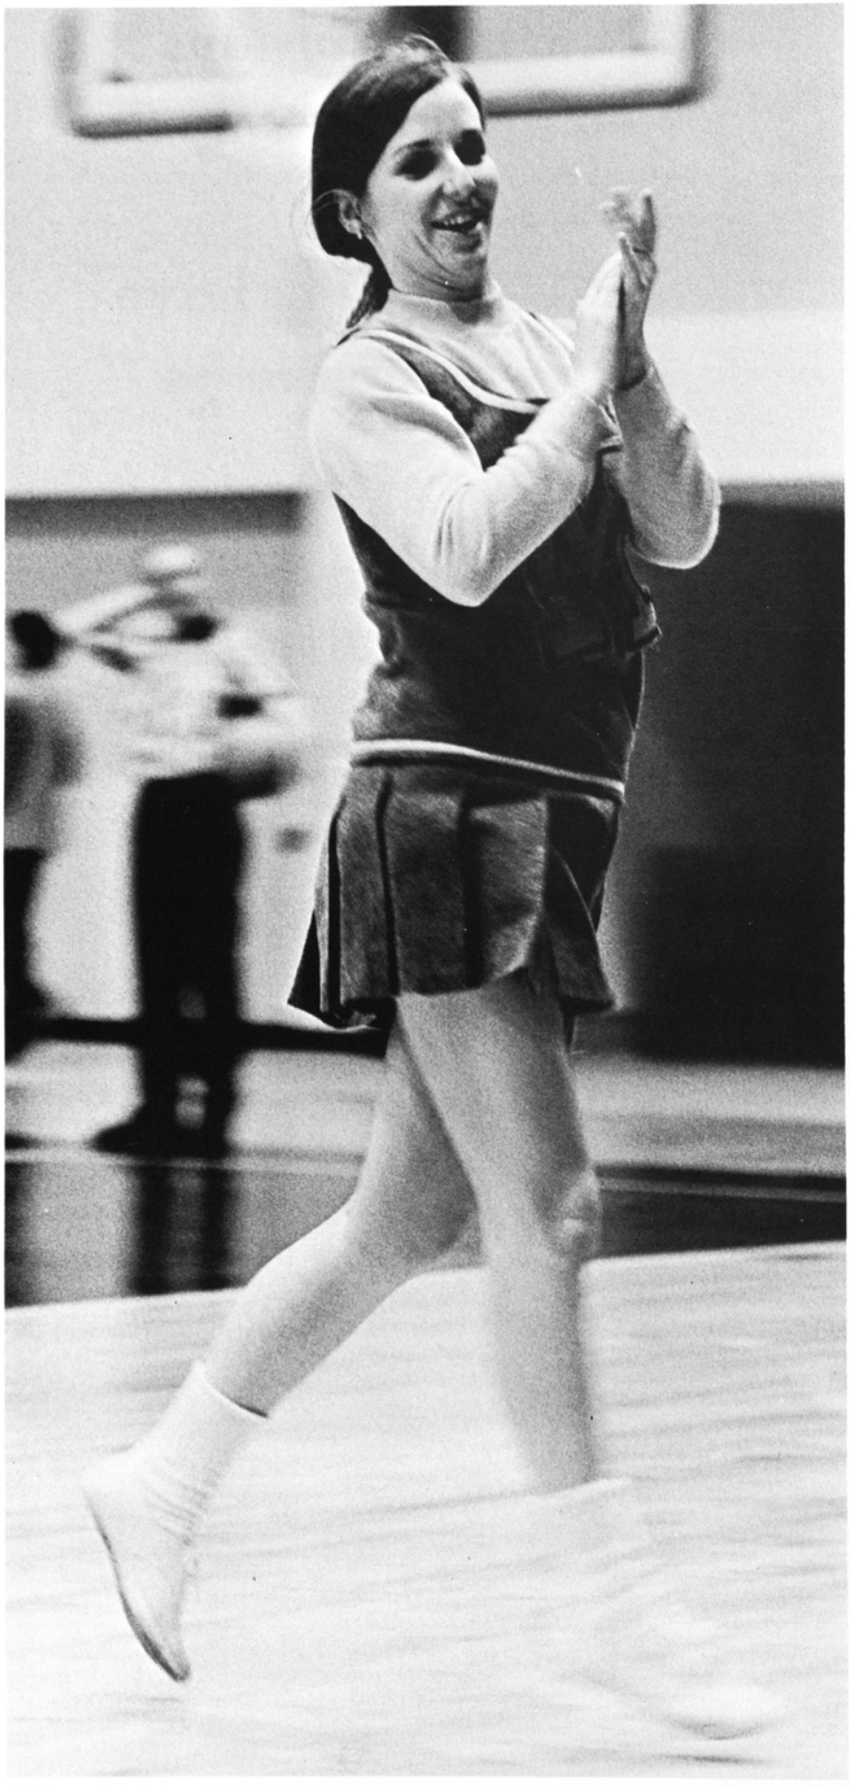




pē·o′·ple; n., ...a
collection of individuals.

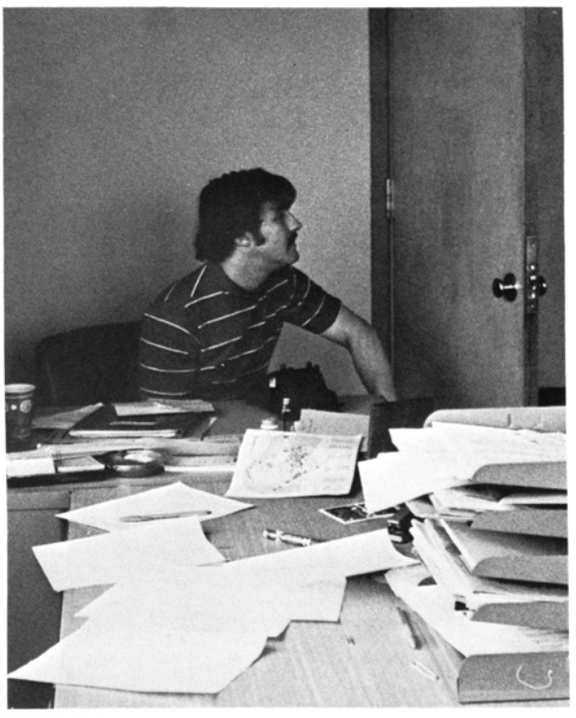


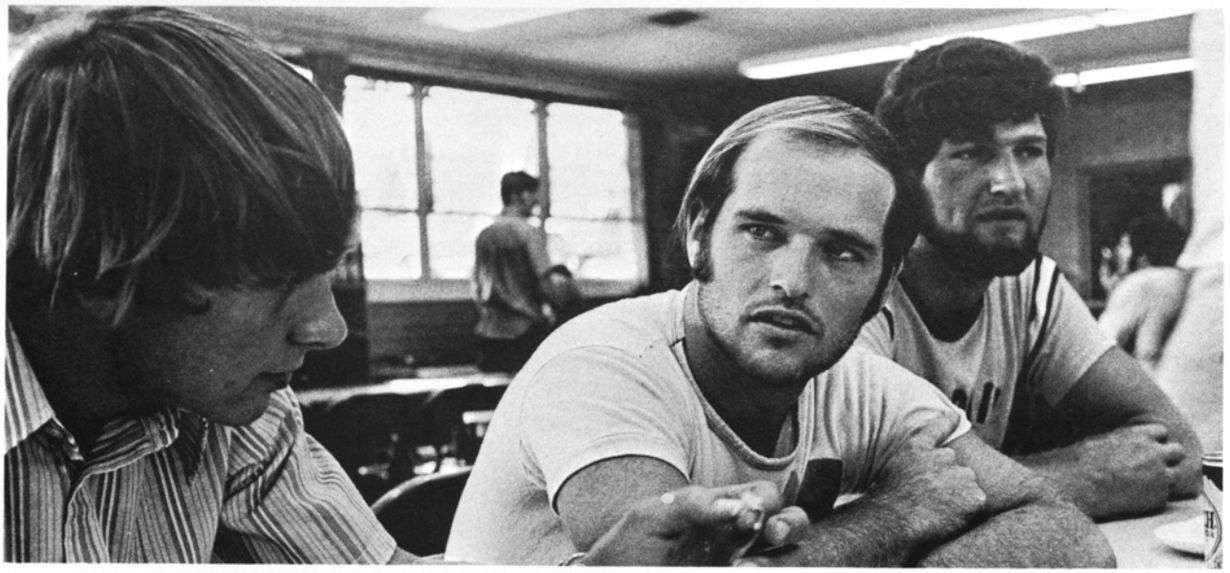
"Remember always that you have not only the right to be an individual; you have an obligation to be one...

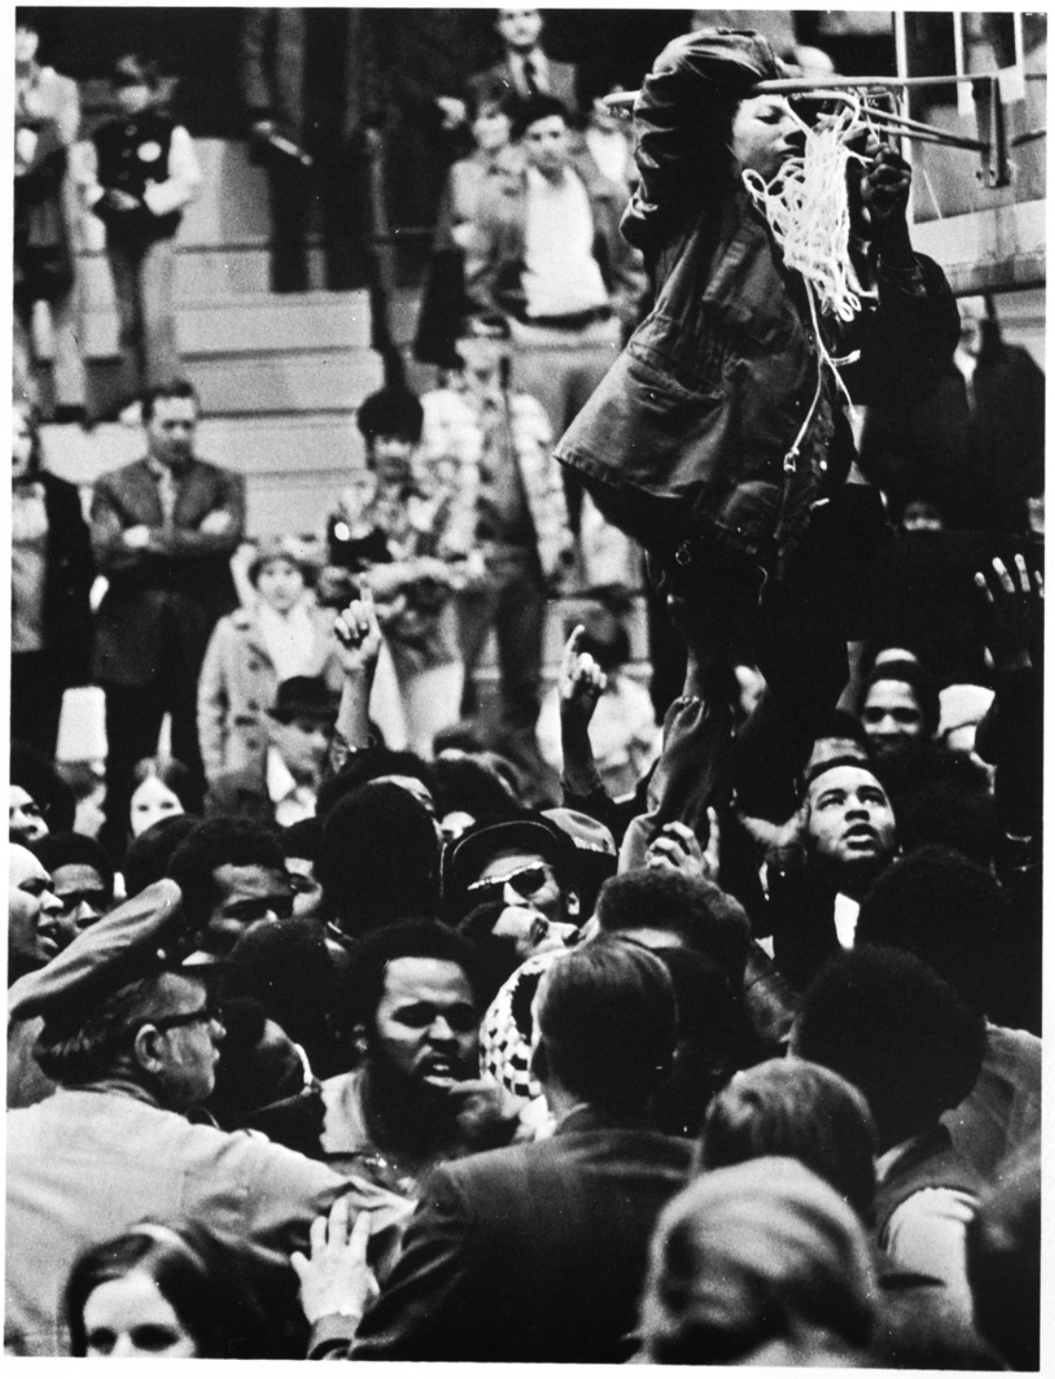


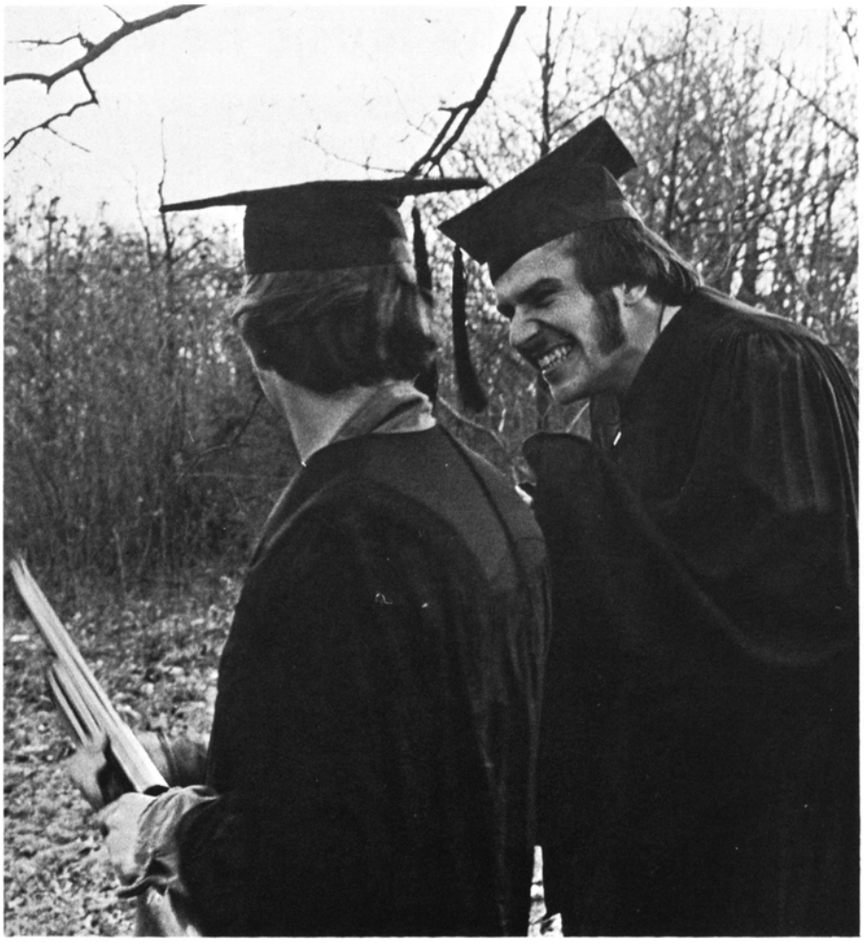
...You cannot make any useful contribution in life unless you do this."

DRINK





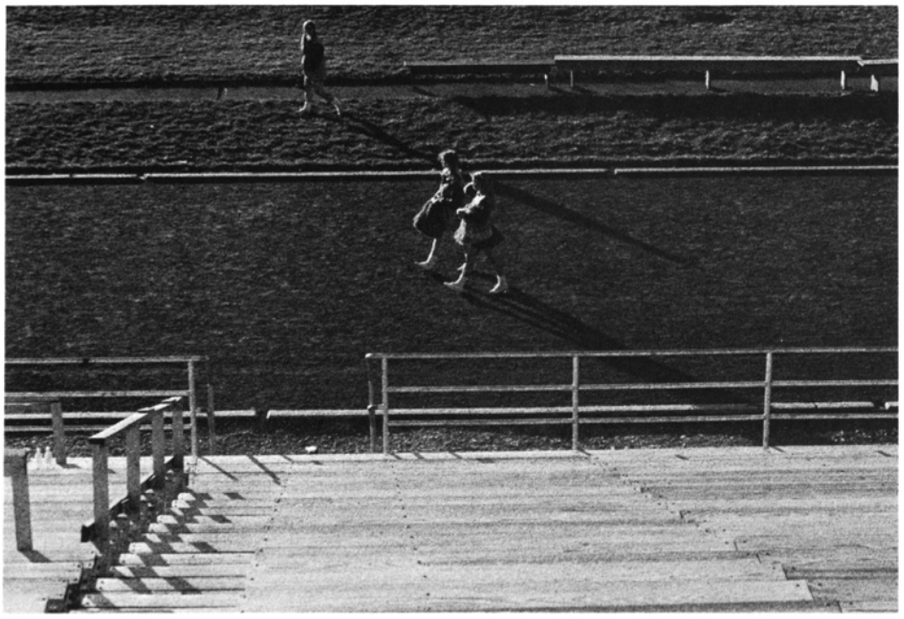


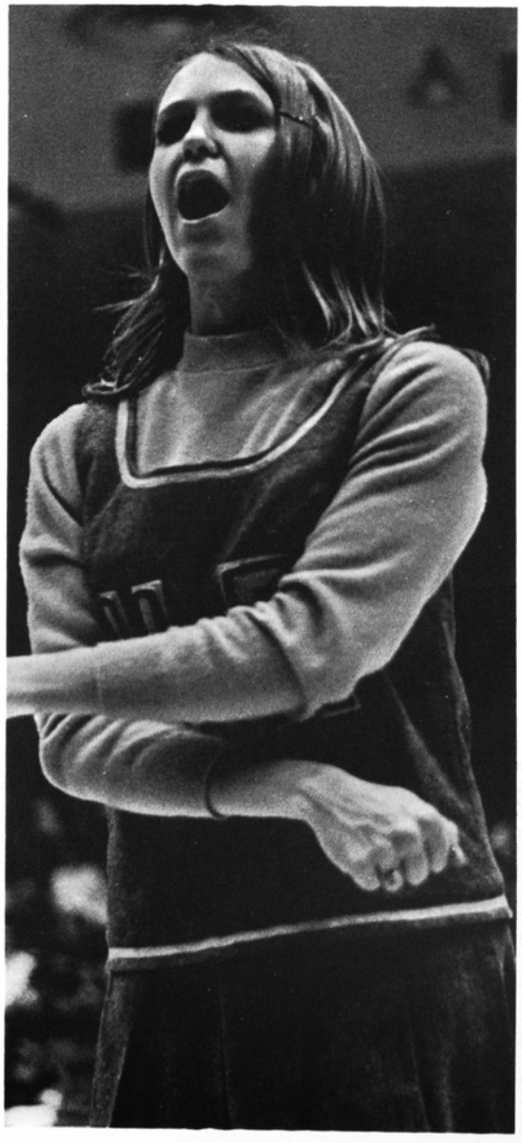


"If a man does not keep pace with his companions, perhaps it is because he hears a different drummer...

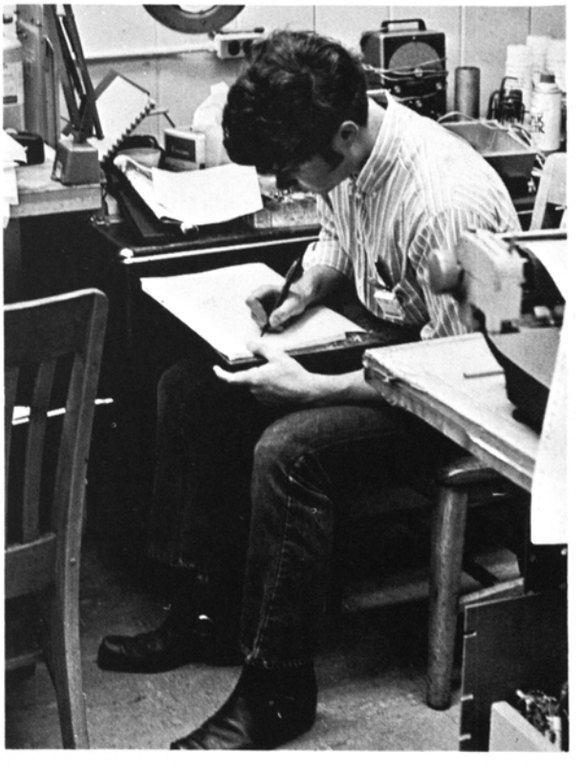
...Let him step to the music he hears,

...however measured
or far away."



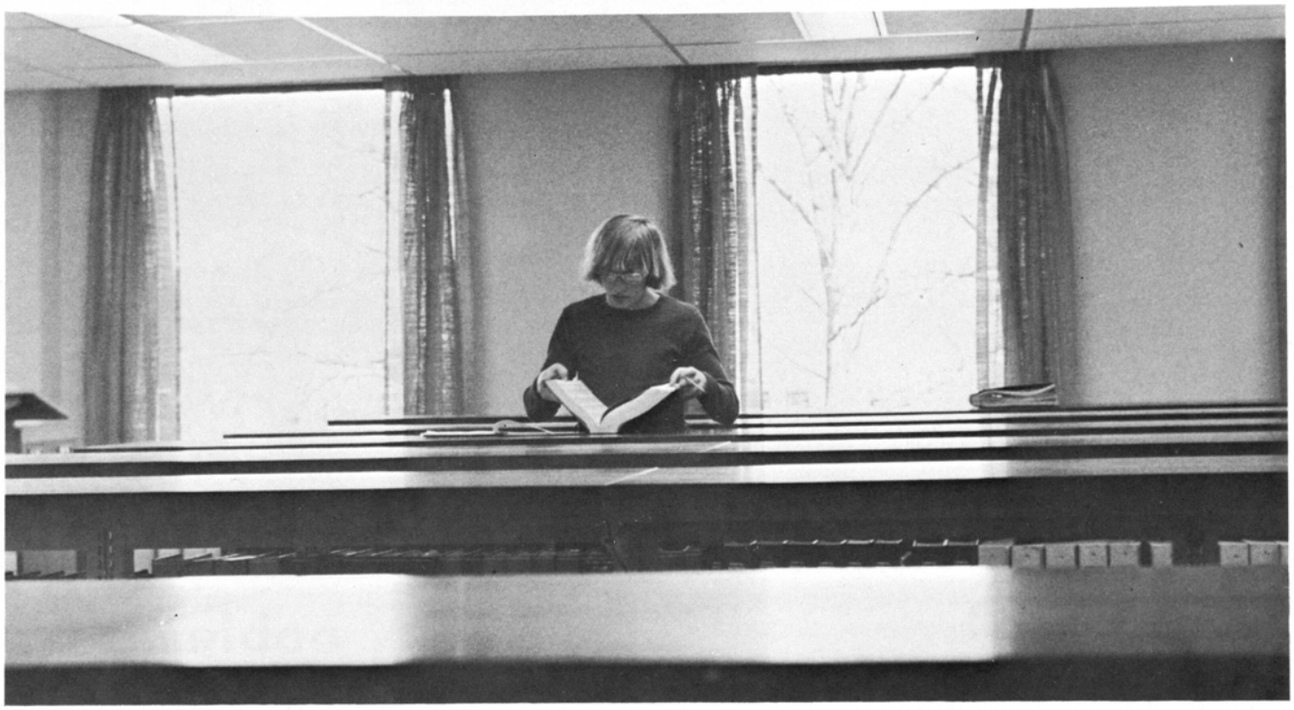


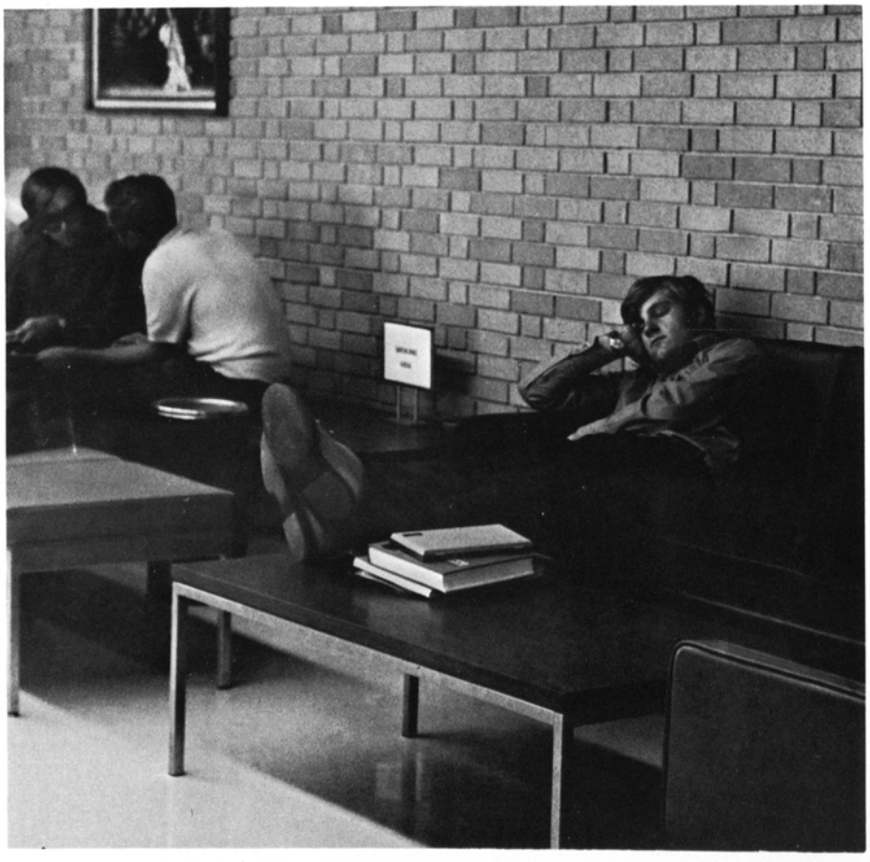
"Every man has to seek in his own way to make his own self more noble...



...and to realize his own true worth."

"We write our own destiny...we become what we do."





With thanks and apologies to Wm. Saroyan, Eleanor Roosevelt, Henry David Thoreau, Albert Schweitzer and Madame Chiang Kai-Shek.

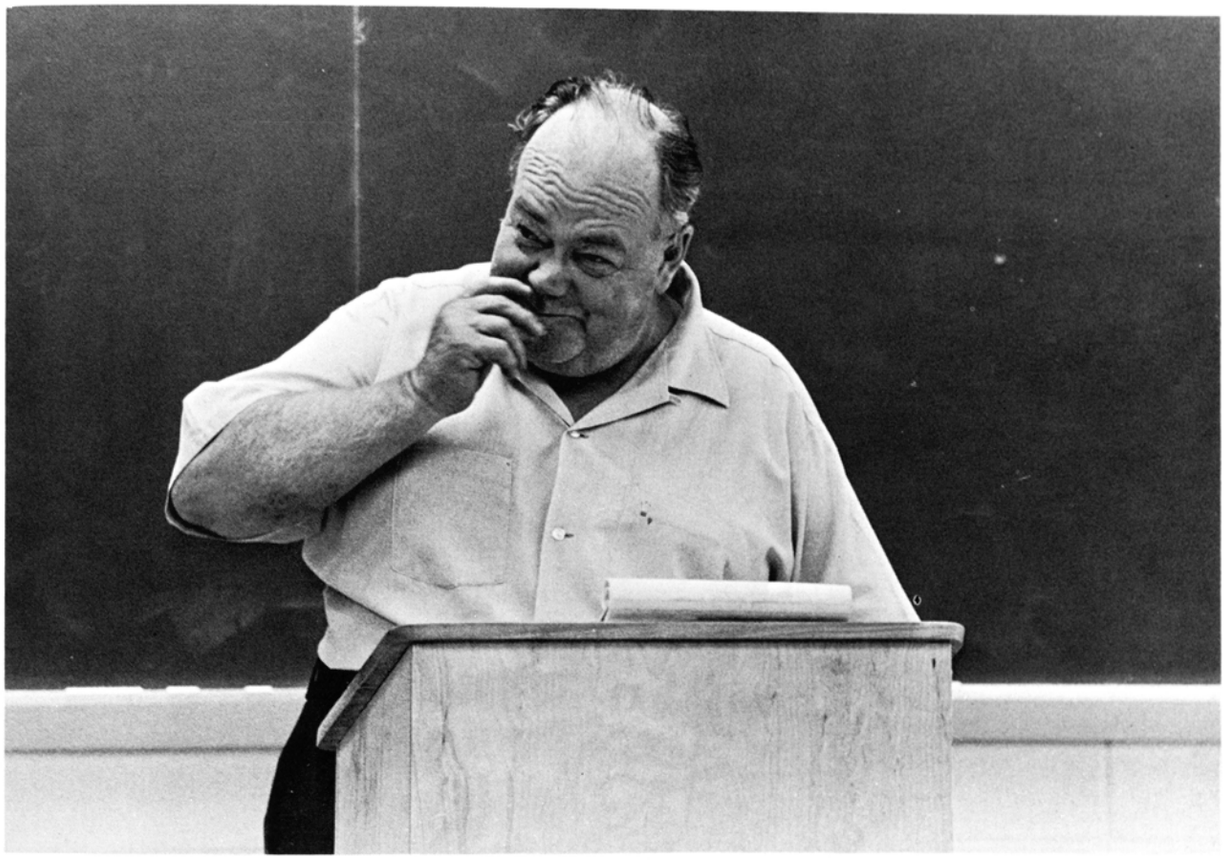
ST. PAT'S



Capt. Carl G. Christie; Associate Professor of Engineering Management

In Memoriam...

This section of the 1971-'72 Rollamo is dedicated to Capt. Carl G. Christie. The memory of this man is best captured in the words of Prof. T. R. Beveridge.

"With the death of Capt. C. G. Christie, UMR has lost a remarkable faculty member. Because he was self effacing, his talents and contributions were not necessarily obvious to the casual acquaintance but they were recognized by his present and former graduate students who had voted him their most influential teacher and by his Department which had nominated him for the Thomas Jefferson Award. He died unaware of these honors.

The hazard of professional narrowness was avoided or conquered completely. He took deep quiet pride in being an Academy graduate yet never let it become conceit. His depth of perception went far beyond instinctively seeking military solutions for international problems, . .he was a true liberal, not one of the crying or kneejerking variety.

The facade was crust, and as a leader, he could be iron willed. Beneath the crust was the very tender heart of a true gentle man.

Were he to read this he would probably growl in his Churchillian manner, 'What in Hell are you trying to do, canonize me?' Then if he suspected that he had given unintentional offense he would probably add with true grace but considerable inaccuracy, 'Thank you--I'll certainly need all the help I can get.' "

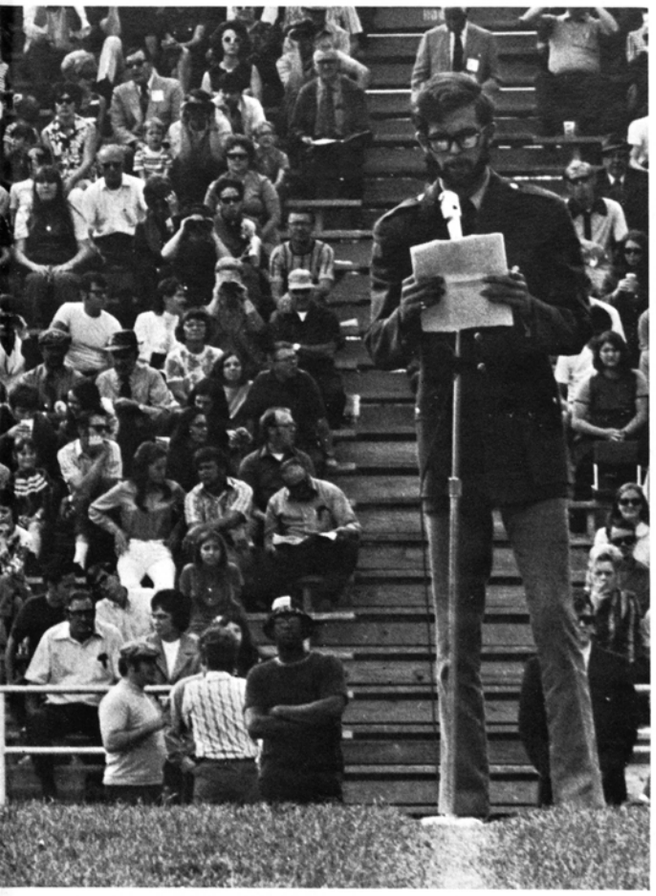
Dr. Merl Baker; Chancellor, University of Missouri-Rolla

"In many respects, the 1971-'72 academic year at the University of Missouri--Rolla appears to have been a most trying one for both students, faculty, and administration.

Certainly, the national picture in engineering employment and the resulting budget problems increased anxieties for many of our faculty and students.

As the year ended, however, many of these uncertainties have become brighter. We are now convinced that the engineering employment cycle is back on the upswing which will, in turn, reverse our enrollment decline. In addition, we are optimistic that "Role and Scope.' conclusions may ultimately prove beneficial to the Rolla Campus.

So, in perspective, I am sure that later years will recall 1971-'72 much more for its accomplishments than for its problems. This year marked the successful conclusion of UMR's centennial cele-



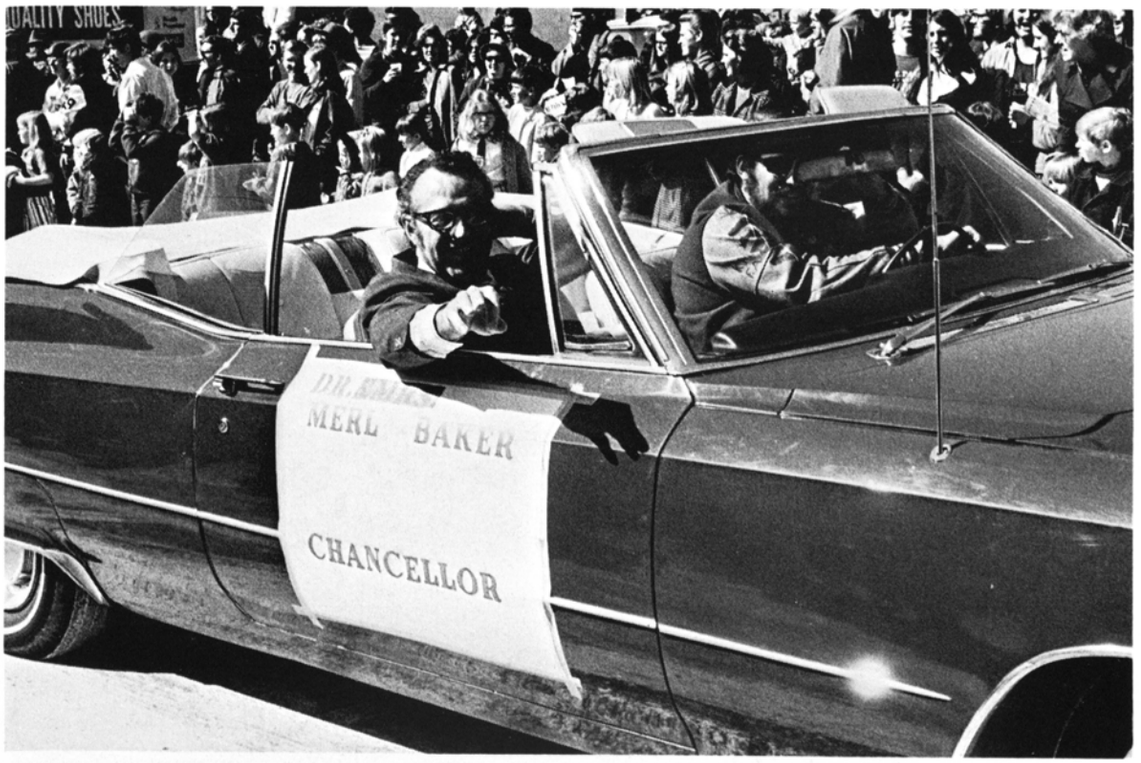
bration which included the beginning of construction on the new Student Center. In addition to this facility, the year also marked several other milestones in our total physical plant expansion.

The student body enjoyed another successful year as well with our students continuing to serve as pacesetters for the State of Missouri with their exemplary behavior.

Peripherally, the campus continued to broaden and expand its roles of research and service. UMR built upon its already excellent international reputation by remaining the second largest producer of engineering graduates in the nation.

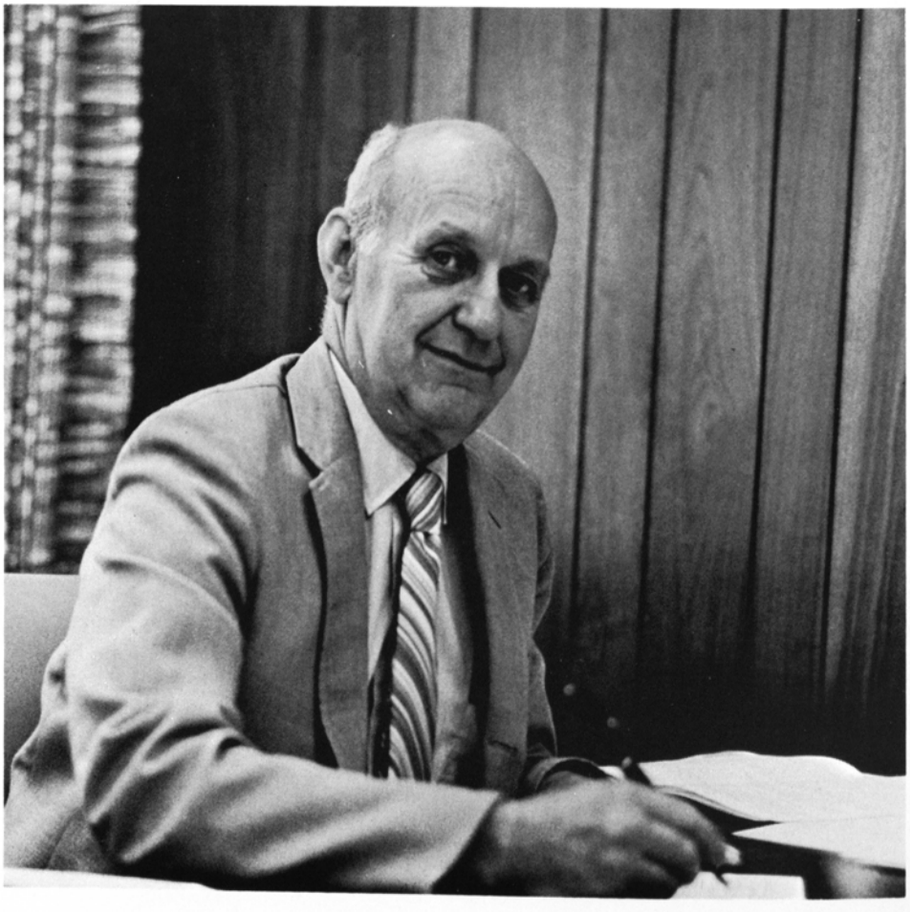
In conclusion, it would seem that there can be little doubt that 1971-'72 will go into the books as another year of accomplishment at UMR."

Dr. Merl Baker, Chancellor

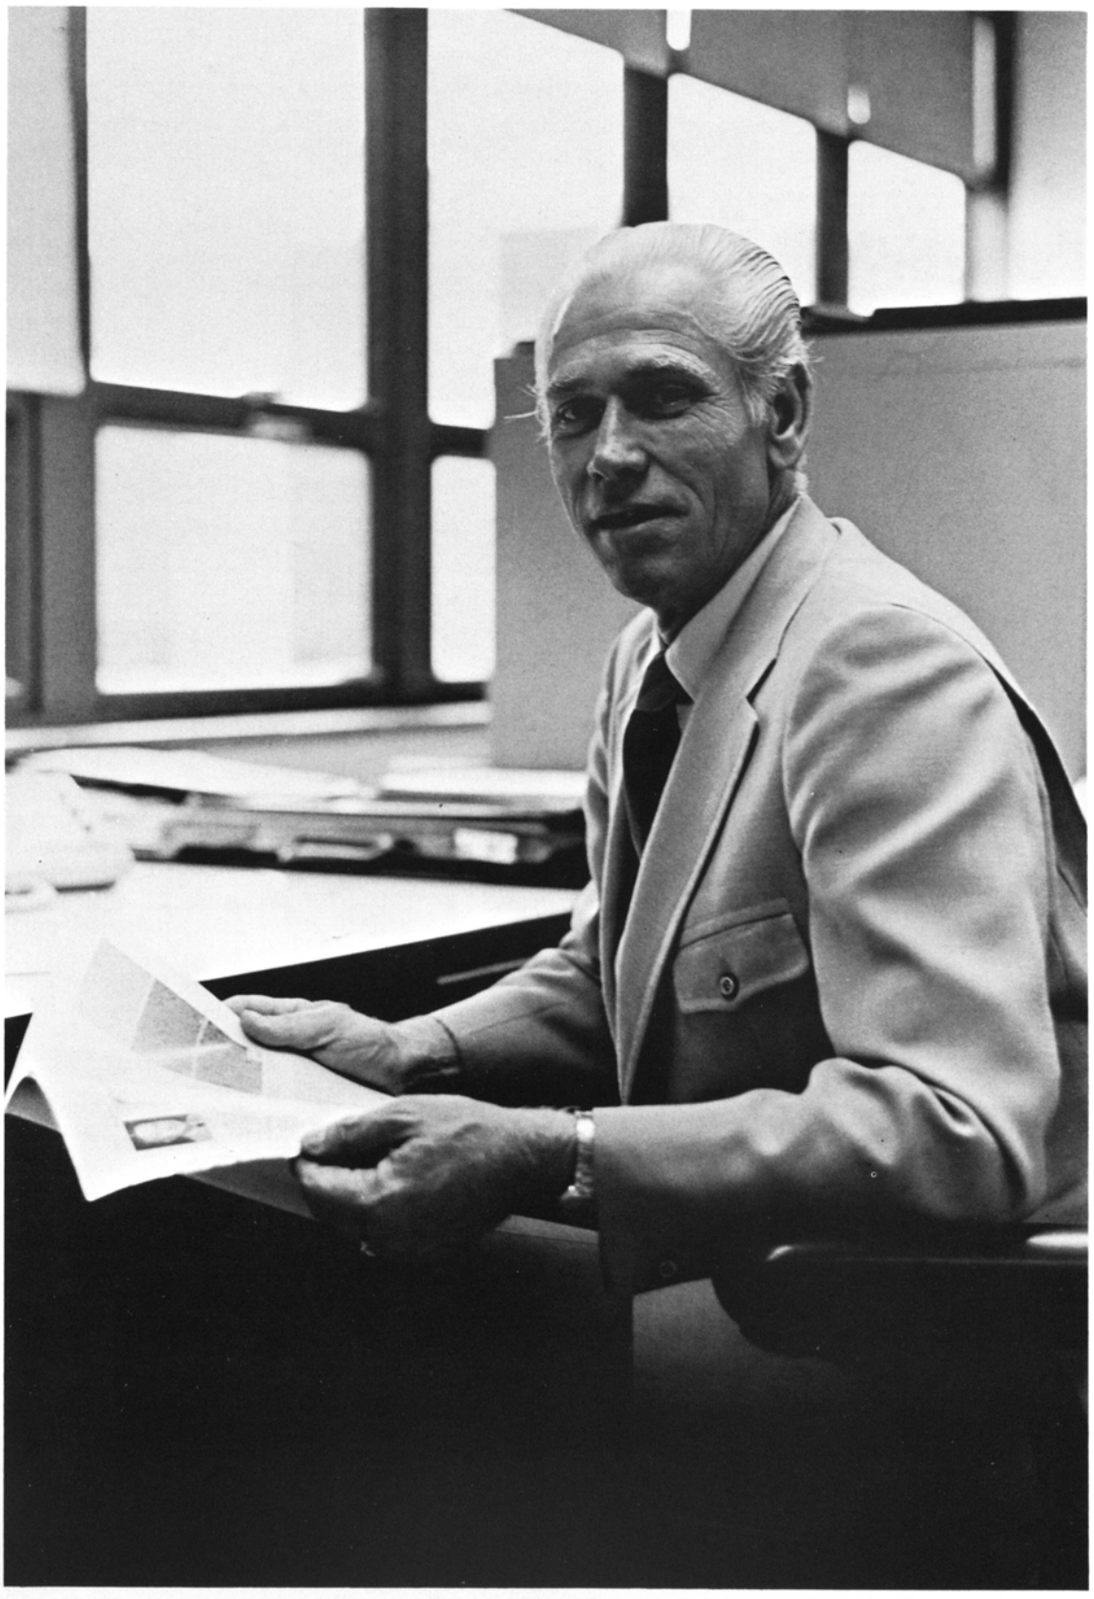


Administration...

Prof. J. Stuart Johnson; Dean of School of Engineering

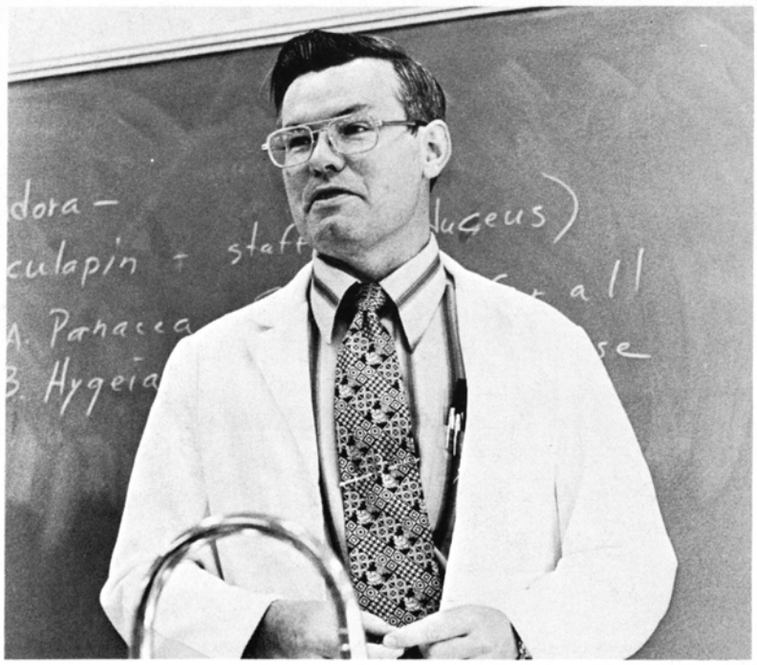


Prof. Harold Q. Fuller; Dean of College of Arts and Sciences



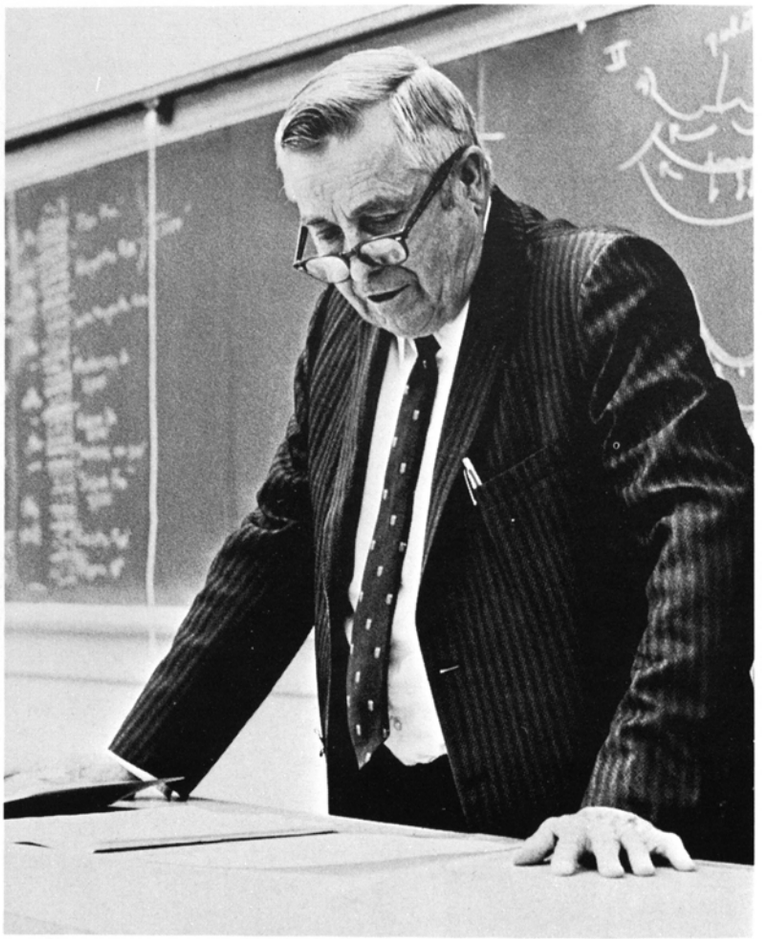
Prof. Theodore J. Planje; Dean of School of Mines and Metallurgy

Faculty...



Dr. Bobby G. Wixson

"The complex problems of our modern world cannot be solved unless the citizens of tomorrow are given the best possible education today. An effective teacher must be active in his field and interested in his students to make the learning process as current and practical as possible. Teaching at the University of Missouri - Rolla is rewarded when you meet a former student working in a position of leadership and responsibility in our society. For this and other reasons, I am proud to be a member of the faculty working with our students to make a better tomorrow possible."



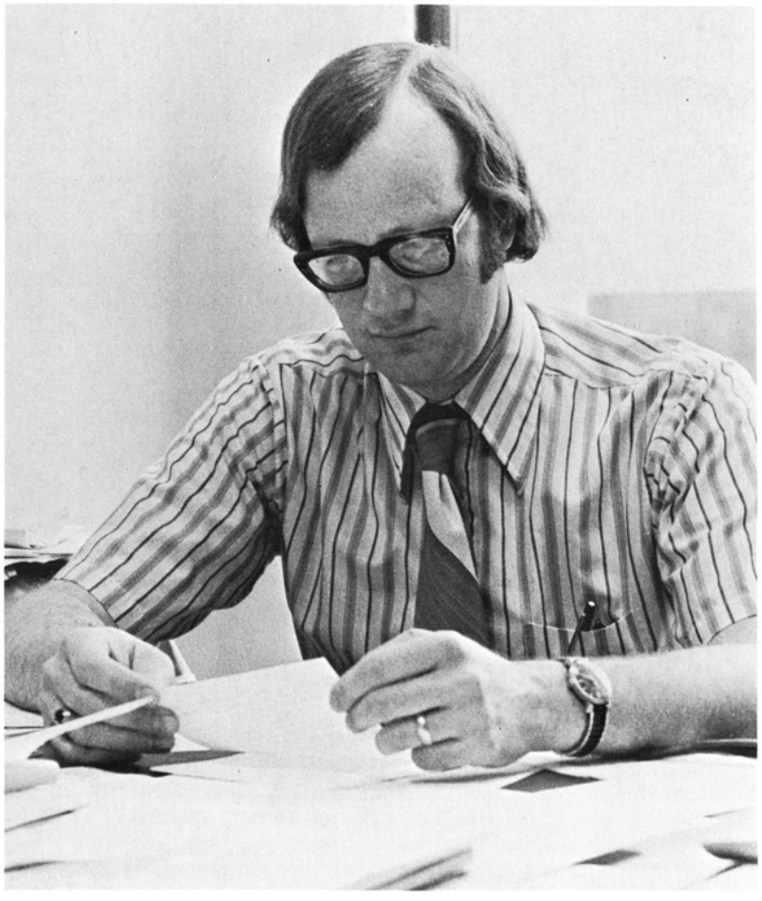
Ray E. Morgan

"It is currently argued that a degree need not be an objective for a college student, preparing for meaningful post college employment.

My personal opinion is that the baccalaureate oriented program can be economical and meaningful in terms of preparing the student for productive post college employment. To be successful such a concentrated program requires professionally competent instructors, whose major concern is the instruction and well being of the undergraduate student.

Unfortunately for the undergraduate, the morale of such dedicated instructors, may be eroded if administration treats them as second class citizens, or "do nothing" individuals, and reserves praise and advancement in rank and compensation for those who dedicate their efforts to writing proposals for research funding, to be applied, of course, in the graduate field.

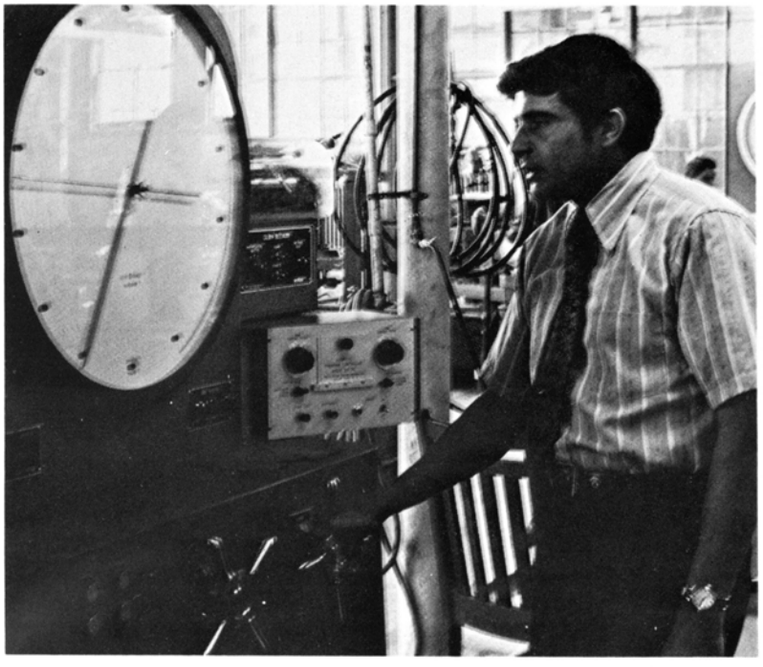
The bias, in favor of the proposal writer, is understandable when it is realized that 50%, or more of the proposal funding may be reserved for administrative purposes. When judged by the administrator, the non-writer of proposals may feel like the citizen who is judged by a Justice of the Peace whose remuneration is limited to fines, assessed against the accused."



Dr. Jack B. Ridley

"The college professor of past generations has been stereotyped as an absent-minded, stern, dogmatic and myopic taskmaster. This partially mythical creature has no place in the contemporary university. Today, an effective college professor should inspire, stimulate and direct student intellectual energies. He, or she, must be competent, and also imaginative enough to adapt both to the needs of the individual student and to the collective personality of each class. Of course, these are ideal characteristics and all teachers, in varying degrees, fall short of the ideal.

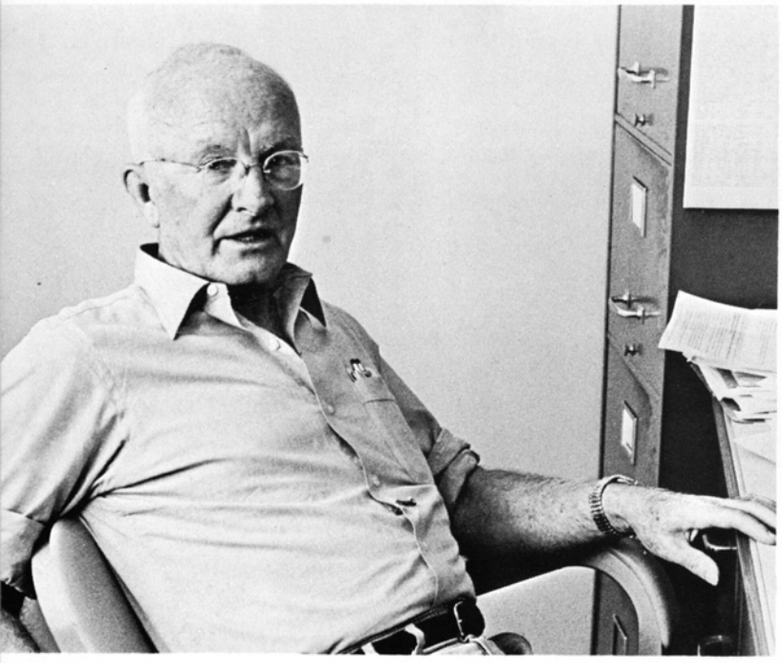
One of the most tragic aspects of contemporary university life in America is the failure to use the creative potential of the classroom. The university classroom could provide a near ideal setting for intellectual exchange, mental stimulation and learning. Instead, the classroom too often becomes a stifling, boring experience for the instructor and student. Instructors are at fault because they lose their enthusiasm for teaching: students are to blame because they rarely challenge the instructor to excel."



Dr. Karl Muhlbauer

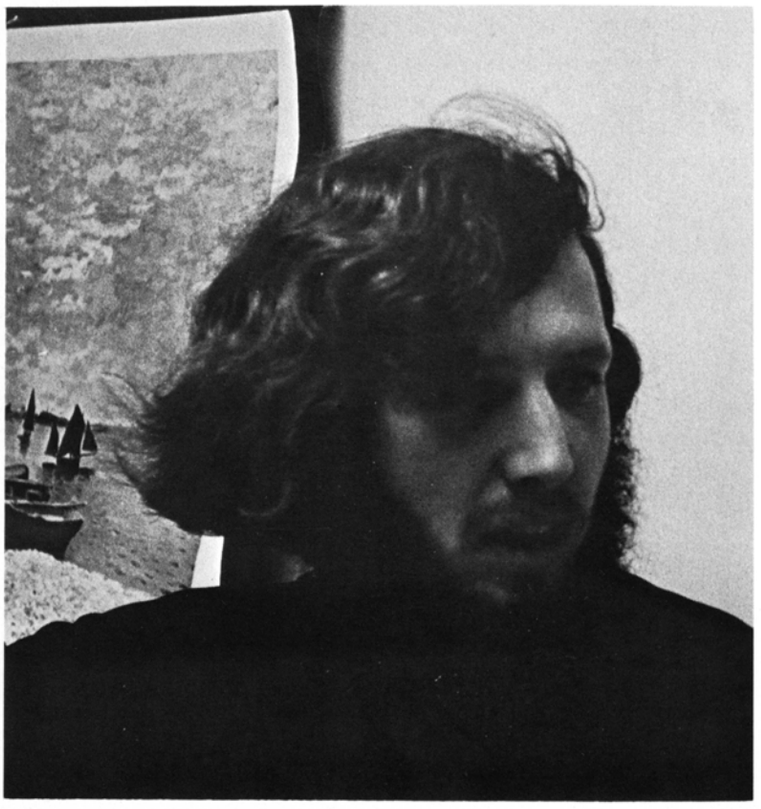
"I believe that the next decade will bring great changes in our educational system. The traditional, strictly controlled and regimented method of educating students will be replaced by a more individualized approach which recognizes the differing needs of each student. The time spent at the University will no longer be considered a constant with the acquired competence as the variable because this does not produce the most favorable learning environment. I believe that competence should be kept relatively constant while time varies as required by the individual student.

I am very happy to be a teacher at UMR, because here programs have already been initiated toward the eventual achievement of this goal. In the meantime, we certainly don't have to be ashamed of our achievements of the past. This graduating class will join a very distinguished group of alumni, and I am sure that they too will be a credit to their chosen profession and to their Alma Mater."



C. James Grimm

"Going into my 25th year on the MSM-UMR faculty, I look back on many students who have been in my classes, with a lot of pride in what they have accomplished, both therein and thereafter. There have been very few regrets - my students have been required to work hard to get those hundreds of problems per semester I used to assign, grade and return, and they came through! I've always tried to establish some personal contact with each individual student, and believe strongly in this. If there is one thing I would recommend above all others, it is this -- teacher, know each student personally, and student, know your teacher. It takes a little extra time and effort, but the results are highly rewarding."



James J. Bogan

"First of all, suspend all casual relationships and bring to rest the many affairs of men. . ."
Bojang Whyhigh in his Big Discourse.
"Divine am I inside and out, and I make holy whatever I touch or am touched from,
The scent of these arm-pits aroma finer than prayer,
This head more than churches, bibles, and all the creeds."
Walt Whitman in Leaves of Grass.
" 'By God,' quod he, 'for pleynly at a word,
Thy drasty rymyng is not worth a toord!
Thou doost noght elles but despendest tyme.' "
The Host to Chaucer in the Canterbury Tales.
Sal: "Maybe we ought to go back, though?"
Dean: "No, never-never! Let's go on. I can barely see the road. We'll make it."
Jack Kerouac to Neal Cassady in On the Road.
"And if anyone is threatened by advertising, air pollution or the police, they should chant SMOKEY THE BEAR'S WAR SPELL:
DROWN THEIR BUTTS
CRUSH THEIR BUTTS
DROWN THEIR BUTTS
CRUSH THEIR BUTTS
And surely SMOKEY THE BEAR will appear with his vajra shovel to put the enemy out."
Gary Snyder's Smokey the Bear Sutra.
"See here how everything lead up to this day
And it's just like any other day that's ever been!"
"Black Peter" by the Grateful Dead.
"There is a Moment in each Day that Satan cannot find,
Nor can his Watch Fiends find it; but the Industrious find
This Moment and it multiply, and when it once is found
It renovates every Moment of the Day, if rightly placed."
William Blake in Milton. A Poem.
"Hurry is of the devil."
An Old Irish Proverb.

Dr. Harvey H. Grice

"My ambition as a member of the engineering faculty at UMR is to convey to our students the enthusiasm I have for the profession of chemical engineering and the respect I have for those who practice it well. Another is to induce in our students a desire to acquire that which my experience in professional practice has given me the ability to impart. Perhaps more important than these, however, is my desire to inspire a student to wish to teach himself, that is, to learn. My several years of experience in the food industry have taught me that quality of production and excellence in performance are the basic requirements of our profession. The welfare of mankind, for which we are so responsible, can tolerate nothing less, for anything less than our best is mediocrity. Teaching at UMR has been more challenging and more strenuous and more enjoyable than anything else I've ever done."

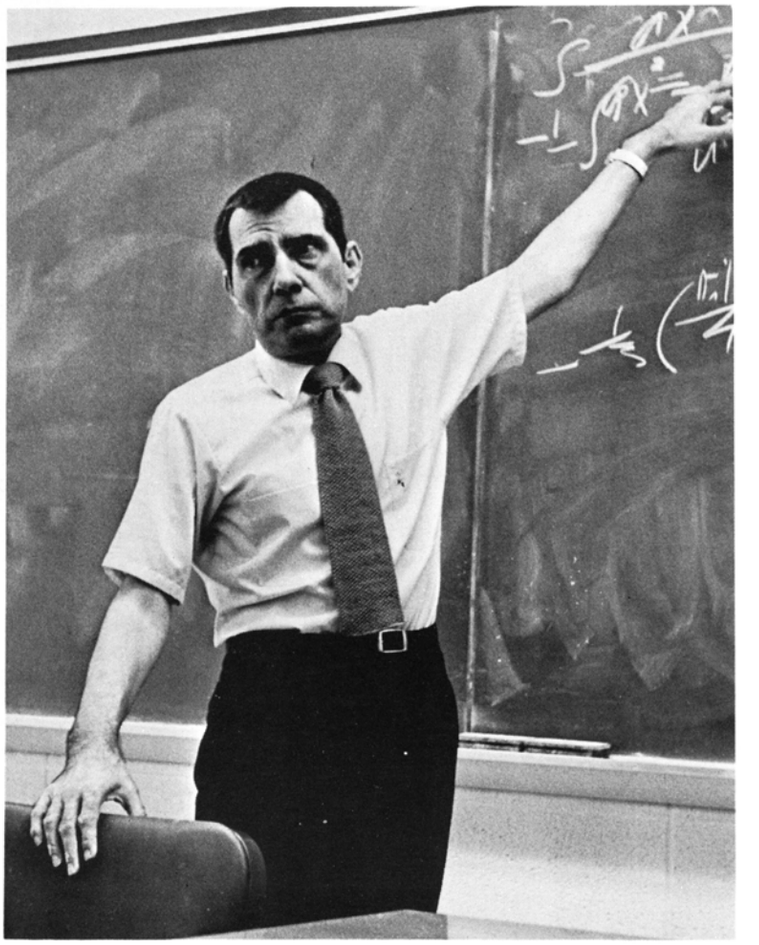
Dr. T. S. Chen

"Effective teaching and learning result from teamwork between a teacher and his students. In this joint undertaking, the students must possess the ability and the desire to learn. The teacher must play the key roles in motivating his students to learn and in helping them develop the wisdom in the creative use of knowledge. To achieve this end, the teacher, in my opinion, must possess an up-to-date and thorough knowledge of and enthusiasm for the subject he teaches, the desire to teach, a deep interest in his students, the ability to impart his particular area of knowledge to his students, and the quality of inspirational leadership. A student who is lowly endowed but highly motivated can often achieve at a level far exceeding his ability. On the other hand, a highly endowed but lowly motivated student will be a mediocre achiever. All of us in the teaching profession should keep in mind the maxim that we reap what we have sown. The true measure of a good teacher is the success of his students and their respect for him."

"A teacher affects eternity...

J. P. Govier

"The word 'teaching' suggests, as it should, many different things to many people. To me, teaching connotes a way of life which is professional in every sense of the word, but which at the same time is highly involved with innovation, improvement, exploration, vision - even cynicism. Such precepts demand a fluid and an elastic viewpoint on the part of the teacher; both teacher and student must be able to learn from each other. In this exercise of give-and-take, UMR students are not lacking in adaptability, and the pleasure of growing with the students in one of the pleasures of teaching."

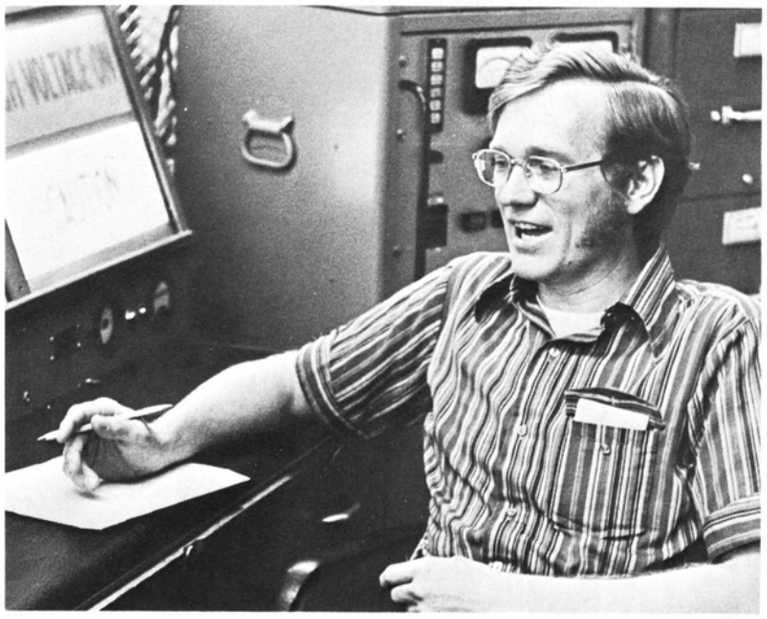


George Luffel

"Teaching, as I see it, is a learning process. It is learning about your students, their present needs, their future needs. It is learning how best to present your subject, how to help your students learn, how to help your students discover new knowledge. It is learning about new material in your chosen field. It is learning each day what is going on in the world.

Learning, on the other hand, is a teaching process. It teaches one to establish priorities. It teaches self-discipline. And when life's tests present themselves, it teaches the value of learning.

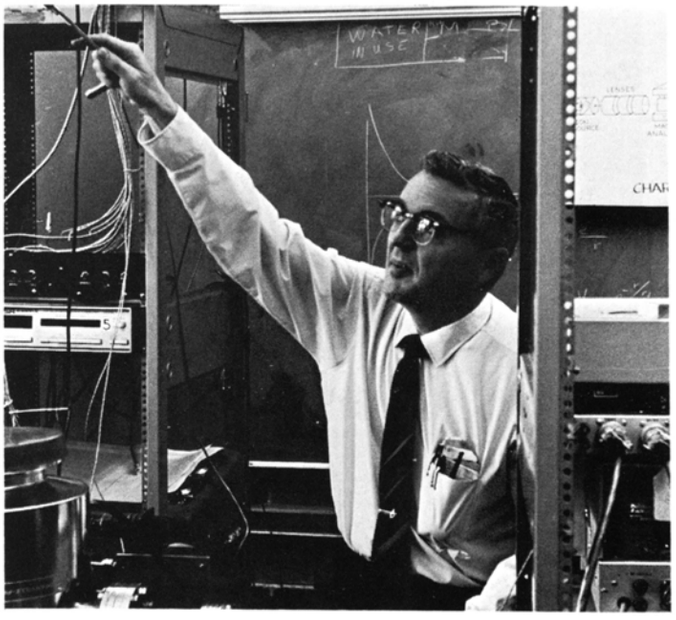
From this it would seem that teaching and learning are inseparable. I believe they are. I also believe teaching and learning are lifelong processes, and life sustaining processes for everyone. As one unknown wag put it, mathematicians never die, they just differentiate away if they do not integrate new knowledge. An you can count on that as being sum way to go."



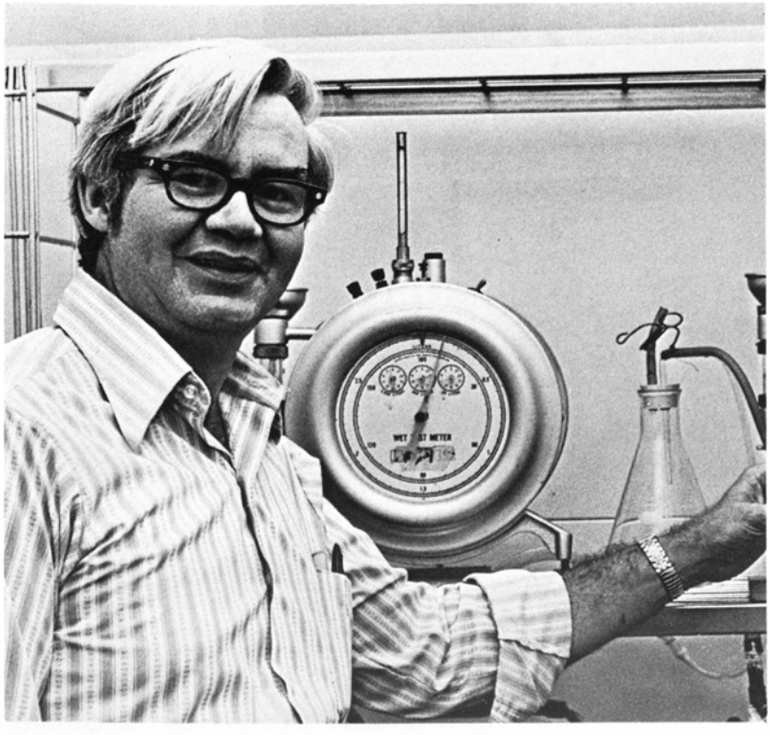
Dr. John T. Park

John Park and William Snow introduced a new, different, and perhaps better method of learning this year. Dr. Park and Dr. Snow are members of the Physics Department and have adopted their teaching plan from theories of two contemporary behavorial psychologists. Under this system, the student achieves pre-set goals at a learning rate which is comfortable to him and, theoretically, learns the material much better than under traditional teaching methods. Although the new techniques are still too new to have yielded any definite positive results here at UMR, it is encouraging to know that our faculty is truly interested in providing the best possible education for their students.

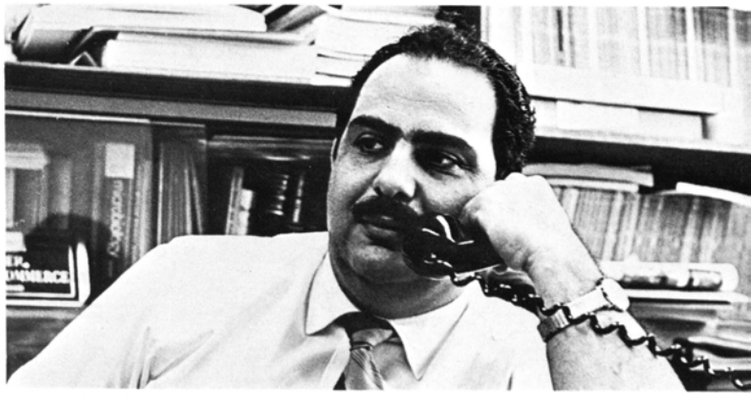
...he can never tell where his influence stops" H. B. Adams



Dr. Wm. Snow



Dr. D. E. Modesitt

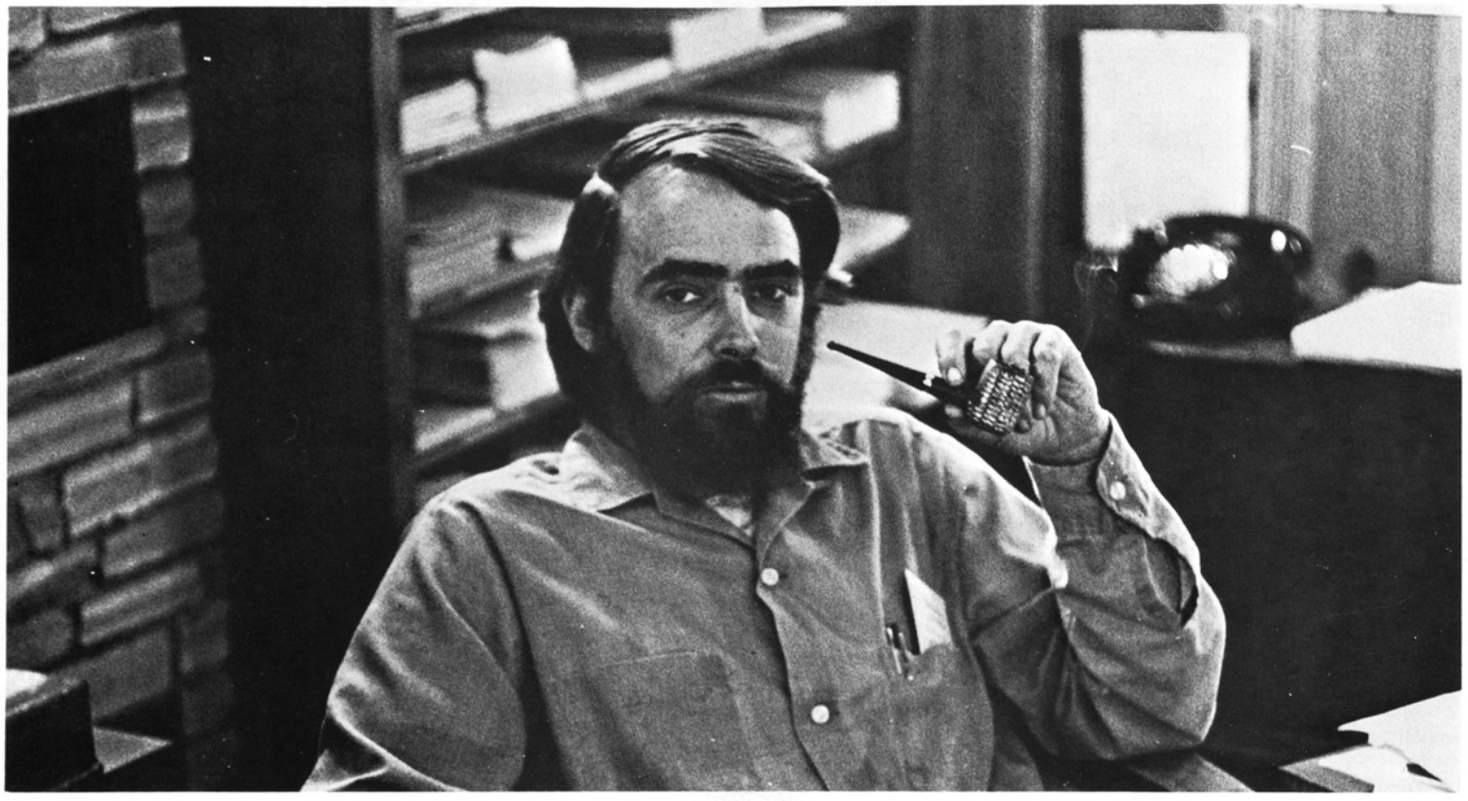


Dr. S. G. Grigoropoulos

In order to meet the demands of an increasing national concern about the environment, the Civil Engineering Department began a new course this year emphasizing the causes and effects of pollution. The course has been named "The Environmental Crisis: Pollution and Solutions", and is a three-hour lecture class designed for non-civil engineering majors.

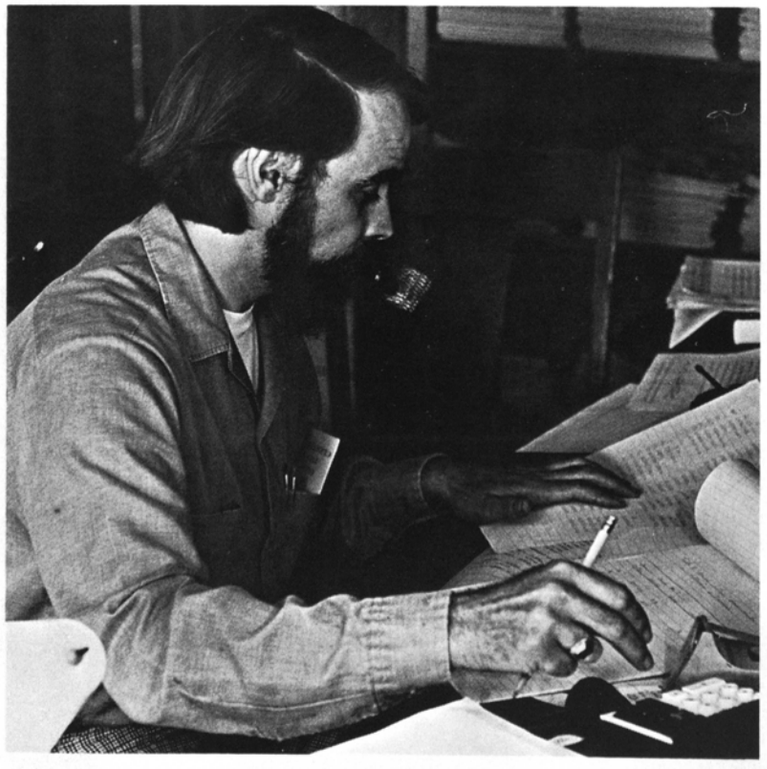
Every type of pollution is emphasized in the course and the concept of team teaching is utilized. Pictured are Drs. S. G. Grigoropoulos and D. E. Modesitt who along with Drs. R. H. Clark, B.H. Green, J. C. Huang, J. C. Jennet, K. Purushothaman, L. K. Sieck, J. K. Roberts and B. G. Wixson comprise the team of instructors.

Faculty Members Research the Moon,

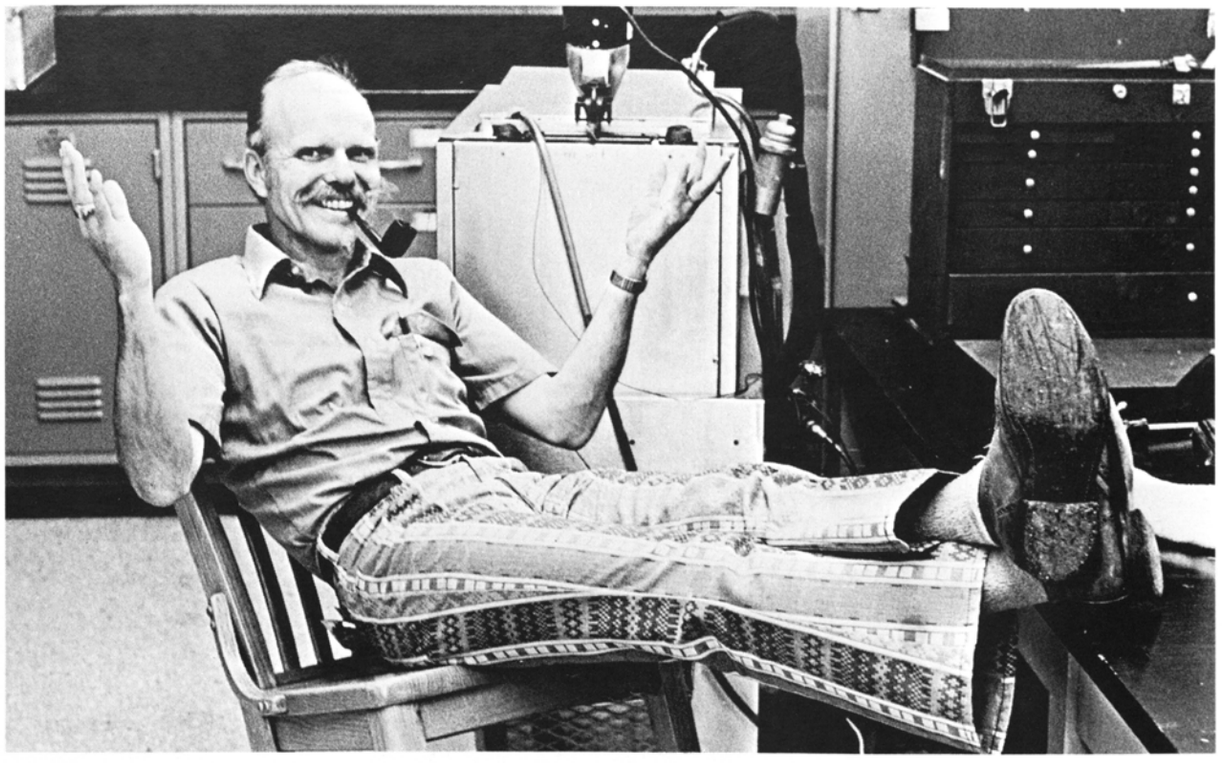


University of Missouri-Rolla research on noble gases in earth and meteorite specimens has revealed much about the history of the solar system. This year, UMR researchers in noble gases will look at moon samples from recent Apollo missions for more clues about the universe.

Dr. O. K. Manuel, associate professor of chemistry at UMR was notified in the summer of 1971 by the National Aeronautics and Space Administration of his selection as a principal investigator for lunar sample analysis at UMR. Following his selection, NASA granted $17,000 to UMR for research on noble gases in the moon and has since sent moon rocks to the campus for the investigation.



Dr. O. K. Manuel, Associate Professor of Chemistry

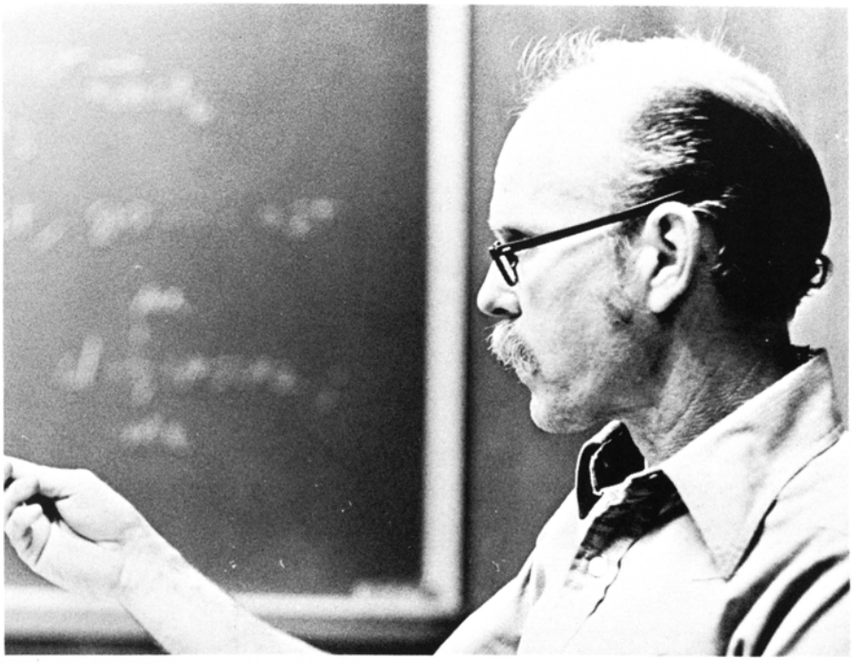


Dr. Kenneth G. Mayhan, Associate Professor of Chemical Engineering

This year, Investigators in the Graduate Center for Materials Research of the Space Sciences Research Center, and faculty members from the departments of chemical engineering and chemistry have continued conducting research concentrated on producing materials compatible for implant in the human body. Research efforts, which have included extensive work on developing artificial heart valves, are led by Dr. Kenneth Mayhan, principal investigator.

"Our interest in such research is logical," explains Dr. Mayhan. "At the Materials Research Center we are concerned with developing and improving materials - all kinds of materials - for use in all kinds of environments. Our biomedical investigations are simply for materials that must stand up in another environment."

So far the intercampus-interdisciplinary team effort of the medical men and the engineers and physical scientists is working well, Mayhan believes. "But it will take a long time," he predicts, "before what we do here is actually used in a human being."



...the Heart,

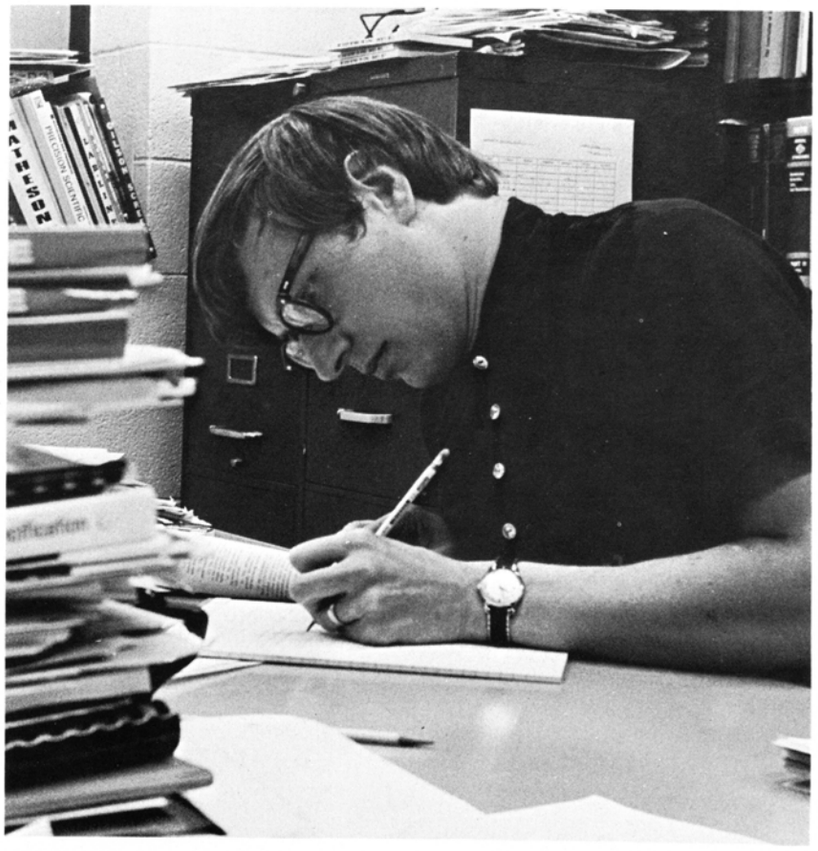
The majority of coal mine casualties, many laymen believe, are caused by explosions. But Dr. Nolan Aughenbaugh, Chairman of the University of Missouri-Rolla department of mining, petroleum and geological engineering, states that most underground coal mine accidents or fatalities are caused by failure of roofs in the mine tunnel.

To help avert accidents in underground coal mines caused by the caving in of the roofs, the Rolla campus is doing research under a new $121,014 grant from the U.S. Bureau of Mines.

According to Dr. Aughenbaugh, UMR is involved in many research projects which may lead to greater safety in mines. These are going on both in the department of mining, petroleum and geological engineering and in the Rock Mechanics and Explosives Research Center.

...Mines,

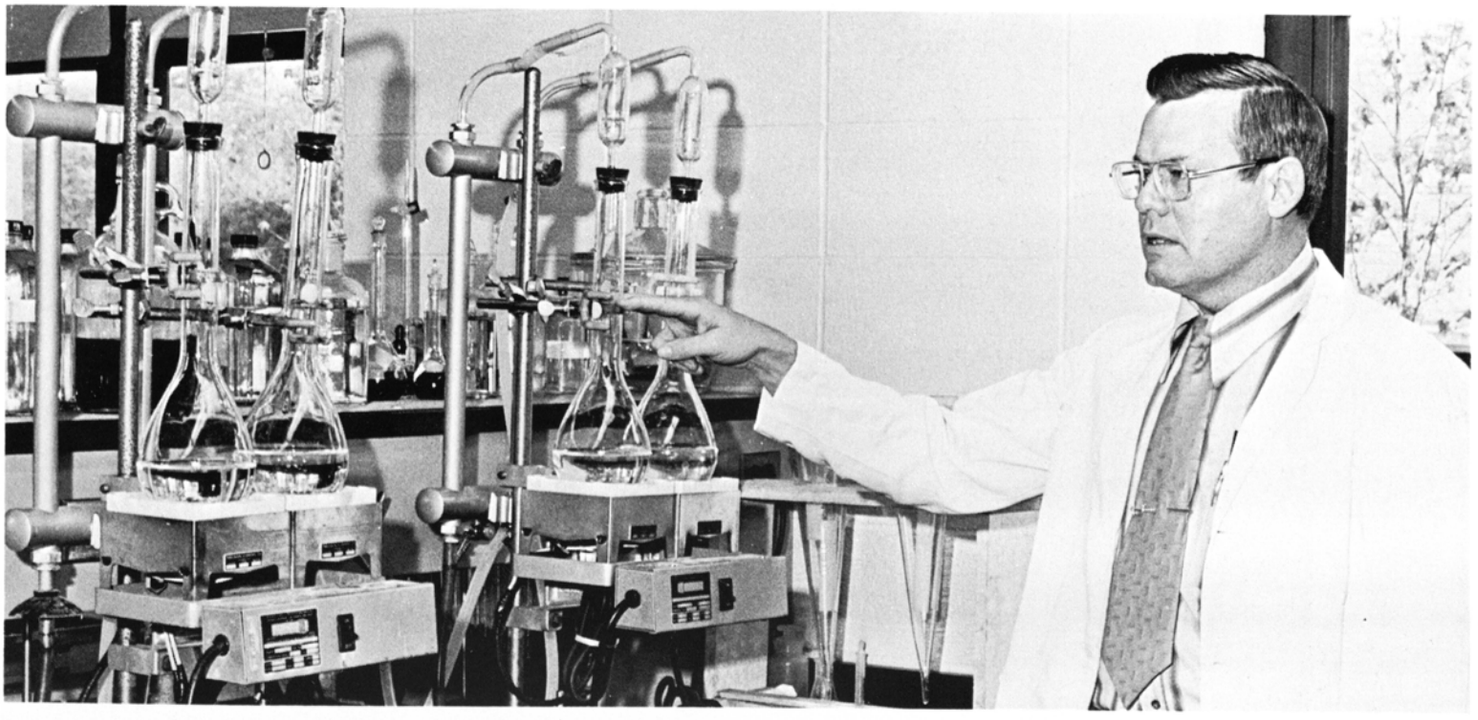
Dr. Nolan B. Aughenbaugh, Professor of Geological Engineering



Dr. Ward Malisch, Associate Professor of Civil Engineering

...Glasphalt

In July, 1970, Drs. W. Malisch and B. G. Wixson, along with Delbert Day, published an article "Streets of Glass" in the American City magazine. Drs. Malisch and Wixson are in charge of the glasphalt research project here at UMR and since the printing or their article, glasphalt has achieved world-wide notice. It is particularly appealing because of its skid-resistant qualities and utilization of solid wastes. Executives from Nippon Parkeizing in Japan conferred with Drs. Wixson and Malisch this year about the possibilities of using glasphalt on a large scale in Japan. If it is judged feasible for use there, other technical experts from Japan will come to UMR for further study.



Dr. Bobby Wixson, Associate Professor of Environmental Health

"Education is a social process. . .
Education is growth. . .
Education is not preparation for
life; education is life
itself."

John Dewey

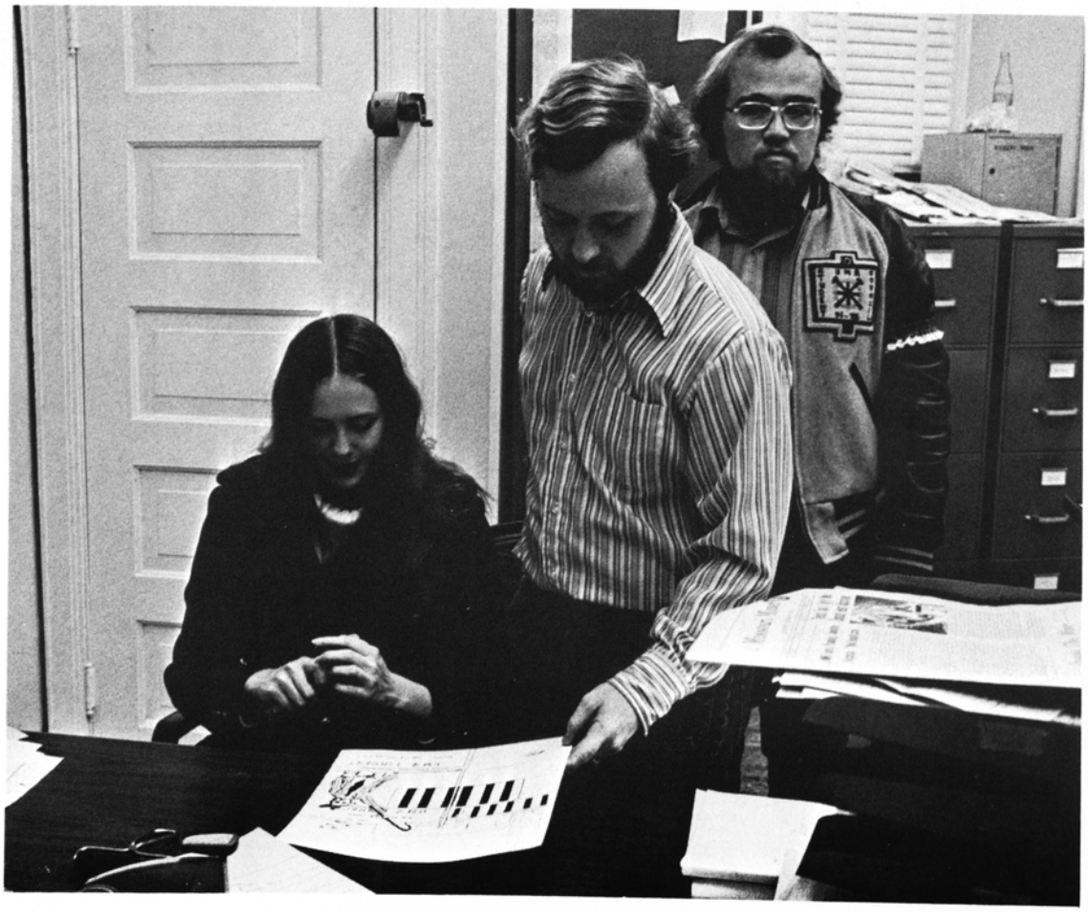
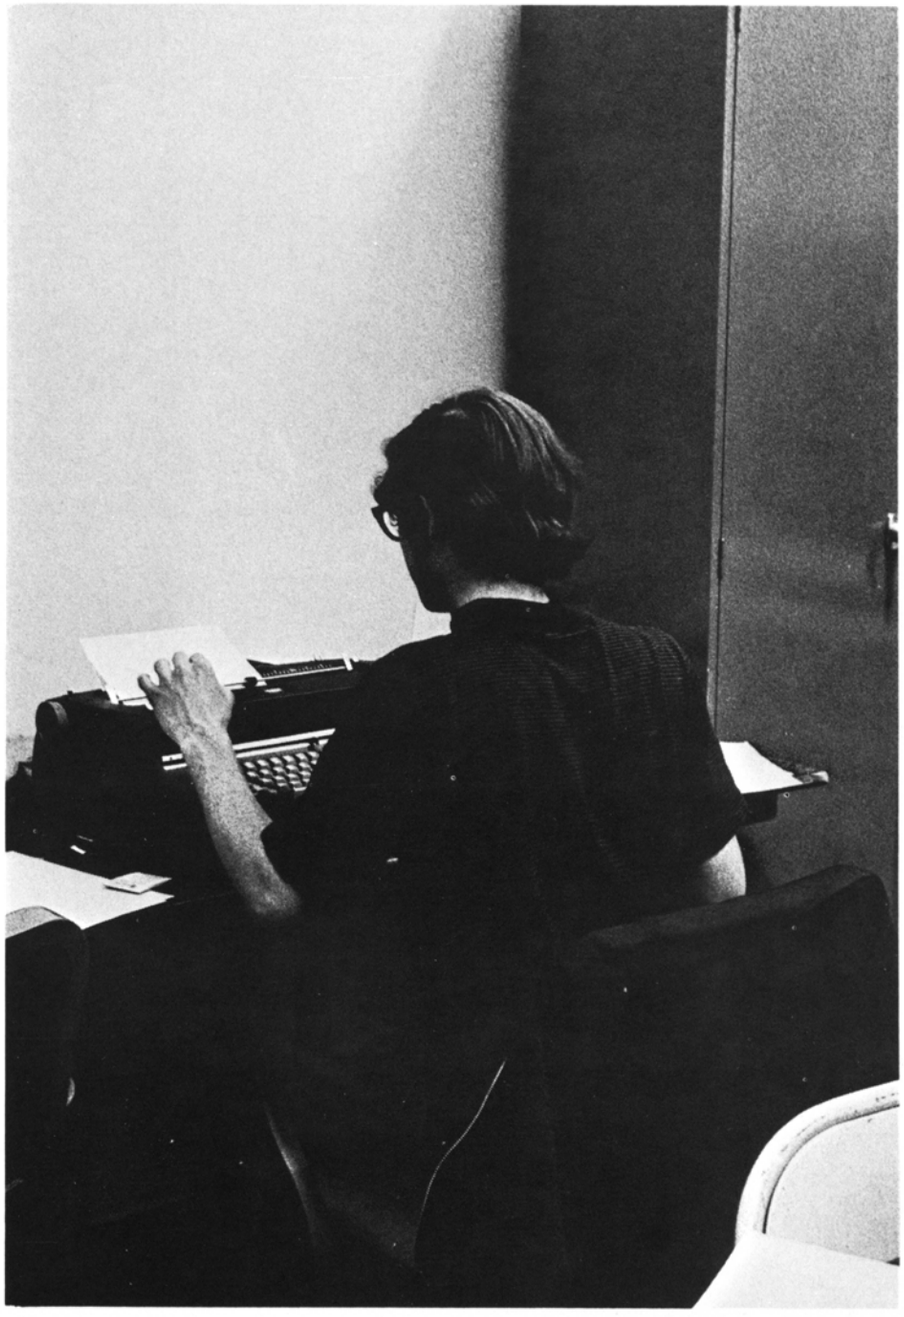
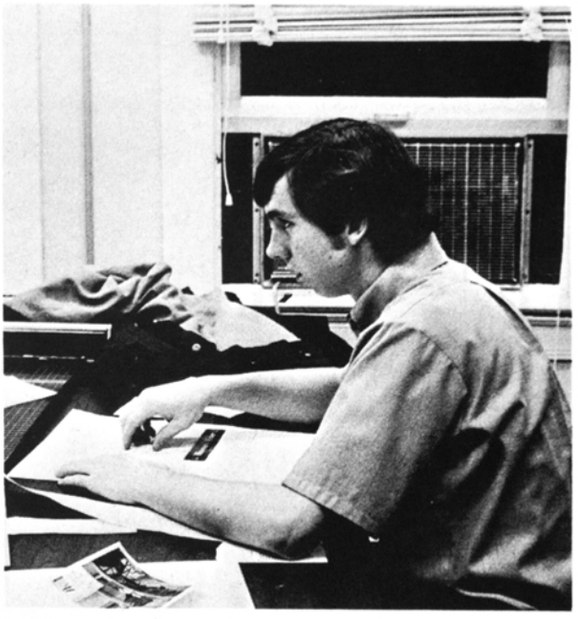
Miner Staff Experiences Award-Winning Year



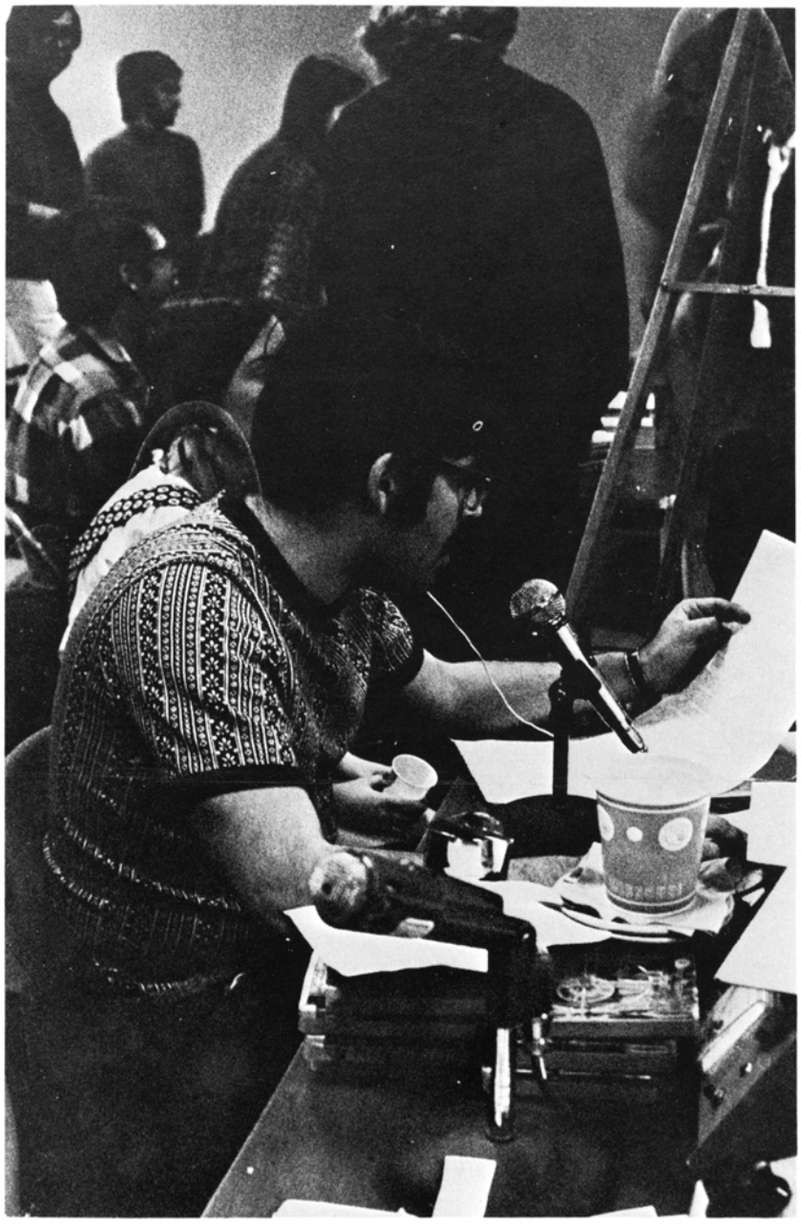




The 1971-72 school year was another successful one for the Missouri Miner. The climax of the year's efforts occurred at the UMC Journalism Week Awards Banquet at which several Miner staff members were recognized. Kent Yoest won a first place award for his "And Another Thing" column and also took first place honors in the news story category. Dave Hardin won a first place award in the photography division. Rick Remley received top honors in the sports story division with a story previewing the Miner basketball season. In addition, Terry Hill won a first place award for the Gryder Motors advertising campaign.

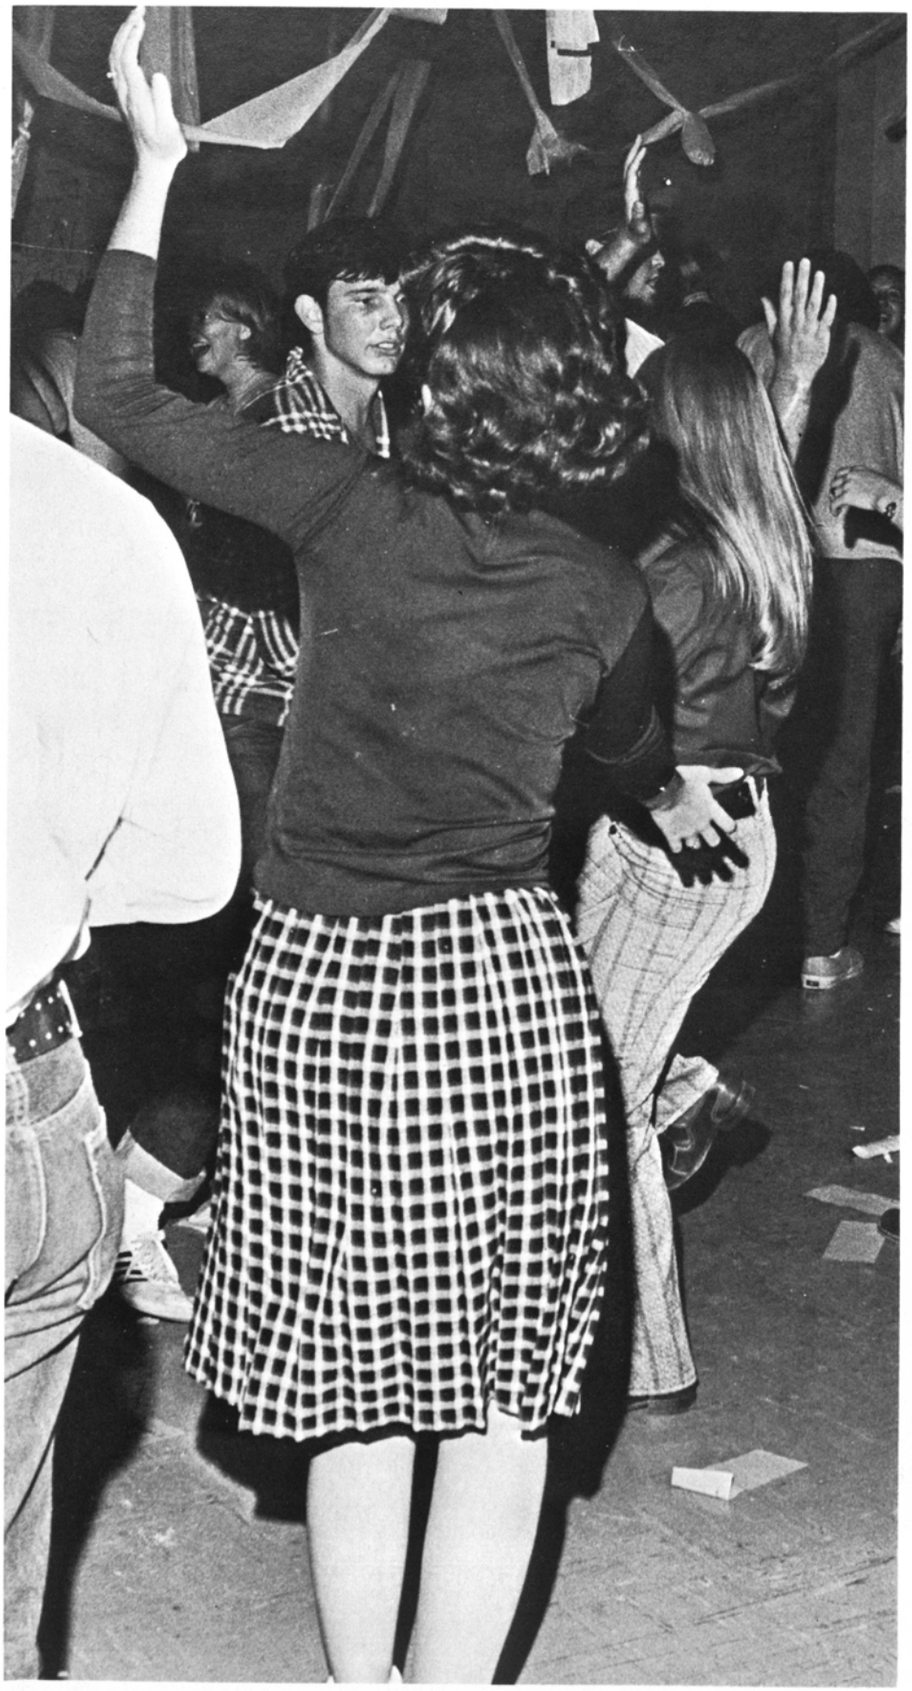
KMSM-FM

Oh, the trials and tribulations of being students!

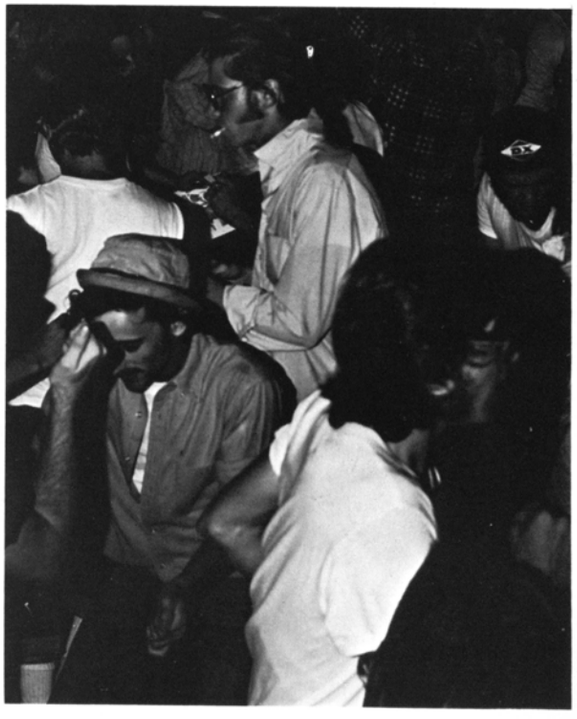


KMSM-FM experienced one of its more challenging but successful years since its conception in the late fifties. The greatest challenge KMSM faced this year was in its struggle to keep from becoming part of the University-wide radio network, KMSM would no longer be student operated, and programming would become more community-oriented and less student-oriented. The greatest success of the year was the KMSM sponsored "Greaseball" (see next page).

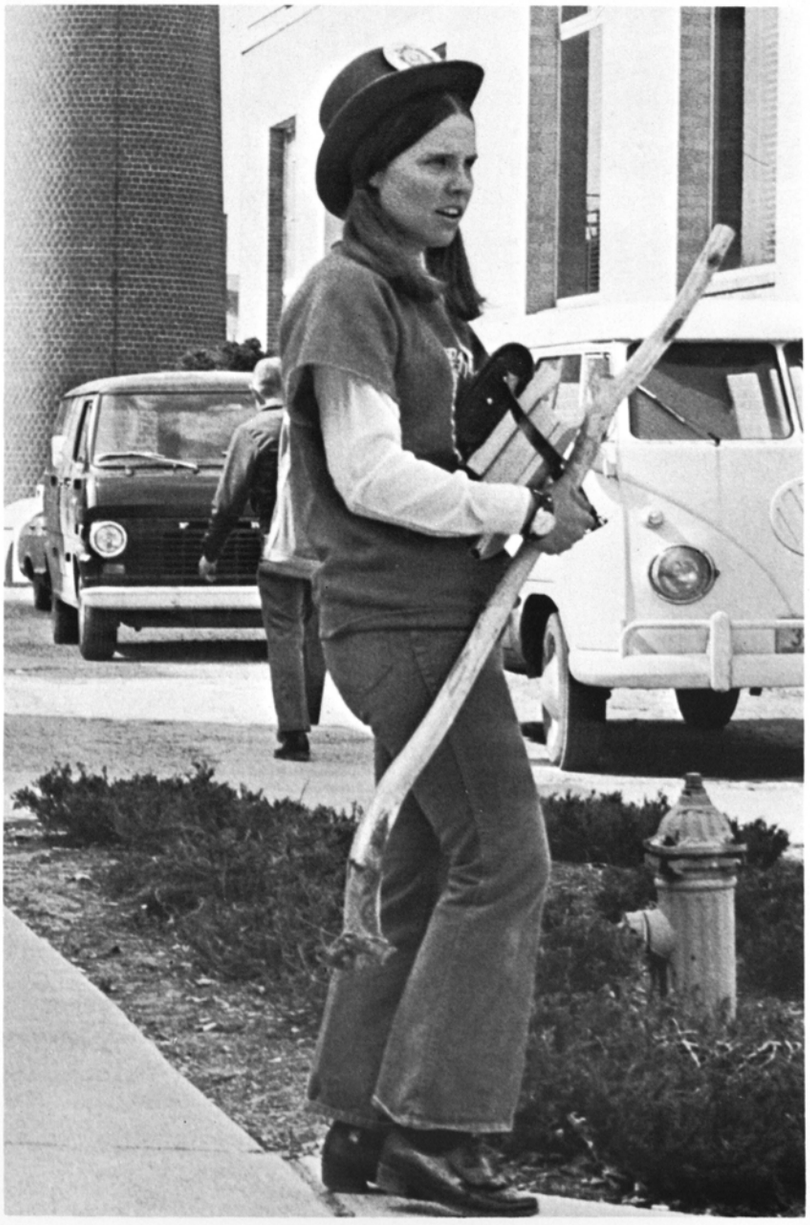
The first annual KMSM Greater Rolla and Vicinity Rock and Roll Revival and Greaseball became a first annual success on Oct. 30. Highlights of the evening included various dance contests, free photographs of KMSM disc jockeys, and the crowning of Miss Peggy Durst as Queen of the Greaseball 1971. (top).



"At the hop..."



1972 St. Pat's Board



The St. Pat's Board's sole function of planning and organizing the annual St. Pat's celebration is a year-round job. Tickets for benefit movies, in addition to St. Pat's hats, buttons, garters, and sweatshirts, are sold each year in order to raise funds for the weekend celebration (above). During the days preceding St. Patrick's weekend, it is the responsibility of the Board to insure that all first year students are armed properly to protect the campus and St. Pat from the scourge of the snake (left). On Friday of St. Pat's weekend, the Board must decide which campus organization's representative will reign as the new Queen of Love and Beauty. (top).

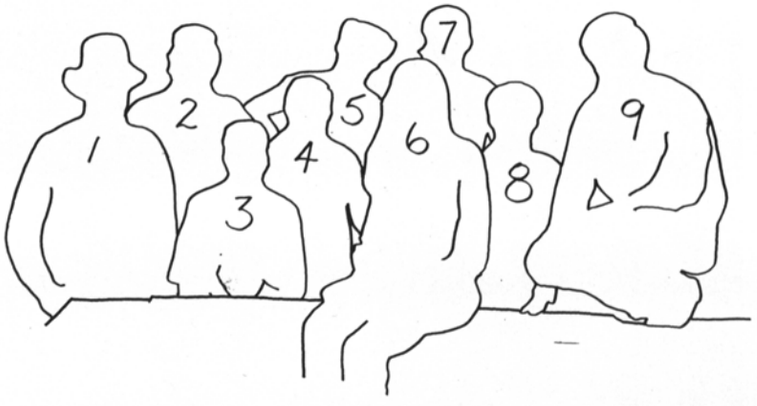
Once again the St. Pat's Board planned and executed a successful St. Pat's Party Weekend. Among their responsibilities during the weekend celebration were honoring several men of accomplishment during the Coronation Ball (right); knighting several other men of lesser accomplishment in a considerably less honorable fashion (opposite page, right); decorating Pine St. (opposite page, top) before Saturday morning's parade (below); and sponsoring a concert featuring John Denver (opposite page, left).

St. Pat's 1972

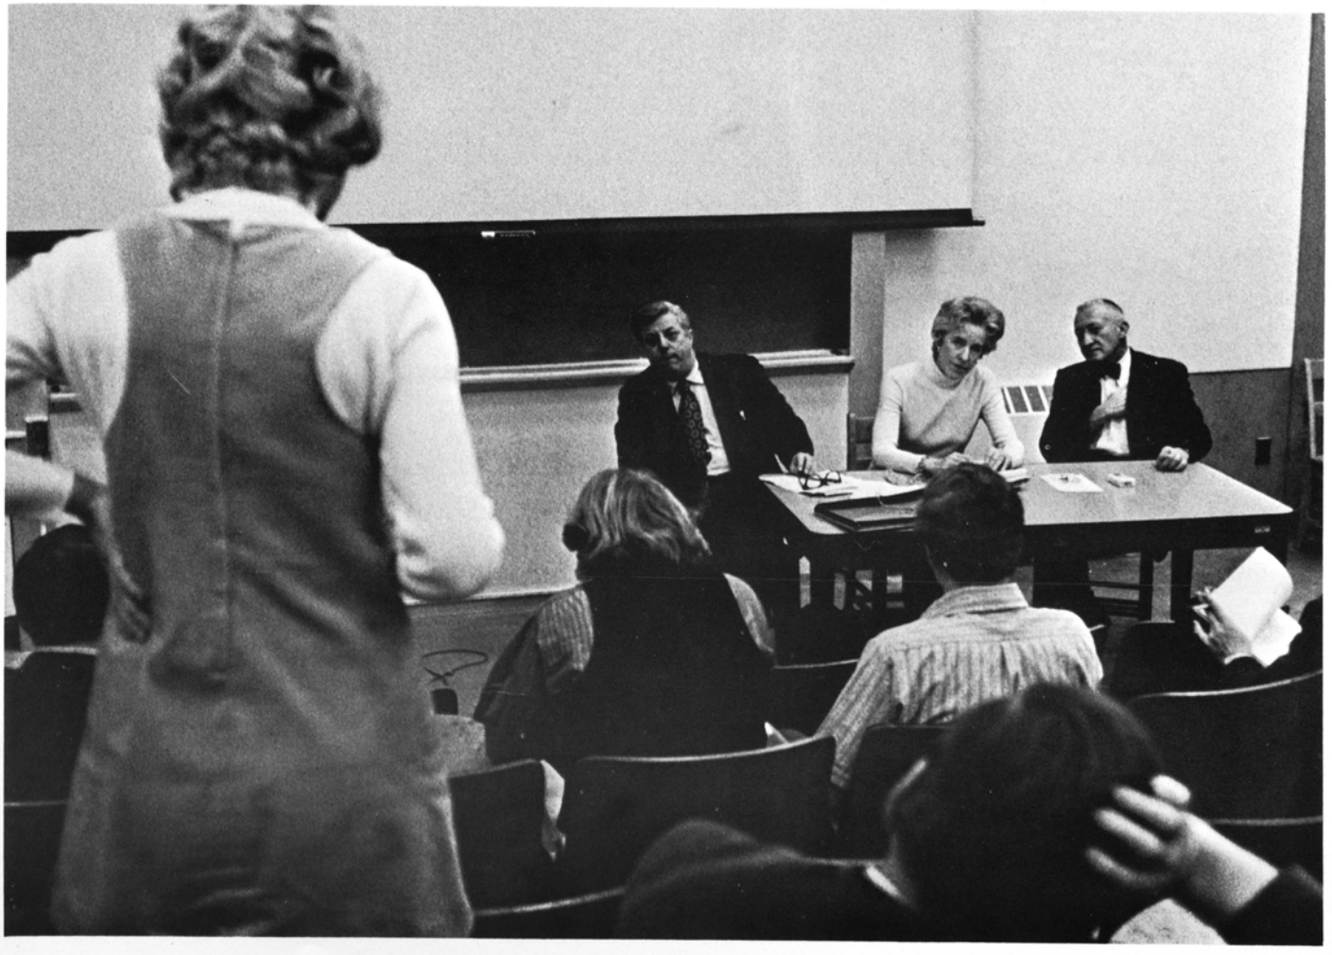
Student Union Board

The Student Union Board, comprised of four officers and six directors and assisted by 150 committee members, is responsible for fulfilling most of the recreational, social, and cultural needs of the UMR Student Body. The following thirteen pages highlight Board-sponsored activities of the 1971-72 school year. In addition to what is portrayed, the Student Union Board also sponsored several free concerts, helped organize All-School Mixer and Christmas Dances, and planned all the activities for Homecoming Party Weekend.

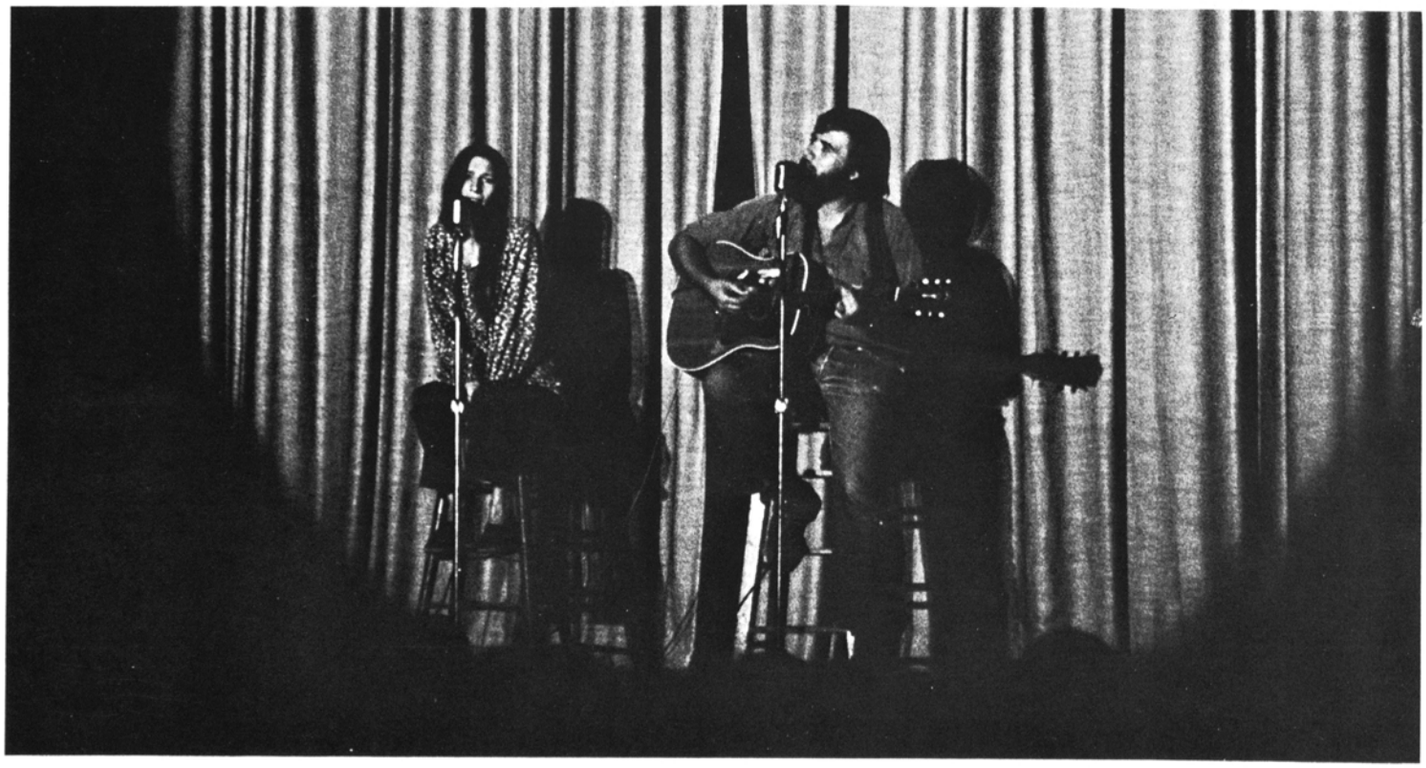
1. Mike Hermesmeyer, President
2. John Lindstrom
3. Mrs. Harvey, Program Director
4. Chuck Davis
5. Larry Brunner
6. Joan Brune
7. Jim Mulligan
8. Dave Barczewski
9. Joe Bender



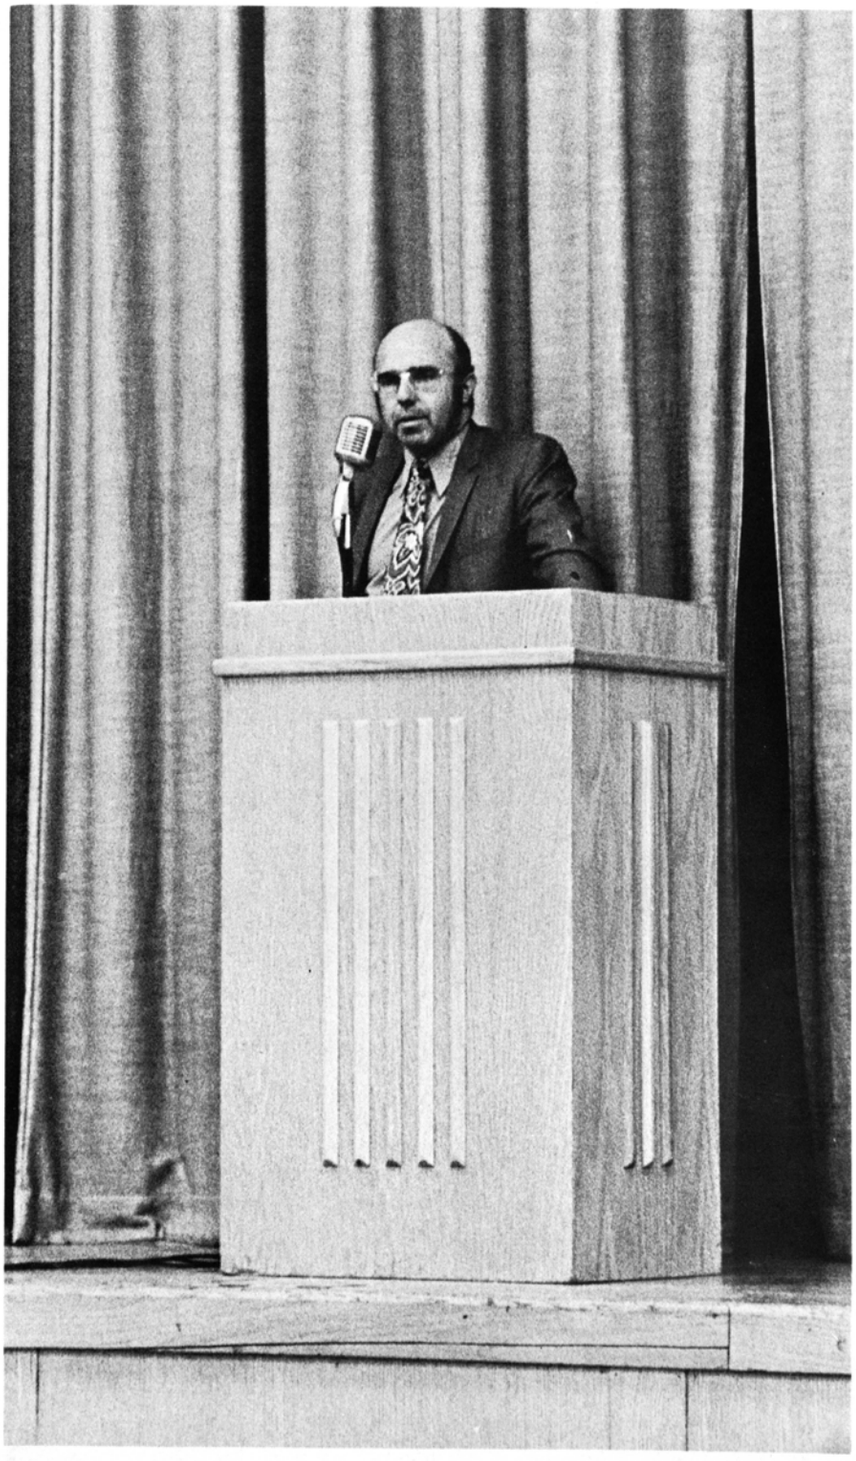
The affairs of the Student Union Board are divided among six major committees.
Tournaments of all kinds (left), in addition to Sunday movies, were planned by the Recreation Committee. The Special Events Committee organized Homecoming activities, two talent shows, and several rap sessions involving students, faculty, and administration. (below).



Dick and Georgia McCormick



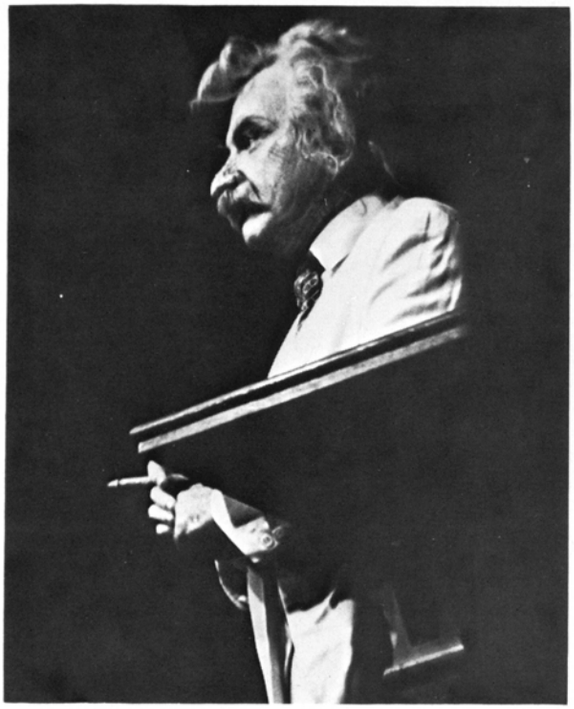
Dick and Georgia McCormick, sponsored by the Fine Arts Committee of the Student Union Board, performed before a capacity crowd of Miners on Sept. 10. Their display of talent was well above even the highest expectations, and all who attended thoroughly enjoyed the show.

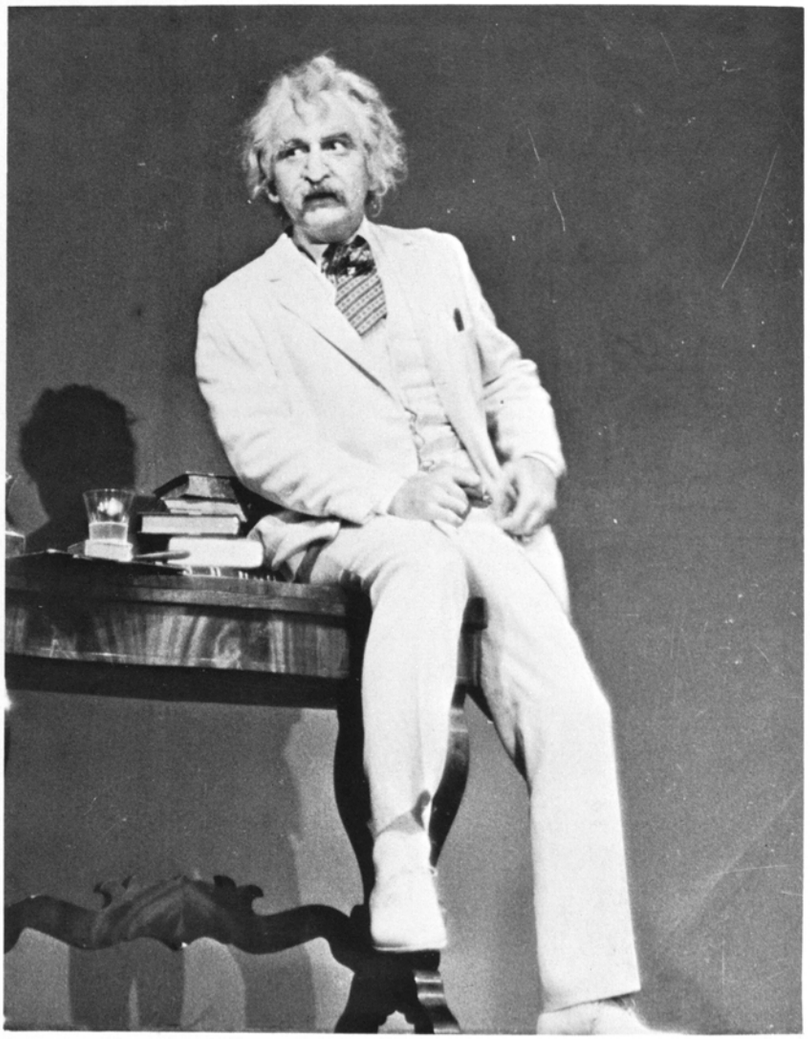


. . .were the words of Dr. Joel Fort on Oct. 5. Dr. Fort is a well known authority on the subject of drug use and abuse, and although he made no commitment concerning his personal views on the use of marijuana, he gave a highly informative talk about the drug and other "mind-altering drugs."

"...we live in a drug saturated society..."

"The rumors of my death have been greatly exaggerated."

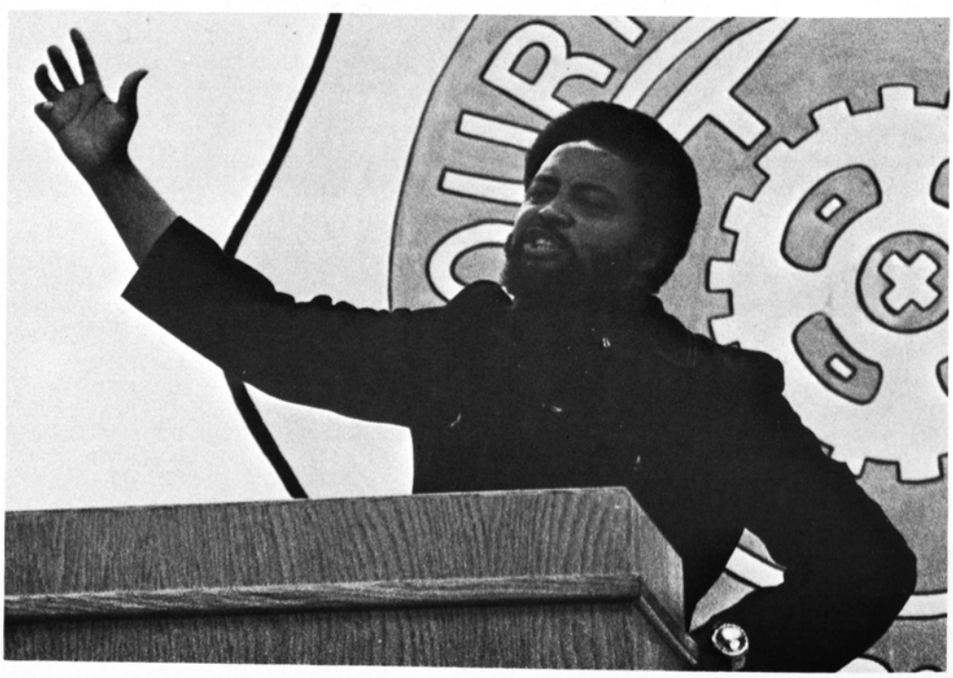




Samuel Clemens as portrayed by John Chappel on Oct. 20.

The Munich Chamber Orchestra under the direction of Hans Stadlmair with violin soloist Lukas David. The performance featured several original and classical arrangements and was thoroughly enjoyed by a tri-state audience. The orchestra was sponsored on Feb. 25 by the Fine Arts Committee of the Student Union Board.

Munich Chamber Orchestra



Hosea L. Williams

Hosea L. Williams, an emotion-charged and thought provoking leader in the Civil Rights movement, spoke at UMR on Nov. 4. His discussion centered around the idea that many of America's problems are derived from struggles between the "classes" and not the "colors." Mr. Williams spoke to a small but attentive and appreciative audience.

Dean Davis Group

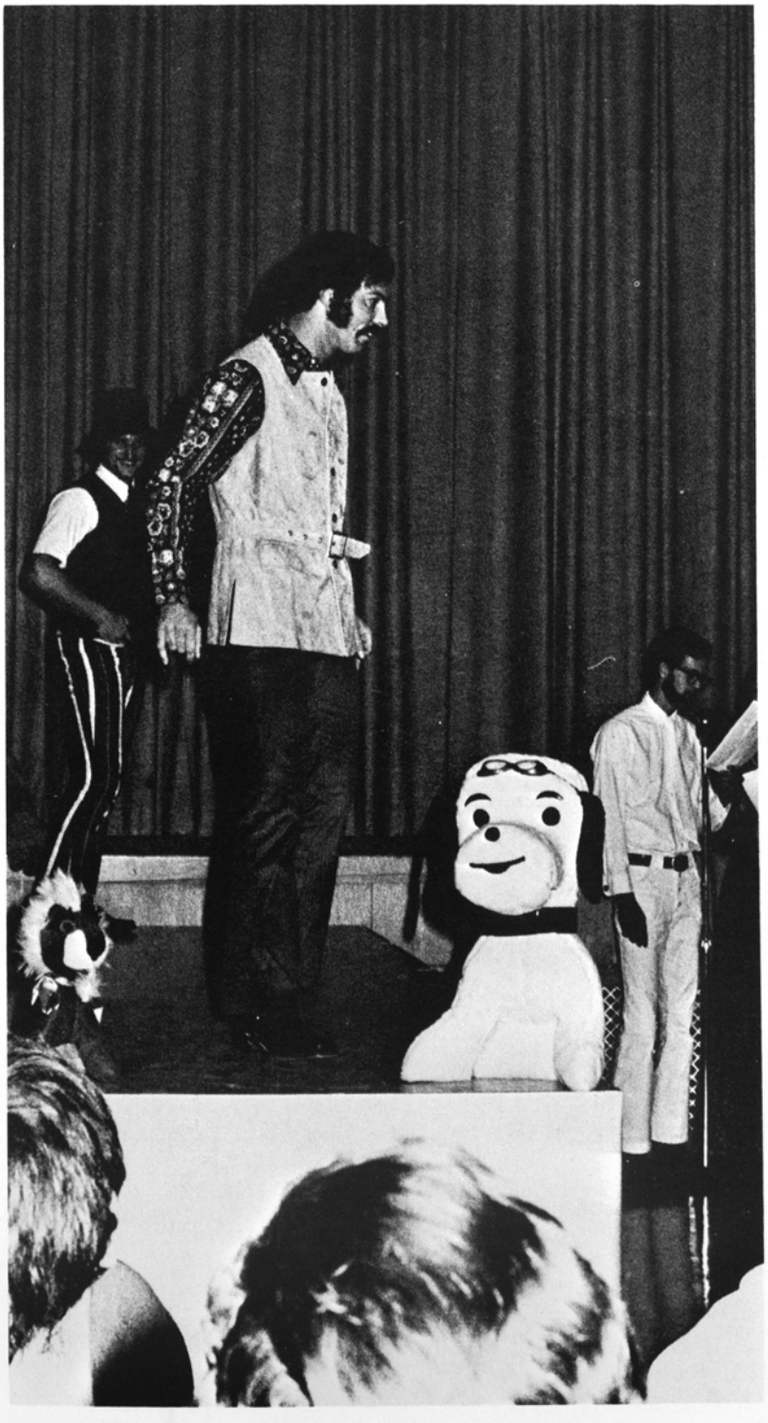
The Dean Davis Group performing in the Student Union Ballroom on March 23.

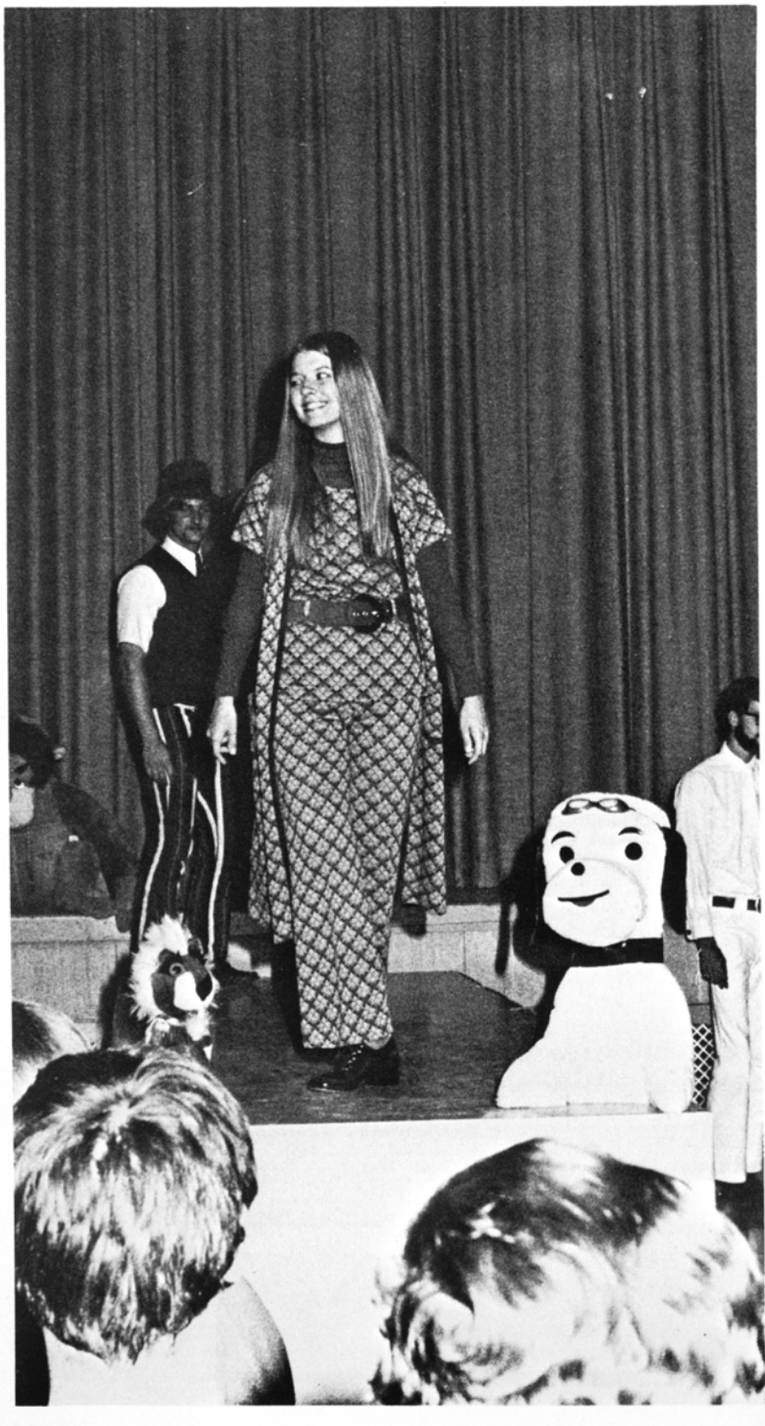
On November 20, the Student Union Board Fine Arts Committee presented the Alpha-Omega Players in "The Diary of Adam and Eve", a short play by Mark Twain. The players presented a humorous representation of the trials and tribulations in the Garden of Eden.

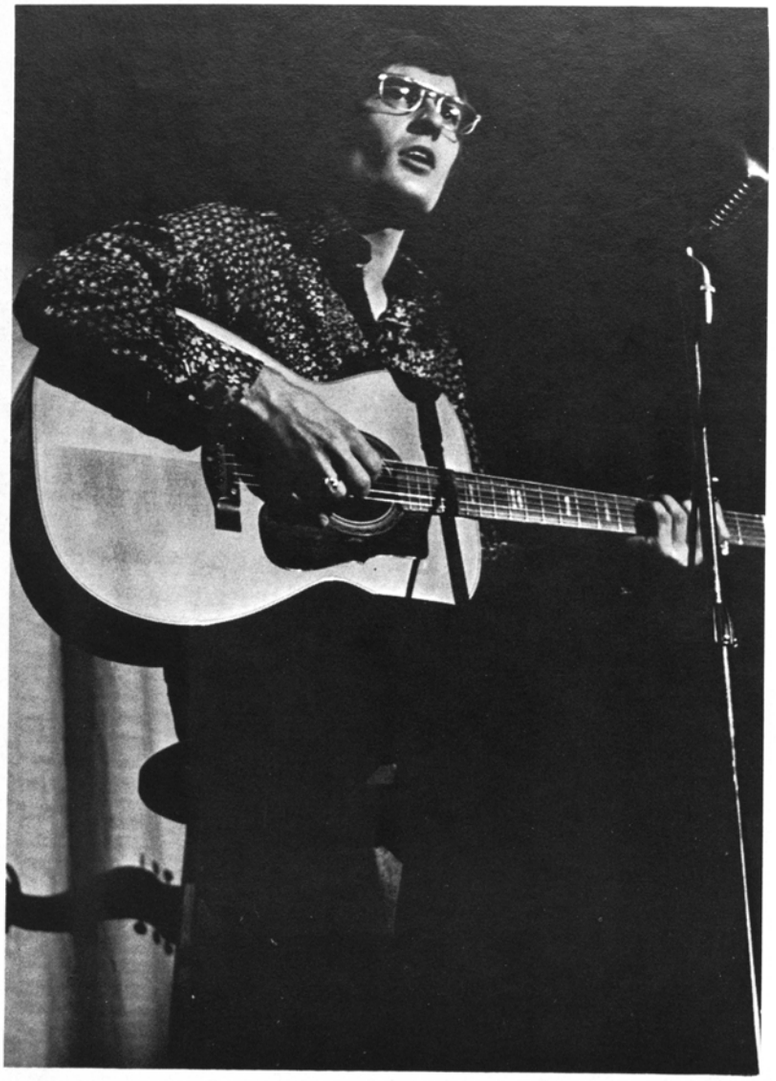
Adam and Eve

Hospitality Committee Fashion Show

Twice this year, once in November and once in April, the Hospitality Committee of the Student Union Board presented fashion and variety shows featuring both men's and women's fashions and short skits.

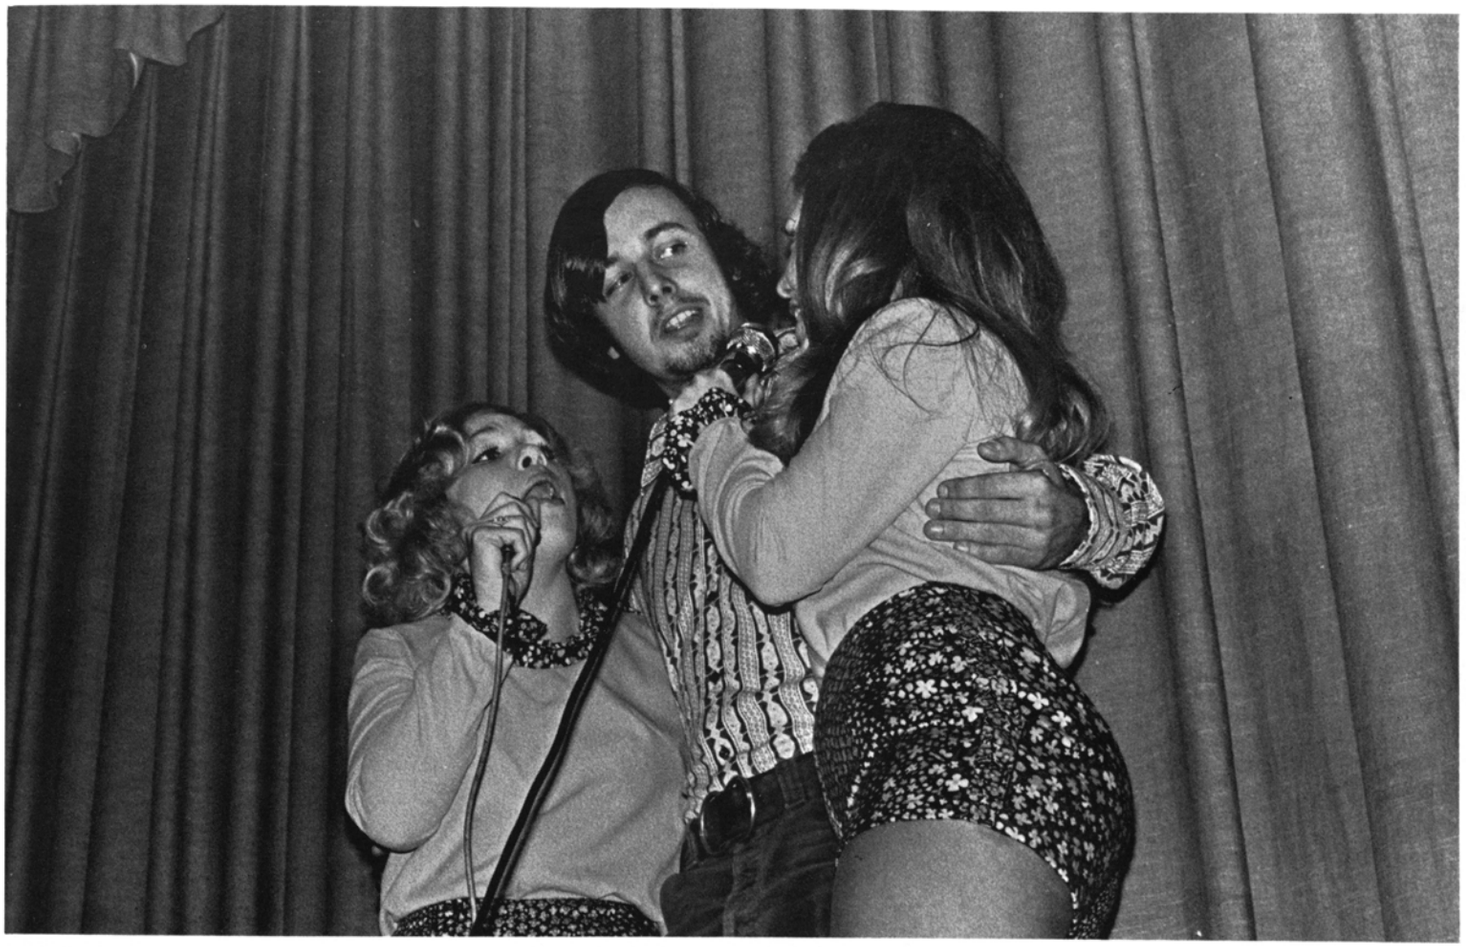




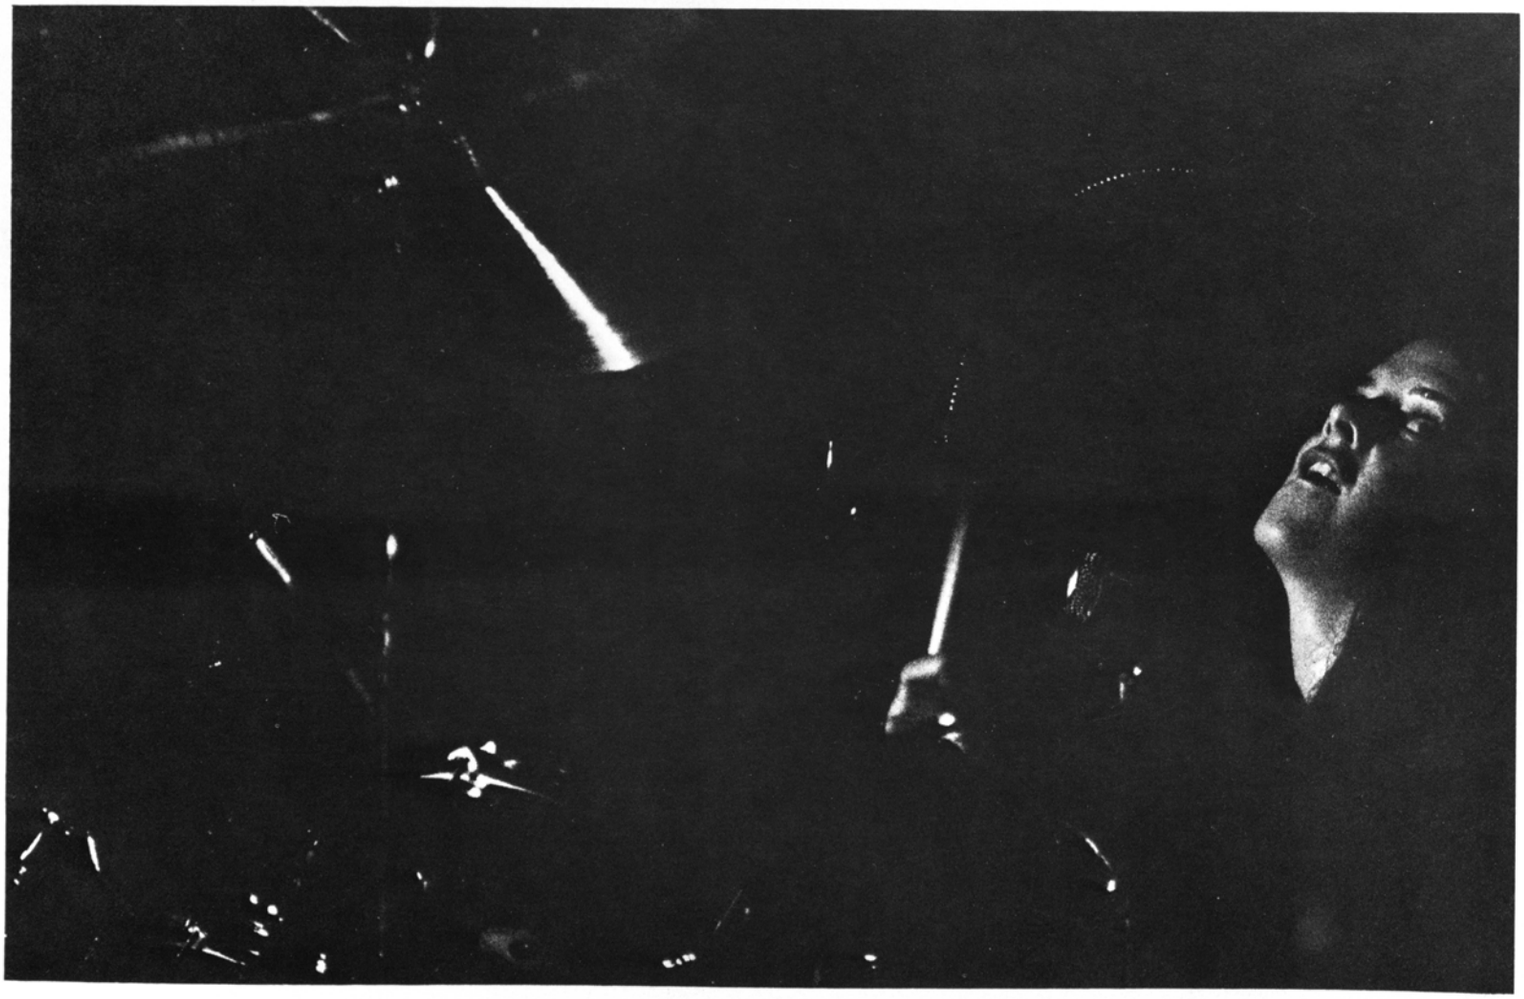


SCHOOL OF MINES

"The One and Only Singers"



"The One and Only Singers," yearly favorites of UMR students, returned for a performance on March 3. Their performance typified the talent which has been responsible for the group's popularity. Their songs were taken from such recording artists as Carole King, Three Dog Night, Fifth Dimension, Carpenters, and Elton John.



"Fanny"

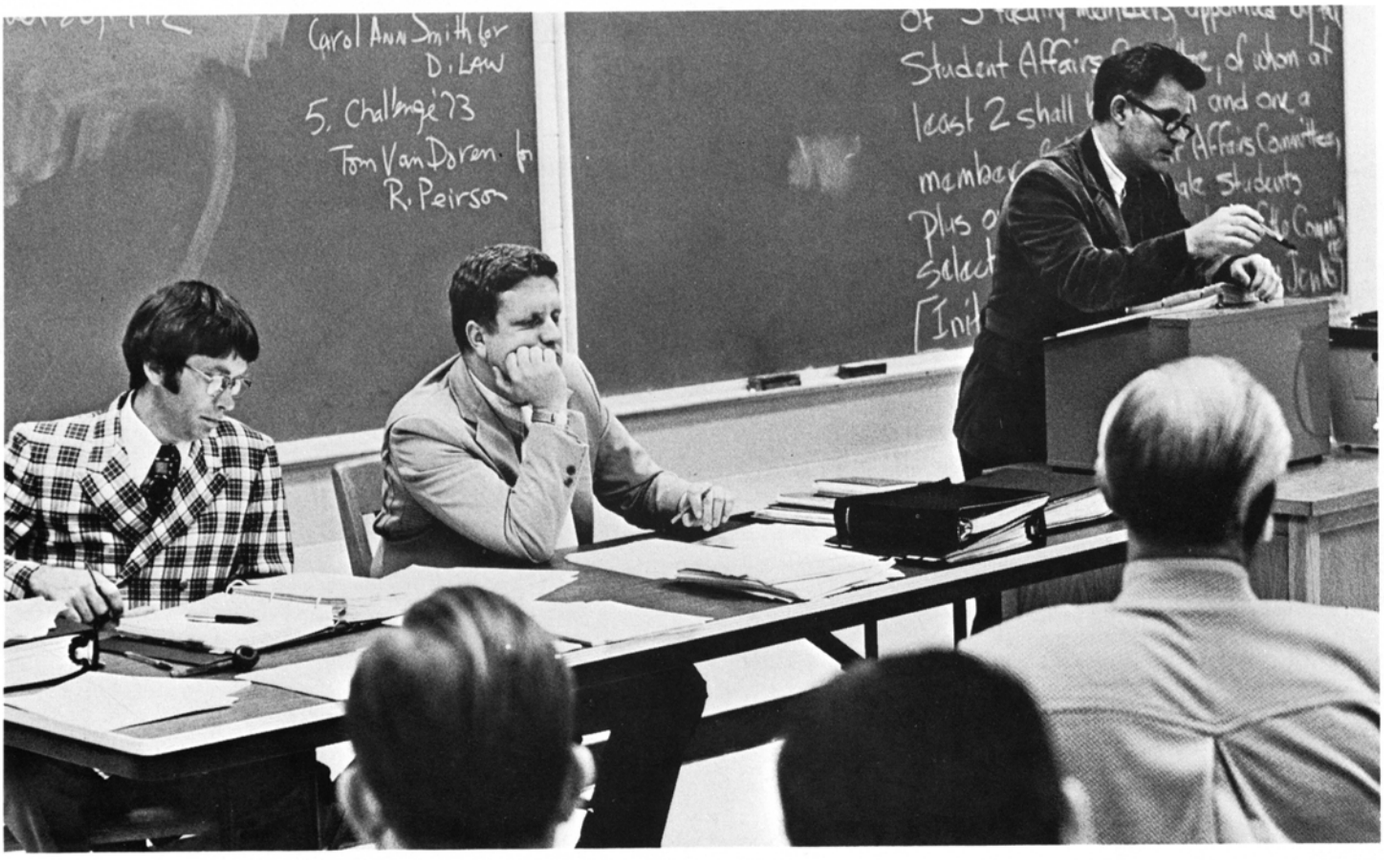
A refreshingly different type of entertainment came to UMR on April 22 in the form of the all-chick rock group "Fanny." Their performance was sponsored by the Social Committee of the Student Union Board; selections were all original arrangements including the hit "Chairty Ball."

Gene Bertoncini Trio

Gene Bertoncini, Joe Corsello, and Linc Milliman performed in concert on Feb. 1. They played an interesting combination of classical and modern music with the accent on jazz.

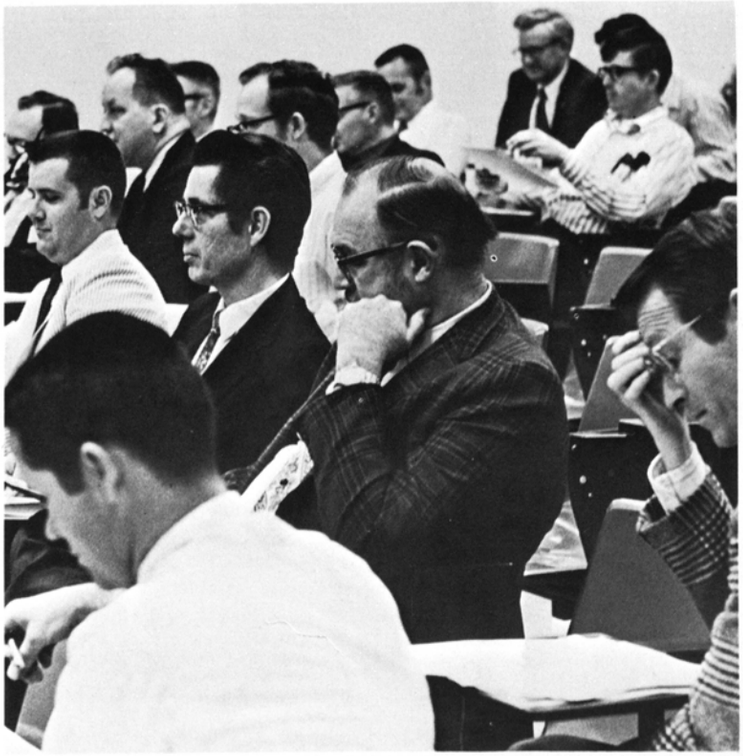
Over the past year, the Student Council took care of all regular business and, in addition, accomplished several major goals. The Organization of Presidents, under the Council's tutelage, has become a useful and productive organization. President Jeff Korklan helped to form the Missouri Student Lobby, an organization to represent the students of Missouri in the state senate. This year's Council referendum contained such topics as KMSM's proposed student activity fee raise, pass-fail lab courses, and the University Book Store. A more efficient faculty evaluation form was compiled and tested by the Council this year. Hopefully this form will be put into full use during the 1972-73 school year. The requirements for unaffiliated students to obtain representation on the Council were lessened, thereby hopefully creating more independent student interest in campus affairs. Towards the end of the academic year, the new "Open House" policy was passed by the Council--the most liberal open house policy on any of the university's campuses and a major step forward for the university as a whole.

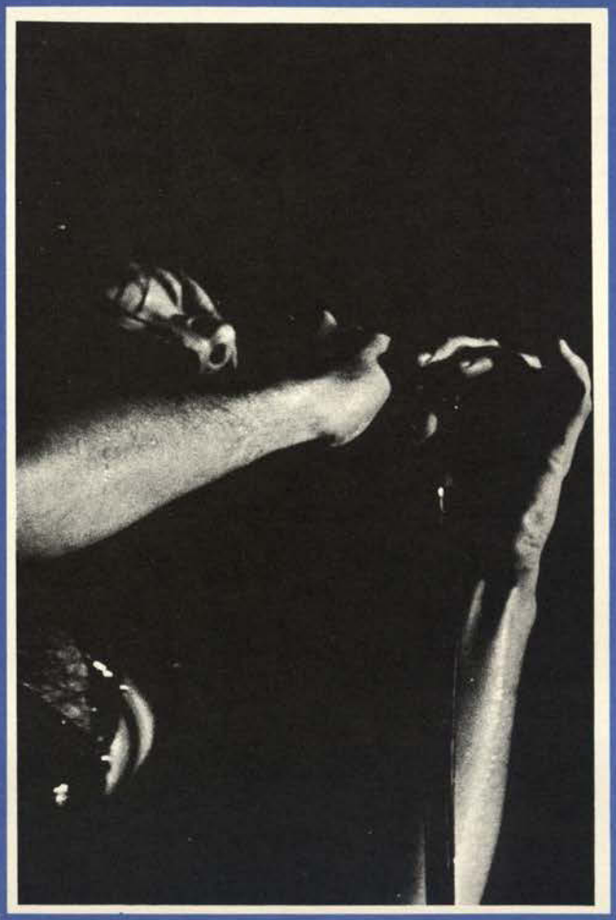
1971-72 UMR Student Council



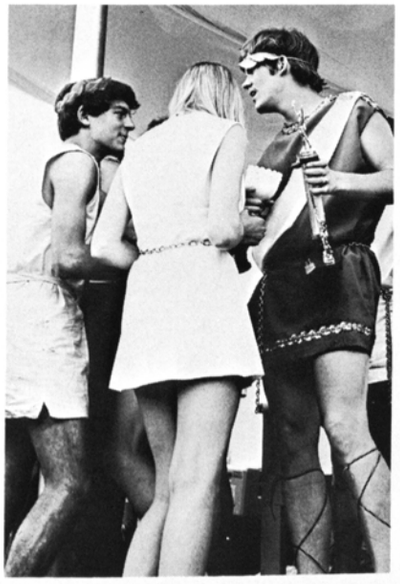
Academic Council

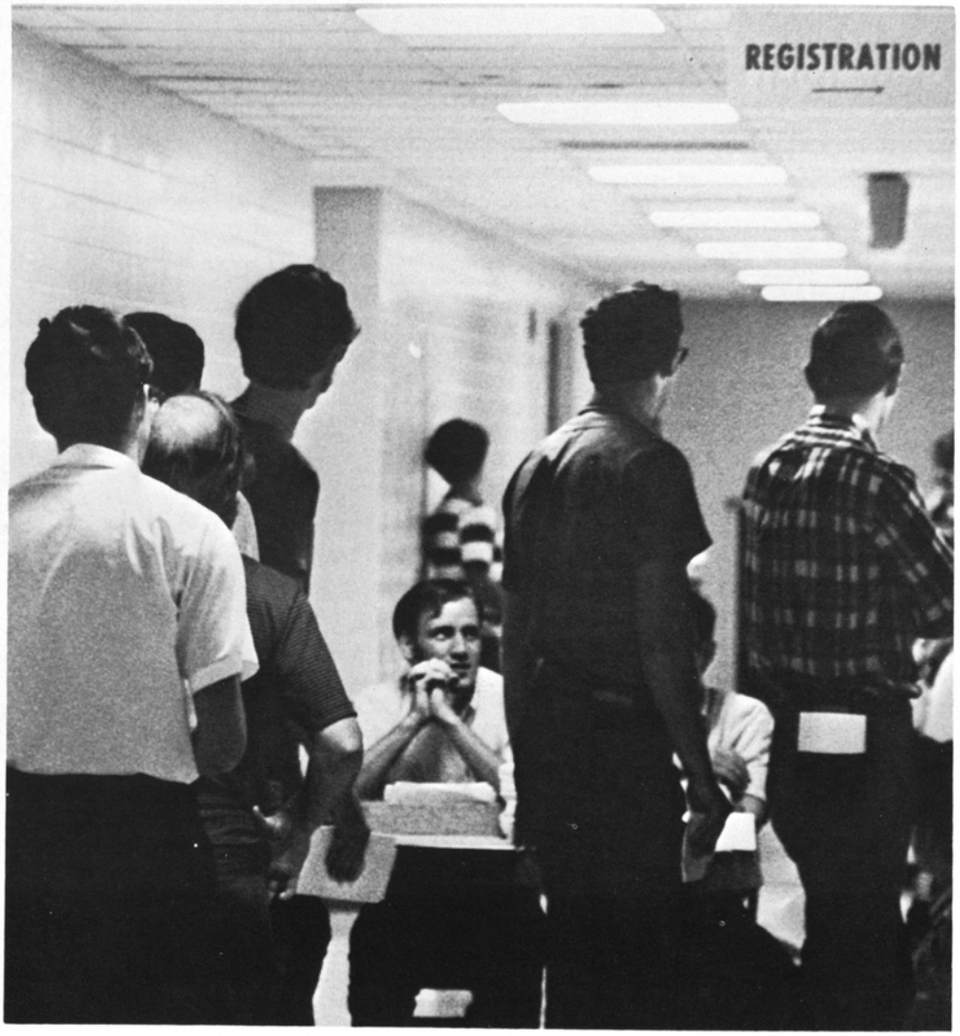
Composed of faculty and student representatives, the Academic Council is responsible for most decisions concerning academic policy at UMR. Officers of the Council for the 1971-72 school year (above) were Lance Williams, secretary; Al Bolon, Parliamentarian; and Bill Andrews, chairman.



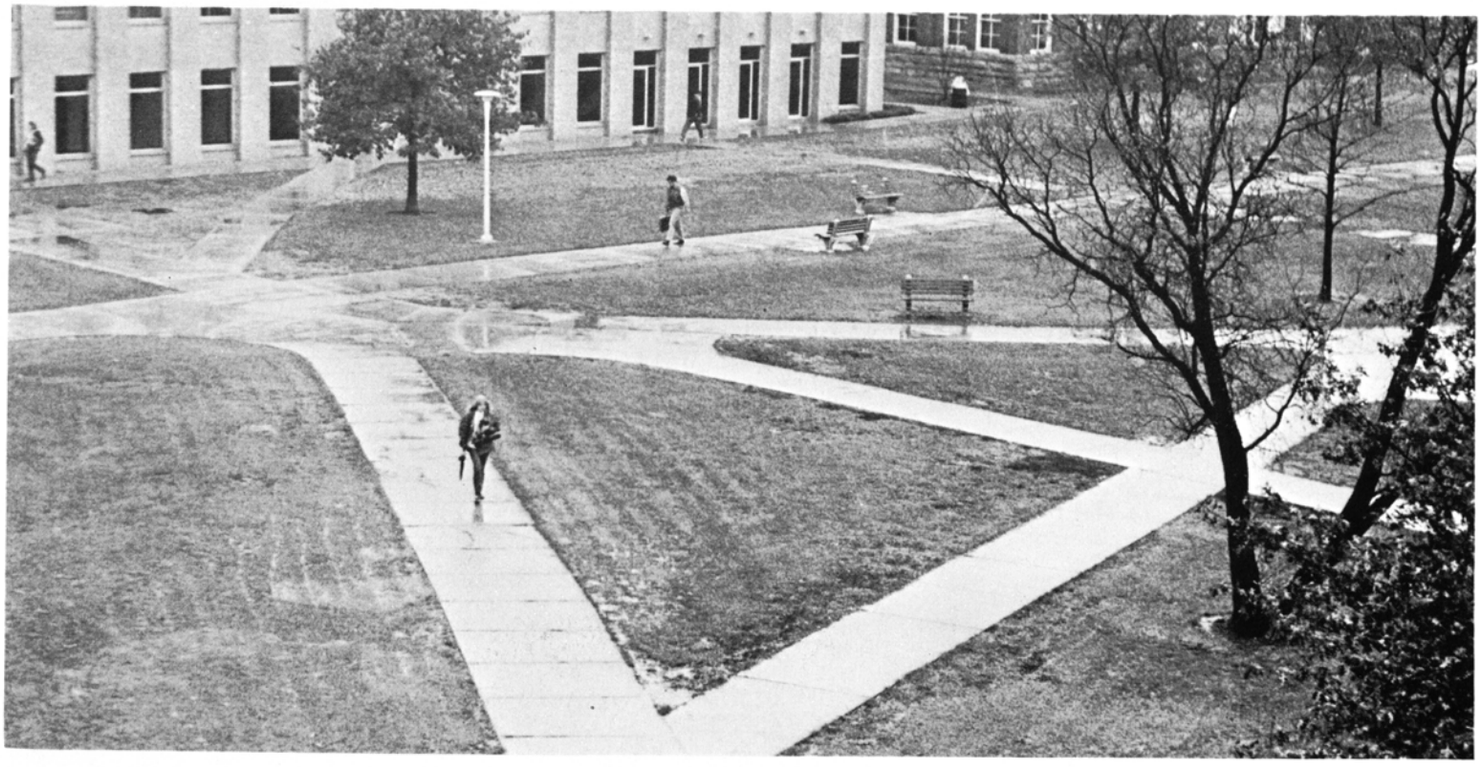


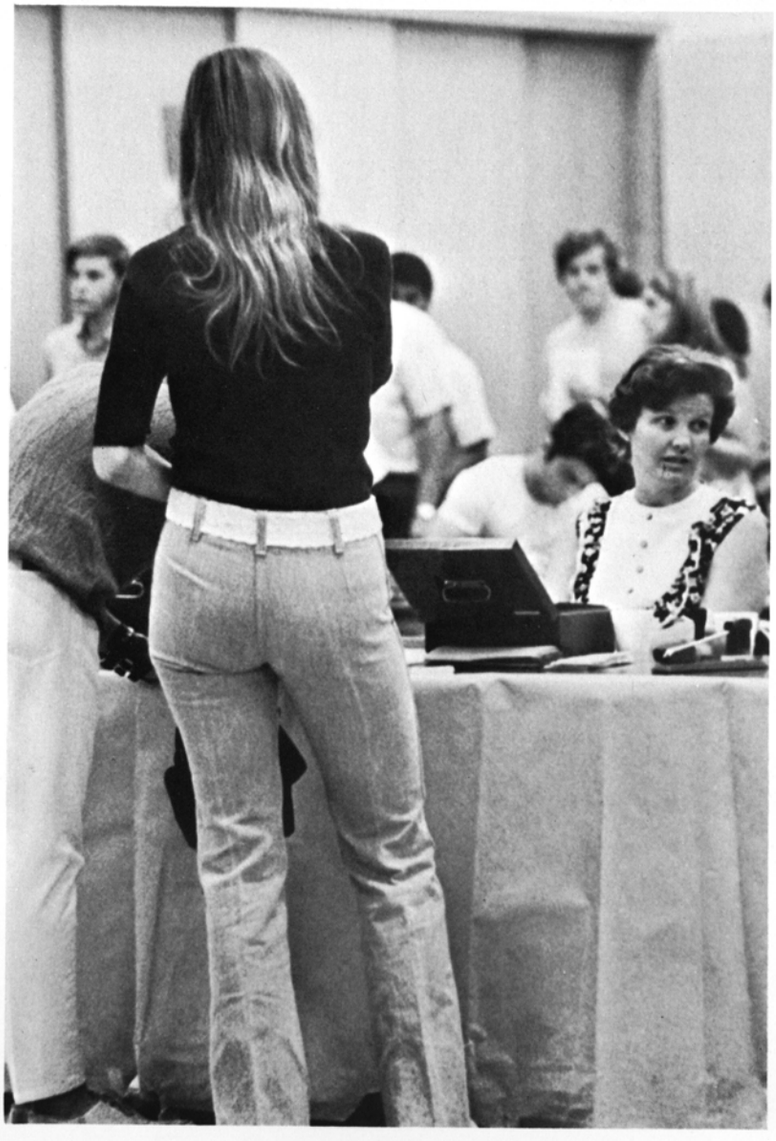
Activities





Registration for the Fall '71 semester proceeded with the usual amount of waiting and confusion. The '71-'72 school year was the first time in several years that enrollment noticeably decreased. The decreasing demand for engineering graduates, President Nixon's conservative economic policy, and the lessening of requirements for graduation were but a few of the reasons behind lower total enrollment. Campus administrators indicated that the low enrollment was part of a cyclic trend on the UMR campus and predicted confidently that an enrollment upswing would begin within two or three years.

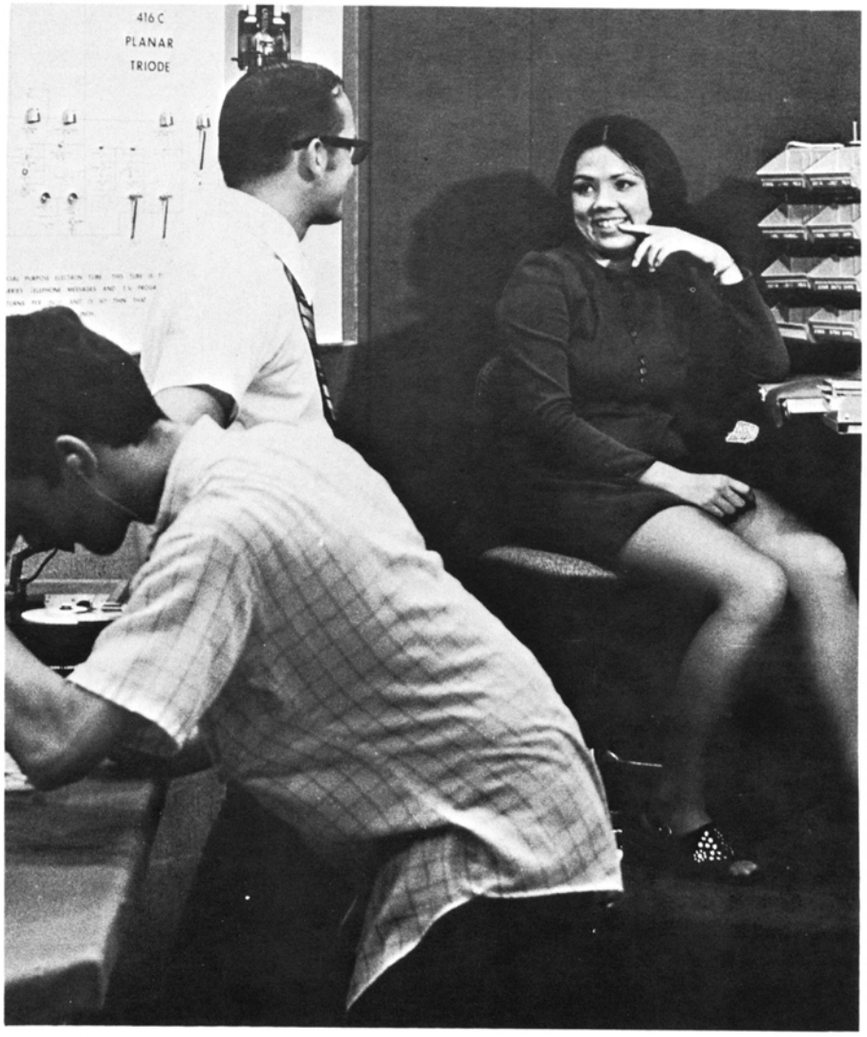




Enrollment shows noticeable decline

Professional jazz drummer Joe Morello came to UMR on Sept. 24 and 25. Morello, who was voted America's best jazz drummer by Playboy, Downbeat, and Music Maker magazines, discussed and demonstrated jazz drum techniques at two clincis held on Sept. 24. The highlight of his appearance was his solo performance with the UMR marching band at Sept. 25's football halftime show. Mr. Morello was sponsored by UMR's Extension Division.

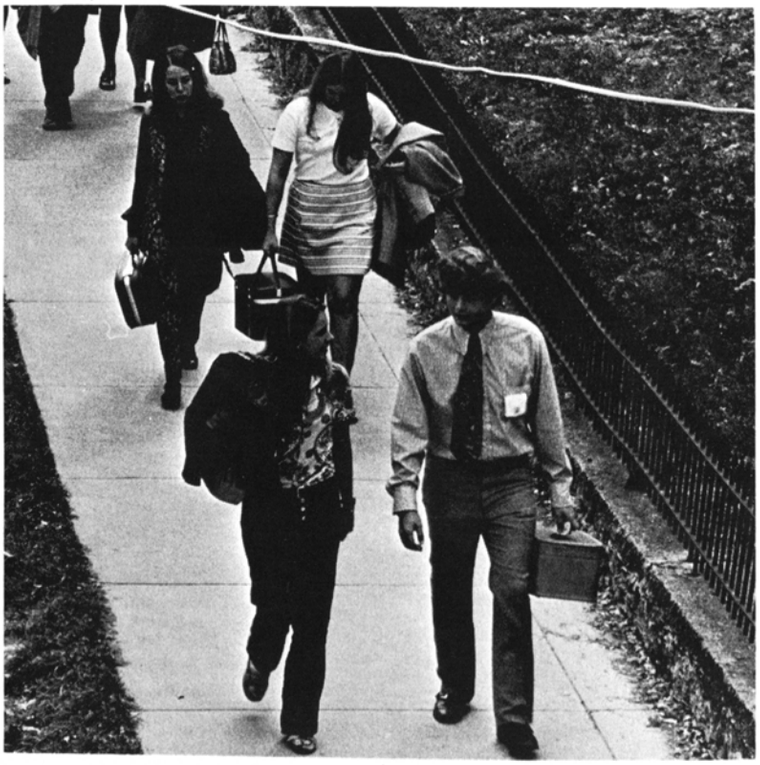
Joe Morello

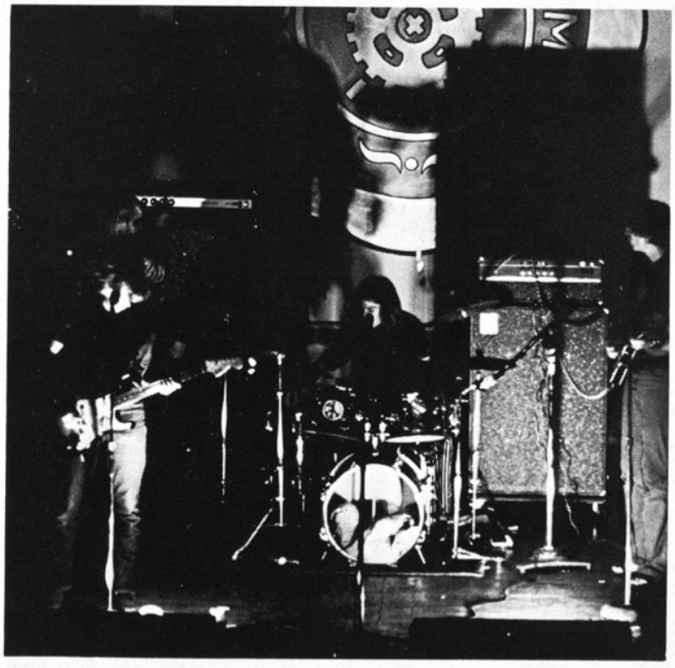


Industry Day directs student careers

UMR's annual Industry Day was held on Sept. 28. The purpose of this day was to introduce local industries and their products to UMR students. Forty six companies from Missouri and Illinois were in attendance.

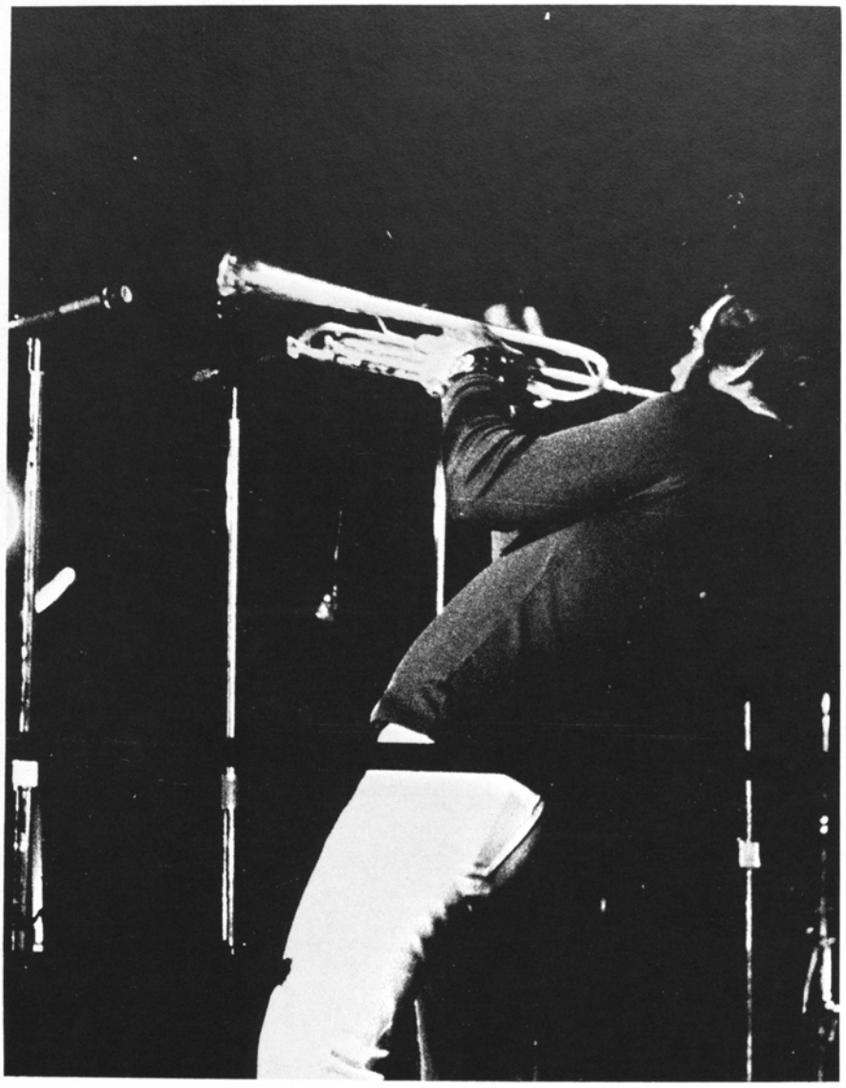
All-School Mixer, "Too Few Too Late"

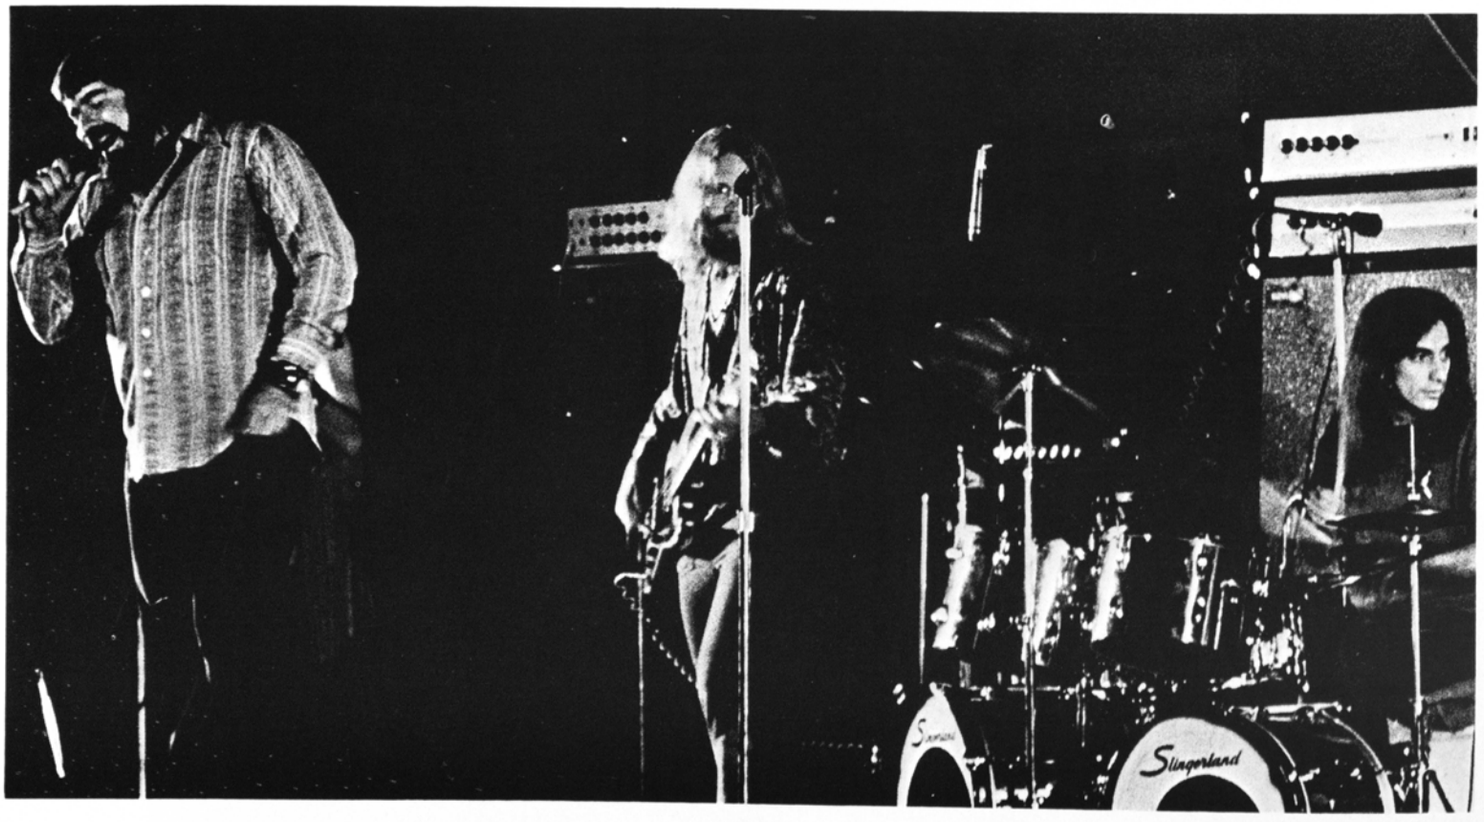




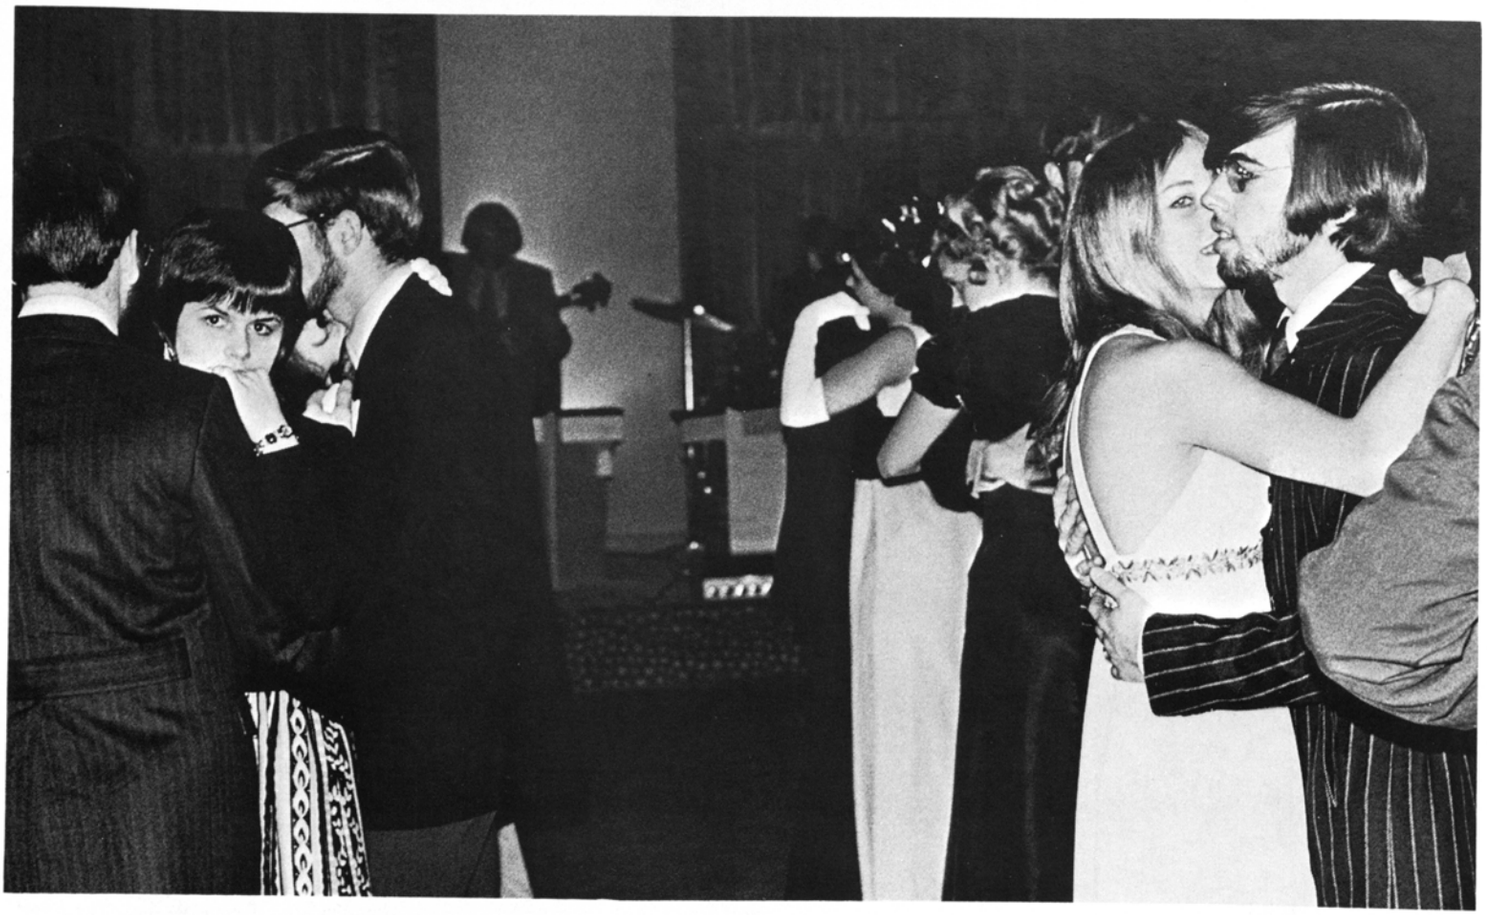
Shortly after noon on Oct. 2, 120 women from Cottey College were welcomed to UMR (opposite page, right) marking the beginning of the annual All-School Mixer. Although Cottey was the only participating women's college, the Mixer was a considerable success. Beginning with the afternoon mixer featuring the Comic Book Society in the Student Union Ballroom (top), Miners and dates were given a chance to become better acquainted. The undisputed highlight of the weekend, Crow, performed at 6:30 in the Multipurpose Bldg. (opposite page, left and above right). "Hand clapping, foot stompin', and ass wigglin'" was the way in which the Missouri Miner felicitously described the appreciative audience participation. Immediately following the concert, the final dance, featuring the Common Ground, was held in the Ballroom (above and right).

Chase featured at Homecoming concert





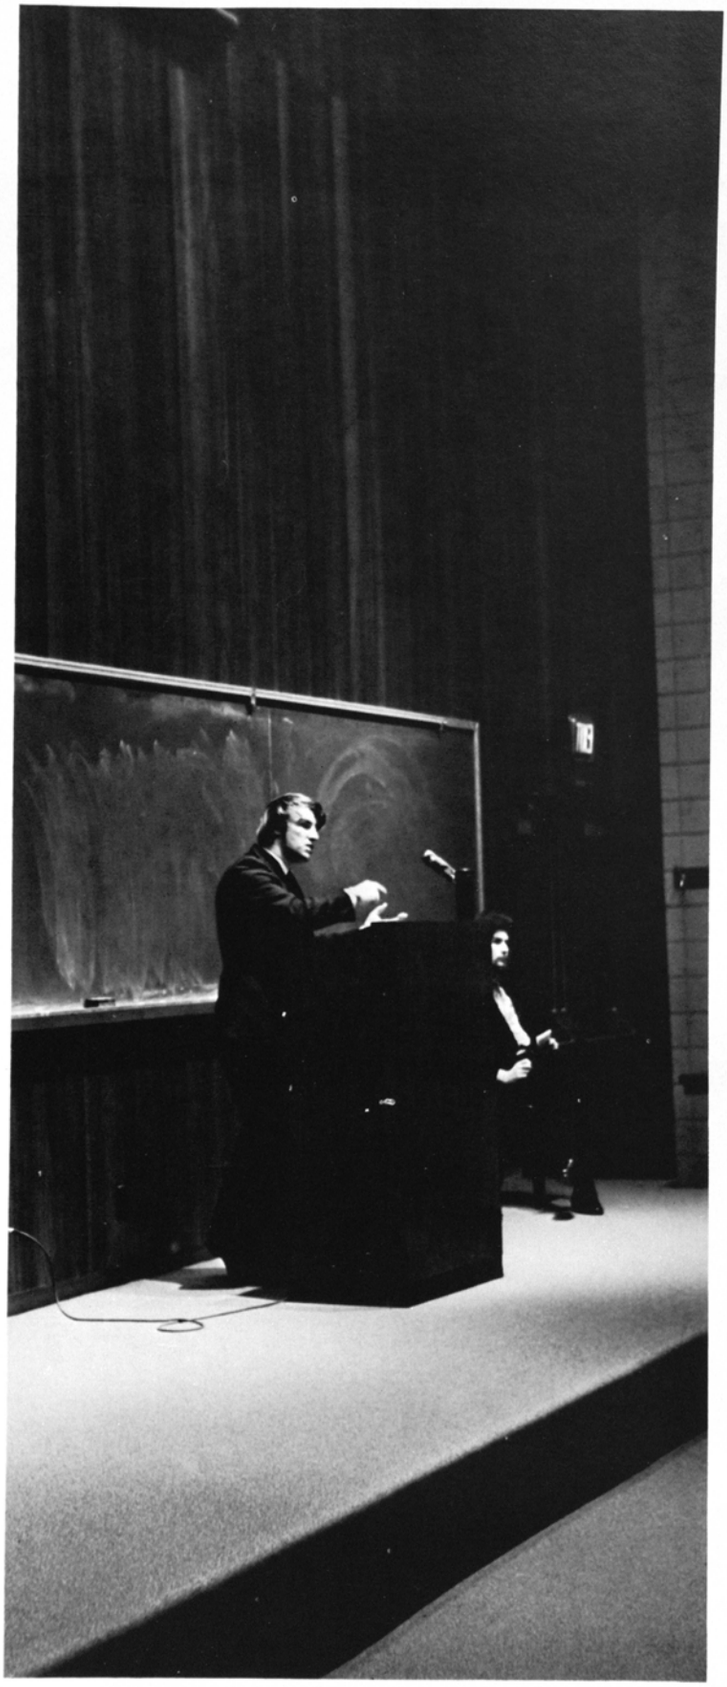
The traditional Homecoming activities were highlighted this year by the appearance of Chase on Friday evening. (opposite page). The concert was a display of individual and group talent that was thoroughly enjoyed by all in attendance. Saturday afternoon's football game was a pleasant surprise (left), as the Miners defeated Northwest Missouri State before a large crowd of UMR alumni. Halftime entertainment included the UMR Marching Band (above) and the crowning of the Homecoming Queen (next page).

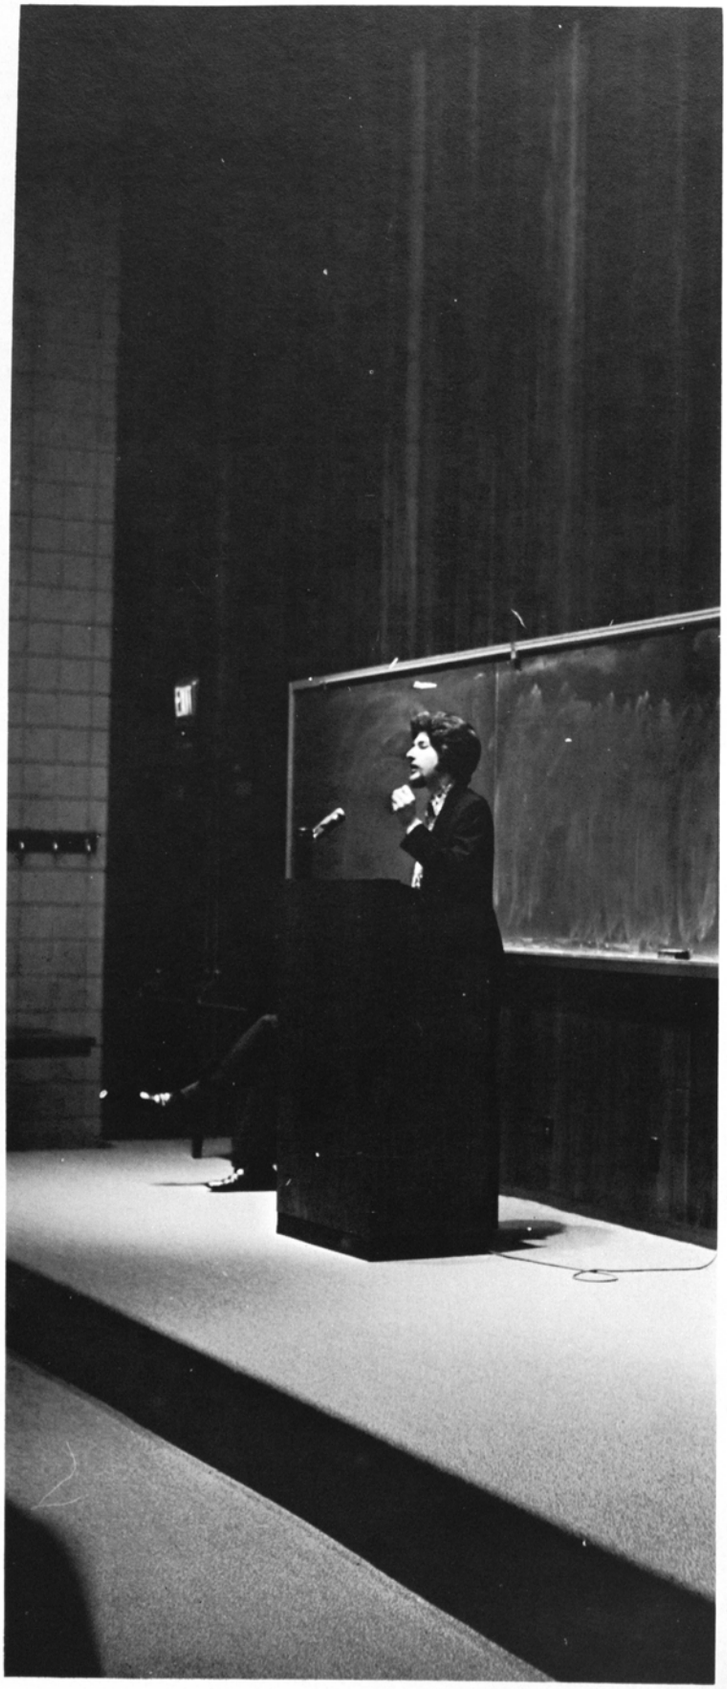


Miss Maureen Daly, representing Phi Kappa Theta, became the 1971 Homecoming Queen at halftime ceremonies on Oct. 16 (opposite page, right). Shown with Maureen are the first and second runners-up representing Lambda Chi Alpha and MRHA (opposite page, left and bottom). All three girls were officially recognized at the coronation ball on Saturday evening (above). Completing Homecoming activities was the dedication of the Humanities-Social Sciences Bldg. (right). Shown speaking is Senator T.D. McNeal.

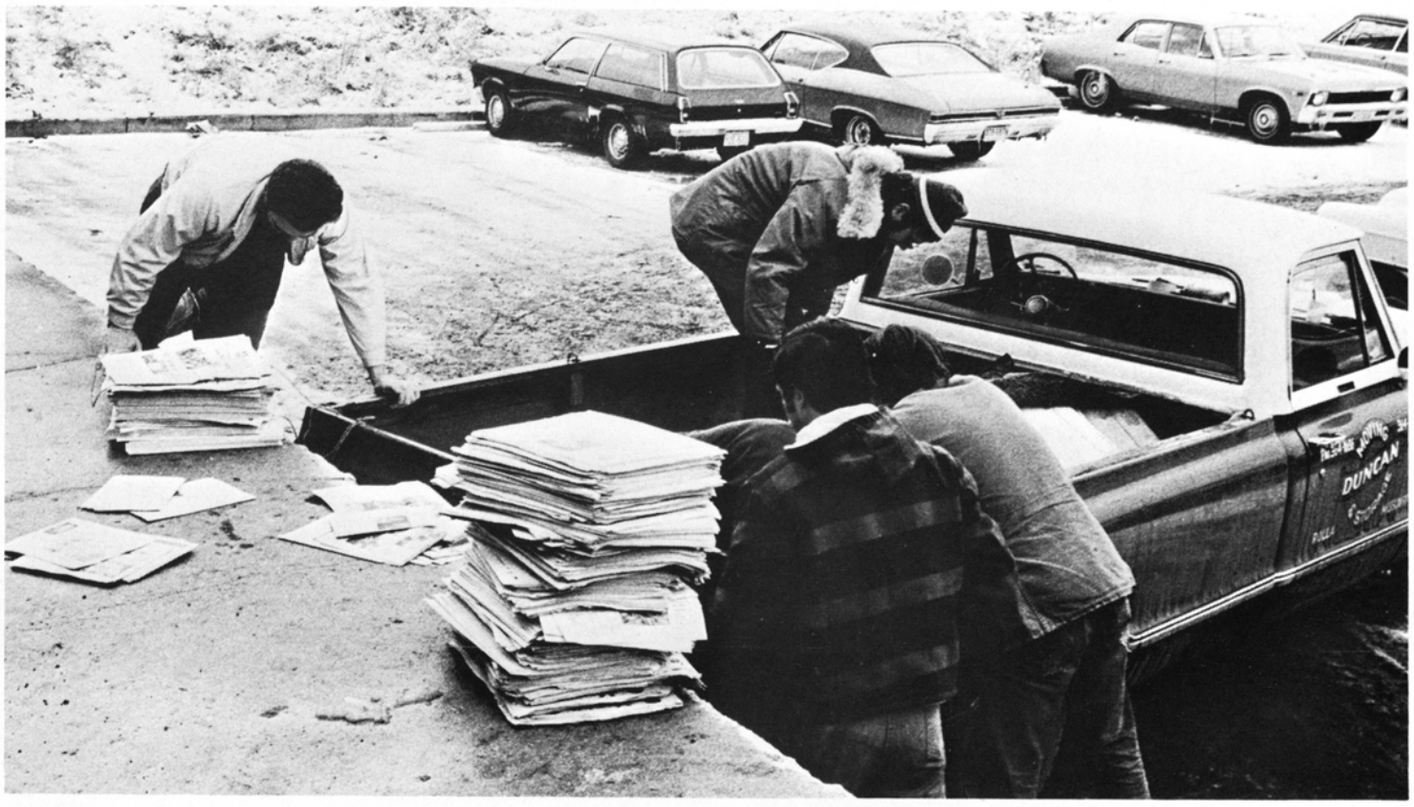
Maureen Daly crowned Homecoming Queen

British Debaters Discuss Pacifism





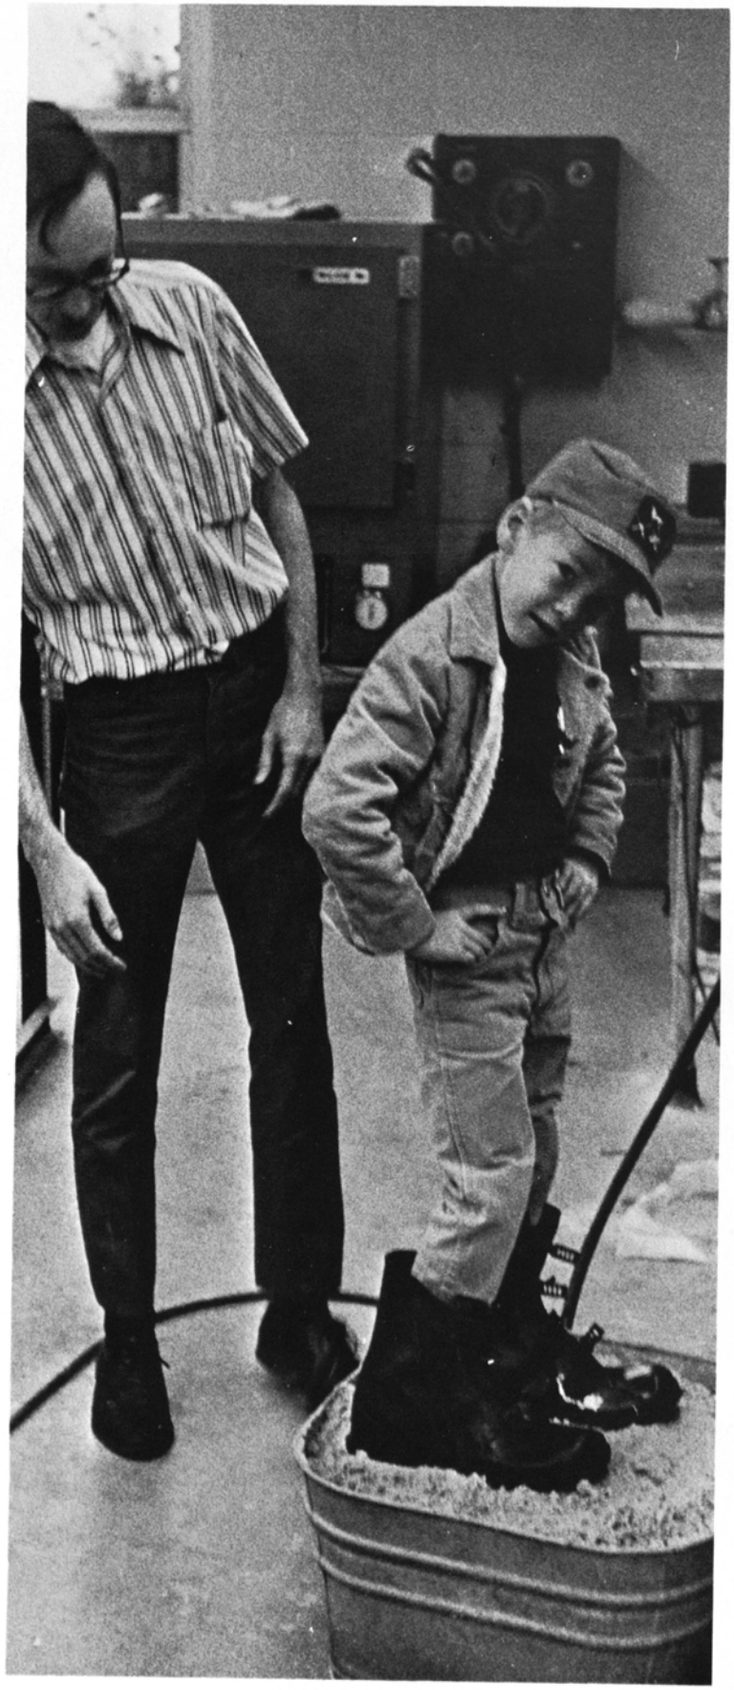
On Oct. 29, Nigel C. Waterson from Oxford University (right) and Ian F. Lloyd from University of Durham (left) presented a talented and well-prepared debate on the subject: This House believes that Pacifism is unrealistic. The team was sponsored by UMR's Forensic Society.



1971-72 represented a successful year for the Citizens United to Restore the Environment. CURE was originally founded by several members of UMR's Civil Engineering Dept., and has since grown to include local townspeople and anyone in the Rolla area who has expressed interest in ecology projects. Al Visintainer, president of CURE in 1971, commented, "There is no simple cure. We need all kinds of people, all kinds of approaches."

The numerous projects already completed by members of CURE have more than justified the organization's existence and have greatly helped many local people. This year marked the beginning of the Recycling Center (left and above), one of CURE's long-term projects. The center is a collecting grounds for reusable paper and trash, and it has realized great success in its short existence.

CURE Celebrates Second Birthday



Moon Rock Highlights University Day

UMR's annual University Day took place on Nov. 6. Campus and departmental tours and displays were provided the entire day for the benefit of high school and transfer students and their parents, teachers, and friends. Highlighting the entire day was the NASA special exhibit (right). It featured a moon rock brought back to earth by the crew of Apollo 12.

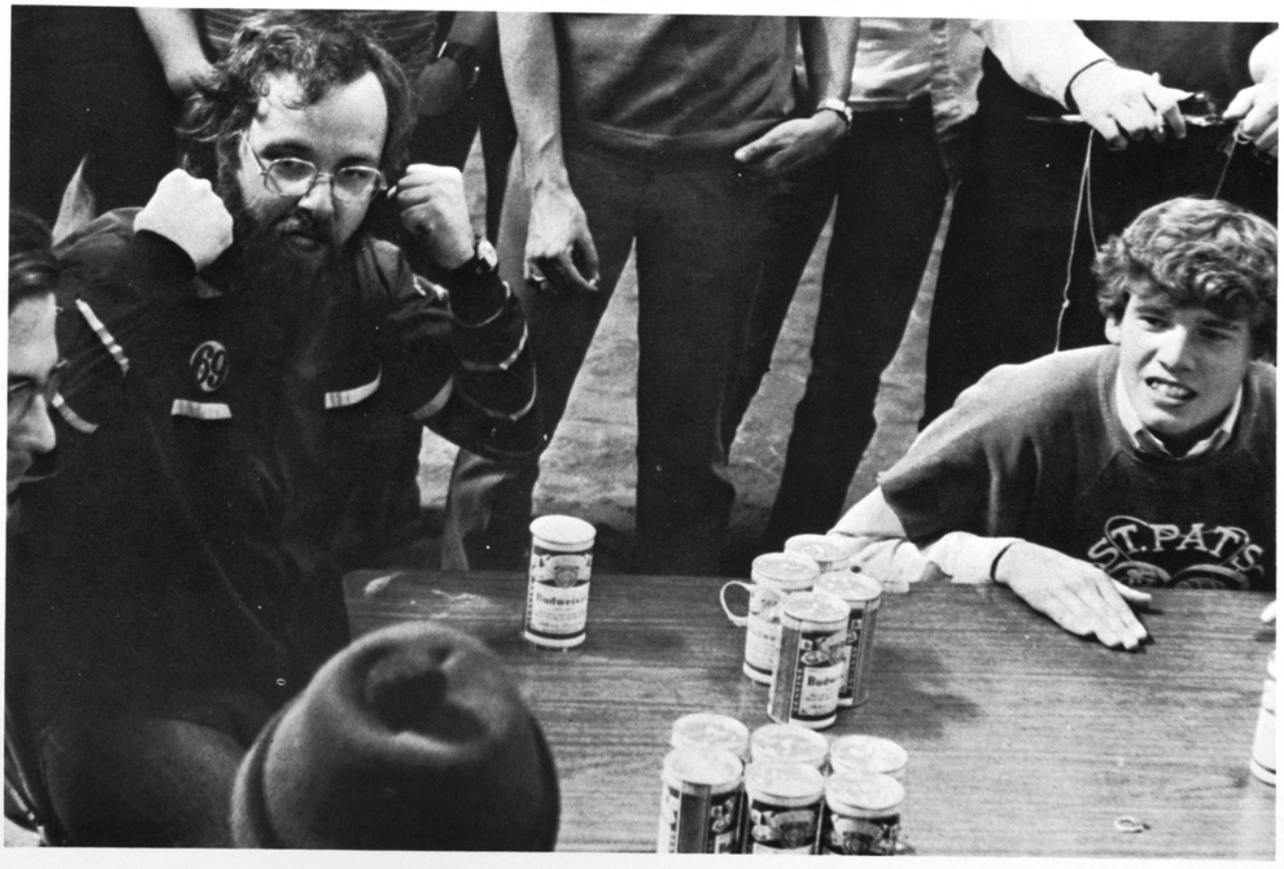
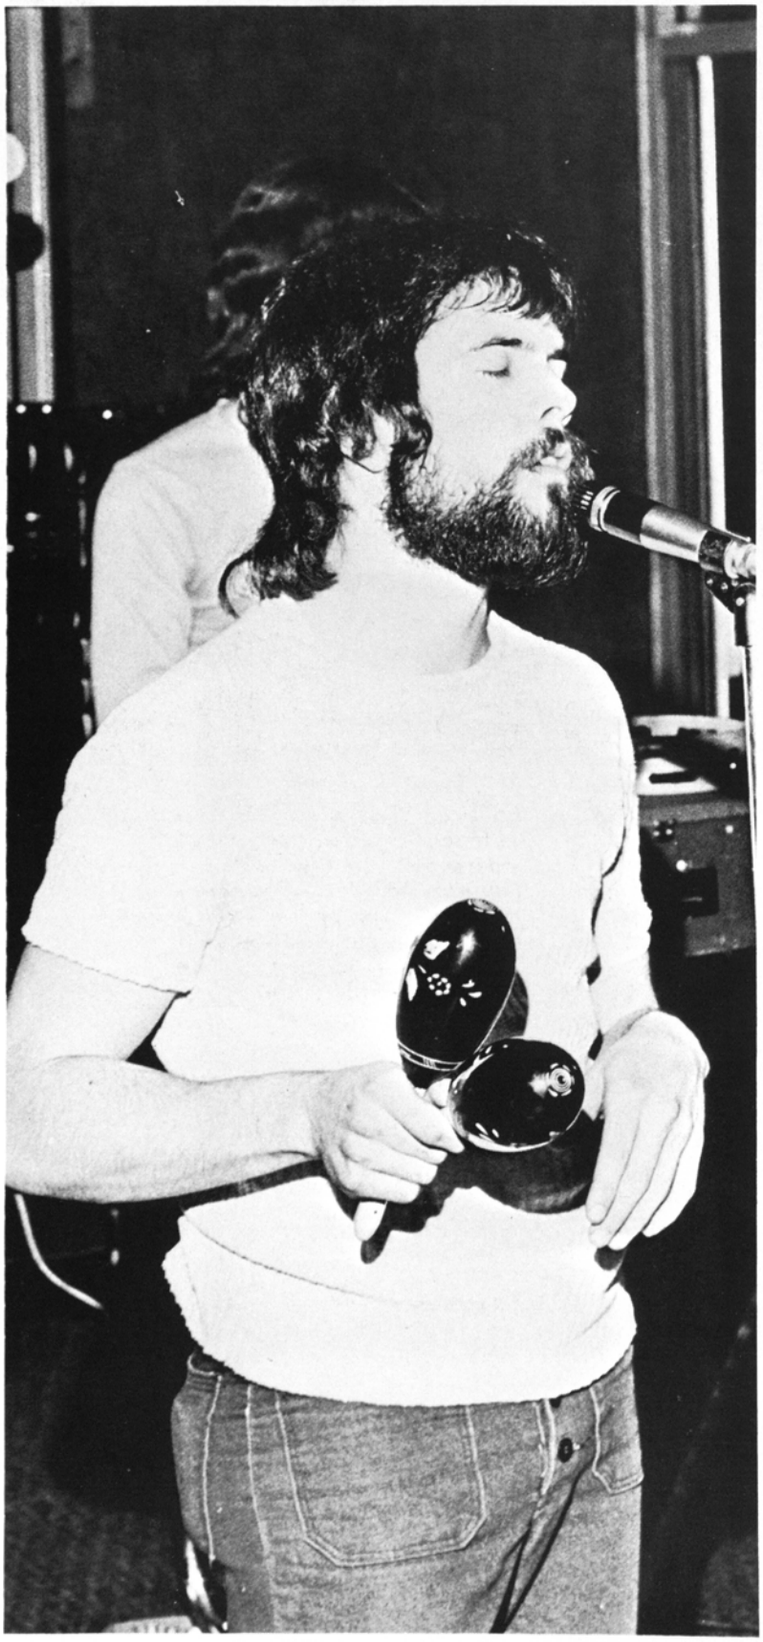
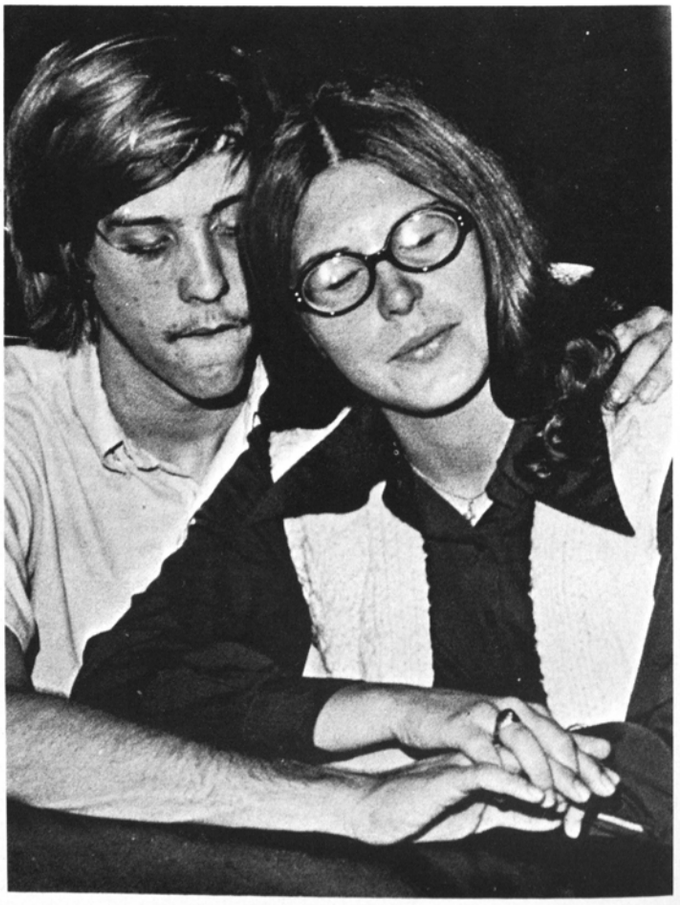
The Independents of UMR chose the weekend of Nov. 12-13 for their annual celebration. Activities officially began at the Independents Award Banquet (above), at which the outstanding alumni and undergraduate members of G.D.I. were announced. (Right and opposite page) Saturday afternoon featured the Independent's outing with Indian being one of the more popular of the contests. An evening barbeque provided good food for all.

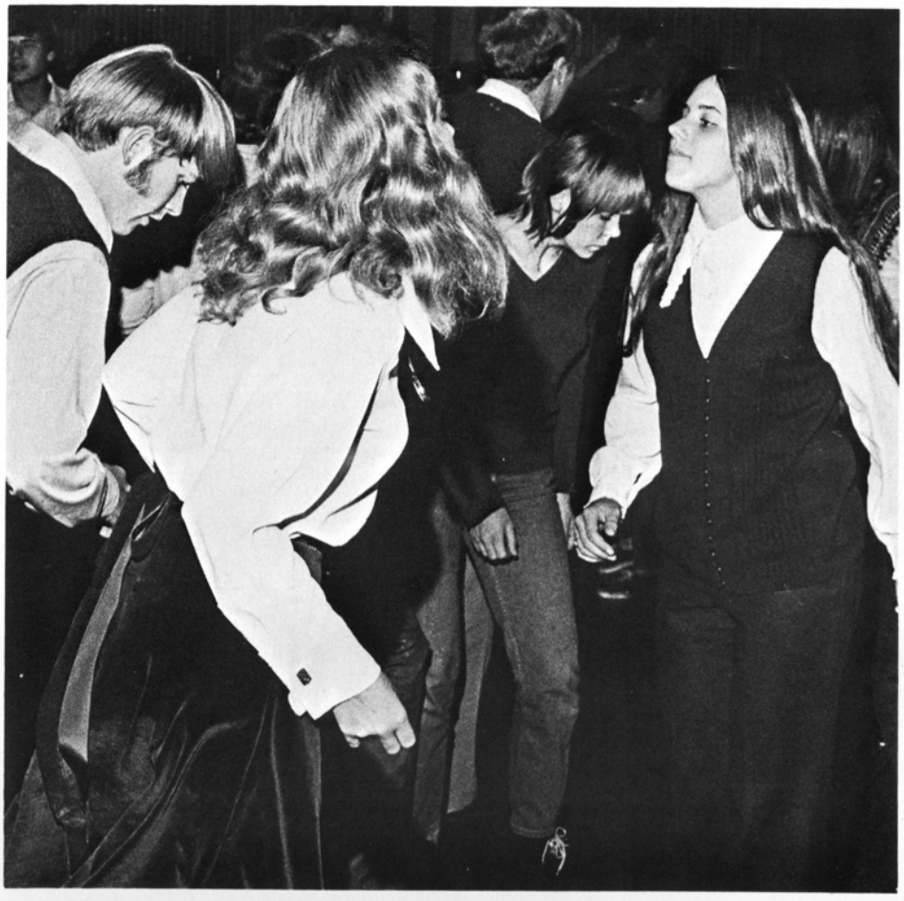
Elmer Hill Named Outstanding Independent Alumni



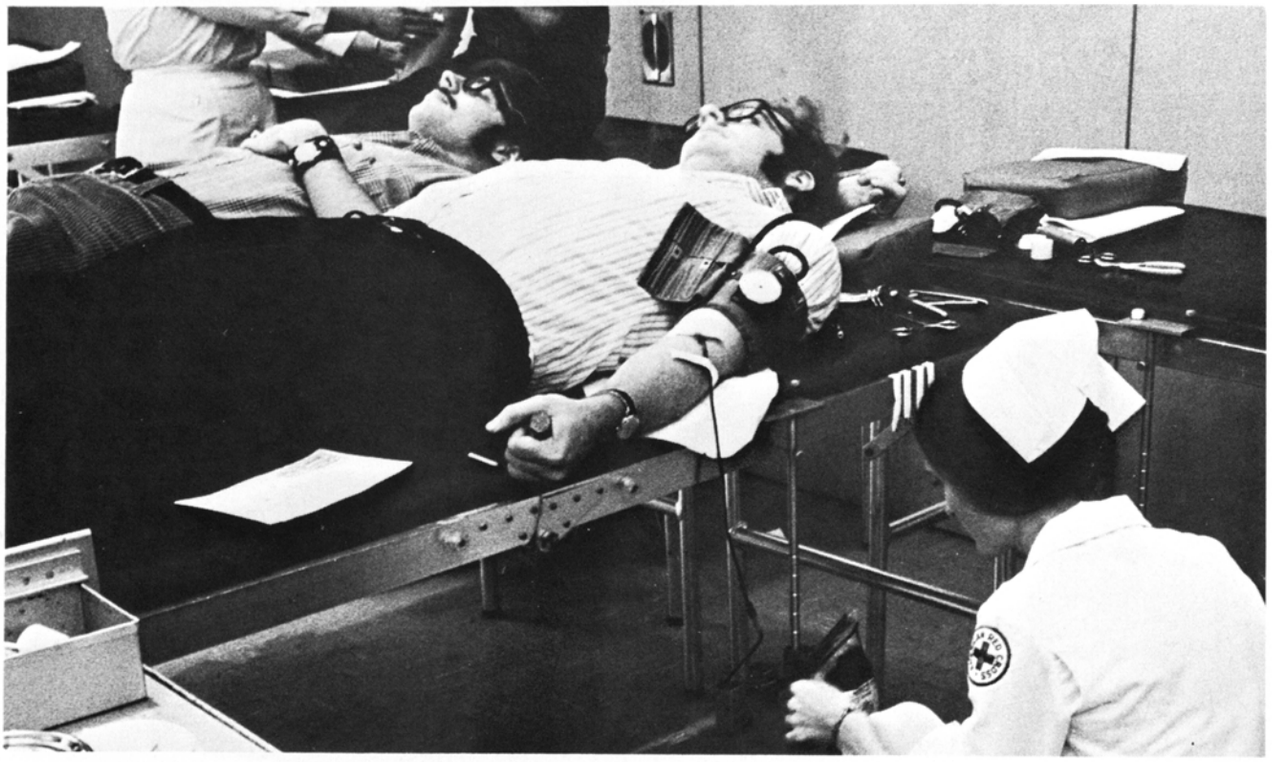


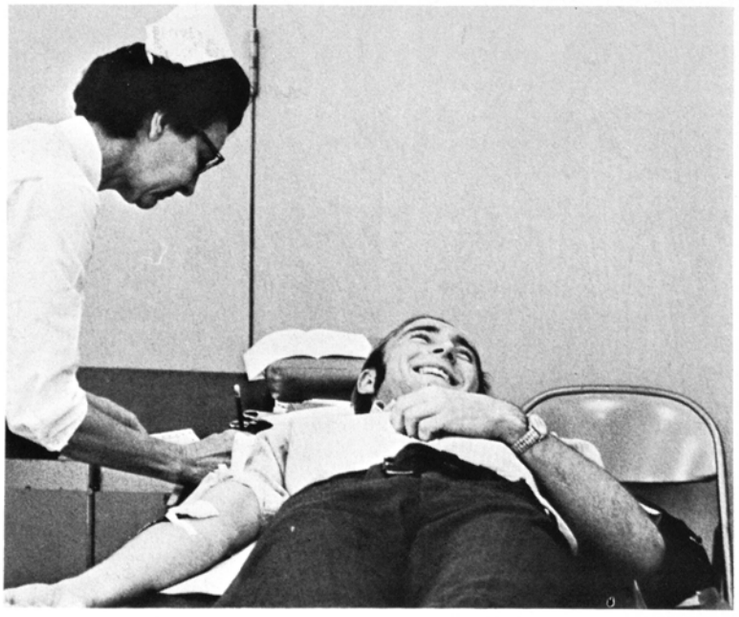
Independents Rock
Thomas Jefferson

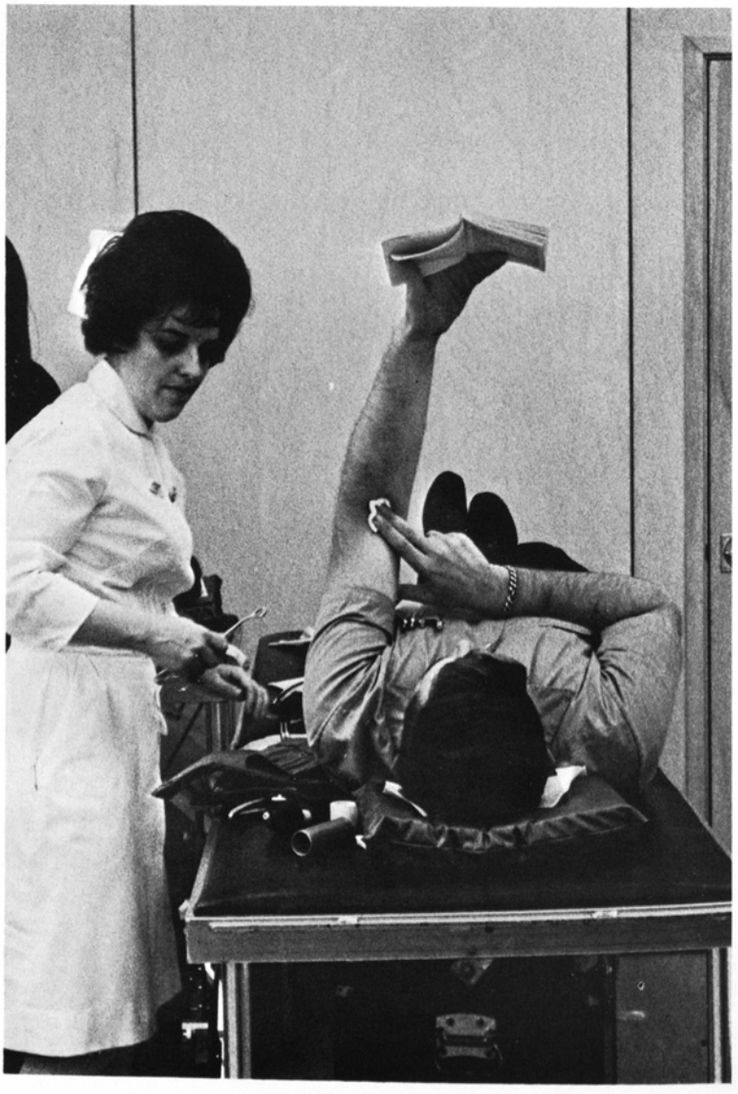




Friday evening's dance at Thomas Jefferson was the highlight of Independent's party weekend. Contributing to the success of the dance was a "tea" at Campus Club which provided everyone with sufficient opportunity to "get primed" before the dance.



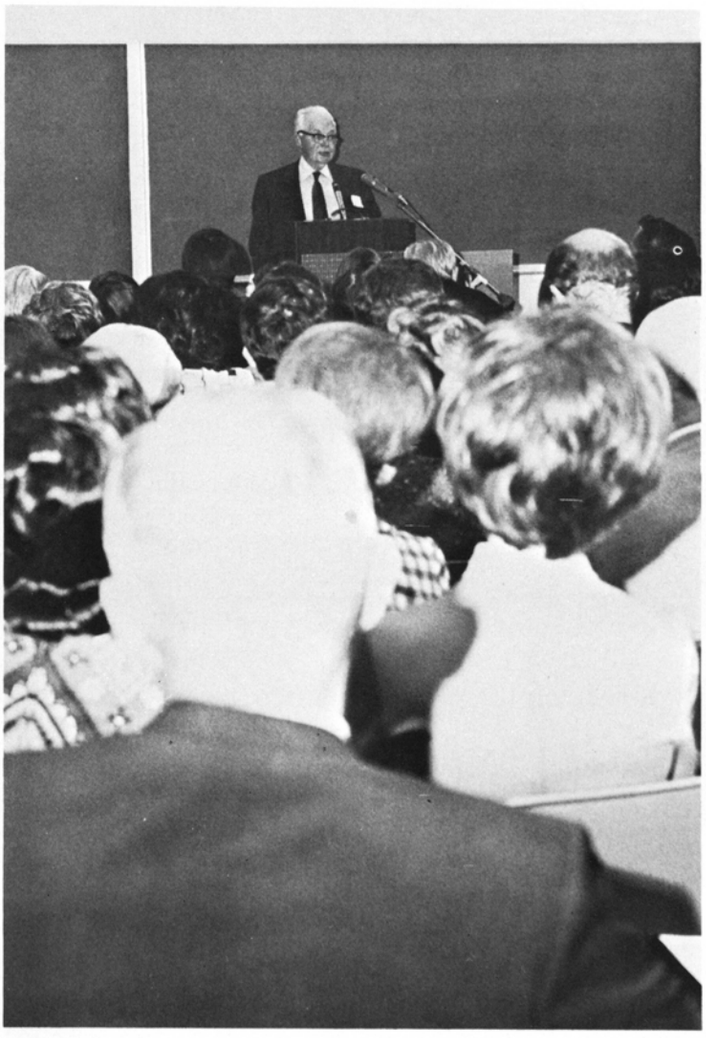




The UMR Blood Committee sponsored Blood Drives on Sept. 21, Dec. 2, Feb. 23, and Feb. 24. Once again, Miners proved that, if nothing else, they bleed well--over 800 pints of blood were donated during the four days. As the national rate of blood use rose to ten pints per minute per day, UMR students, faculty, and administration continued to be an important and helpful source.

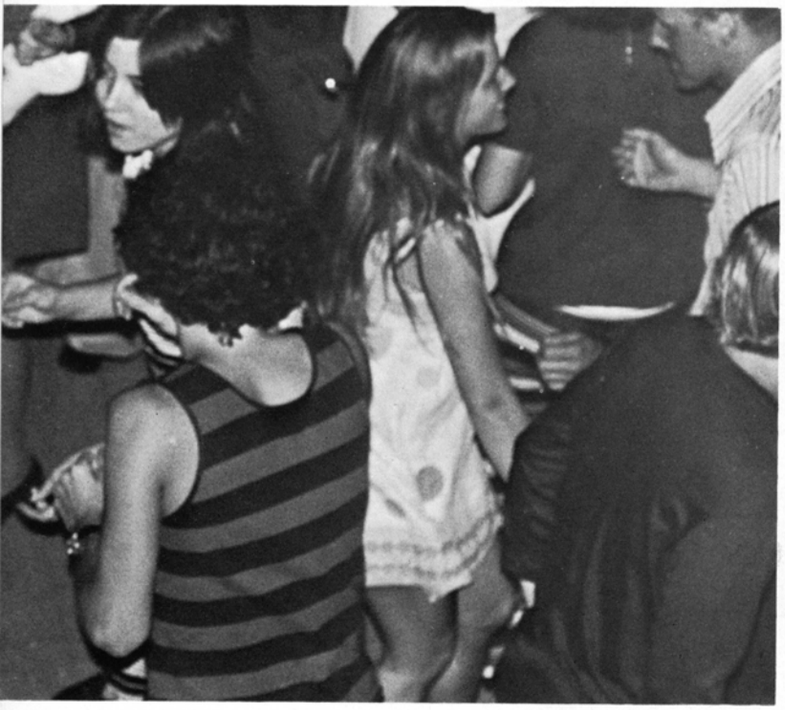
Miners Bleed For Red Cross

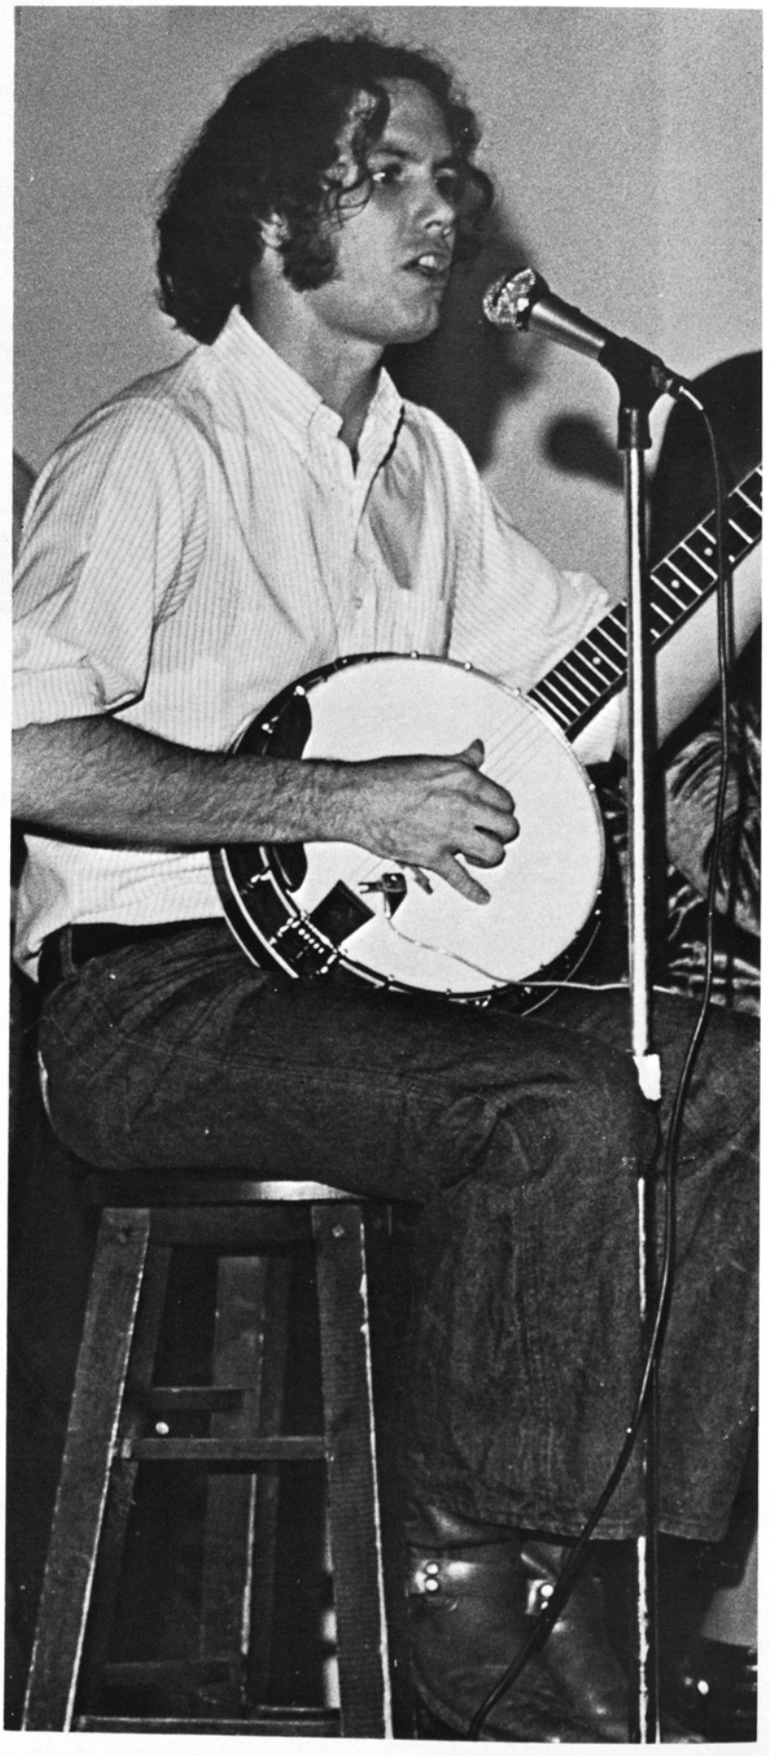
Centennial Marked by Dedications



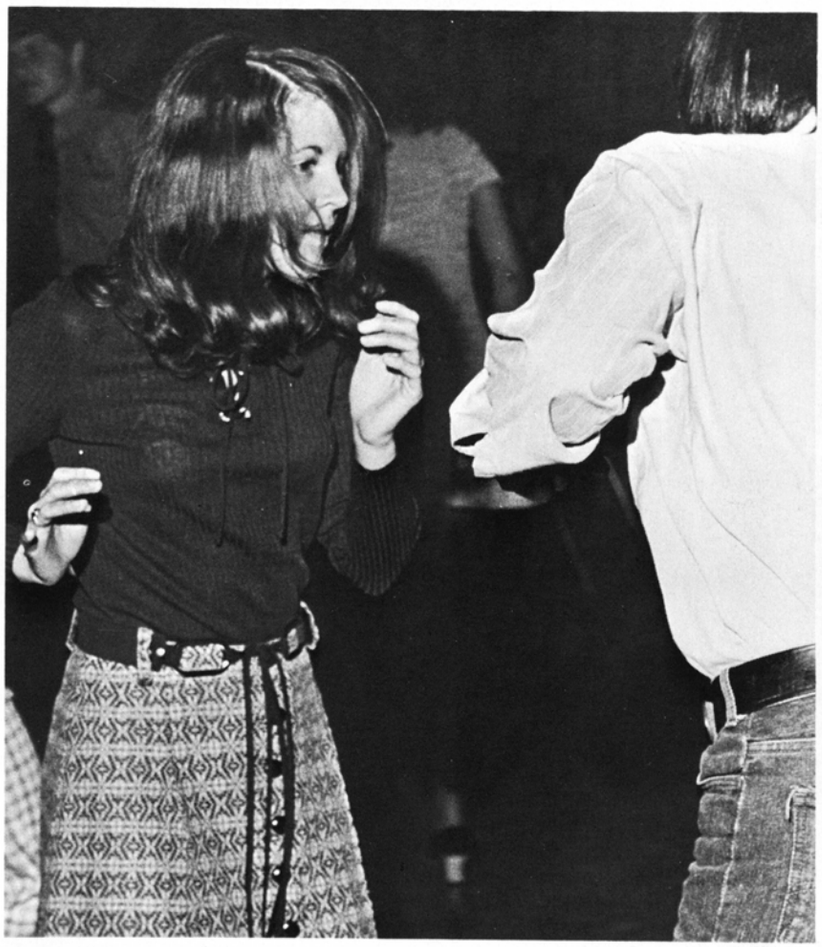
Nov. 23, 1971 marked the centennial of the formal opening of the Missouri School of Mines and Metallurgy. Commemorating the event was a program featuring a reenactment of the formal dedication one hundred years ago (bottom).

The year was also marked by the dedication of several new classroom buildings. The dedication of the Humanities-Social Sciences Building was a physical symbol of the administration's desire to expose engineering students more to the humanistic and social science fields. In the words of Dr. E. Ellis (left), president emeritus of the University of Missouri, "More and more leaders in industry and government want their professionally trained leaders to also know substantial amounts about society and its culture." Also speaking at the dedication were Dr. Merl Baker, Senator T.D. McNeal, and Merlin Lickhalter, architect (below).

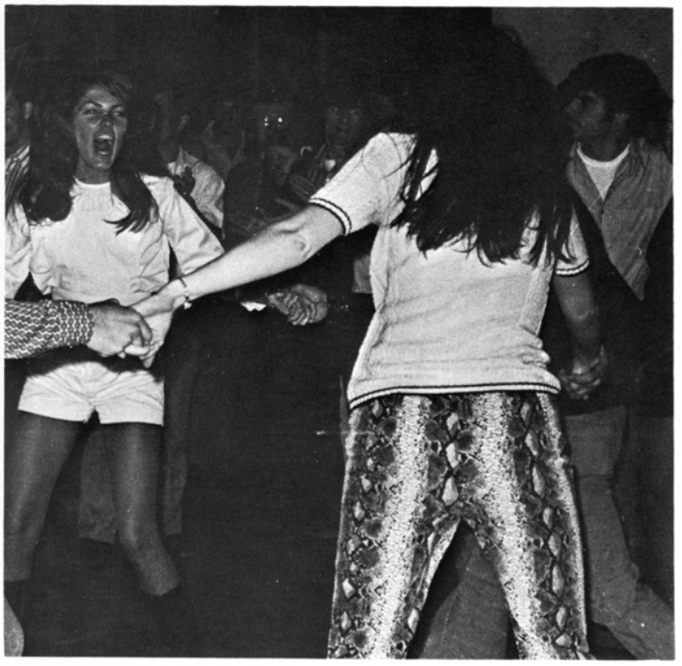


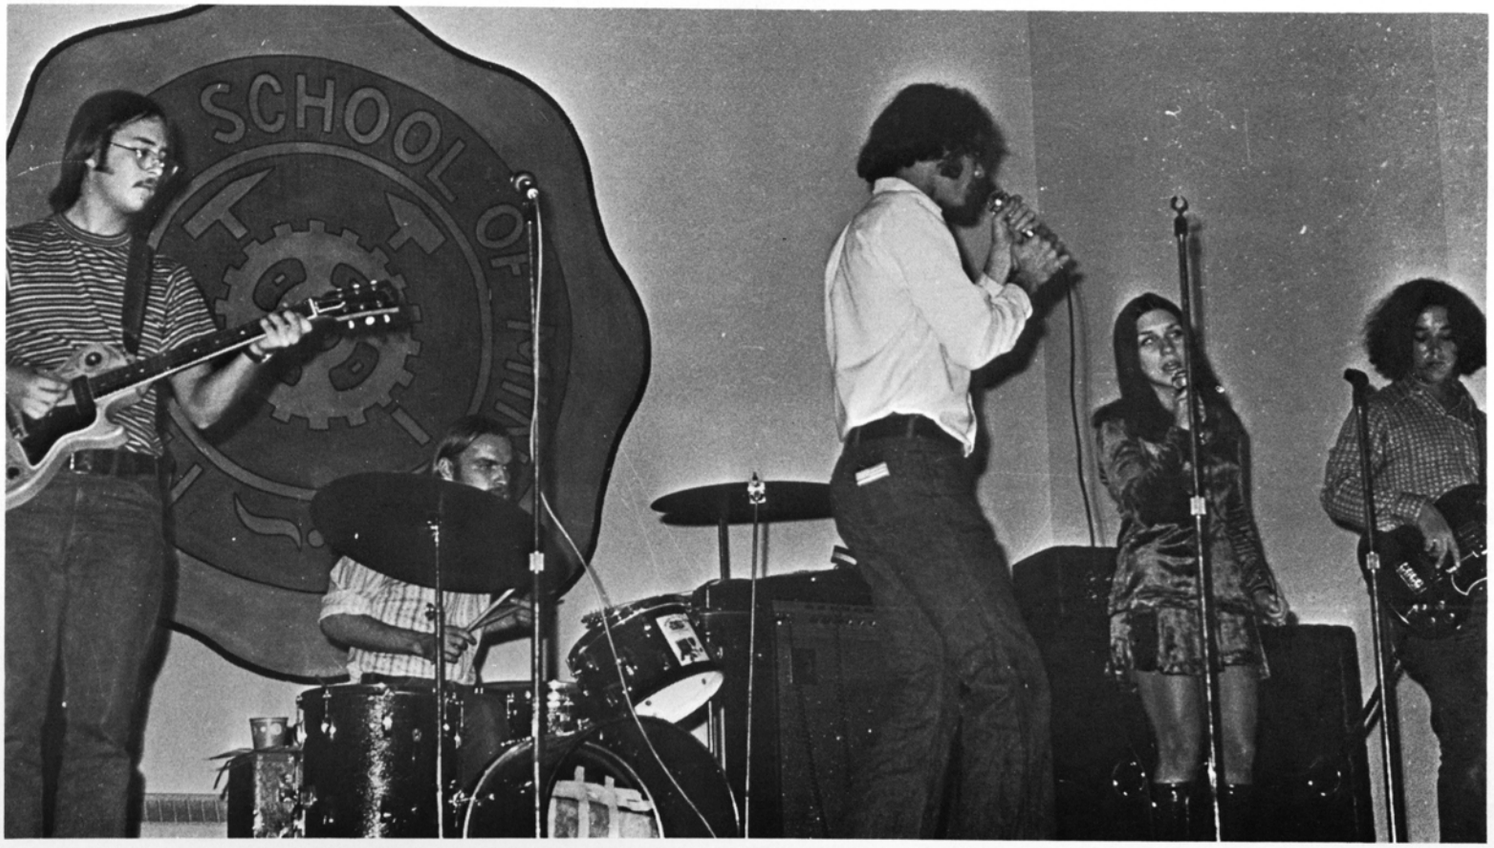


In an effort to aid UMR's handicapped social atmosphere and provide Miners with an opportunity to relax and momentarily forget the academic grind, the Student Union Board sponsored several mid-week and Saturday night dances throughout the school year. These occasions were thoroughly enjoyed by all those attending, as can be seen from the photos on this page. As UMR continues to grow and become a university in the full sense of the word, more activities of this nature will be possible.



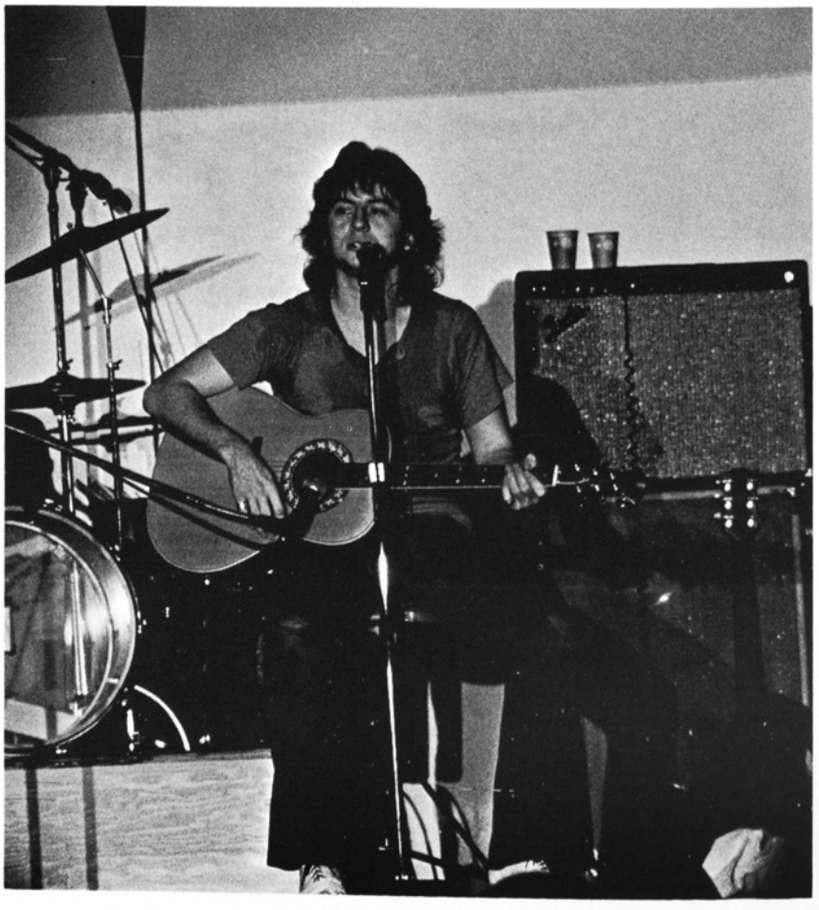
Puzzle, Crystal Pistol Ease Academic Tensions

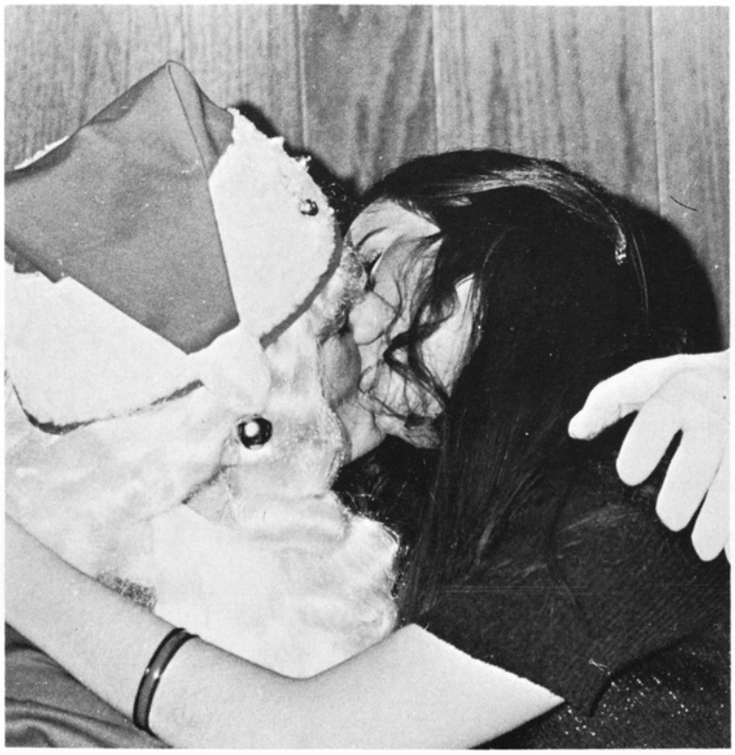




Fall Semester Ends With Ides of March

Ides of March, of "Vehicle" fame, played before a packed Multipurpose Building during the last days of fall final week. The concert was sponsored by the Student Union Board.



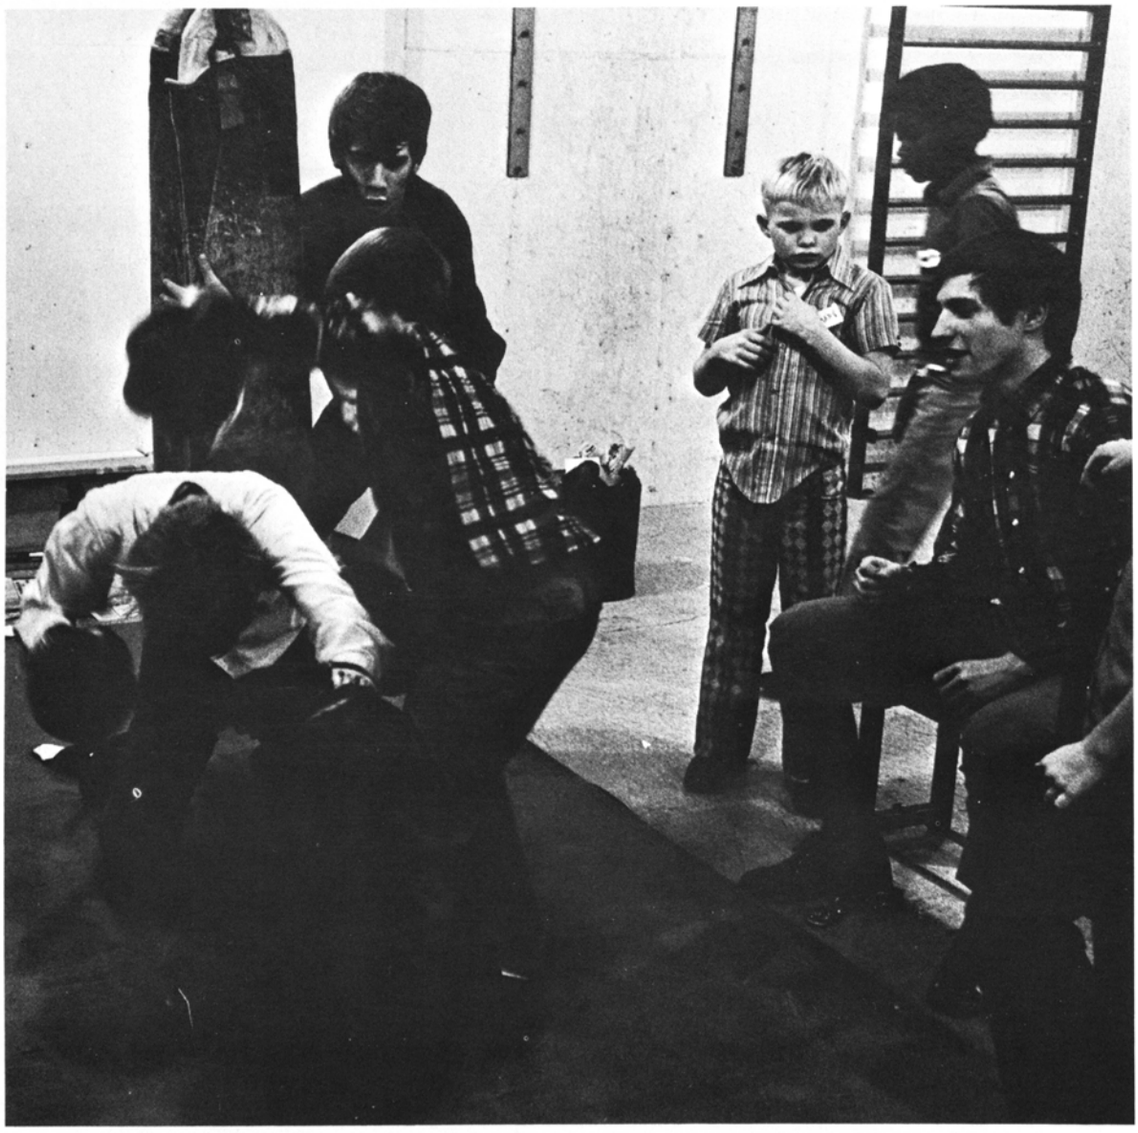


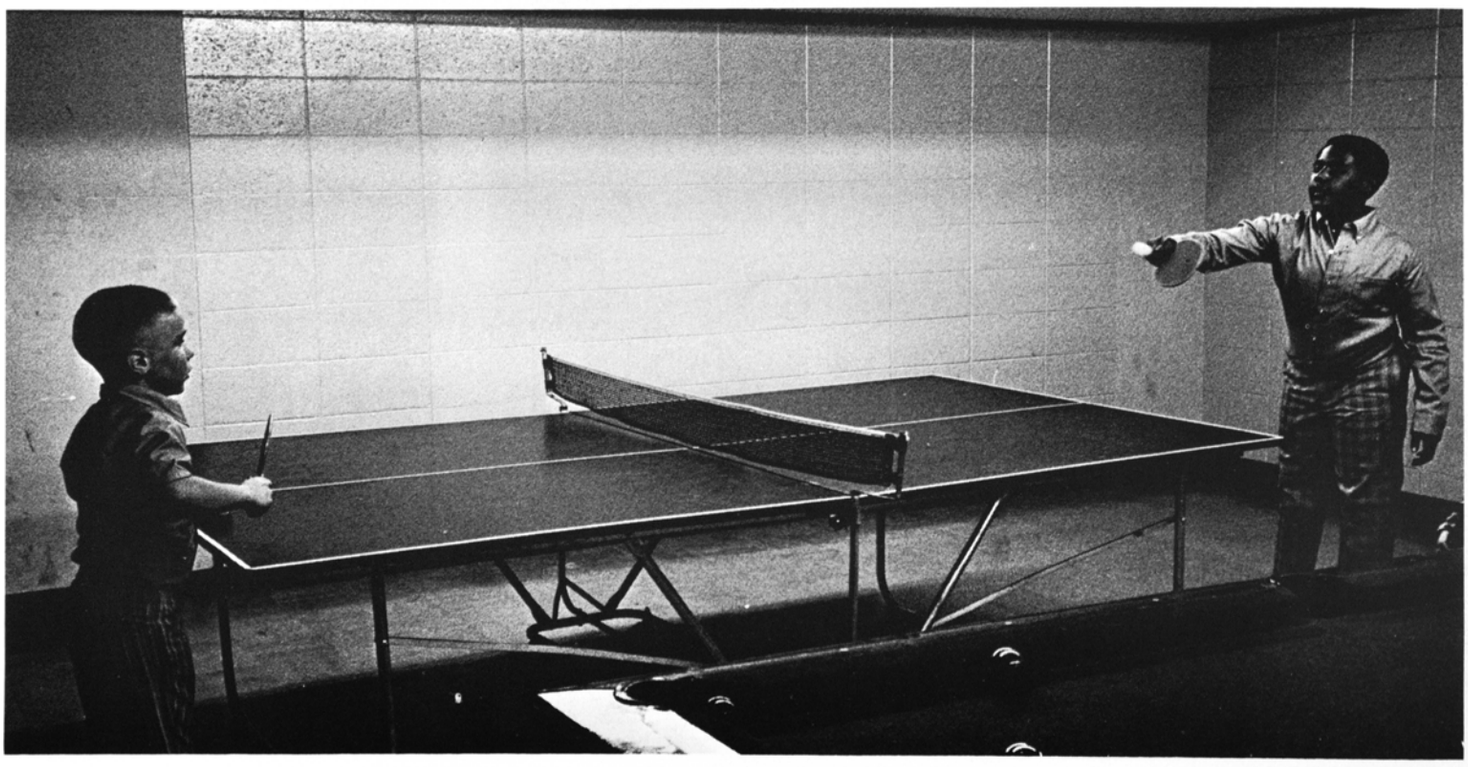
"'tis the season to be jolly'"

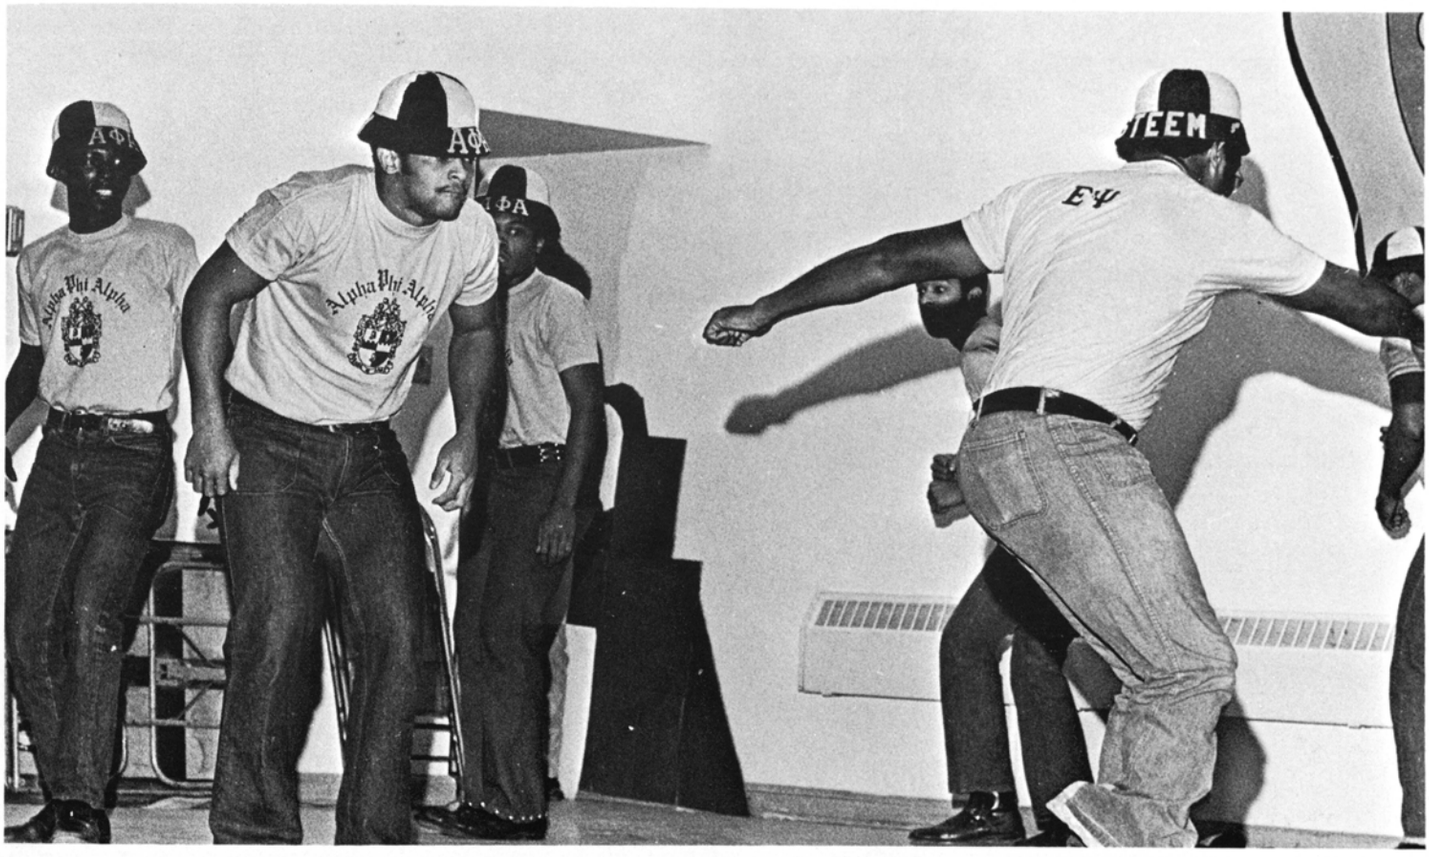
The Christmas season was celebrated with the usual amount of festivity and cheer. In keeping with tradition, however, Miners did not forget those less fortunate (see next page).

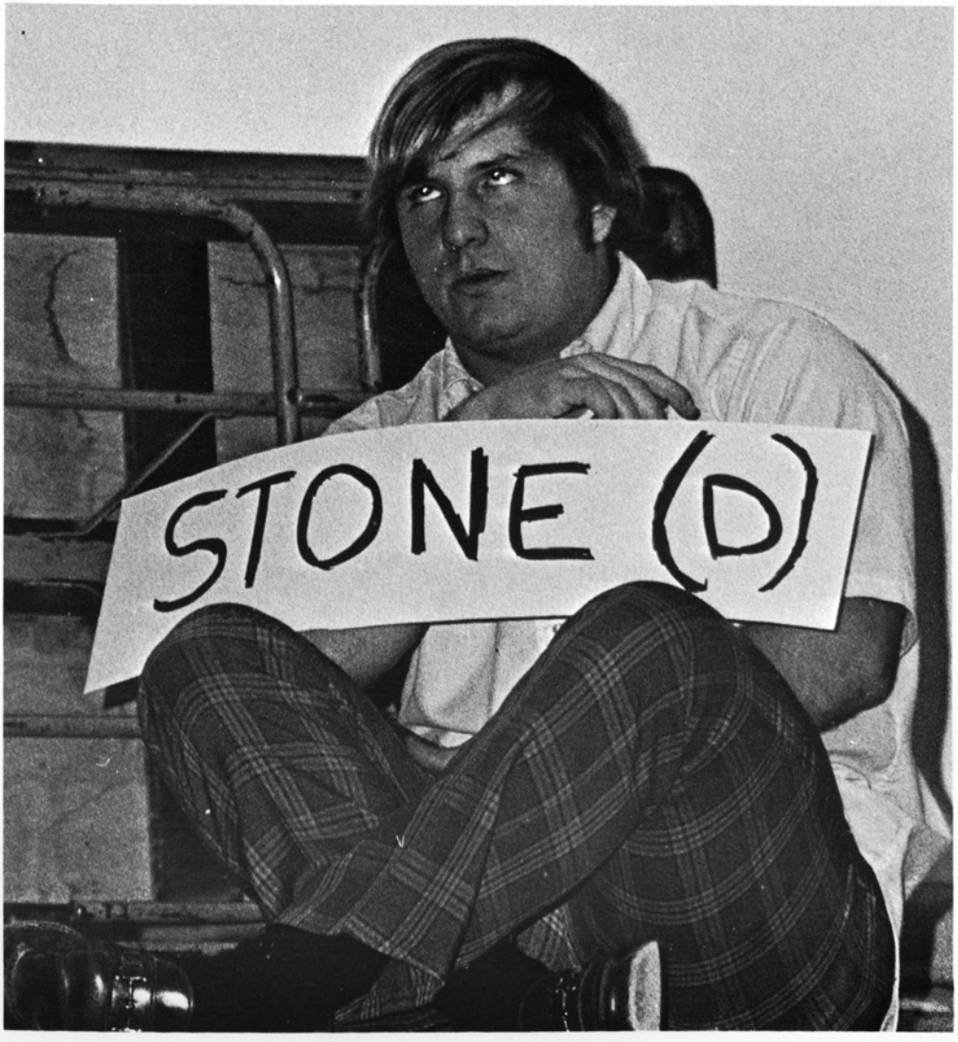
Students Aid Handicapped

Student organizations, both independent and greek, were responsible for the memorable Christmas which many local underprivileged and handicapped children experienced. Shown on this page is the Thomas Jefferson sponsored party for Boystown.



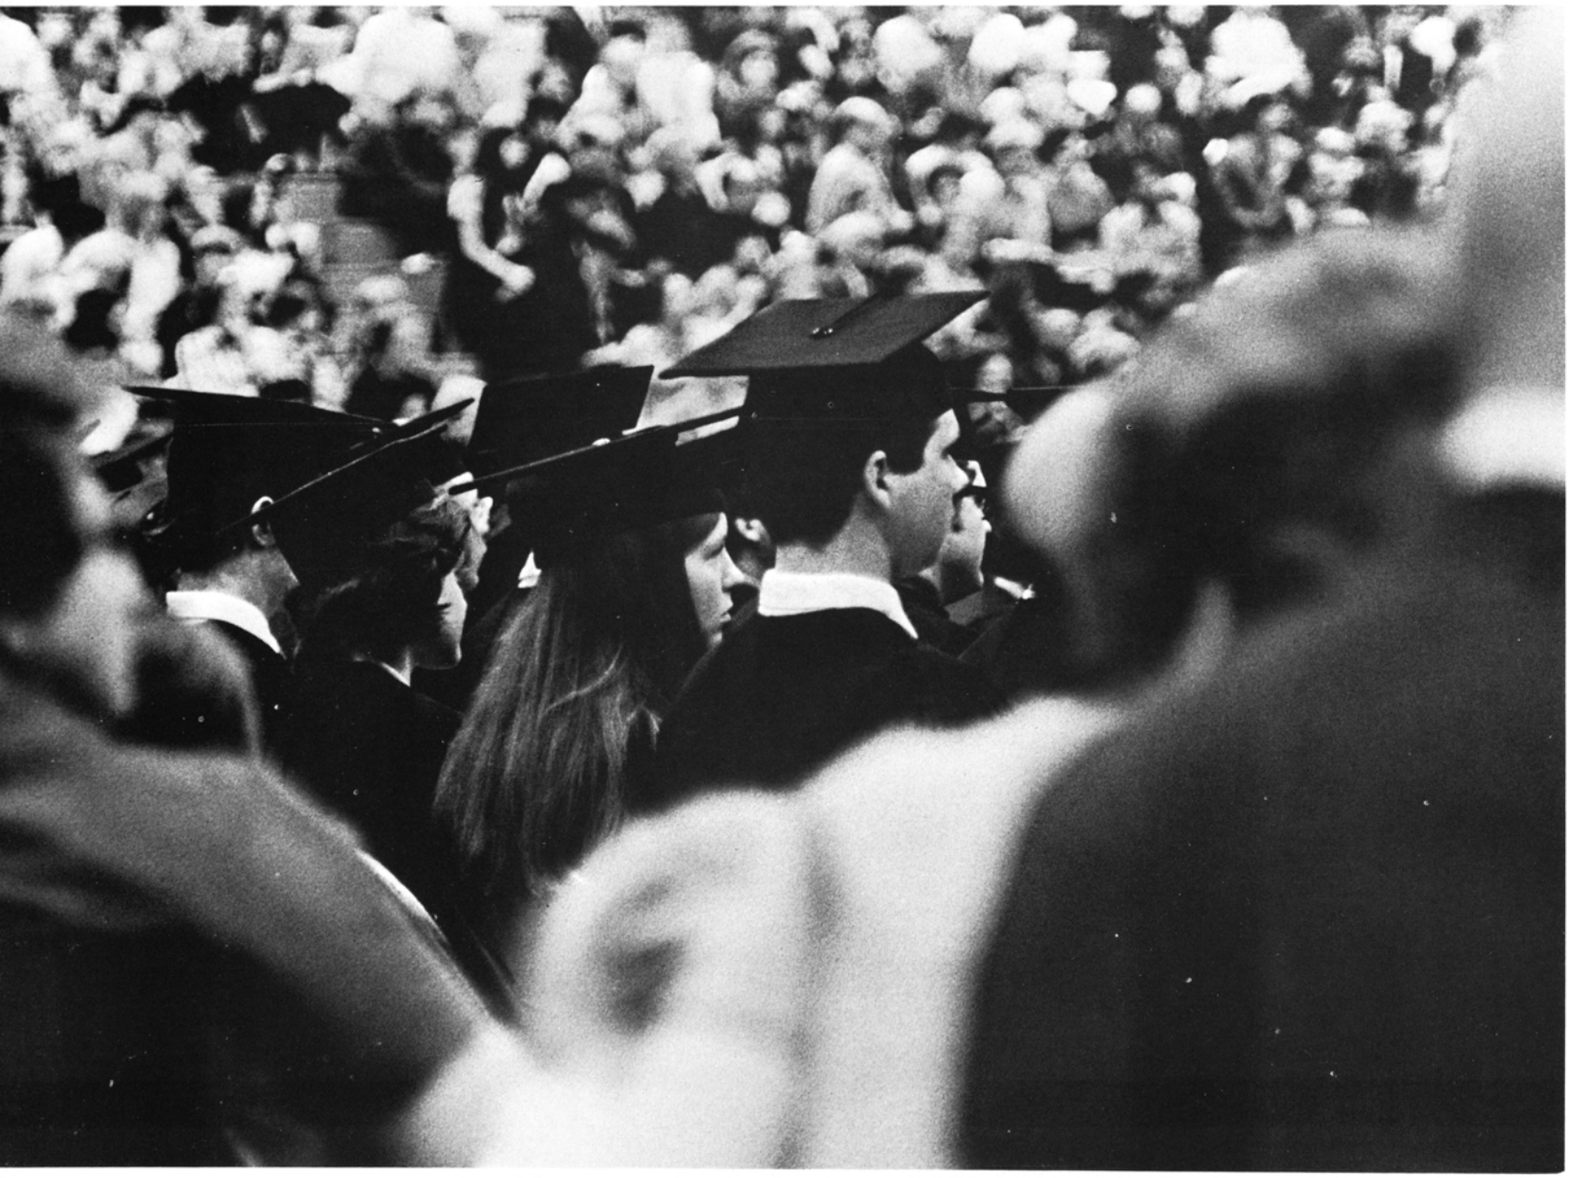






The annual IFC Sing was swept by Alpha Phi Alpha (above and top) and Tau Kappa Epsilon. Theta Chi (left) along with several other fraternities provided the evening's additional entertainment.

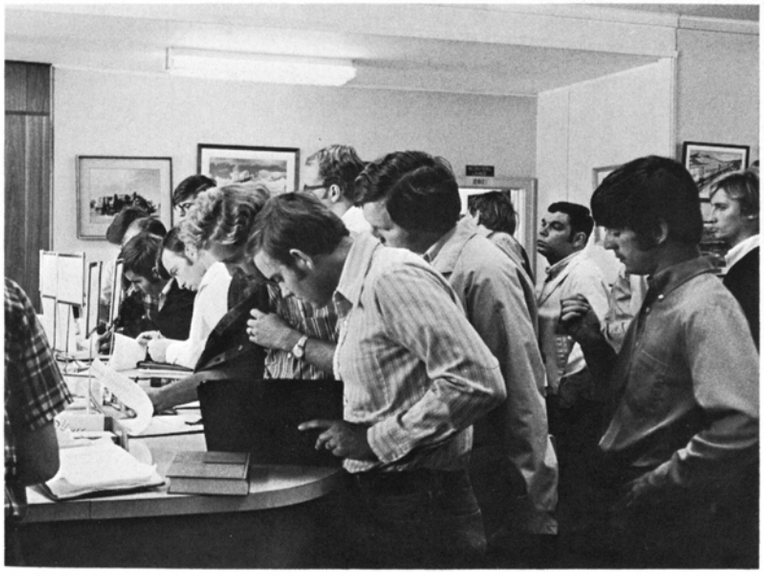
I.F.C. Sing

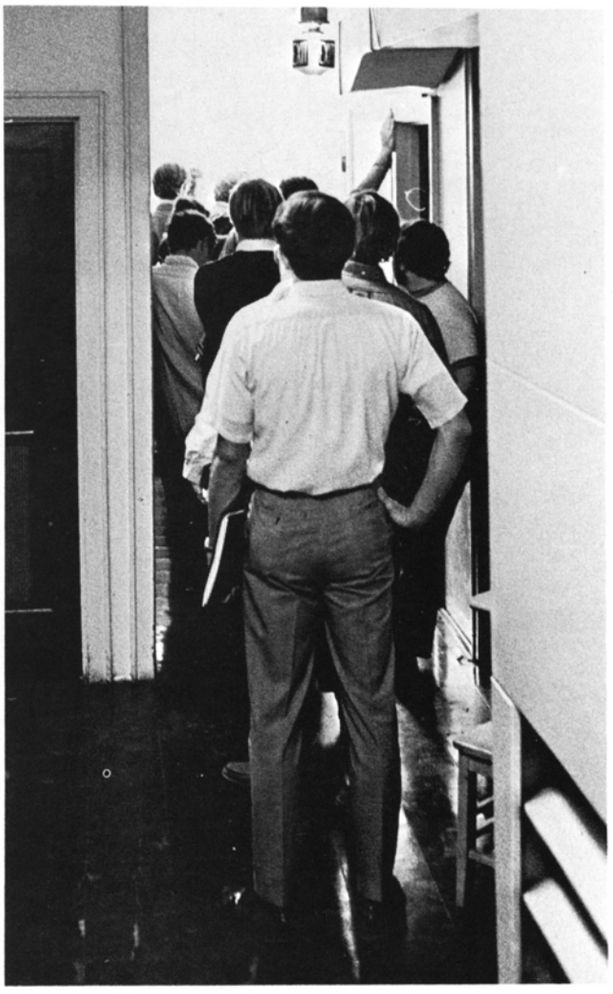


In one minor respect, graduation ceremonies since 1970 have changed, and they may continue to be different for several years to come. As employment became harder and harder to find, many December graduates, still without the prospect of a job, viewed graduation not as a time to relax and celebrate. Instead, graduation was a time when 4.7 college years of worry and grief went virtually unrewarded.

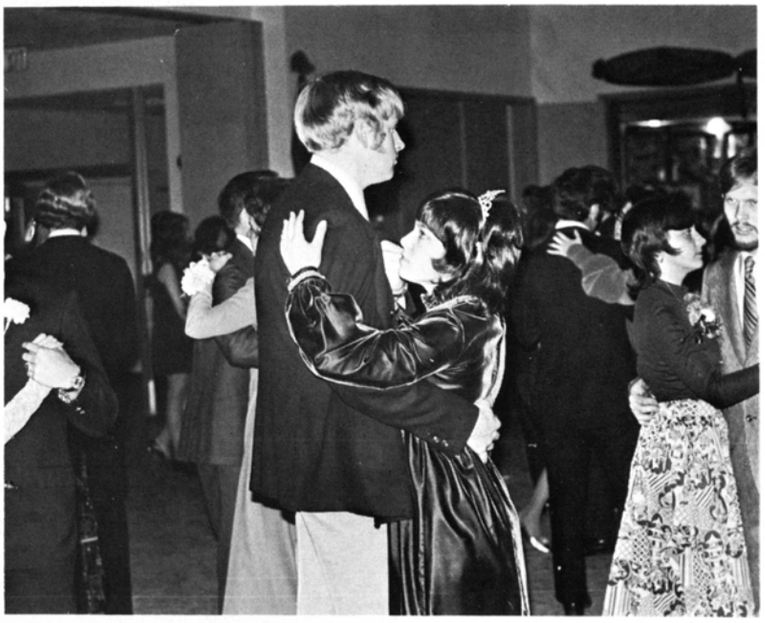
Job interviewing became a task which was more than enough for any graduating senior to handle, not to mention his academic and extracurricular responsibilities. At the UMR Placement Office (opposite page, top), long lines and waiting were commonplace and frustrations were many. Although faculty, administration, and even national statistics seemed to indicate that 1971-72 would be a good year for job placement, UMR Placement Office figures showed that the year was as bad, if not worse, than preceding years. The most credible forecasts pointed to 1975 as the year when demand for engineering and technically oriented students would again increase.

"I feel that
the greatest reward
for doing is the
opportunity to do more."



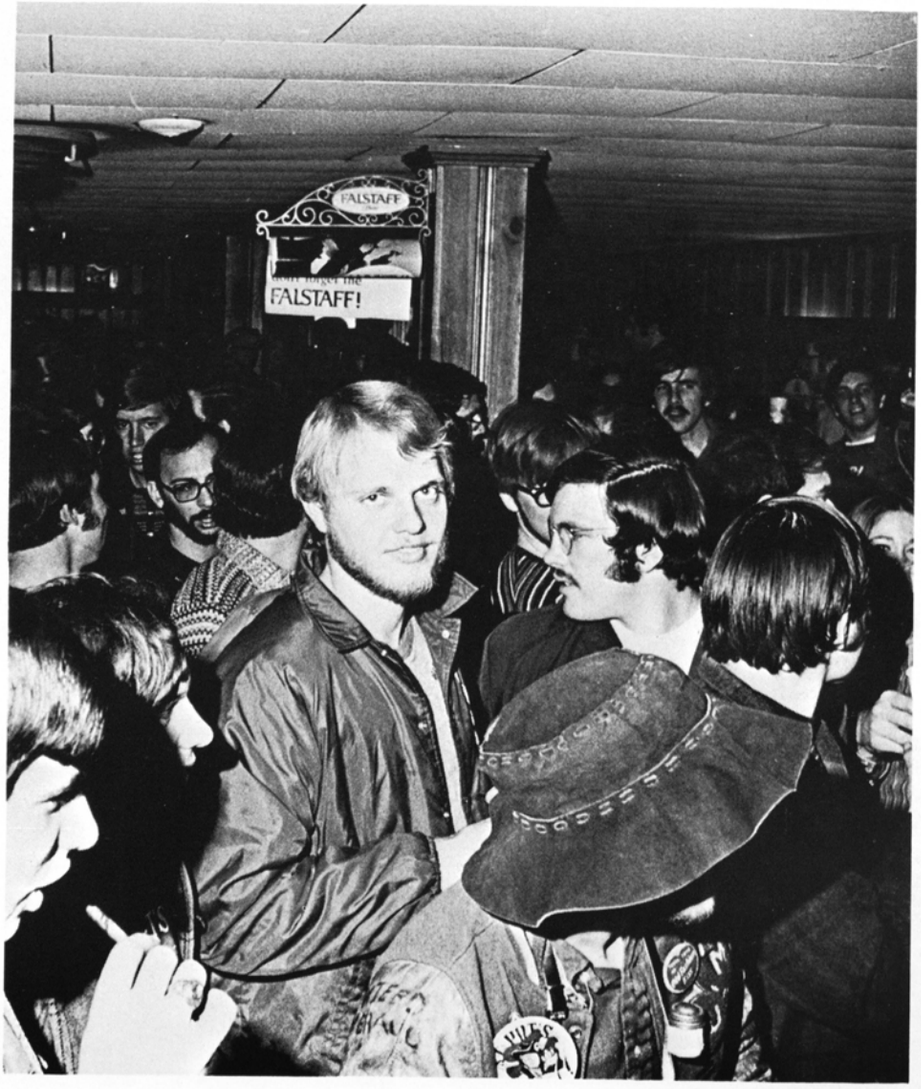


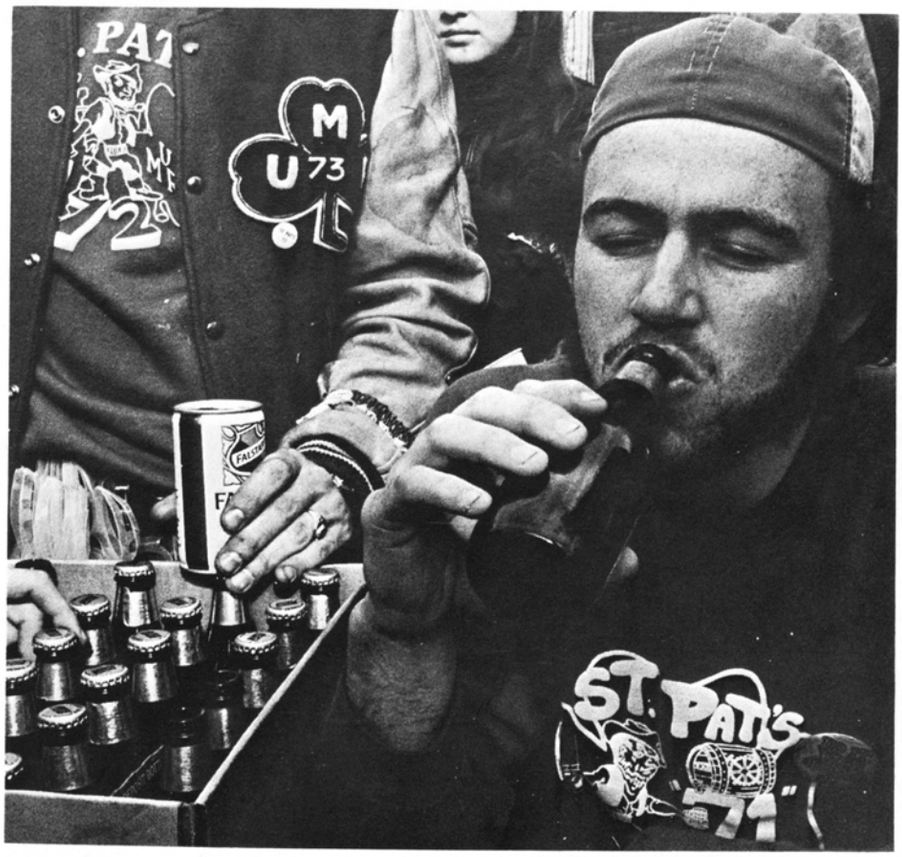
Mil-Ball Features Lloyd Stevens' Band

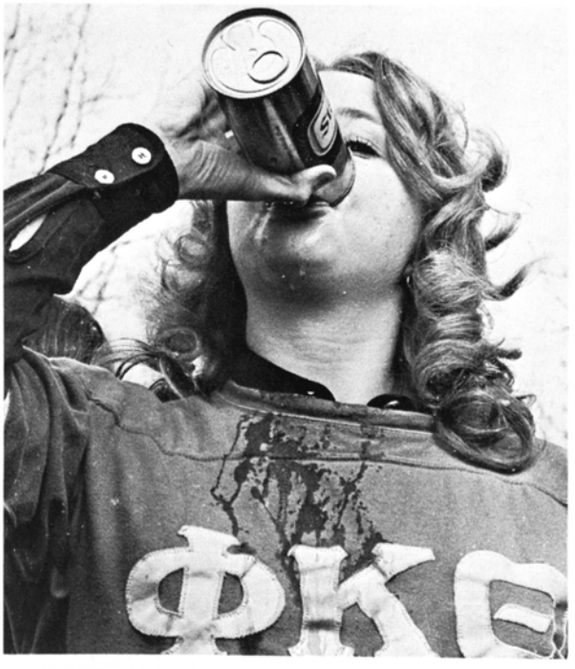


The 1972 Military Ball took place on Saturday evening of Valentine's Party Weekend. The affair was somewhat more casual than in years past, as it featured the sounds of the Lloyd Stevens' orchestra and Tony Mecurio (top). The highlight of the evening was the crowning of Miss Susan Stoner as Military Ball Queen (opposite page, bottom). Miss Stoner was escorted by Jim Wollard (top, left, and opposite page, top).

"Let the reverie begin"



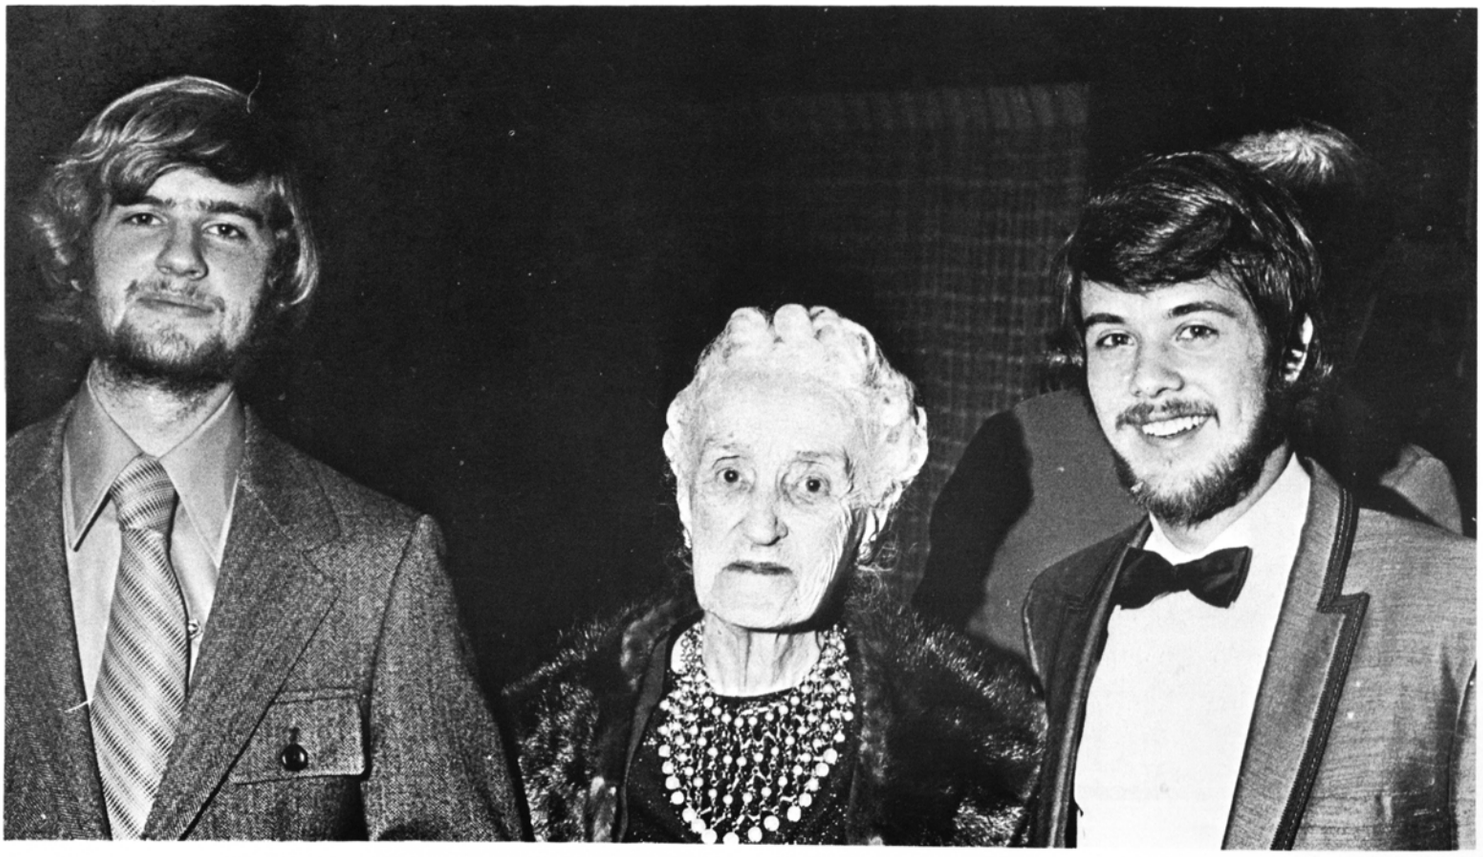




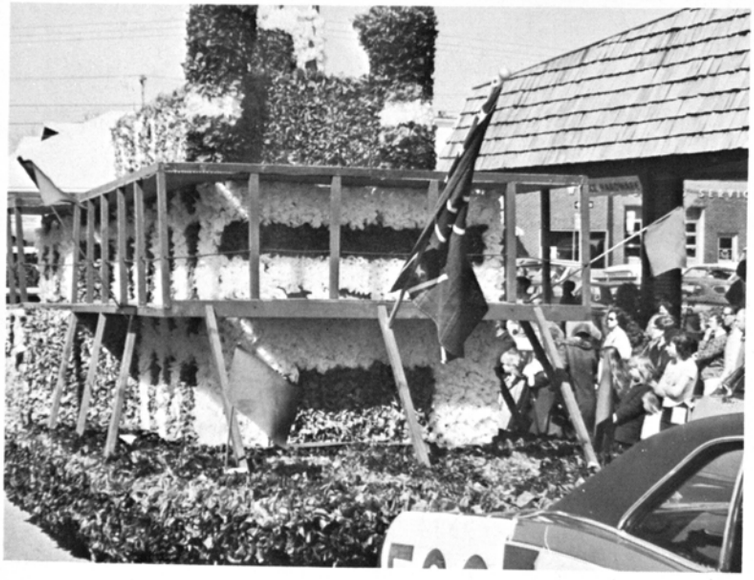
St. Pat's 1972 began in traditional fashion with St. Pat and his court arriving by hand car on Friday afternoon (opposite page, top). St. Pat, portrayed this year by Dan Mullen, paraded through town ending eventually at Top Hat for the tapping of the green beer (opposite page, left and right). Later, at Lions' Club Park, the annual games commenced. They consisted of shillelagh and cudgel contests (left), various men's and women's drinking contests (above and top left), and general unorganized merrymaking.

Miss Missouri is St. Pat's Guest of Honor

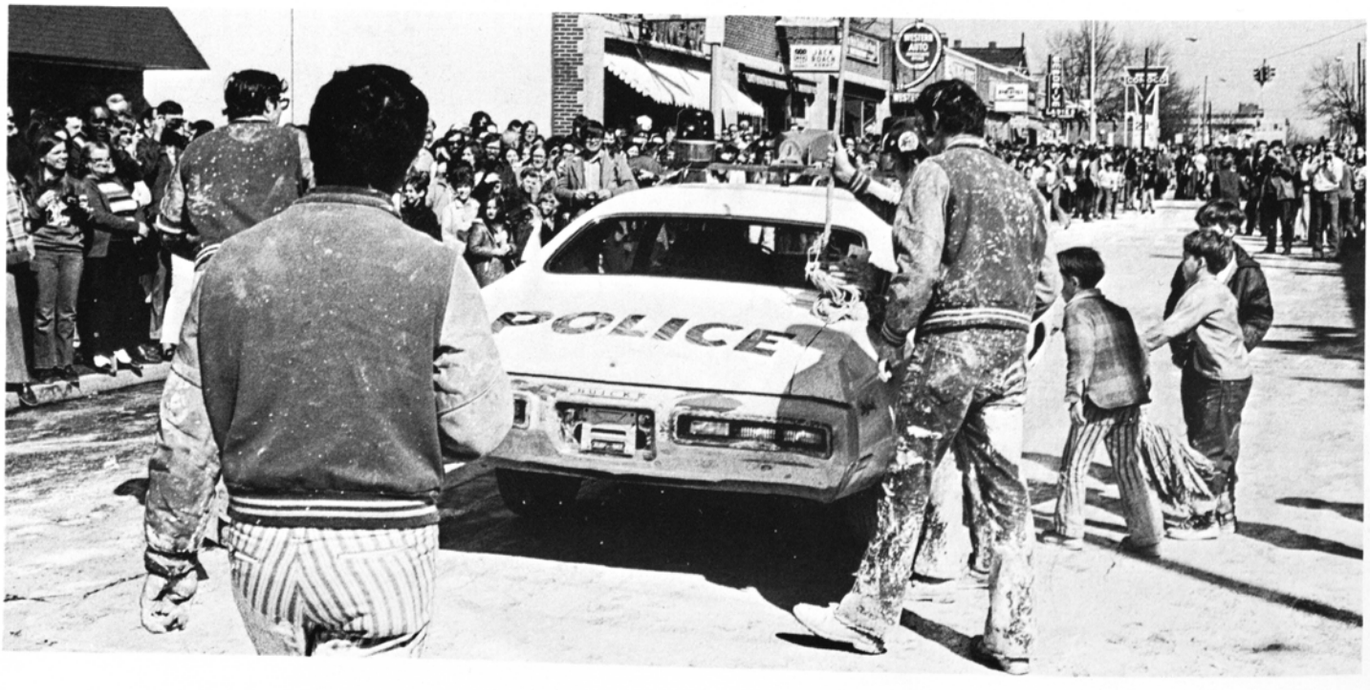
Miss Missouri (below), this year's Guest of Honor, was present at the majority of St. Pat's activities. Among the four men made honorary knights of St. Patrick at Friday evening's Coronation Ball (opposite page, bottom right and middle right) was James C. Kirkpatrick, Missouri Secretary of State (right). The St. Pat's Queen of Love and Beauty of a few years past (bottom) was present at the Coronation Banquet.



Miss Nancy Benesh (left) was named 1972 St. Pat's Queen of Love and Beauty at the Coronation Ball practice (top).



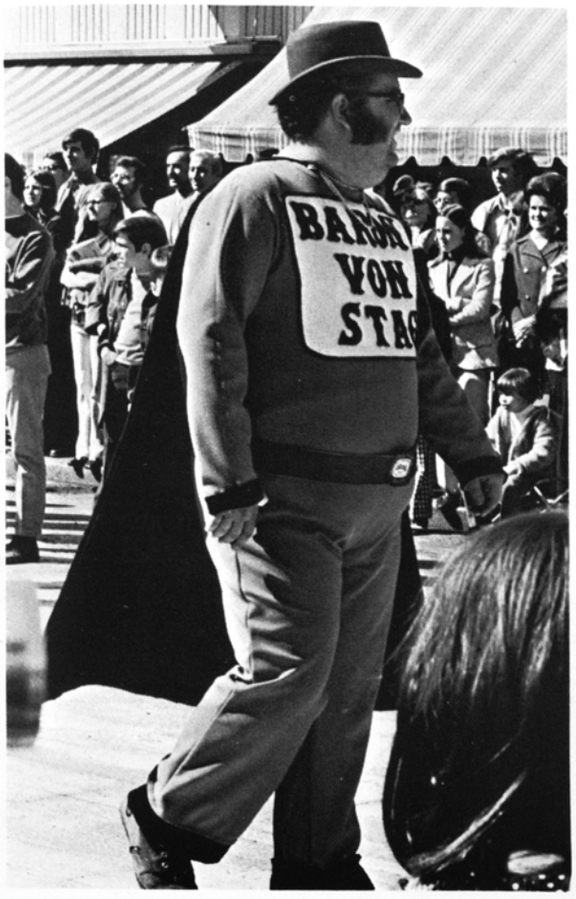
ESQUIRE
CUE CLUB
CUE CLUB



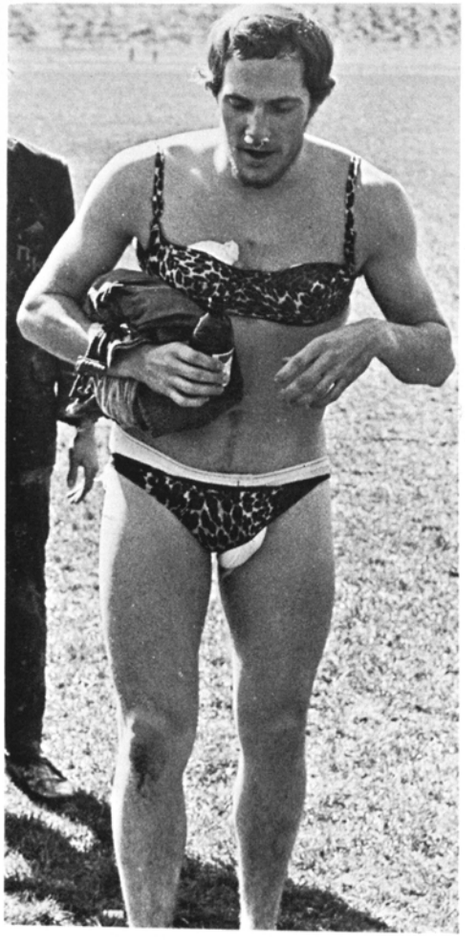
POLICE

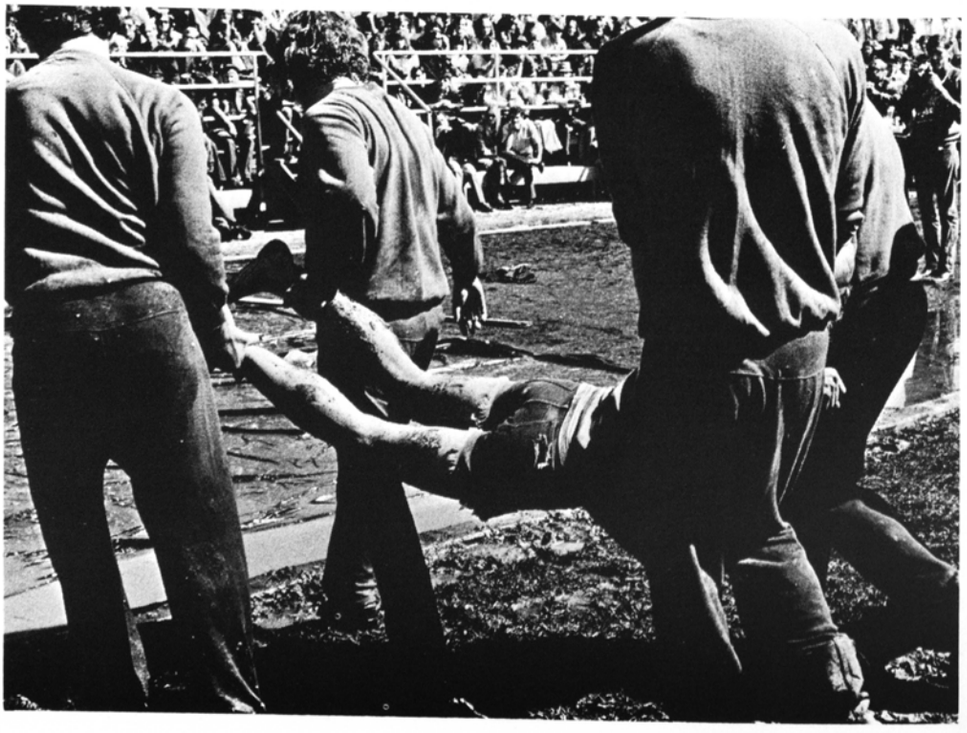
Parade Features "Famous Voyages"

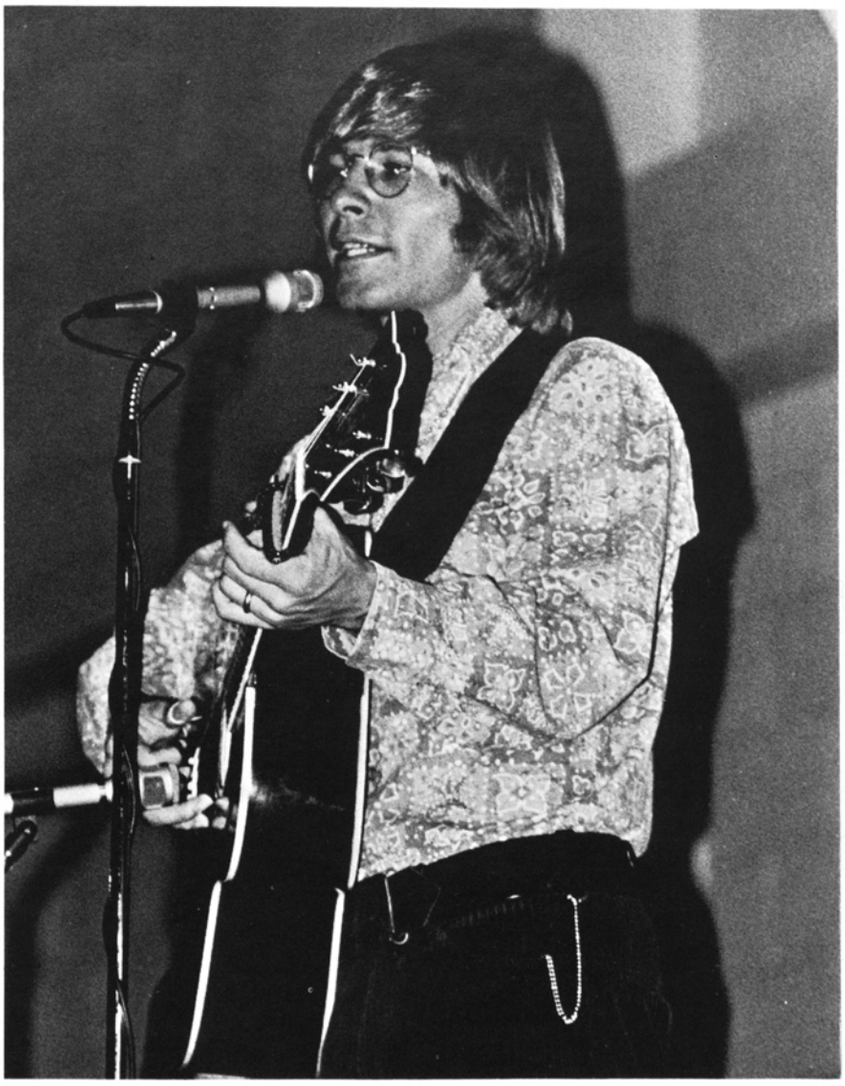
Among the highlights of Saturday morning's parade, the theme of which was Famous Voyages, was Beta Sigma Psi's first place float, "Lindbergh's Flight" (opposite page, top). In addition to the painting of Pine Street (opposite page, bottom), various marching units and non-float entries (left and below), and St. Pat on his manure spreader (top right), was the Queen's Float (bottom right) built by Pi Kappa Alpha. Midway through the parade, Delta Sigma Phi's float entry (opposite page, middle) burst into flames and experienced a spectacular, but disappointing, ending.



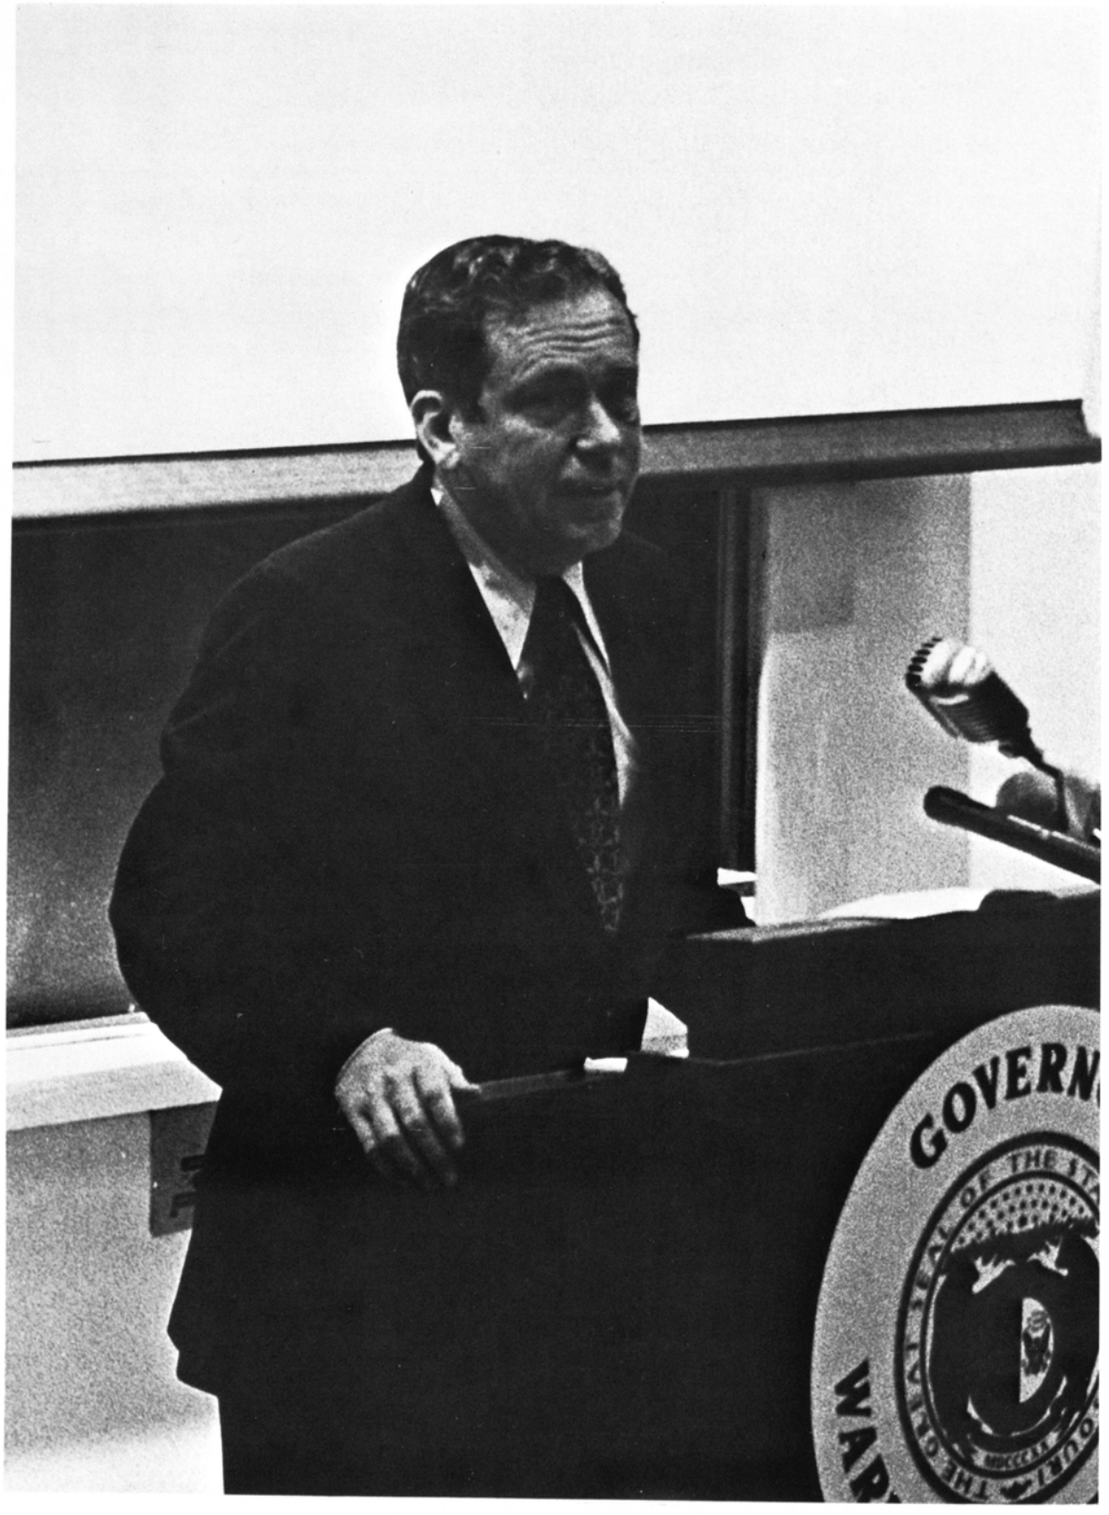
"Some things are funny as long as they're happening to somebody else." Will Rogers





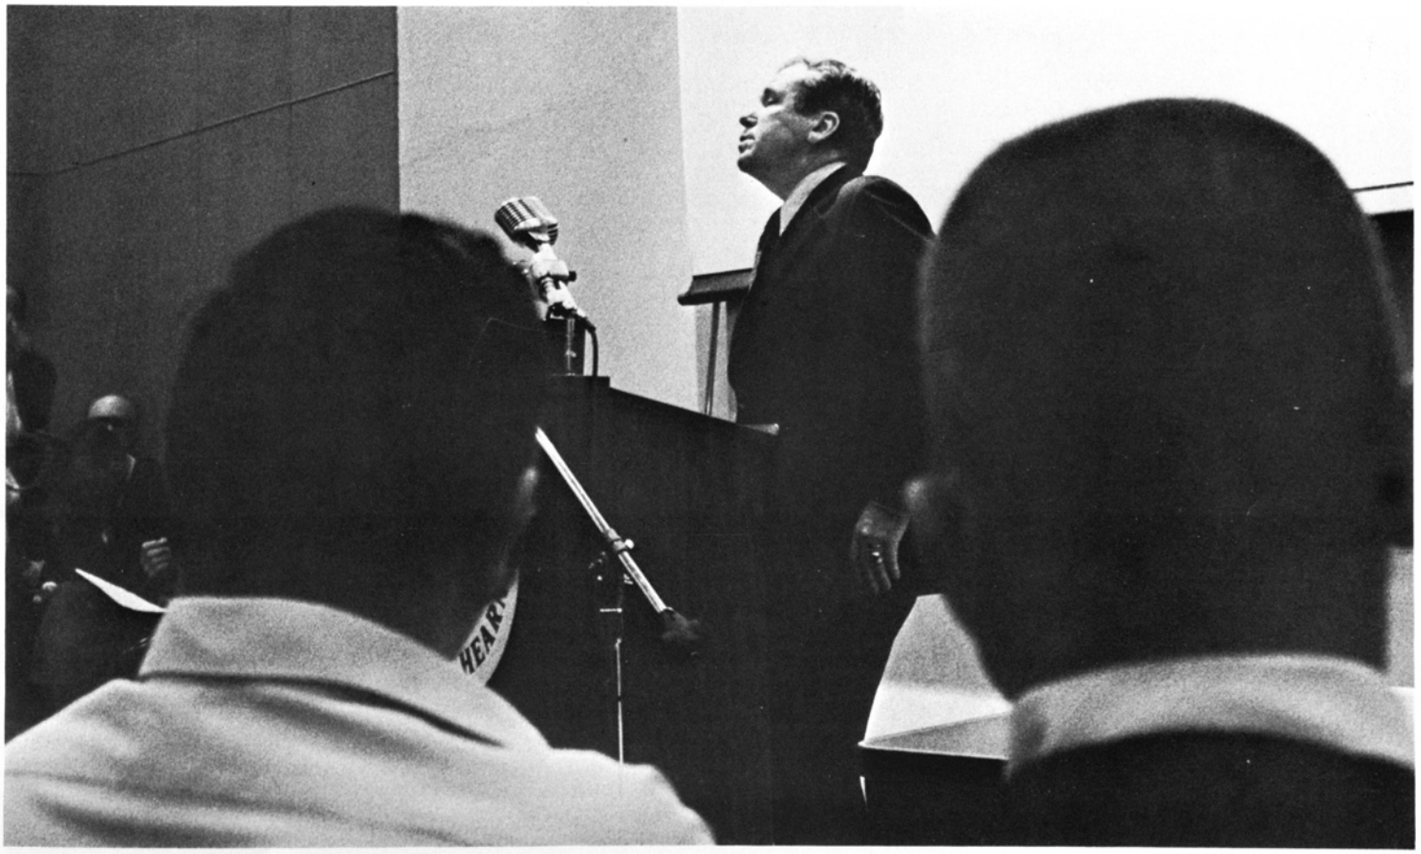


John Denver Climaxes St. Pat's Festivities



Gov. Warren E. Hearnes came to UMR in March to speak on "Considering the Social Responsibilities in Engineering-Management Ecological Decisions." Much of his lecture pointed out the successes and failures in ecological legislation in Missouri. In addition, Gov. Hearnes indicated that in order for engineers to solve ecological problems in the future they will have to be aware of the social and political aspects of the problem as well as the technological aspects.

Governor Hearnes Discusses Industrial Ecology



One of UMR's most challenging and meaningful projects to date has been the Education Release Program. During the Spring semester, five inmates from the State Penitentiary at Jefferson City proved they were capable of being constructive individuals by successfully completing undergrad courses at UMR. Their success, both in and out of the classroom, has paved the way for other inmates to enroll in undergraduate curricula of their choice. Dr. John J. Dahm (opposite page, bottom), Asst. Professor of History and director of the Education Release Program, feels the program is a major step towards prison reform and inmate rehabilitation.

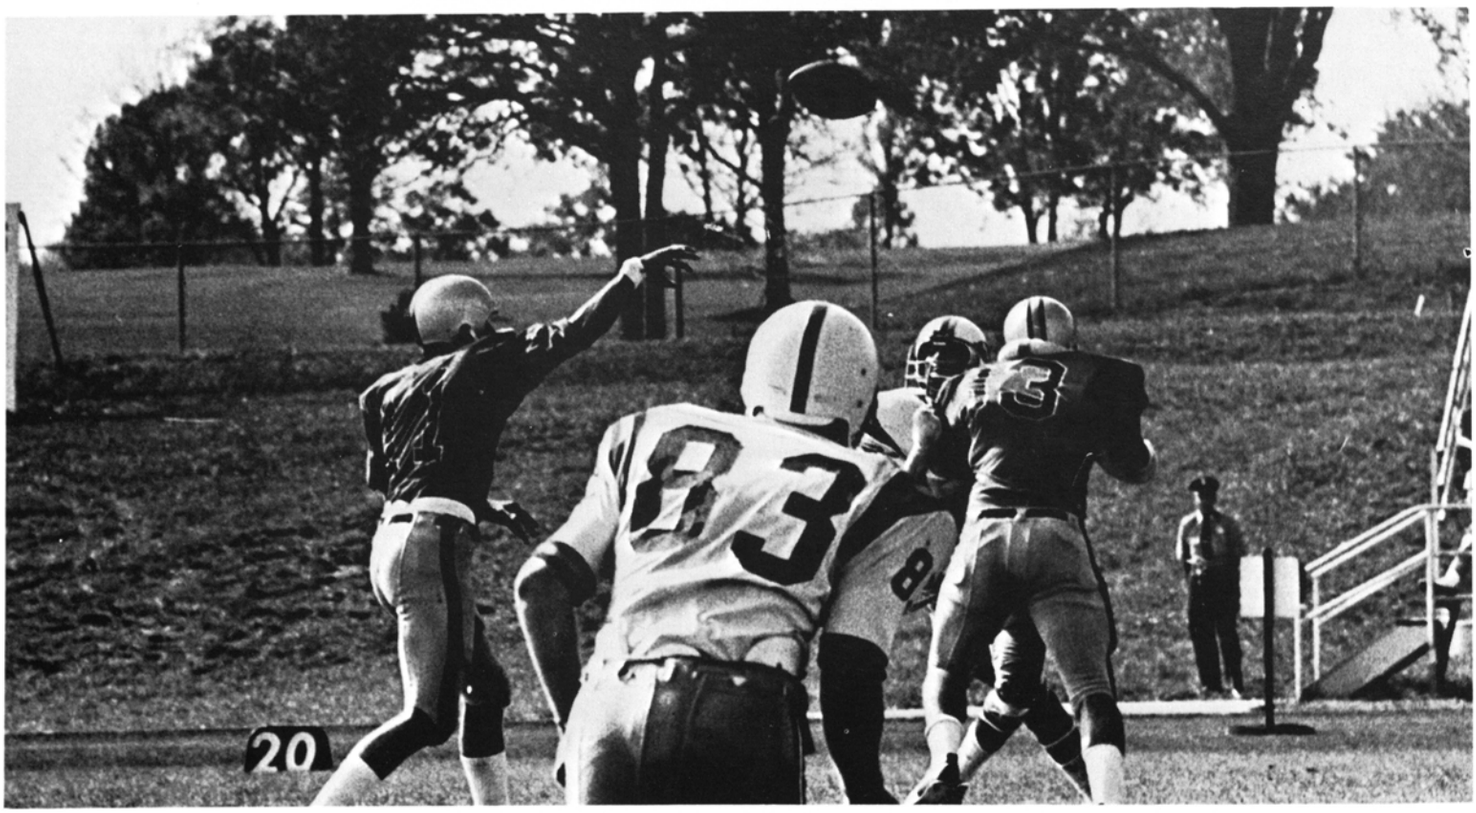
Football...



...the Year that Wasn't

What was destined to be a great year became only dreams as the Silver & Gold managed to rack-up a 4-6-1 record this past year. After the 1969 season record of 7-2 and last years 6-3-1 the Miners felt optimistic as ten offensive starters returned for the new season.

However, the high hopes began to falter as UMR was downed 20-0 in its opening game by the "Gorillas" of Kansas. Later the Miners scored an impressive victory over Culver-Stockton, but of more importance was the Homecoming victory over Northwest Missouri State by a score of 21-19. It was the first Homecoming victory since 1965.

One of the most spectacular games of the year was with Warrensburg. Along with managing to give us 157 yards in penalties their defense faltered as Pat Godwin completed three touchdown passes to bring the Miners to a 2-0-1 record in MIAA. But title hopes faded as Cape romped past UMR with a 42-21 upset. Fumbles, bad punting, many interceptions, and just plain loose playing gave the Miners the first conference loss of the year. The rest of the season was downhill as the Miners lost their last four games culminating with Lincoln.

Best Season---Ever

This past year was acclaimed "the year of the basketball" by the Missouri Miner and rightly so. The Miners tied for third in MIAA competition and placed two team members on the All-Conference First Team. The "best year ever" showed a final tally of twelve wins and eleven losses.

After a mediocre early season the cagers romped over four conference rivals in the second half of the season by defeating Maryville, Kirksville, Springfield, and Warrensburg in succession. In the final conference battle with Lincoln the Miners saw their dreams of Conference Champs wither away as the team leader, John Williams, left the court with a leg injury in the second half. During that game the UMR roundballers had led 42-41 at half, but lost the game after two overtimes by a score of 81-79.

After a bitter battle on the eligibility of a Lincoln player the Miners finished the season tied for third with Southeast Missouri State in the Conference. John Williams and Rich Peters were placed on the MIAA All-Conference First team, a first for UMR, and Peters was also given the MIAA Sportsmanship Award.

Grapplers Post 5-10 Season...6th in MIAA

In its third year as a varsity sport at UMR, wrestling gave the spectators a good show this past year. But the excitement didn't tally on the score cards as the Miners posted a 5-10 season. Of much concern to the matmen was the loss of Gary McAlpin due to a broken leg. Gary, who wrestles in the heavyweight class, placed second the previous two years in Conference action.

With the loss of McAlpin, Steve Ganz took the limelight. He holds a 16-7-2 overall record and led the grapplers this year by taking the Conference Champion title in the 190 pound class. He also leads the Miner wrestlers with the records of Most Wins, Most Team Points, and Least Points Given Up.

Though the Miners never got anything going, they managed to show impressive victories over Lincoln and Wash U. This past season brought the Miners to a 17-19-2 overall record for three years of active competition. Going into its fourth year the matmen, under the watchful eyes of Coach Joe Keeton, will again see McAlpin and Ganz in action and hopefully a better season.

Hurlers Take MIAA Championship

The Miner diamond gang finished a very successful season by securing UMR's only MIAA title this year. After a slow start with two losses early in the year to McKendree the Miner hurlers came on strong and finished Mid-year with an impressive eleven wins and five losses.

During the early part of the second half of the season the Miners again slid into a slump. With progressive losses to Drury, Washington University, and two to UMSL, the team stood at a 15-9 record. However, under the careful guidance of Coach Jerry Kirksey the team picked up five victories in its last eight games to finish the Spring with a 20-12 overall record. Out of this came a 9-3 slate in conference play which was good enough to give the title of MIAA Champion to UMR.

Federation of Latin American Students

Federation of Estudiantes Latino-Americanos is a campus organization that offers friendship and identity to students and wives from Spanish-speaking countries, or to students that have an interest in Latin America. Often the activities are spontaneous, such as parties at members' homes which always include singing and playing typical Spanish American music. Twice a year is the much anticipated FELA picnic with delicious barbecued steaks. The ideal of FELA is that each member might make his homeland better known to Americans through musical combos and singing groups and through posters of different Latin American countries.

India Association

The purpose of the India Association is to promote friendship and understanding among Indian and American students and students from other countries. The association also assists in overcoming any difficulty our fellow Indian student may encounter. The association has about 40 members. As in the past, the India Association kept the artistic taste of its members alive by sponsoring four excellent Indian movies, each depicting an aspect of Indian life. The Republic Day of India (Jan. 26) was also celebrated and the guest speaker was Dr. Theodore J. Planje, Dean of the School of Mines and Metallurgy. The Association plans to show four movies in the spring semester and an annual banquet which will be called India Night. The India Association also contributes $307 toward the Refugee Relief Fund for the Bangla Desh Refugees.

FRONT ROW: G.S. Aneja, Treasurer; B.S. Samra, President; H.K. Sud, Vice-President; Mr. Patel. Row 2: N. Choudary; D. Rajkarne; S.K. Tolani; B.M. Shah; D.R. Majmudar.

Iranian Students Association

The Iranian Students Association is dedicated to promoting friendly relations between Iranian students at UMR and others. The organization also provides guidance to new Iranian students on matters of orientation, housing, registration employment, and other pertinent problems.

Meetings keep the Iranian students at UMR informed of the news concerning Iran and Iranian students throughout the world. In addition social events are held to promote fellowship among Iranian students and to provide needed relaxation from studies.

Korean Student Association

The Korean Student Association was officially recognized about two years ago, and has made much progress in promoting better mutual relationship and understanding among all students at the University of Missouri-Rolla. The activities of the KSA were a Korean film festival, a lecture series, and picnics at Meramec Springs near St. James, Mo.

Organization of Arab Students

The objective of the organization of Arab Students in addition to its educational, cultural and social activities, is to bring the American people and the Arab people to closer ties of understanding and cooperation, and to share in simple everyday living with all our fellow students. To achieve this objective the organization held its annual banquet in November. A Gazza Week was observed in December to present the true picture of the struggle of Palestinian people against the occupation forces.

Front Row: Bashier Wariath, Hussein Ben Hussein, Ahmed Mahmoud, Mohammed Ali Shilli. Back Row: Adel N. Saud, Secretary; Dr. I. Adawi, Faculty Adviser; Abdulsalam, A. ElQallali, Vice-President; A Qaddumi, President.

Baptist Student Union

During the past year, the Baptist Student Union has served as a principal source of Christian fellowship for students, in addition to supplementing the ministries of the local Baptist Churches. The B.S.U. has been active in the various state conventions and retreats. They have also held worship services at the Old Soldiers' Homes in St. James every Sunday and have had several coffeehouses. They sponsor an International Banquet each semester and take part in intramural sports. The B.S.U. has two meetings a week in which they have Bible Study, personal testimonies, and prayer. They seek to bring Christian people closer together in love for Christ and to tell others about the love of Christ that they might come to know God in a personal way.

Gamma, Delta, the International Association of Lutheran College Students, seeks to promote Christian knowledge, service, and fellowship among UMR students. The chapter had an active schedule this year. A weekly Bible study was held. Thought-provoking movies, interesting speakers, and discussions followed several of the meetings. Meetings were held twice monthly and were preceded by delicious, cost suppers. Activities with other chapters included weekend retreats and an annual float trip. Service projects included a slave day and the serving of refreshments after Lenton worship services.

Interfaith Council

The Interfaith Council is a council composed of representatives sent from the campus religious organizations. It coordinates and supplements the activities of its members and generally promotes religion on campus. It is advised by Dr. R.M. Welleck. The officers are: President Mark Pickell, Vice-President Mike Miller, and Secretary Doug Lundin. Active organizations are Gamma Delta, Newman Club, Baptist Student Center, Wesley Foundation, Liahona, and Alpha.

Left to Right: Dr. Wellek, Advisor; Robert Schaefer; Douglas Lundin; Mark Pickell; Rich Schippers; Rich Duke; Wayne Jordan; Richard Gloff.

Intervarsity Christian Fellowship

Front Row: Steve Ruth; Pam Thebeau; Janice Rohr; Don Rice, President; Janet McMinn; Dr. Charles Hatfield, Advisor. Back Row: Steve Dillender; Daniel McElhiney; Harry Ward; David Rice; David Thompson; Fred Aszzoli.

Newman Club

The Newman Club at UMR seeks to bring Catholic students together in a spiritual community so that their development of faith parallels their high degree of intellectual insight and fulfillment. Daily and student oriented Sunday Mass, marriage-preparation programs, continuing inquiry discussion groups, and counseling are only a few of the benefits offered. Along with UMHE, Ecumenical Programs on Campus, inner-city renewal programs, and the Freshman assistance program, we have many challenging and fruitful committees that all, in some way, foster Christian brotherhood, leadership, and intellectual growth.

Liahona

Liahona Fellowship is the world-wide organization on college and university campuses of those students, and their friends affiliated with the Reorganized Church of Jesus Christ of Latter Day Saints. Its purpose is to provide opportunity for spiritual service and recreational activities for its members.

Meetings are held weekly, with a study class on Sundays. Members are active in local church activities and service. Earlier in the year, members from Central Missouri State were invited down for a weekend of fun and fellowship. It is our intention to encourage more inter-campus visits in the future.

Wesley Foundation

The school year 1971-72 was a year of changes for the Wesley Foundation here at the UMR campus. The biggest change was the acquisition of a new director, Rev. Thomas E. Nagle. He brought with him several new ideas that had a great impact on the activities of the House, including the planning and execution of a trip to Colorado.

Many of the traditional activities remained, however, including Wednesday night meetings, parties, Sunday studies, and work projects. The fall semester saw work projects at the Methodist Children's Home and a Boy Scout near Ironton.

The high point of the fall semester was the construction and planning of the 1st place display in the Rolla Optimist Club's Christmas display contest. The theme of the display was Little Drummer Boy. Accompanying the display was a light show and taped Christmas carols.

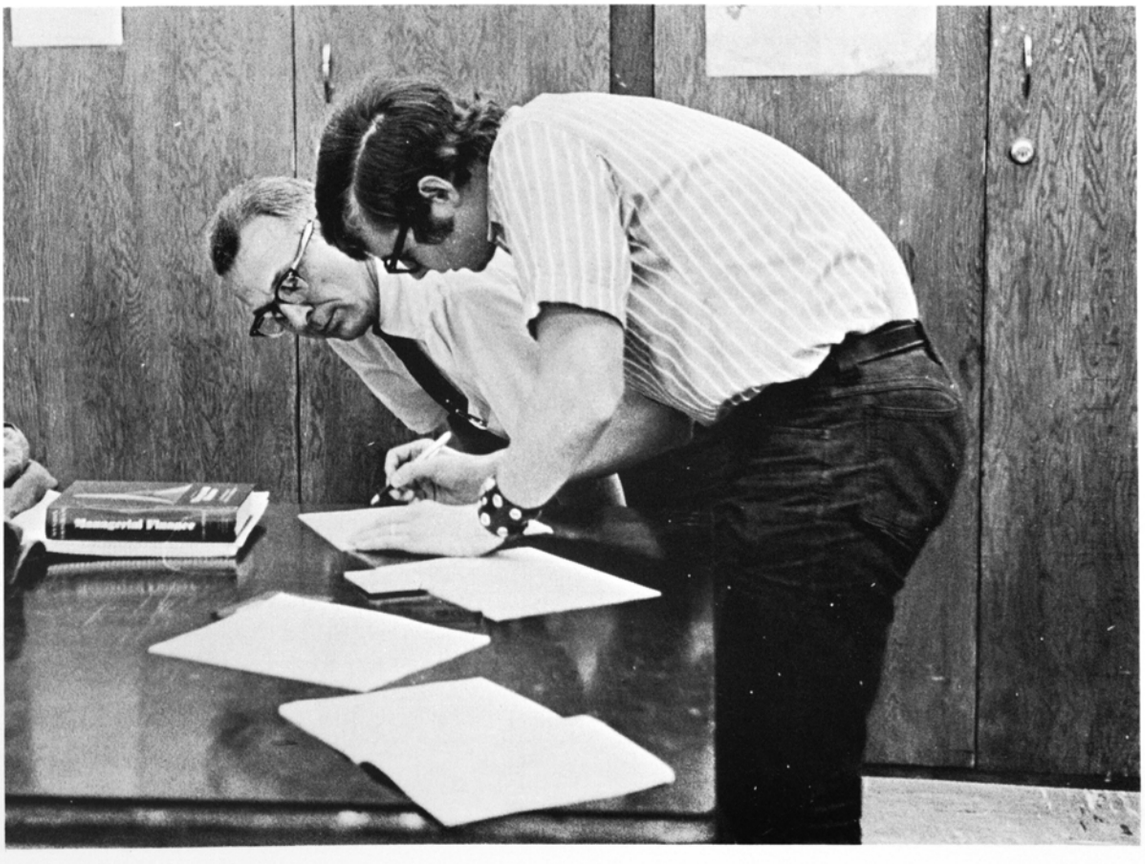
SERVICE AND HONORARIES



Alpha Chi Sigma

Row 1: Ray Wildhaber, Vice-Pres.; Mike Tibbits, Alumni Sec.; Jill Senne, Hist.; Dick O'Hearn, Pres.; Carol Langemach, Rec.; Steven L. Walker, Treasurer; Gary Bland, Reporter. Row 2: Cecilia Meyer; Jon Howell; Paul Erlandson; Daivd Bachmann; Ken Tacchi; John Adams; Dale Noel; Criag L. Fadem. Row 3: Kent Anderson; Richard Kess; Victor J. Becker; Wayne Cagle; Mike Trancynger; Neal Lewis; Gary J. Fennewald.

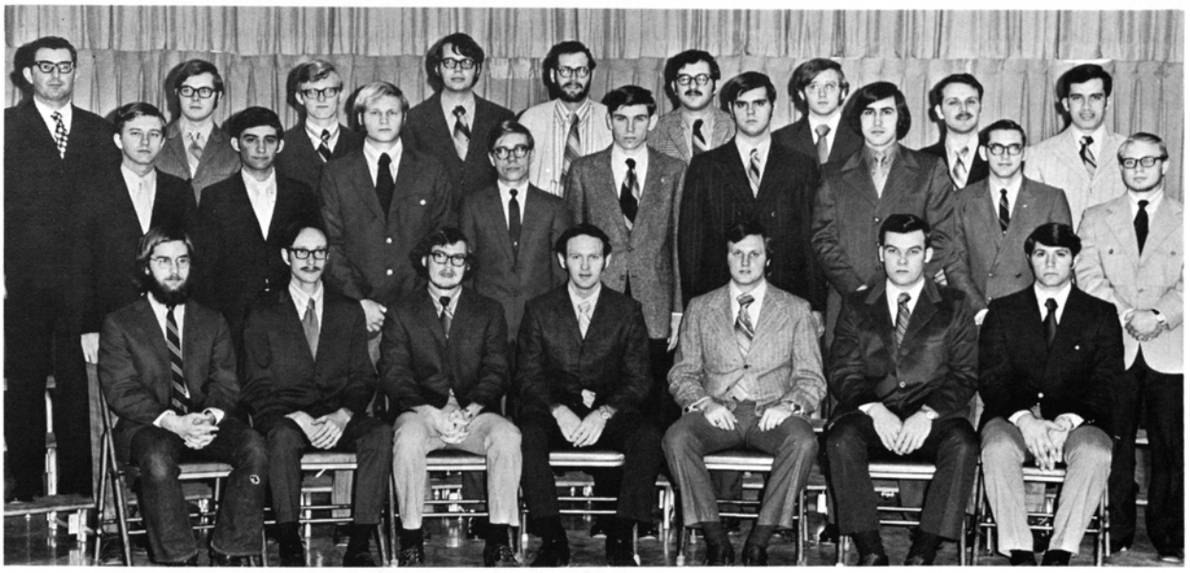
Alpha Chi Sigma strives to develop fellowship, aid its members in their professional development, and to improve student faculty relations. At UMR the fraternity sponsors a chemical Merit Badge for the local Boy Scouts, tutors freshmen chemistry students in help sessions, organizes a safety program for the prevention of laboratory accidents, and presents the annual Prof. Snarf Award to the most deserving professor in the Chemical Engineering and Chemistry departments.

Outstanding achievement in the area of Metallurgical Engineering is rewarded at UMR by membership in Alpha Sigma Mu, the National Metallurgical Engineering Honor Society. The organization presents various educational and social functions for its members, including its annual initiation banquet, pledging program, student-faculty outings, and field trips. Composed of students who are in the upper third of their class, the organization boasts a select group of future American industrial leaders.

Alpha Sigma Mu

Row 1: Dave Droeter; Joseph R. Ward, Vice-President; Michael Holt, President; Bruce A. Lamping, Secretary; Frank Minden, Treasurer. Row 2: Charles Wasem; Bill Brockmeier; Fred Wchweizer; Andrew Kleinert; Lee Sherman; Bob Brown. Row 3: Bob Scanlon; Bill Bennett; Pat Tibbits; Steve Wunning; Donald Zweifel.

Chi Epsilon



Row 1: Dana Reel; Dennis E. Reineke; Bob Stewart, Ass. Ed. of the Transit; Robert Stanley, Treas.; Rich Laschober, Pres.; Billy Arthur, Pledge Marshall, Steve Biederman. Row 2: Rick Coartney, Daryll Chenoweth; Mel Baldus; David Lewis; John Lauth Sam Bradshaw; Terry Frake; Dale Houdeshell; Gregory Sherwood. Row 3: Leo Holland; Calvin Heseman; Gary M. Neutzling; Doug Knuth; Patrick M. Byrne; Tom Keith; Alan Naas; Ceasar J. Santucci, Cpt.; J.S. Rilovick.

Chi Epsilon is the national civil engineering fraternity. It is the goal of this organization, in addition to honoring outstanding civil engineering students, to promote the interests of the civil engineering profession. Membership into Chi Epsilon is based not upon scholastic ability alone, but also upon an individual's character, practability, and sociability. Besides initiating selected undergraduate members each semester, the UMR chapter recognizes civil engineers who have distinguished themselves in their careers by initiating them as chapter honor members.

Eta Kappa Nu, the honor society for Electrical Engineers, comprised of juniors and seniors who have shown exemplary character and distinguished scholarship in the field of Electrical Engineering, performed several school service projects during the 1971-72 school year. Laboratory insurance was sold to students taking EE labs, with proceeds going to a scholarship which is awarded each year to a deserving EE student. Eta Kappa Nu members also served as guides for University Day.

As a honor society, Eta Kappa Nu continued in promoting the ideals of scholarship and academic excellence while serving the student, the school, and the community.

Front Row: Leland Ford; Ralph Carroll; Gary Oleksiw; Mike McDonald; Don Bene, Pres.; Chau-Chang. Row 2: Leon Crawford; Larry Merry, Vice-Pres.; Dean Delker; Gary Smith; Craig Buback; Rich Bartlett; Dr. Adair, Advisor. Standing; Paul Krieghauser; Steve Davis; Jim Jeff; Dave Vogelpohl; Steve Belsky; Jim Varwig; Bob Volkmar; Gary Robinson; Charles Audrain; Charles Raiff; John Elliot; Randy Hasselfeld; Dale Stevens; Ron Fadler; Leonard Laskowski; Bob Egbert; Bruce Kessler; John Prigatil; Charles Erwin; Robert Clark.

Eta Kappa Nu

Row 1: Jim Joiner, faculty advisor; Peggy Shackles, Historian; Deborah Fugitt, Secretary; Dana S. Nau, Vice-President; Leonard Laskowski, President; Prof. Roy Rakestraw, Corresponding Secretary. Row 2: Fong-Ting Lam; Robert Holliday; Kendall P. Weis; William M. Black; Don Hoffmann; Charles C. Fuller; Lester Flemm, Integrator; Richard Karhuse. Row 3: Larry Sansoucie; Scott Winfield; Paul W. Horstmann; Don Taylor; Bruce Mitchell; Jim Stouse.

K.M.E.

This year, the Missouri Zeta Chapter of Kappa Mu Epsilon, the National Honor Fraternity for students with a serious interest in advanced studies of mathematics, has been playing the role of a service organization as well as an honorary. Some of the service projects include; distribution of entergral tables to the differential equations classes and help sessions for the lower level math classes.

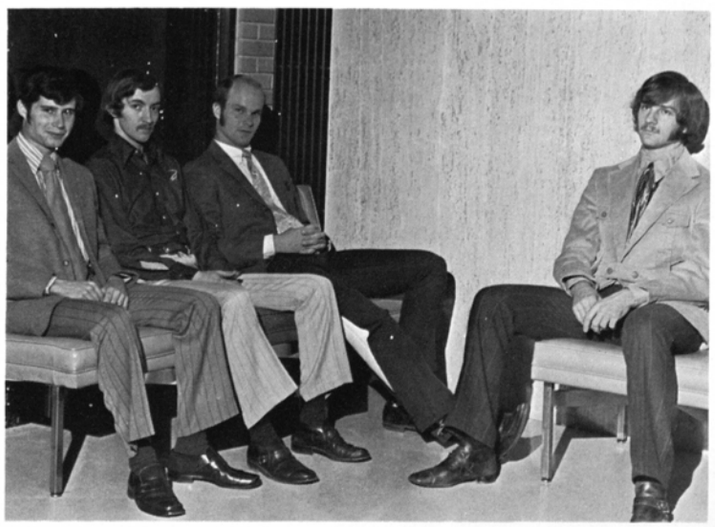
The meetings frequently included talks about job opportunities in the field of mathematics.

Also, KME sponsored an outing in order to acquaint its members with the math faculty.

Keramos

This year Keramos, the National Ceramic Engineering Honor Fraternity, initiated eight new members. Keramos members conducted tours of the Ceramic Engineering Department on University Day. Other projects undertaken this year include production of a film to be used in recruitment, manufacture of ashtrays from beer bottles, the "Outstanding Senior Award," and the production of the Mudslinger, the departmental newspaper.

Row 1: Dennis Schubert, Vice-President; Russ Smith, President. Row 2: Richard Brockmeier, Secretary; Robert M. Doerr.



Nuc. Eng. Honorary

On December 11, 1969, the Nuclear Engineering and Science Honor Society was established at UMR. The object of the society is the recognition and promotion of high scholastic achievement and or professional attainment in the fields of Nuclear Engineering and Science. Three are three classes of Membership Undergraduate, graduate, and professional.

Robert Bown, Bill Kehr, Rich Starke; Don Brandenburg.

Pi Epsilon Tau

Pi Epsilon Tau is a national engineering honor society founded to recognize students of Petroleum Engineering who exhibit outstanding scholarship and exemplary character. Besides working to improve student-faculty communications, Pi Epsilon Tau has also sponsored a program to provide financial aid to a foster child

Membership in Pi Epsilon Tau is indicative of a student's high scholastic achievement. Through its activities, the chapter strives to assist in the development of technically oriented, well-rounded individuals.

Pi Tau Sigma

The Missouri Tau Lambda chapter of Pi Tau Sigma, the National Honorary Mechanical Engineering Fraternity, is one of the largest chapters in the nation. Emphasizing the development of the Mechanical Engineering student both academically and socially, the chapter furnished guides for University Day and held two student-faculty outings. The UMR chapter is responsible for making and distributing small replicas of the fraternity key on display in the Mechanical Engineering building to other chapters throughout the country. In order to recognize members of the Mechanical Engineering faculty, each pledge class presents "The Purple Shaft Award to the faculty member who has "shafted" them the most.

Theta Tau

Theta Tau, a national professional engineering fraternity, takes pride in the active support given by its brothers in working on the various campus and community projects. The Theta Tau Calendar, which contains an outline of the complete school year, was published and distributed free again this year. Mums were also sold at Homecoming and Parents' Day for the dates, wives, and mothers of the students. Theta Tau, known for its annual "Freshman of the Year" award, was happy to announce that Bob Kostelnik was the recipient of the award this year. The Theta Tau "Ugly Man" contest was also sponsored for the purpose of raising money for the use in aiding handicapped children of Phelps County.

Row 1: Mark Kassing; Sal Pagano; Dan Llyellen; Ted Hollrah, Vice-Regent; Tom Schob; John Pepper, Regent; Chuck Flaminio; Dave Puettman, Pledge Trainer; Darryl Moore; Steve Bergtholdt; Hans Schmoldt. Tau Beta Sigma

Delta Xi chapter of Tau Beta Sigma, National Honorary Band Sorority was chartered on the UMR campus in May of 1970. The purpose of Tau Beta Sigma is to help promote the growth and quality of college and universtiy bands, With its brother organization Kappa Kappa Psi, Tau Beta Sigma helps the UMR band in many ways. This year they provided a picnic supper for the band after the Joe Morella practice, held a slave auction of members, and co-sponsored the annual Jr. High Band Clinic with Kappa Kappa Psi. The members look forward to the band's trip to the Cherry Blossom Festival and to co-sponsoring the Kappa Kappa Psi-Tau Beta Sigma District Five Convention on the UMR campus.

Front: Mr. Joel Kramme, Advisor. Back: Debbie Fugitt, Treas.; Becky Minich, Vice-Pres.; Cheryl Smith, Sec.; Alexis Swoboda, Pres.; Janet Bogue; Nancey Drissel.

Kappa Kappa Psi

Kappa Kappa Psi is an honorary fraternity for all college or university bandsmen. One of its primary aims is to build better bands. This purpose became a major theme when helping to complete a six-game marching season, and when offering displays on University Day and Parents Day to explain band organization and activities. Kappa Kappa Psi is also to provide a pleasant social atmosphere for those in the band. Get-togethers included a float trip down the Current River, a Halloween Party, a band picnic, and the fourth Annual Band Banquet.

Sigma Gamma Epsilon

Sigma Gamma Epsilon is the National Honor Society for outstanding students of the Departments of Mining, Petroleum, and Geological Engineering. On the UMR campus, Eta Chapter has assembled and sold Geology lab kits and has made Geologic highway maps available for purchase. The society was a co-sponsor of the fall Geology Department picnic. Eta Chapter has provided the Student Vice-President and published the newsletter, the Brunton, for the Central Province of the national chapter.

Tau Beta Pi

Tau Beta Pi is a national engineering honor society founded to recognize students in engineering who exhibit outstanding scholarship and exemplary character. Activities of the UMR chapter include the "Freshman Friends" program, donation of a scholarship to an outstanding freshman and the sponsorship of a seminar on the human aspects of engineering. Membership in Tau Beta Pi is an indication of a student's scholastic achievement and involvement, and activity in the chapter contributes to the student's development as a technically-oriented, well rounded individual.

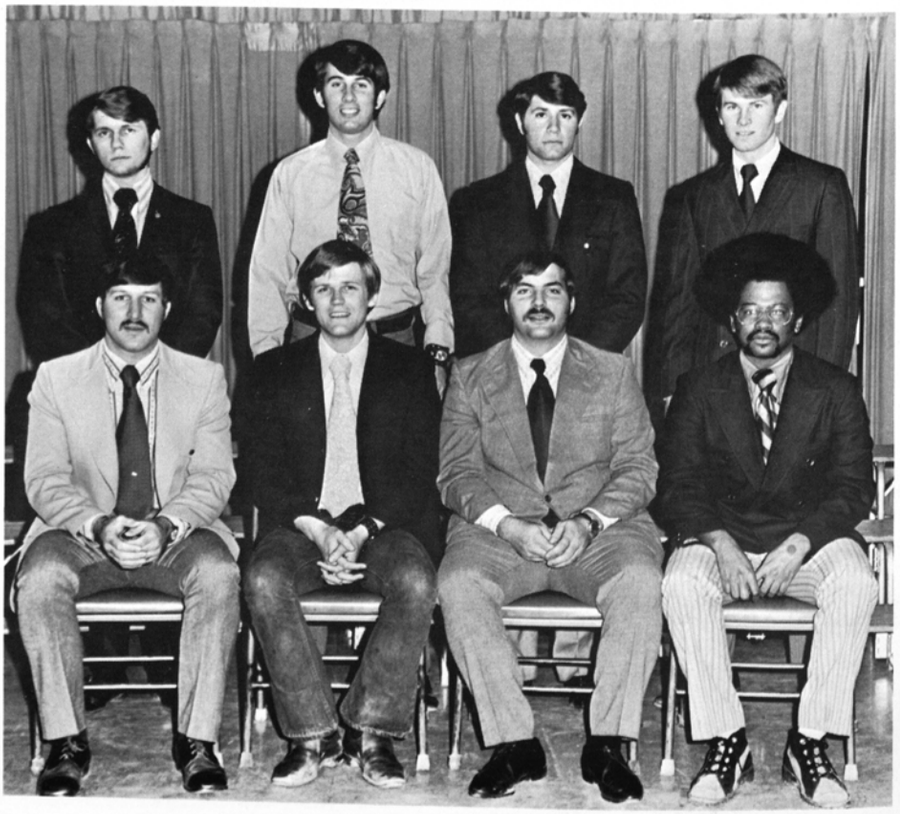
Alpha Phi Omega

Blue Key

Front Row: Hans Schmoldt, Treas.; Steve Thies, Pres.; Jon Kremer, Vice-Pres.; Darryl Moore, Alumni Sec. Back Row: Jim Bondi; Kent Mueller; Steve Biederman; Rick Remley.



Blue Key, a national honor fraternity, has fulfilled its service to the campus and community successfully this year. Its service consisted of the Blue Key Student Directory, a complete listing of all students on campus, and sponsoring a leadership forum for underclassmen each semester. Blue Key also revamped the "Miner of the Month" thus providing recognition for students who have done something outstanding for each month. Blue Key also began a resume service to aid students who are interviewing for permanent employment. This enables the students more time during an interview and eliminates the usual preliminaries of an interview.

Front Row: Al Kaplan, V.P.; Jon Kremer, National President; Daryll Chenoweth, Pres.; Dave Prouty, Sgt. at Arms; Steve Bergholdt, Pagemaster; Mark Schankman, Recorder. Row 2: Perry Pattiz; Robert C. Roach; James Hunsicker; Paul Clites; Brian Cobb; Ken Hamilton; Craig L. Fadem. Back Row: Bob Kostelnik, Scribe; Mark Weidinger; Mark A. Middendorf; Paul Smith, Advisor; Jim Prokopchuk; Larry Sansoucie.

Intercollegiate Knights

The Intercollegiate Knights, a National honorary service fraternity, was again very active at UMR. IK operated the concession stands at home football games, held social meetings, and began an auxiliary with the aid of Sarah Carney and charming Duchess for leadership and service. Great effort was exerted to repeat Osage's previous year's performance which won National's Outstanding Chapter and Most Efficient Chapter Awards and helped Jon Kremer to win the national presidency. Service work included providing dinners to underprivileged Rolla families at Christmas and Easter; carpentry work for other families; superivsing the Regional Speech Festival and the Science Fair; guides at Parent's Day and University Day; and spending many hours in more personal work with children from Boys' Town and the Rolla Diagnostic Clinic.

Front Row: John Pepper; Hans Schmoldt; Roy Mueller. Back Row: Steve Thies; John Haley.

Inter-Service Council

The Interservice Council is set up to coordinate the activities of UMR service organizations. The council encompassed Blue Key, Theta Tau, Alpha Phi Omega, IK; M-Club, and Circle K. Though generally a consulting and communications board, the council does attempt to promote the campus-wide service projects. Projects for this year included an "Interservice Week", an Interservice Newletter, and work on the Peace Corps School Partnership Program.

Rock Climbing Club

College Young Republicans

Braving the inactivity of an "off-year election" and the lack of interest of politics on the UMR campus, the College Young Republicans have begun to prepare for the 1972 election. This is the only politically oriented organization on campus, making the CYR's the only way any student can come in close contact with politics. In the spring semester, the Young Republicans participated in the Missouri Intercollegiate Student Legislature, where Young Republicans and Democrats from colleges over Missouri act as senators and representatives in a mock Missouri General Assembly.

Front Row: William J. Beck; R. Craig Hafner, Secretary; Rich Seifert, Chairman; Scott Scherrer, Treasurer. Back Row: Lloyd W. Garrett; Randy Casteel; Edwin Baker; James W. Ott.

Karate Club

Spelunkers

The MSM Spelunkers Club was formed in the 1950's. It promotes safe caving practice in exploration and research. The Club gives persons interested in caves a chance to get together to discuss and exchange knowledge and techniques concerning caving.

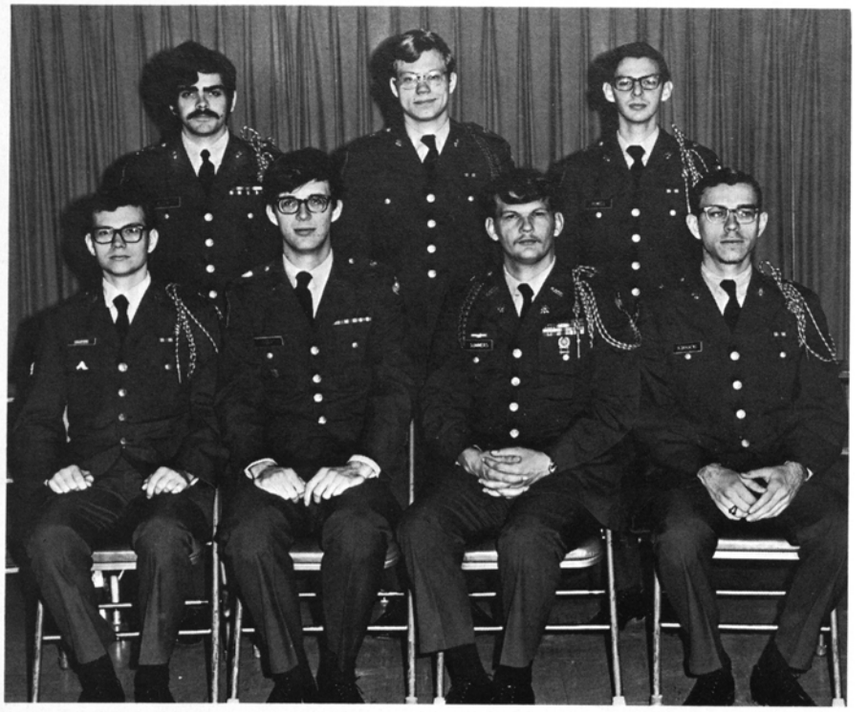
The amount of activity has varied from year to year. However, hardly a weekend goes by without at least one trip going out. For example our recent activities have included spring and fall outings, removal of rubbish and exploration in the bottom of sink holes.

Front Row: Gary Mackey; Eric Livingston, Store-Keeper and Vice-President; David Hoffman, Advisor. Back Row: David Butherus; Nicholas H. Tibbs; Larry Nuells; Bill Clifton.

Pershing Rifles

This year Company K-7 expanded its activities to include both new and old interests. Social functions were added to the calendar in addition to competing in drill competition, performing in exhibition drill for the school and community, and providing color guards.

Due to the work of the company's executive officer, A. Larry Summers, a co-ed exhibition drill team was begun with the sponsorship of the company.



Front Row: David Crawford; John H. Dodge, C.O.; Larry Summers, X.O.; Alan Kornacki. Back Row: John Rosenfeld; Arthur Stevenson; Douglas Powell.

Raiders

The Raider Organization of 1971-72 was especially dedicated to the development of the elite UMR Reserve Officer Training Corp cadet's tactical ability. Numerous field exercised were conducted to serve this purpose.

The Raider members, after completion of the required physical, confidence, and proficiency tests are awarded the Raider Tab and the black beret, familiar only to the Raiders.

When the ROTC cadet receives his commission, it is the hope of the Raider Organization, that the young officer will have greater knowledge and ability as a result of his affiliation with the Raiders, this being the ultimate goal of the Raider Organization.

Front Row: John Keating, S-1, Administrative Officer; Dominic Grana, Executive Officer; Brett Hanke, Commanding Officer; Gary Weidler, S-3; Rich Kling, S-4, Supply Officer. Row 2: Jim Fail, S-2; Dan Brakensieh; Gary Gall; Jim Abbott; Randolph Latall; Tony DiMercurio, Drill Instructor. Back Row: Larry Dupre; Loren Ginter; John R. Schmuke; James G. Robison; Mark Mueller.

Williams; Les Silies.

Rugby Club

In the last couple years, the UMR Rugby Club has worked to achieve a collegiate based schedule. Now we are associated with several area teams and many out-of-state teams by our competition in the Mardi Gras Tournament. By attending this tournament and one in Kansas City in the fall, the club serves as a public relations agent for the University as well as an intercollegiate sport. The Club is now in its 9th year and carries a schedule of 18 games and two major tournaments.

Soccer Club

The UMR Soccer Club continued its participation this year on the intercollegiate level in fine fashion once again. Although unable to get in an organized league during the year, they gave a fine showing against such balanced teams as University of Missouri, their second team, the Cosmos, and Fort Leonard Wood. Men from many organizations participated on the team and they were led by Steve Bergtholdt, fall semester President, and Mike Barbaglia, President during the spring semester. Better overall activity should be insured with the possibilities of establishing an MIAA Soccer Association for conduction and MIAA Tournament.

Front Row: Tony Meier; Mike Barbaglia, President; Jon Kremer; Brad Crutcher. Back Row: Rich Kobylinsli, Secretary; Paul Hemming, Treasurer; Frank Minchella; Mike Lampe.

Front Row: Eileen Bade; Karen Knotts; Elaine Myers, Corresponding Secretary; Joyce Reinecke, 1st Vice-President; Linda Pottinger; Linda Naas. Row 2: Kathy Jones; Norma Ziegler; Ruthann Laneman; Pat Maples; Mary J. Scott; Janet Reifel; Lillian Whiles. Back Row: Pennye Hall; Judy Dowdy; Deborah A. Toth; Nelda S. Gaines.

UMR Dames

An enthusiastic group of officers led the UMR Chapter of University Dames through a most successful year. The meetings included very interesting programs, such as Human Relations, Child Development, Management and Family Economics, Clothing and Textiles, and Drugs. Fund-raising projects consisted of a concession stand at the Rolla Regional Fair, selling Stanley Products, a raffle, a rummage sale, and a silent auction. The major social events this year were the children's Christmas party, Easter party, and husband and wife banquets, which included awarding each graduating wife a "PHT" (Putting Hubby Through) certificate.

Mates

The Association of Married Students, nicknamed MATES, is now in its second year on the organization is to provide social events for married students. To this end, MATES had barbeques, float trips, and Halloween, Christmas and St. Pat dances. This year MATES participated fully in the intramural program and although we cannot say that we were unbeaten we contend that our cheering section is unequaled.

Business meetings are held monthly and serve to plan coming social events and to allow members to meet old friends and to make new ones. We are confident that MATES will continue to grow and will be a benefit to married students at UMR.

Front Row: Ruthann Laneman; Dennis Laneman, Treasurer; Mary J. Scott; Ernest W. Scott, President; Dennis Cotter, Vice-President; Judy Cotter; Kurt Marshaus, Intramural Manager; Gail Marshaus. Back Row: Jinese Krysa; Mitsh Krysa; Sandy Gulley; George Gulley; Rita Jesse; Hugh A. Jesse; Pennye Hall; Leon Hall; Janet Hofer; John Hofer.

American Ceramic Soc.

The American Ceramic Society is a national organization of scientists, educators, students and engineers who are involved in some aspect of ceramic materials. The UMR Student Branch has monthly meetings with great speakers or films and also sponsors field trips and several family-style picnics. Every year they also have a Ceramic Engineer Faculty-Student softball game, to promote intradepartmental spirit and fellowship.

Front Row: Russ Smith, Vice-President; Dennis Schubert, President; Carl Gioia, Program Chairman; Robert M. Doerr. Back Row: Richard Brockmeier; James Merciel; Doug Schwartz.

American Foundrymen's Soc.

The UMR chapter of the American Foundrymen's Society is a group of student engineers involved in the many aspects of cast metals. Chapter activities included a series of interesting and informative speakers at the monthly chapter meetings and participation by a delegation of chapter members at both the AFS Regional Conference and the AFS Casting Congress. Chapter members also participated in a St. Louis chapter meeting and foundry industry tour.

Left to Right: Bruce Lamping, Exec. Comm.; Don Zweifel; Frank Minden; Joe Ward, President.

American Institute of Aeronautics and Astronautics

Front Row: Dale Pitt; E.C. Olson; George Cain; Charles Blair, Chairman; Marvin Doberenz, Vice-Chairman; Robert K. Rice, Treasurer; Thomas L. Webber; Herbie Smith. Back Row: Lloyd W. Garrett; Berard Brockgreitens; Greg Colman; William R. Sweet; Vance Havens; Randy Duford; Gil Weyhaupt; Mark Fulks.

A.I.Ch.E.
Front Row: H.H. Grice, Advisor; Cecilia Meyer; Marvin Borgmeyer, Reporter; Wayne Cagle; Craig L. Fadem, President; Rich Schafermeyer; Robert Pike, Secretary; Jerolyn Onstad. Row 2: David Suiter; Doug Peterson; Charles Hillhouse; Steven R. Jaquay; Mike Tibbits; Terrill A. Young; George Cadwallader; Mike Trancynger; Steve Walker. Back Row: Michael Brunson; Kent Anderson; Stephen Chilton; John R. Schmuke; Steven Calvin; Gary Bland; Neal Lewis; Richard Kess; Gary J. Fennewald.

A.I.Ch.E.

The UMR student chapter of the American Institute of Chemical Engineers, features speakers from different branches of industry who inform the chapter of advances and achievements in chemical engineering and related sciences. UMR's chapter of A.I.Ch.E. also gives scholarship awards to outstanding freshman and sophomore chemical engineering majors, presents regional science fair prizes, and participates in the regional conference which was held in Lincoln Nebraska this year. The chapter has been presented the outstanding chapter in the nation award for the second consecutive year. Two new events hav ebeen added to the chapter's activities: a faculty-student picnic to promote an informal student teacher social atmosphere and a field trip to the Anheuser-Busch brewing laboratories of St. Louis.

A.I.M.E.-S.P.E.

Despite the small enrollment in Mining Engineering, the student chapter of the Society of Mining Engineers of the AIME has been quite active this past year. At every meeting a representative of the mining industry has come to speak to the student mining engineers on some aspect of mining. Also field trips to various coal and metal mines have been planned through the SME of AIME in Missouri and Illinois. The mining student also makes contact with the mining industry with joint meetings of student chapter and the St. Louis and Southeast subsections of the Society of Mining Engineers.

A.I.M.E.–S.P.E.
Front Row: John Baz-Dresch; William J. Beck, Secretary; William Mount, President; Charles Travelstead, Treasurer; Steve Stubbs. Back Row: Lawrence L. Lewis; William E. Giles; Larry R. Maddux; Bob Wethington; Frank Dickof.

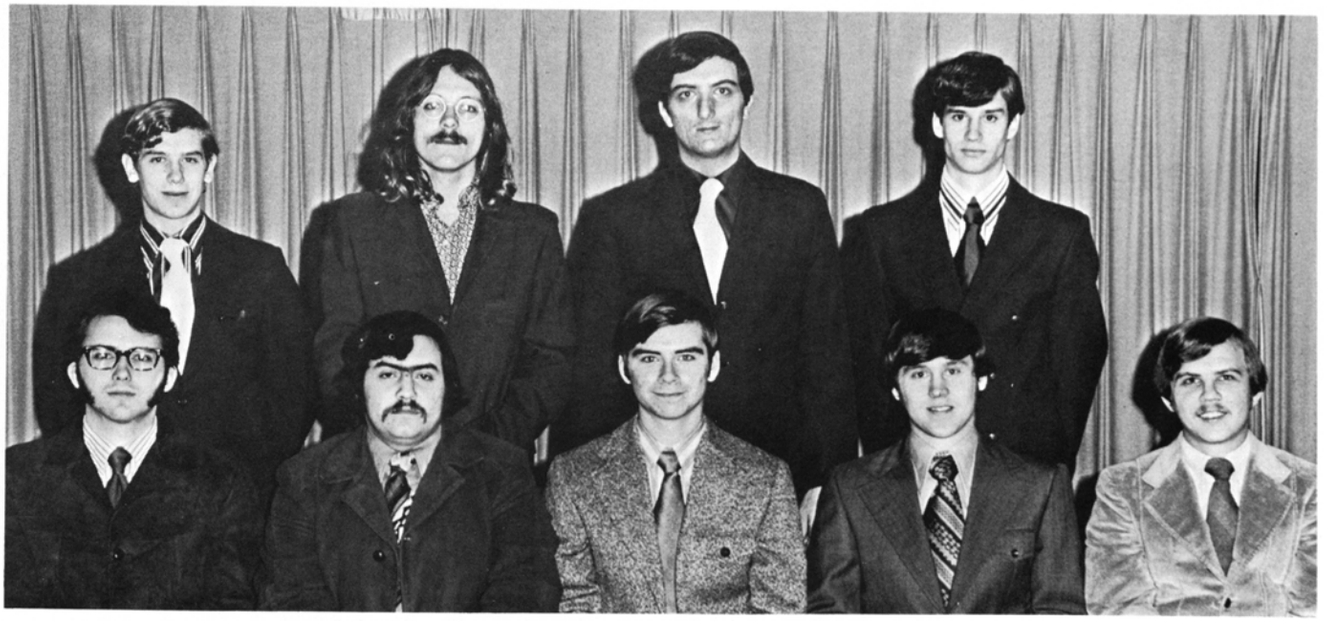
American Nuclear Society

Front Row: R.L. Jones; Ronald Besser, Treasurer; Mike Bunch; Edwin Baker. Back Row: James A. Zell; Michael Muenks; Bill Ault.



Front Row: Hugh Jesse; Dan DeRiemer, Vice President; Mark Armstrong, President; Darold L. Phillips, Secretary-Treasurer; Robert E. Jones, Chaplain. Back Row: Mike Fennewald; Mike Zirkle; Michael Miano; Roger D. Phillips.

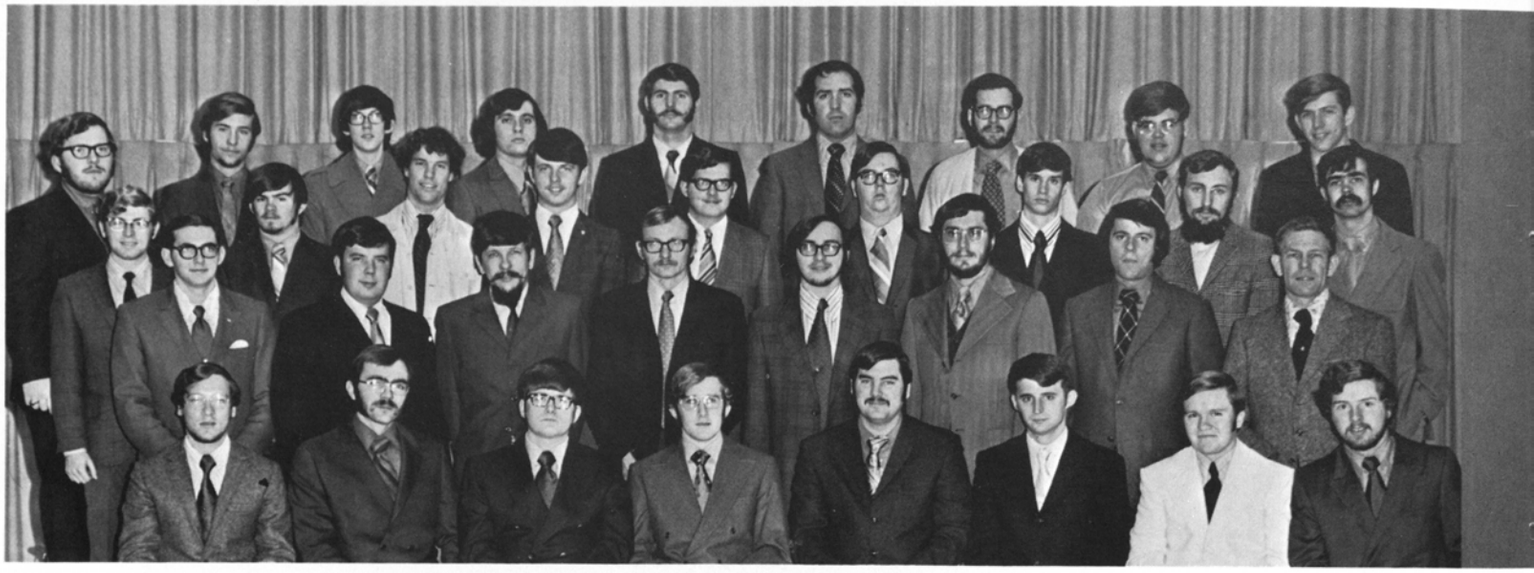
Management Association

All forms of Management are connected with personal contact. Management itself is concerned with the functions of the firm and in the ways the people involved inact these functions. The UMR Management Association attempts to give a practical application of this personal contact which is achieved by meetings, dinners and other social functions. It is hoped that these endeavors will give the Engineering Management graduate first hand experience in the basic aspects of getting along with other people.

A.I.M.E.-S.P.E.

The Society of Petroleum Engineers at UMR is a student chapter member of the National AIME, having served Mining, Metallurgical, and Petroleum engineers for 101 years. The Society, which is open to all who are interested in Petroleum Engineering, gives the student a first look at the Petroleum profession and the industry behind it. Monthly meetings provide the members with speakers and programs from major oil companies and companies servicing them for an overall picture of the world beyond the test-book. The Society, through short courses, industrial tours, and attendance of national meetins once a year, give the student that extra something he needs to link his school work with his future profession.

Front Row: Delores James; Douglas G. Grundy, Secretary; Stephen W. Rector, Treasurer; John R. Lee, President; Charles Daniells; Dennis R. Harris. Back Row: Ed Emery; Richard A. Brown, Advisor; William George; Larry J. Jenkins; Bashir A. Khalil.



A.S.C.E.
Front Row: William D. Blechle; Arthur Hartle, Corresponding Secretary; F.R. Ellis, Secretary; Alan Naas, Vice-President; Barry Harms, President; John Beale, Treasurer; Terry Micnhimer; Ralph Tate. Back Row: Dennis Nickell; John Feldmann; Jonathon Motherwell; Michael Stone; Kurt Marshaus; Nick Smith; Patrick M. Byrne; Robert Queathem; Dennis Wood.

American Society of Civil Engineers

A.S.M.E.

ASME membership puts the student in touch with every major branch of Mechanical Engineering and enables one to begin professional development at an early date. Each year, the ASME holds monthly meetings on campus with speakers from every phase of Engineering, takes field trips through the industrial facilities of various companies and has several outings. In addition, the society enables its student members to participate competitively with other schools in oral and written presentations through organized events. This year, the ASME has had speakers on campus from various industries, taken field trips through Pittsburg Plate Glass, Schweitzer Division and Carter Carburetor and has had two outings in the Rolla area.

A.S.M.E.
Front Row: Richard Quinlisk; Lloyd W. Garrett; Allan Reifel, President; Tom McElyea, Vice-President; Kenneth Brune; David Polakowski. Row 2: David Lambeth; Bob Benson; Ken Berkeigler; Charles Fillinger; Randy Casteel; Dave Ackmann. Back Row: Lloyd Allinder; Thomas Linsenbardt; Kenneth R. Myers; William R. Sweet; Bill Clifton; Charles S. Cremeens.

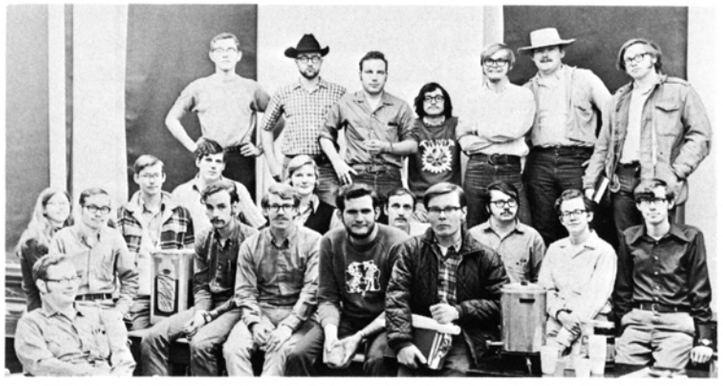
Back Row: James Wade; Charles C. Fuller; Michael Miano; Bill Hawthorne; Jerry G. Johnson; Paula Graves; John T. Blaine.

Association for Computing Machinery

ACM, founded in 1947 as the society of the computing community, is dedicated to the development of information processing as a discipline, and to the responsible use of computers in an increasing diversity of applications. Here at UMR, student chapter meetings are highlighted by speakers from industry and education and films on new computing developments. What is accomplished is that students in the computer science field are given a better insight into the computing world.

C.L. Dake Geo. Soc.



Promotion of interest in the geologic sciences was the central purpose governing the activities of the C.L. Dake Geological Society. In addition to slide shows and speakers at the meetings; field trips to mines improved members' understanding of geology. Two mineral auctions raised funds for the club's treasury and provided statewide attention to the society. The outstanding graduating senior in the Geology Dept. was awarded the annual "Geologist of the Year Award" by the Society in the spring. By sponsoring a fall departmental mixer, a Christmas party, and a spring picnic, the Society furnished an opportunity for students and faculty to socialize in a nonacademic atmosphere.

Peatross; John F. Peters; Michael Ellis; Louis Karably. Back Row: George Glos; Richard Hoffman; James R. Collins; Stephen L. Garrison.

I.E.E.E.

The Institute of Electrical and Electronics Engineers is an international, professional society. It provides its members with an opportunity to keep abreast of changes and new developments in electrical technology, and to make social contacts with other people working in their field. In addition, the Student Branch at UMR attempts to provide a bridge between the engineering student and the industrial environment that he will enter when he leaves school. Members receive publications of technical articles and papers and attend regular meetings at which speakers from industry present programs on current interest topics. Tours and outings are sponsored each semester.

Association of Engineering Geologists

Front Row: T.L. Noack, Advisor; Chuck Hunsel; Kenneth Werner, Treasurer; William W. McCommis, Vice-Chairman; Gerald Bayer, Chairman; Rich Seifert, Secretary; Steve Dunkmann; Paul R. Ditty. Row 2: Marion Stan Sanders; James W. Ott; Carolyn Burchfield, Publicity; Dennis W. Leitterman; Larry Marklin; Stan Howell; Harvey J. Randall; James Hunsicker. Row 3: Bruce Mitchell; Gary E. Front Row: Eric Sparks, Kersi Cooper, Bob Ripley, Secretary; John Phipps; Mendiz Mirdamadi; Frank Minden, President. Back Row: Tony Markunas, Treasurer; Bruce Lamping, 1st Vice-President; Mike Holt, 2nd Vice-President; Don Zweifel; Joe Ward; Mike Williams.

Metallurgical Society

The Metallurgical Society, a joint student chapter of the American Society for Metals and the Metallurgical Society of AIME, supplements the formal education of the metallurgical engineering student with interesting lectures on the technological developments in the industry, informal gatherings, and field trips. The Society also strives to develop the professionalism required in an engineer through close association with industrial leaders and practicing engineers in the field of metallurgy.

Psychology Club

Front Row: Dr. Harold D. Warner, Advisor; Carl Eyberg, Treasurer; Rick Whitten, President; Jack Beebe, Vice-President; Pamela Monson, Secretary. Back Row: James Johnson; Merrily Glotfelty; Paula Hudson; Charles Tunstall; Marsha Hart: Doug Schroer; Mike Chiles.

Front Row: Randy Casteel; Dr. Rocke, Advisor; Michael D. Moder, Vice-President; Michael Taylor, President; George Skosey, Treasurer; Stephen Estep; Guy C. Rogers, Membership. Row 2: Dennis C. Edwards; Desai Praful; Lloyd W. Garrett; Bob Toth; Fred W. Campbell; John Qualls; Roger Stoner; Kenneth A. Brune. Back Row: Joseph P. Warren; Tom Scheibel; Lloyd Allinder; James H. Herbold; William R. Sweet; David Ebbesmeyer; Dave Lambeth; Dave Ackmann; Robert J. Benson.

S.A.E.

The Student Branch of the Society of Automotive Engineers again earned the distinction of being the nation's largest SAE Student Branch, A wide variety of activities such as car clinics, new car shows, University Day exhibits, field trips to industries or St. Louis SAE meetings, and monthly Student Branch meetings enabled the members and other students to expand their educations. Guest speakers came from many industries instead of strictly automotive to offer a well-rounded program.

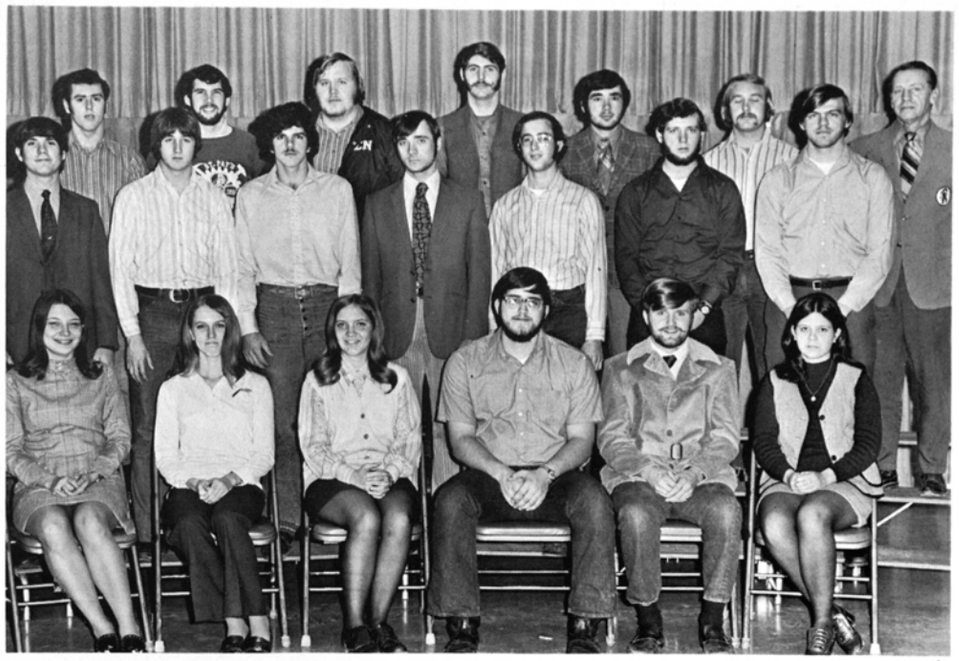
S.W.E.

The Society of Women Engineers is a national professional organization composed of women who are either working or studying in the areas of engineering or the physical sciences. The purposes of the organization are to present the needs and ideals of women in the engineering profession and to encourage women with the necessary technical aptitudes and interests to enter the engineering field. During the 1971-1972 year the UMR chapter of SWE helped with the Red Cross Blood Drive, had a guest lecture on loss prevention in industry, visited with the professional chapter from St. Louis at a picnic and conducted a bake sale to support the pledging program.

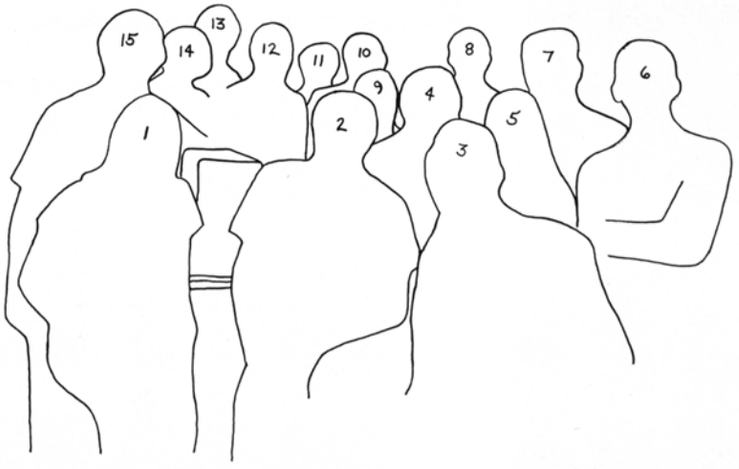
Front Row: Janet Miller; Eileen O'Rourke; Pam LaFoone; Peggy Durst; Diana Harrison; Linda Tevlin. Row 2: Pat Daniel; Joan Brune Margaret Wichard; Pat Pijut; Diane Bechmann; Sue Hadley; Rosemary Rois; Jerolyn Onstad. Back Row: Sue Littken: Gayle Durand; Rhonda Lunsford; Cheryl Hardwick; Carolyn Burchfield.

Intramural Managers

The Intramural Managers Association worked directly with the Intramural Director in trying to constantly improve the Intramural Program at UMR. The Intramural Council consists of elected officers and the Intramural Director. The Council appoints committees to study each sport as it progresses. All organizations in the program are represented by their respective Intramural Manager. Both men's and women's organizations are included in the association. Each sport in the Intramural Program is carefully studied. New sports are constantly being surveyed for their possibilities of being introduced into the program.



Front Row: Lynn Sheridan; Ellen Cherry, Marge Kelly; Wayne Bremer, President; Michael Edward Rissel, Secretary; Laura Davenport. Row 2: Lawrence L. Lewis; Mike Crowell; Steve Sherrick; Steve Lakebrink; Steven Kreisman; Tom Akers; David Ebbesmeyer. Back Row: Stephen Kinder; Mike Logston; Jack Phillips; Kurt Marshaus; Les St. John; Marl Schenke; Burr Von Nostrand, Intramural Director.



W.T. Schrenk Chemical Society

The W.T. Schrenk Chemical Society promotes interaction between the faculty and students of the Chemistry Department. The members obtain a broader background in the chemical profession through the programs at the monthly meetings. Activities of the Soceity this year included the selling of safety glassed and an outing both semesters with faculty-student football games.

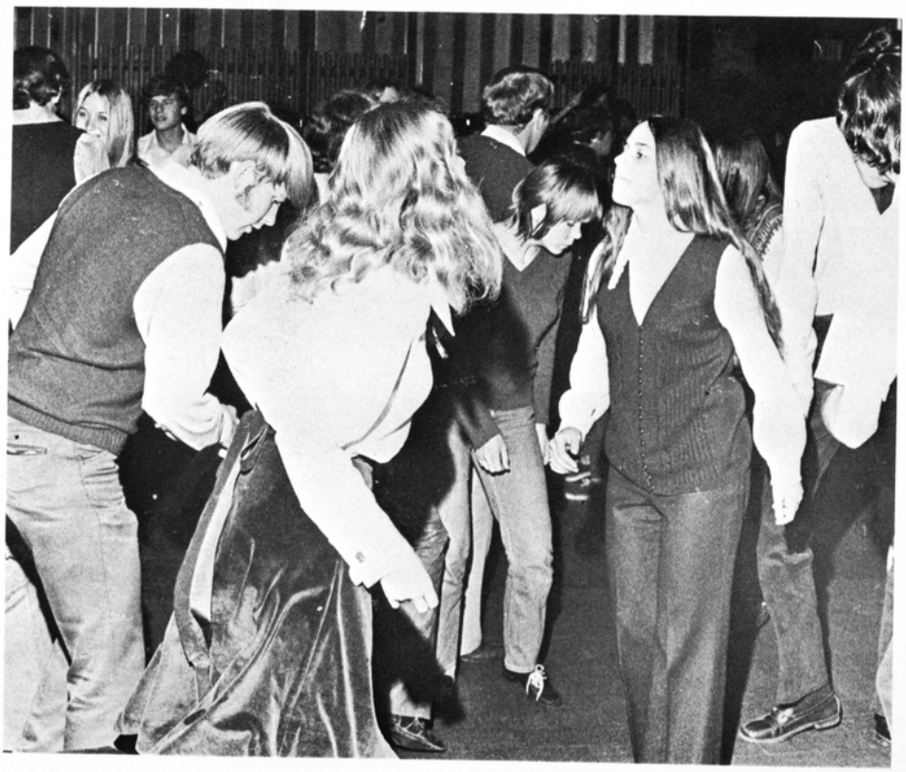
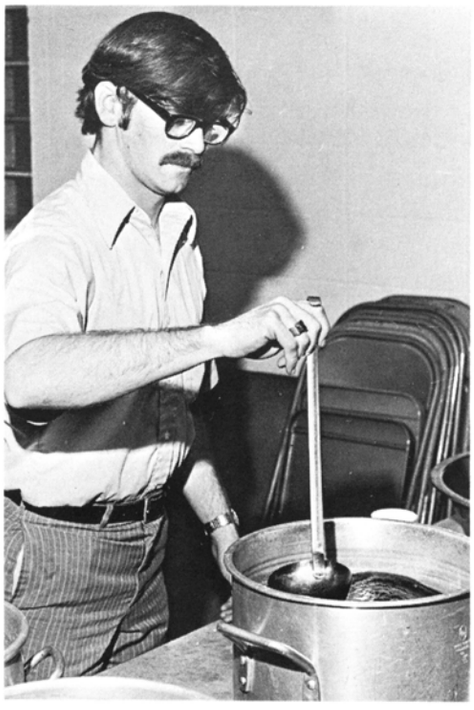
Independents





The Independent Organization represents non-fraternity and non-sorority students on the UMR campus. Annual activities of the group include a Christmas party and an Easter egg hunt for underprivileged children, a work-day, Independents' Party Weekend, and several beer busts. As an added attraction this year, GDI sponsored a float trip on the Current River. All those partaking in the event, truly enjoyed themselves.

All Independents look forward to their party weekend every year. Games are held, often with surprising feats. Hayrides, Bar-b-ques, and barn dances are all in order. It seems to get better year after year.

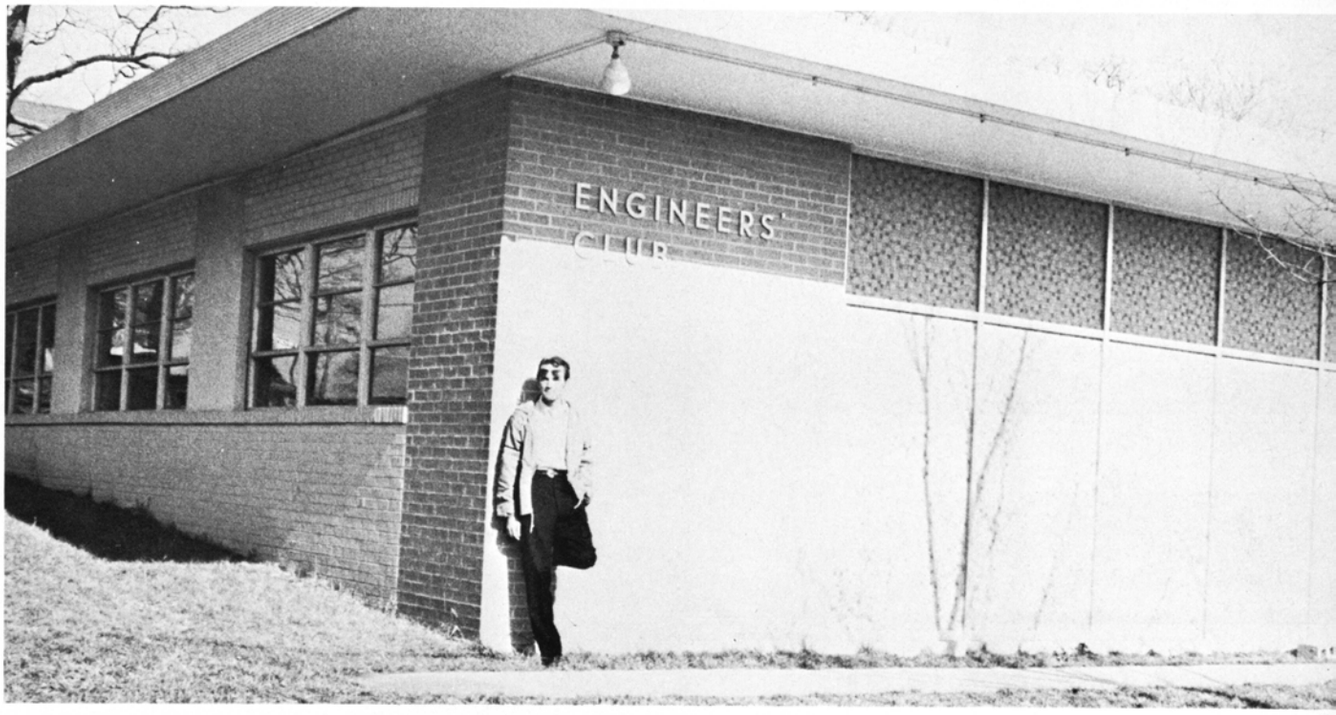
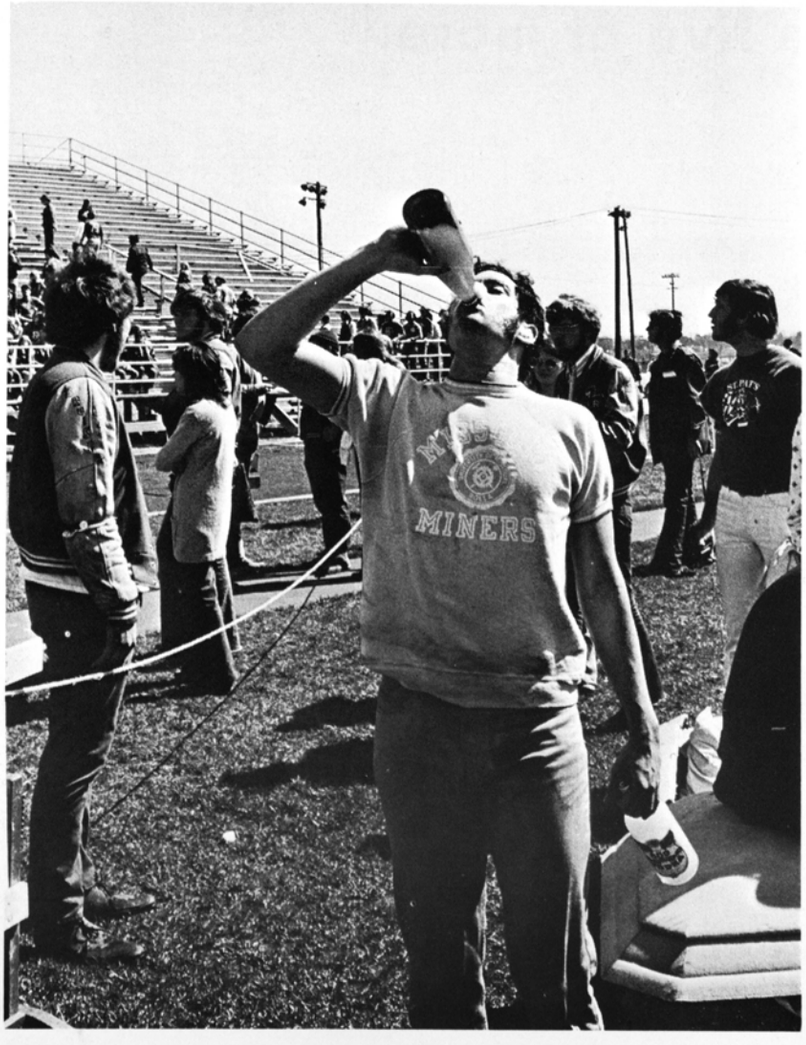
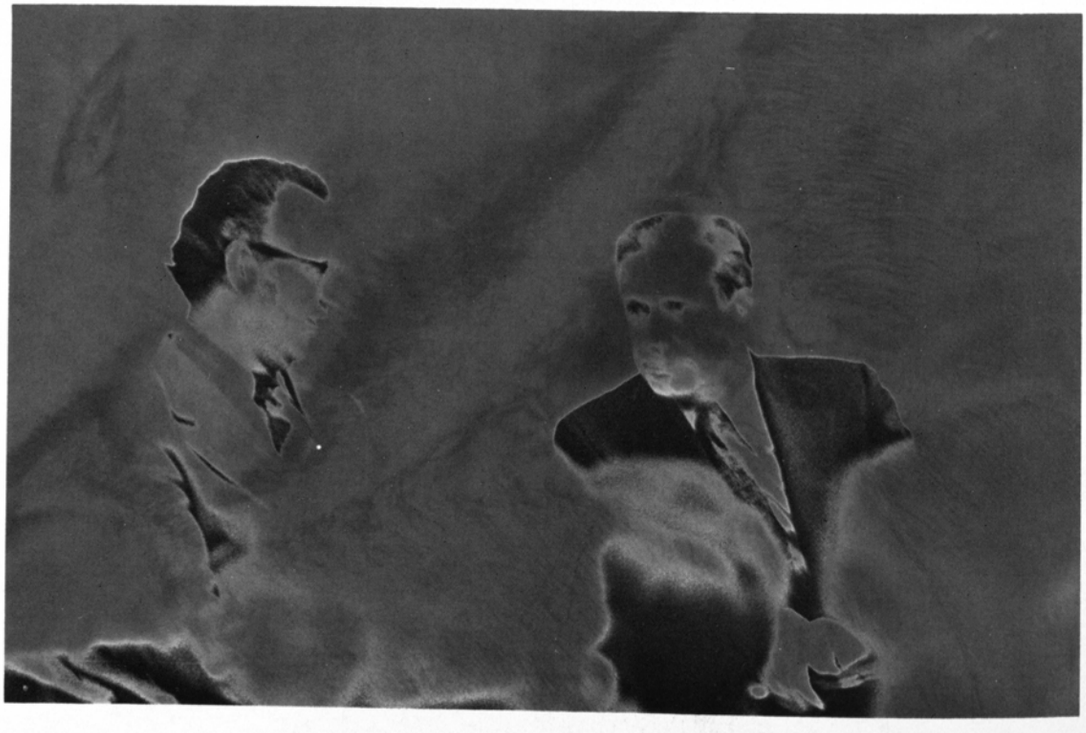
TRIANGLE



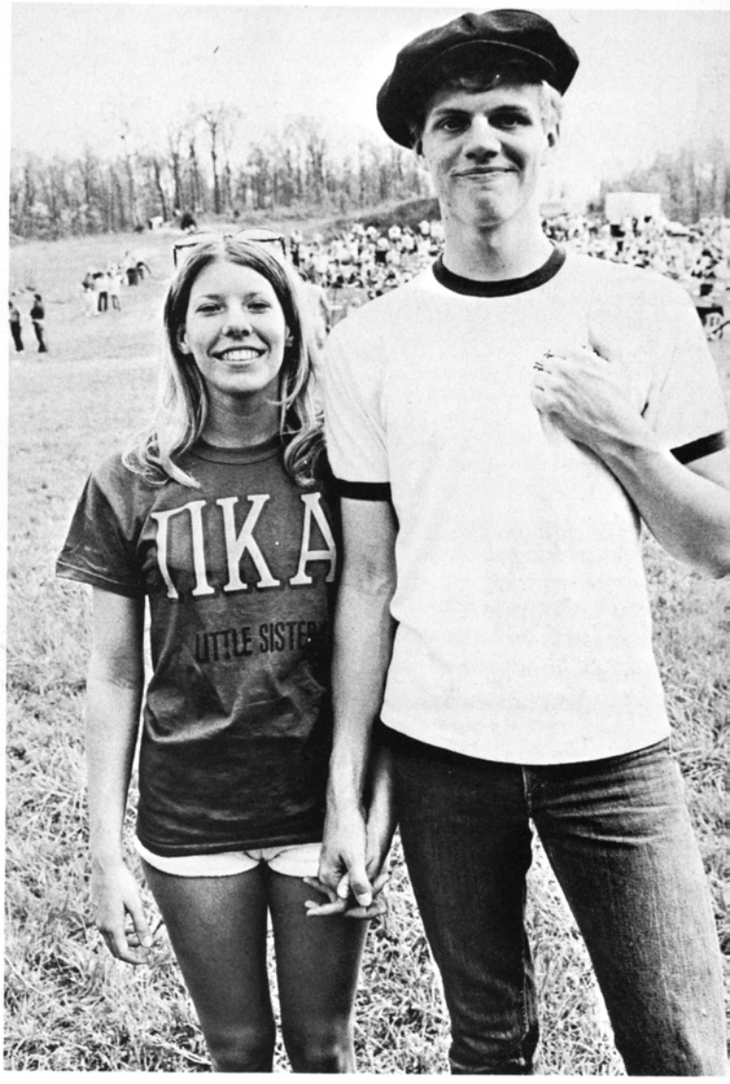


Four years we spend in Rolla...

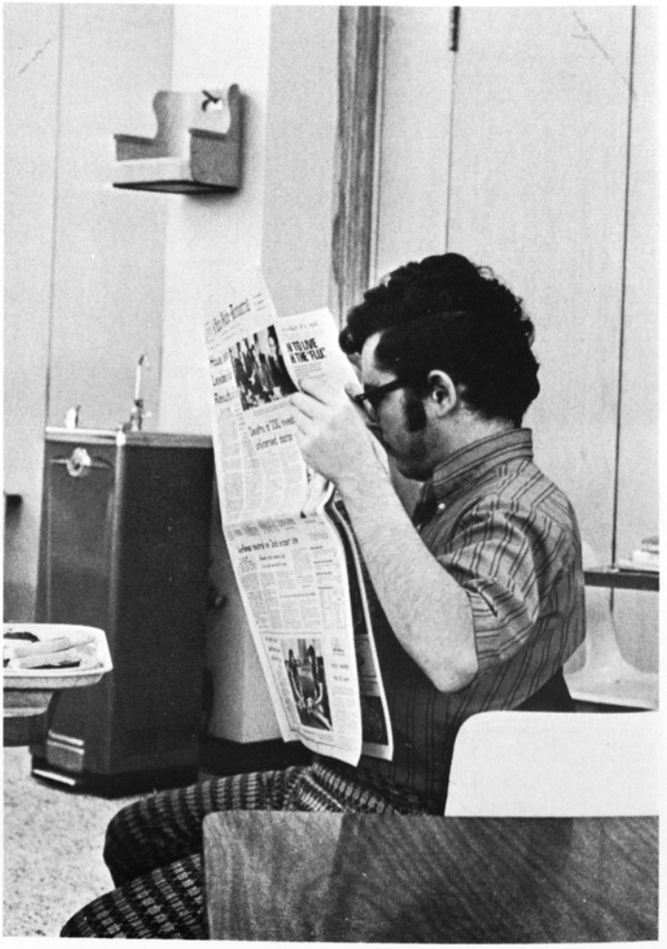
...while some are here five or more.



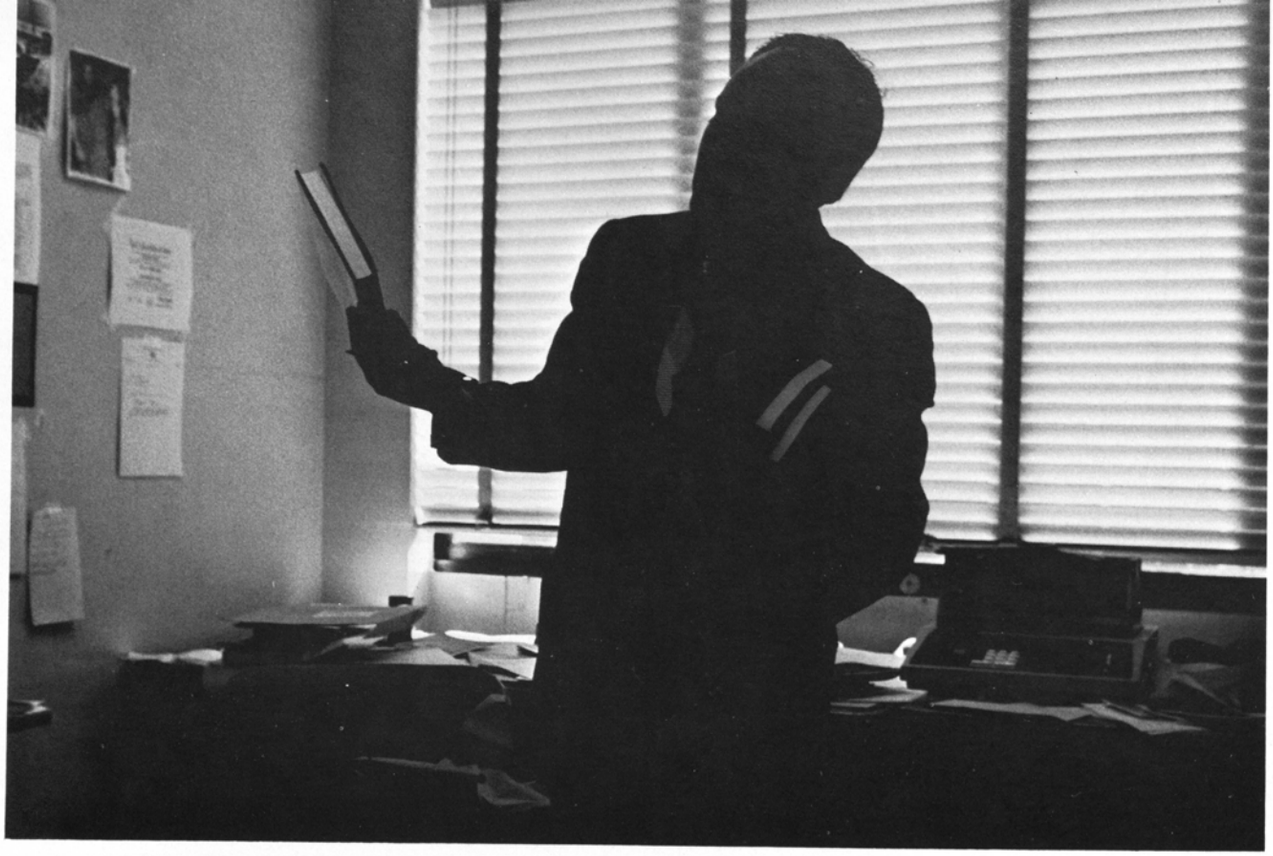
Some of us choose to join a fraternity...



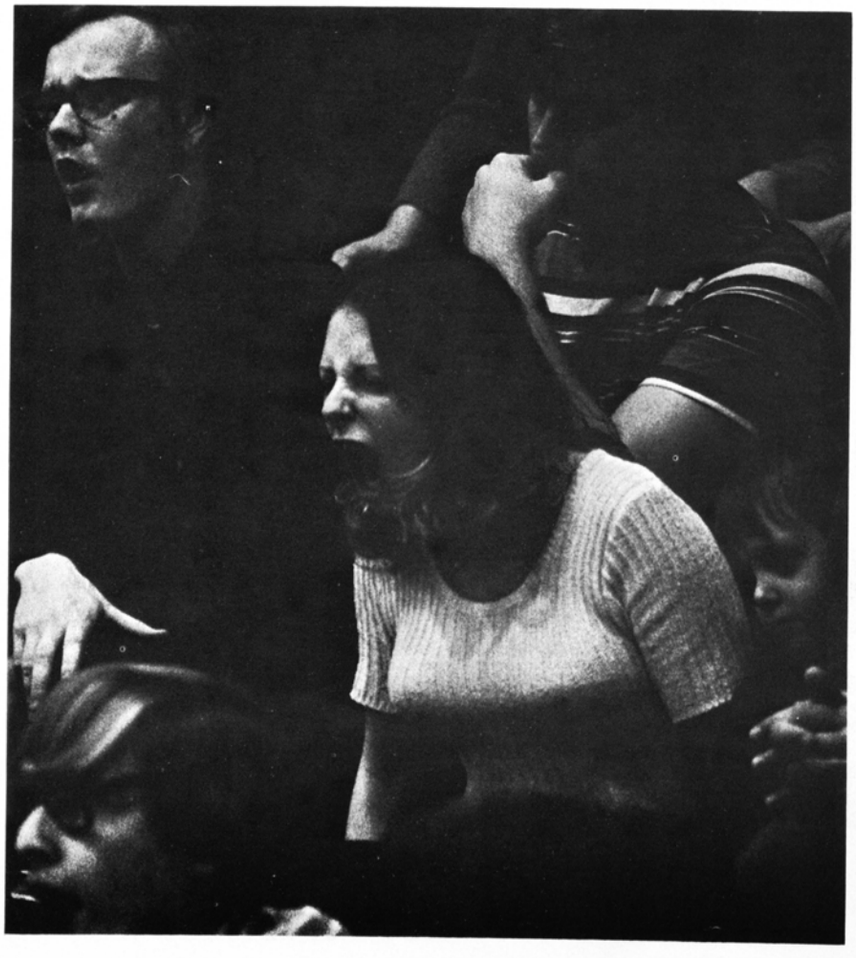
...while others decide to live independently.



Yet, we are all brothers and sisters on Spaceship Earth...



...and we are all basically people.



Despite our surroundings we are much the same.

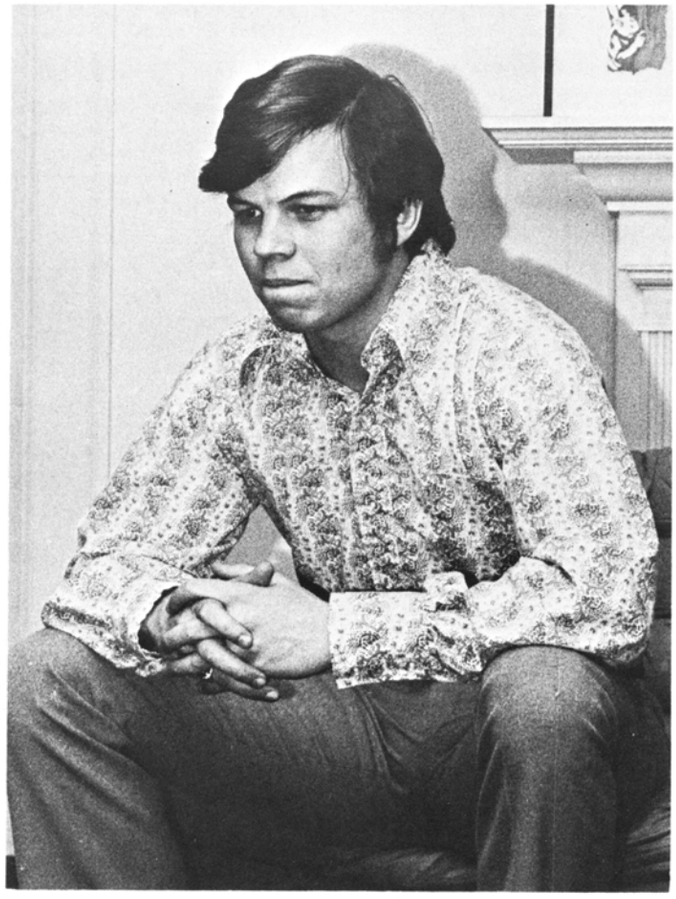
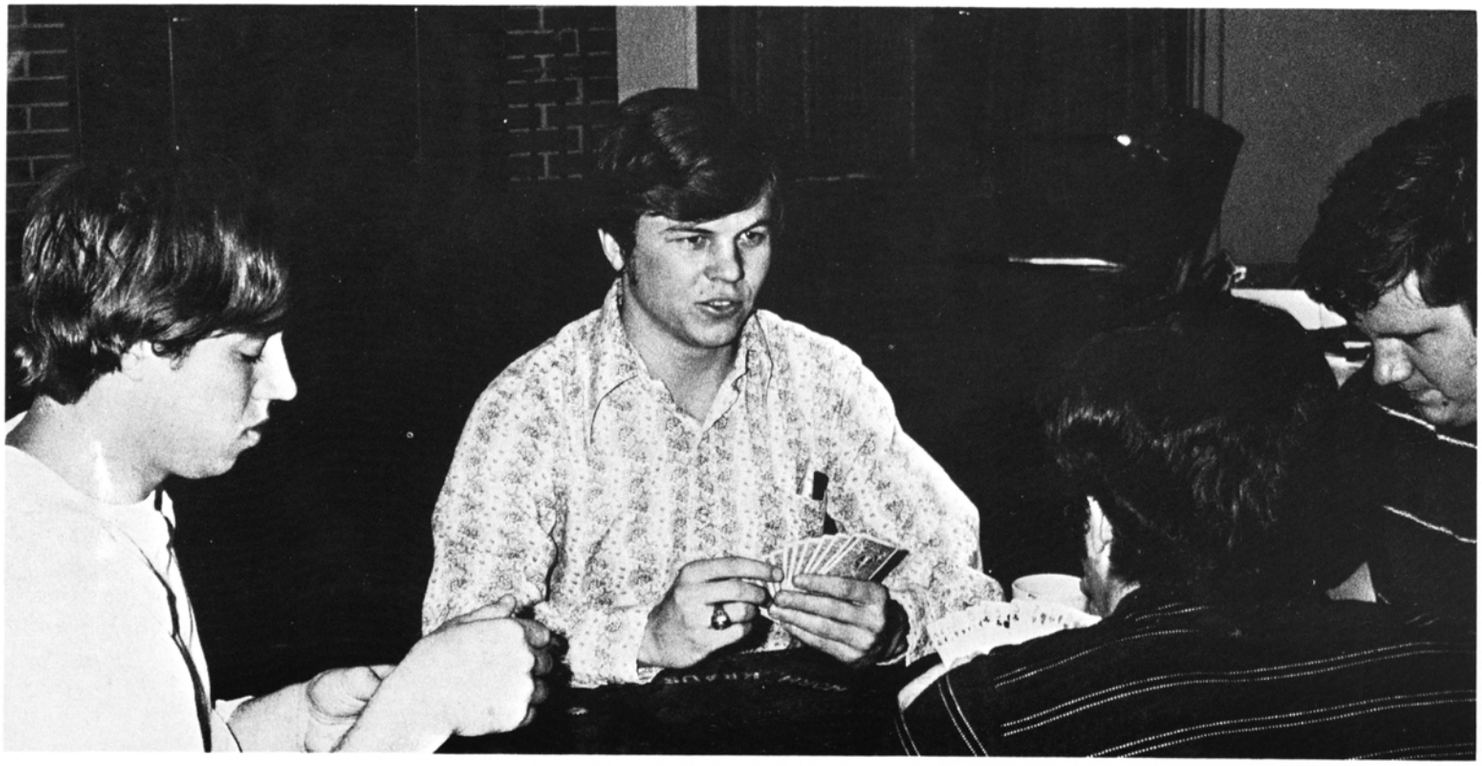
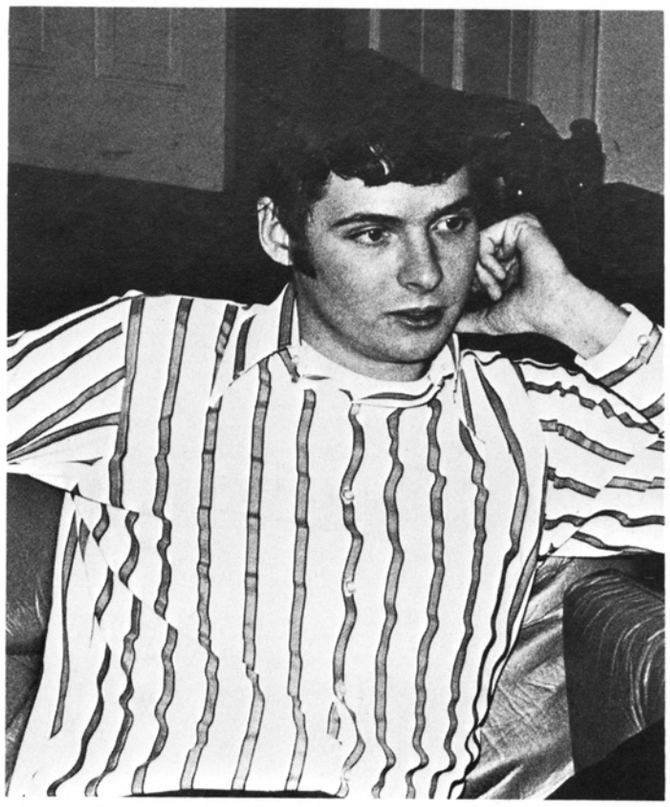
"I think the reason my department has gone down as far as enrollment goes is that the metallurgical world and the industries it's involved with are basically dirty, hot places. In this day and age of sophistication people aren't that willing to get down and get their hands dirty."



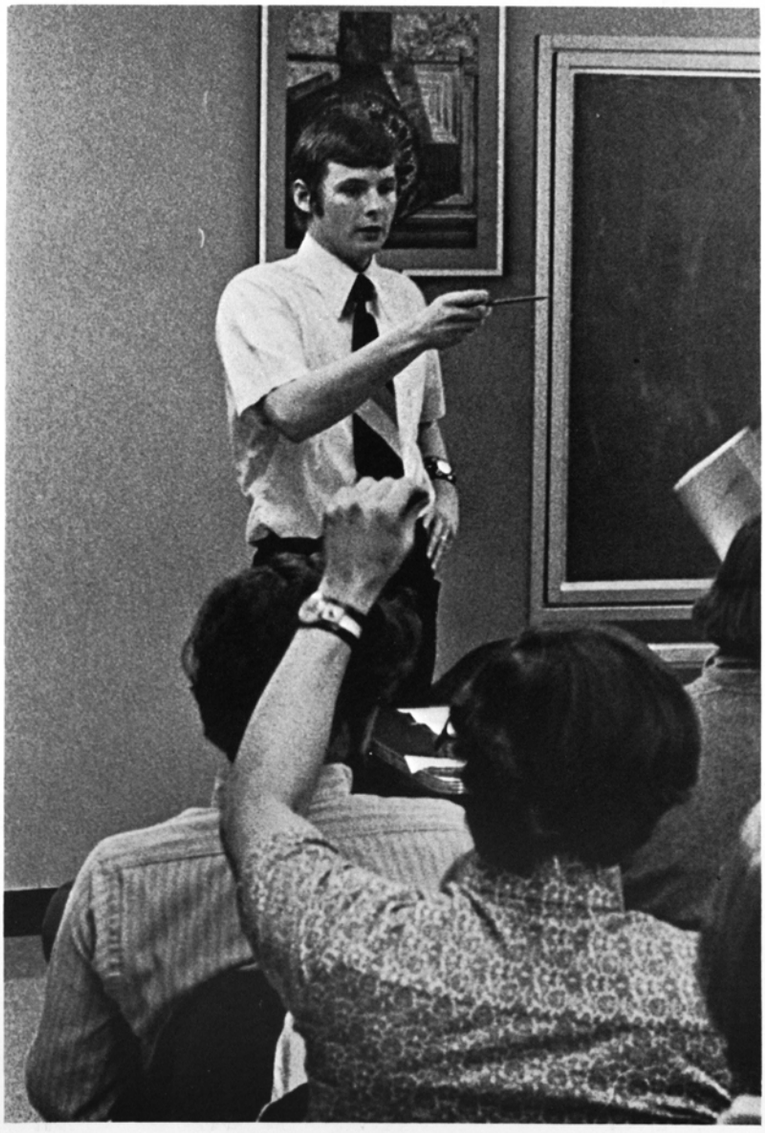
"This campus can't afford you a well rounded education. As far as social life goes, there's really nothing for a person to do. I think it's a sad state of affairs when you live your life from one week to the next waiting for the weekend to come so you can leave."

Steve Eatherton





"So many people say this administration is so hard to talk to that you can't get any changes thru-but usually those are the people who don't know who to go to. I think that if you have a legitimate complaint or request and know the proper channels to go thru, you'll find this administration is fairly receptive to new ideas."



"When you go out in industry every company is going to train you to their way of thinking-all you can really do in school is get the basic knowledge and termanology. Going to work in industry is one more learning process, just an extension of your college life. If you stop learning then you're really in trouble."

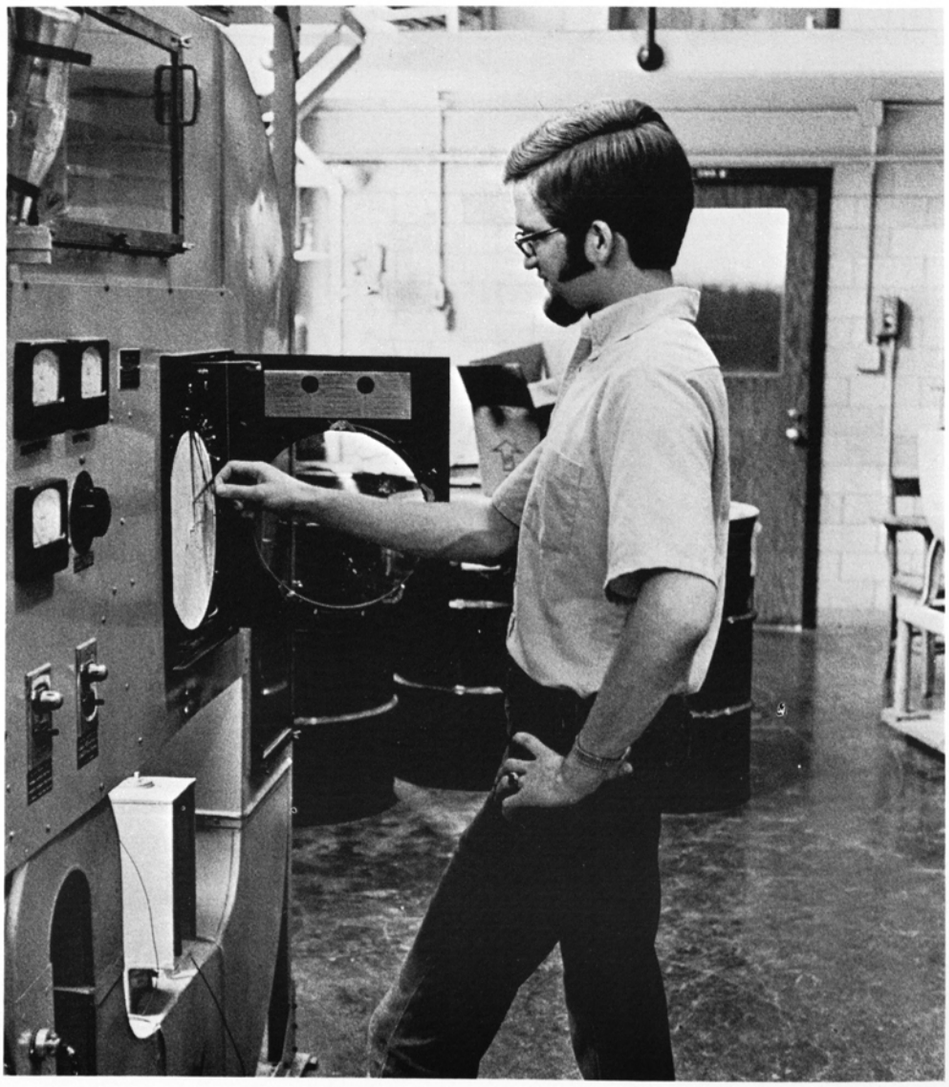
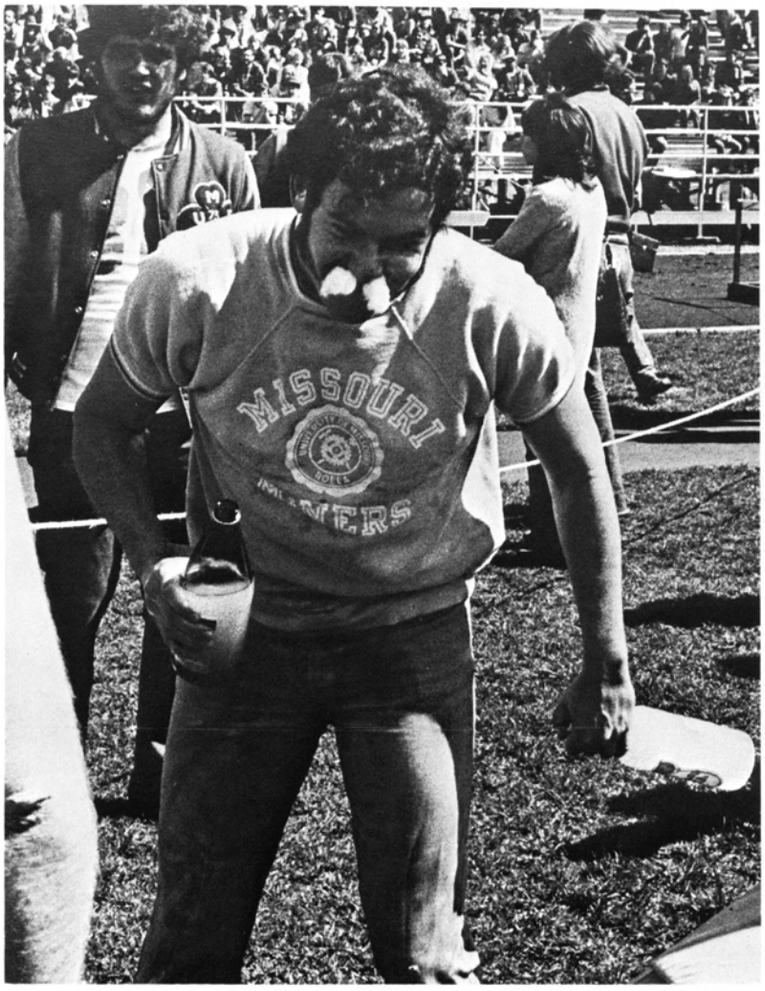
"I got on the student council because I was impressed with its leadership and organization. Student council has great potential-the administraion listens to them and they can get the ball rolling. But it needs more people coming back-it has to start over every year."

"School is too geared for grades, not enough for education-but it wouldn't work any other way. So you must remember not to let college interfere with your education. Set your priorities for your own personal satisfaction. Please yourself, live for yourself."

Richard Kess





"I am one of the few engineering students that have been student council president. It has helped me make decisions on what to get into, its given me managerial experience, and it has given me a look at how the bureacracy works."

"We all have a definite need for an education, other people, and a meaning in life. An education in Rolla should provide all three in a happy medium so that it produces a well rounded engineer."

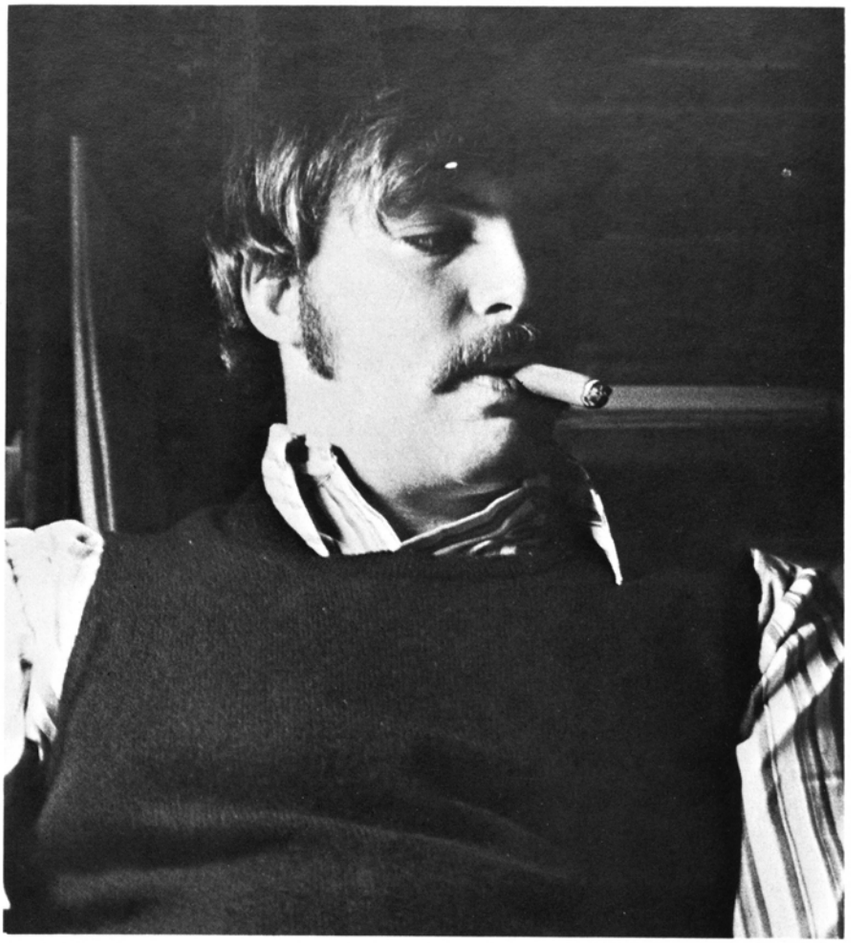
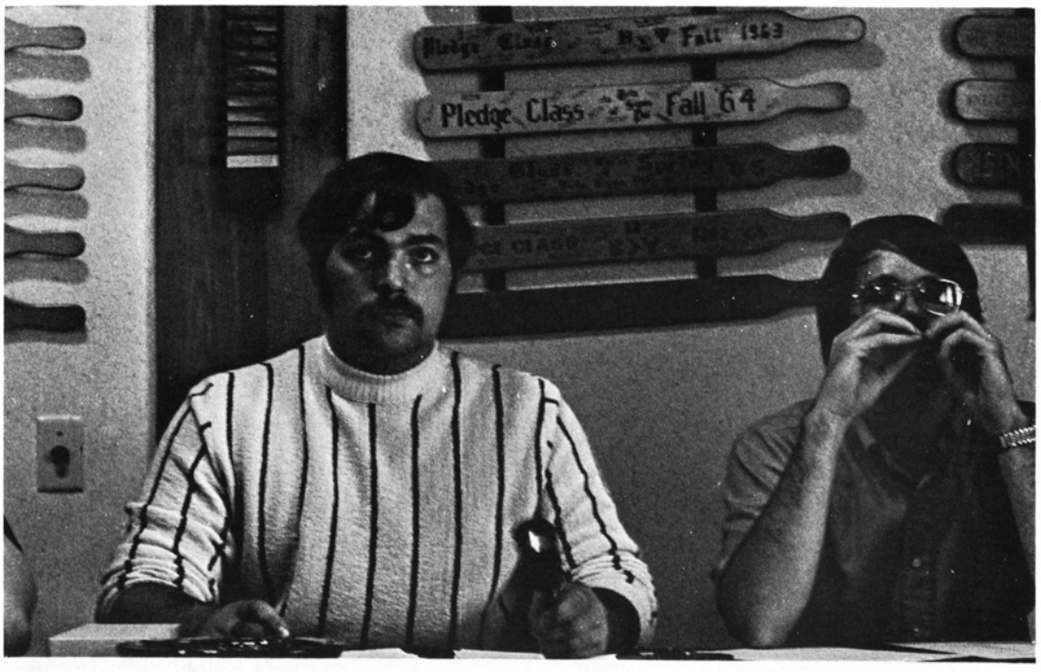
"The name UMR is well respected in industry. The name itself is something that's taken more than 100 years to develop. We can't let the school change to hurt this."

"Getting married is something I suggest to anybody cause it really takes the burden off school as far as what you're going to do for a social life."

Steve Theis



"If I would have gone to a larger school I'd probably never have gotten active. Here the atmosphere is real low keyed and you don't lose your idenity as you do on a big campus. The basic thing I've learned here was to treat people like you want to be treated yourself. Thats the whole idea I've been running on-it seems to work."



"The town could offer more to the student. The town itself only provides us with the use of their parks. Other than that they don't cater to the students-as far as doing things for the student this is one of the worst communities I've seen."

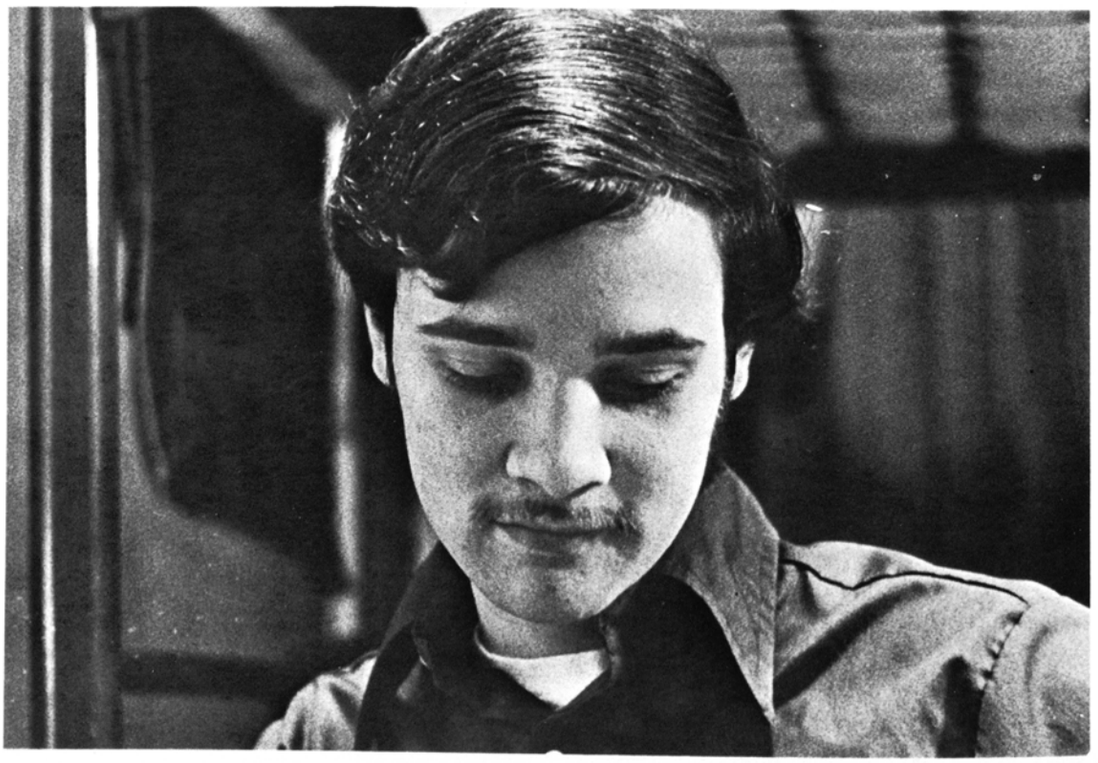
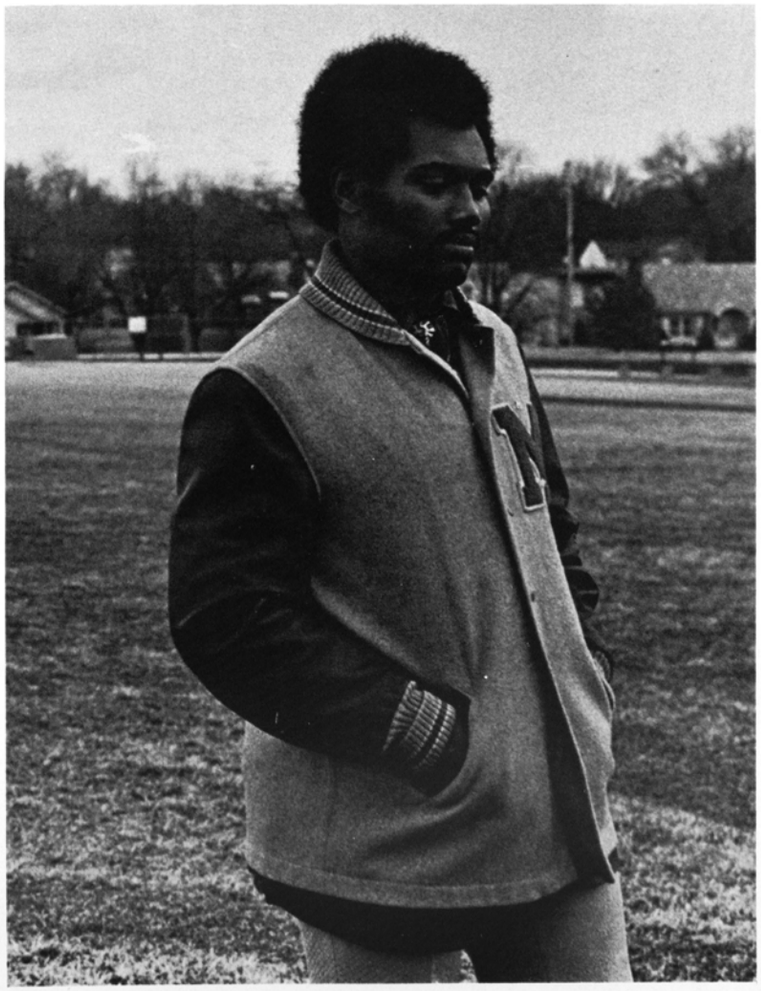
"I think it's most important that we keep our liberal viewpoint. The school is trying to go too much ingineering and I think it has to be a university like its name implies."



"Everybody should try to get involved in something and whatever that something is, do the best job they can. If you're not involved in extracurricular activities I don't know where you'll learn to lead, direct, or influence anyone."

Gary Leidwanger



"I'm a black student here and there is nothing geared toward the black student except the Association of Black Students which was started by black students- so to me there is nothing offered outside classes except sports."

"In general I think the whole athletic department is racist. If UMR wants to keep their athletic program going and successful they are going to have to change their attitude towards the black athlete."

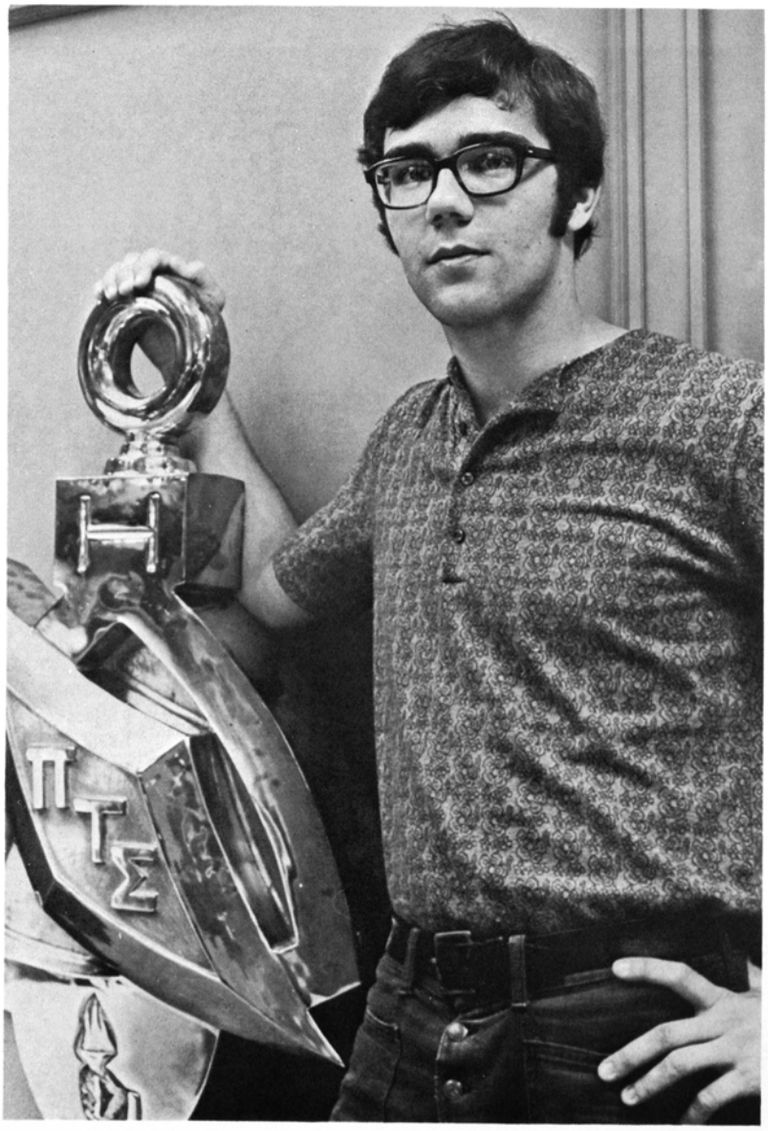
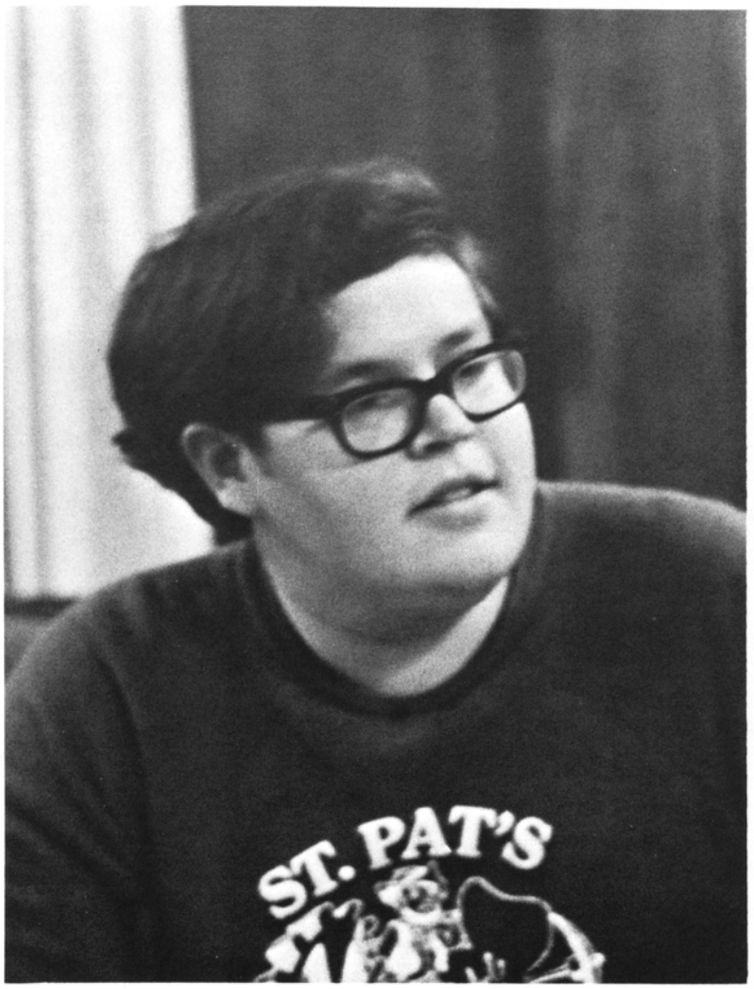
"Being in Rolla, one of the greatest handicaps is that you are around the same type of person all the time. The university needs to become more diversified and I think it has taken some steps to do this."



"Most of the campus organizations are worthwhile, but whats really bad is that one fraternity or one independent group will take over an organization and sit on it for years, not allowing a person from another organization to get involved in it. I'd like to see some of this abolished."

David Larcker



"The biggest problem facing UMR right now is enrollment. Until we get the enrollment back up to where it should be and become the aspiring university we were when I first came down here, I don't think UMR is going to be able to offer too much to the student."

"The greatest thing I've gotten out of UMR is the ability to live with very little, or in other words-living without. I think I will feel fortunate to call UMR my alma mater."

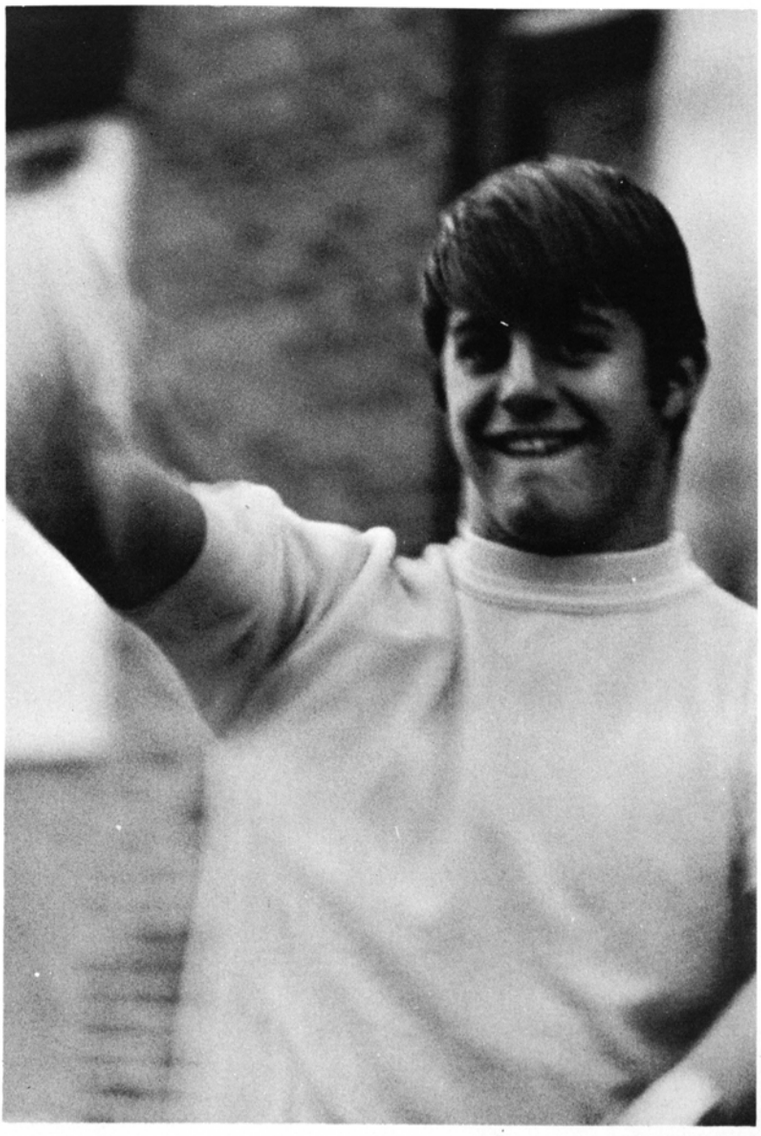
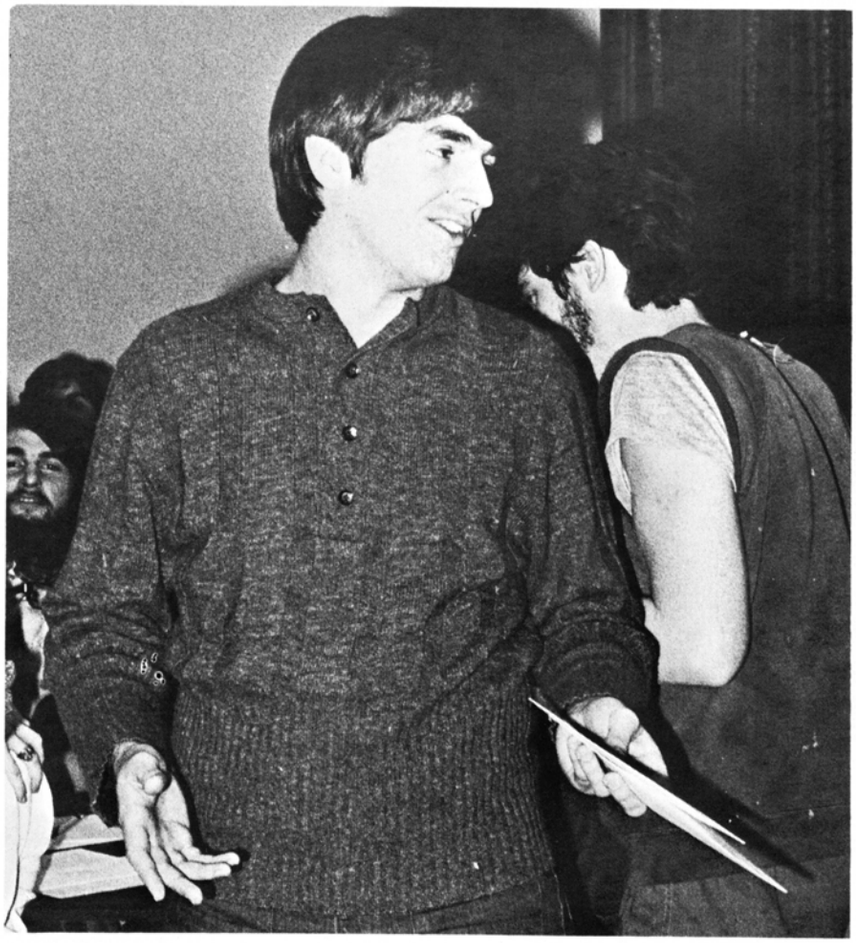
"I'd say the greatest thing I've gotten out of this university is the fact that by associating with different types of people you can learn how to respect their ideals and feelings about things-and you're not so quick to judge them."



"Being in the engineering curriculum requires a lot of work and you really have to dedicate yourself to that. If you're to be an excellent athlete you have to dedicate yourself to athletics also. In some universities you can get away with one and not do the other-but here you have to do both."



"When I first came down here, UMR had an unblemished record and reputation of being one of the finest engineering schools. But now I don't think it has that reputation with companies anymore."

"You really miss out on a lot by not being in a coed school. If you have to leave every weekend to go somewhere to get a date, it has to affect you in a lot of respects."

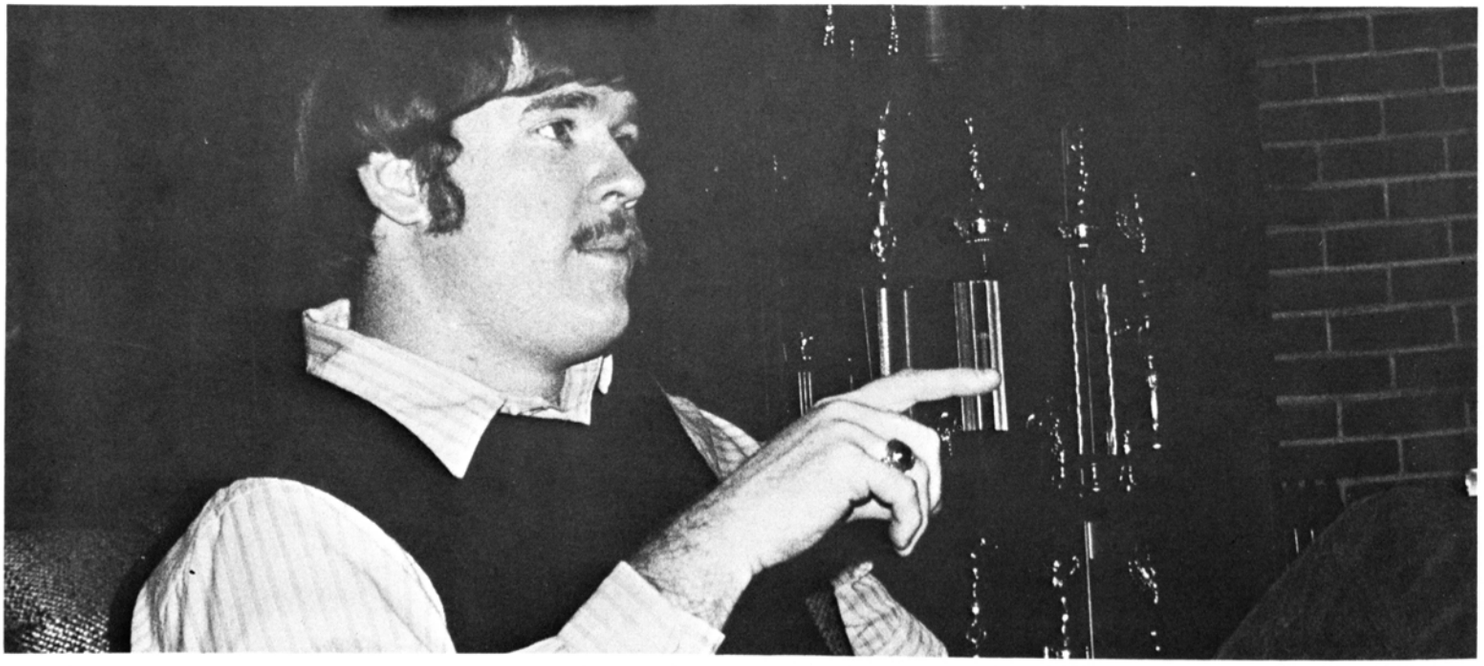
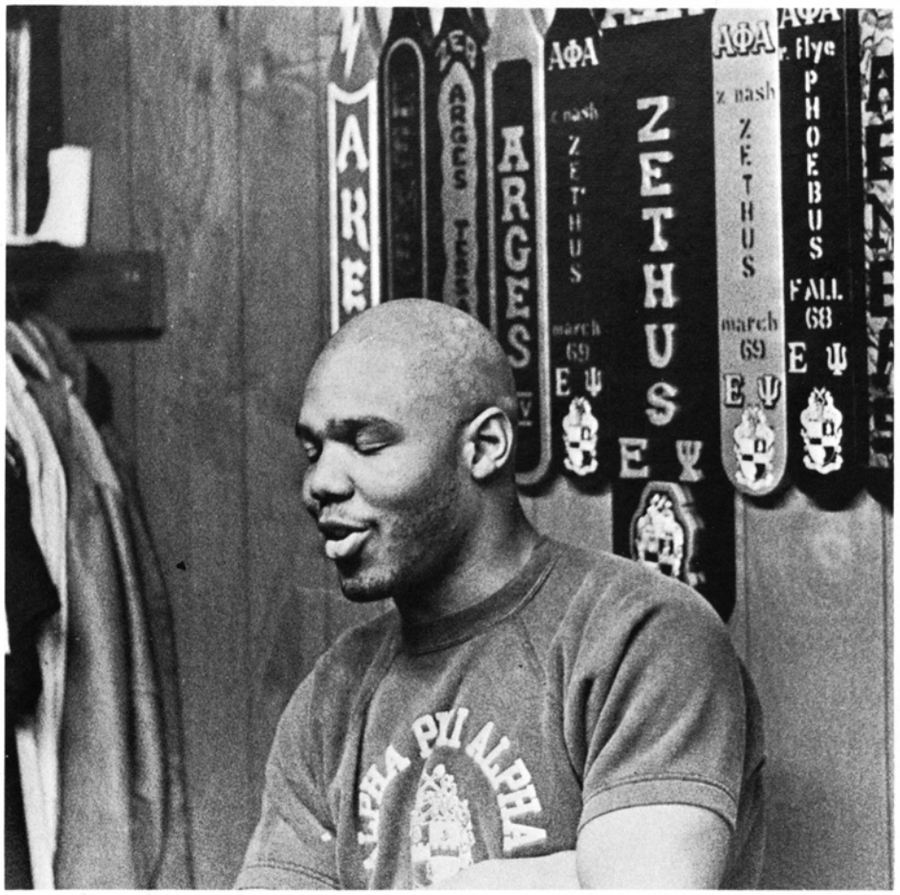
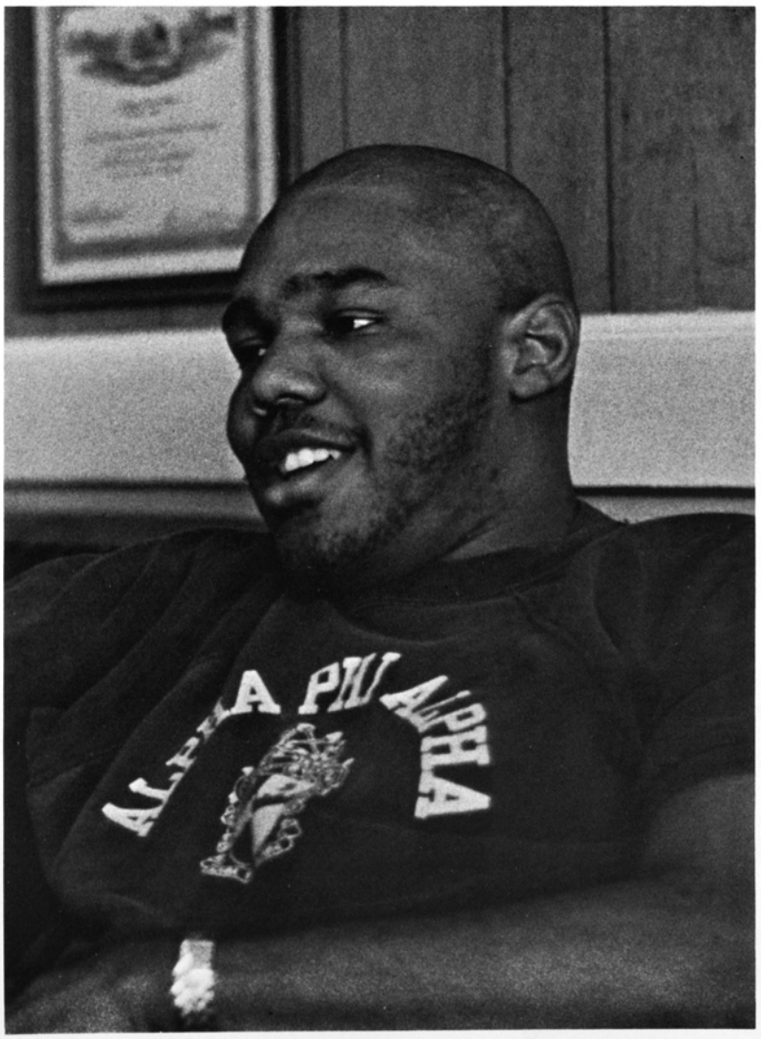
"About 80 percent of what I've gained from college has been aquired outside the classroom. Specifically; the experience of working with people, developing some sort of logical method of solving problems, brotherhood, and friendships. Things such as these aren't gained in the classroom."



"I think our efforts in the overall athletic program have been outstanding. We now have the foundation to build a really great athletic program. I think this helps enrollment and builds school spirit. I'm really excited about the way the campus is going. I've seen a lot of improvements over five years."

Robert Berry





"At UMR you get a classical education, but you don't really learn whats happening right now. If you're going to be a practical engineer, you won't use half of what you learn here. They should update the curriculums to fit the needs of industry today-instead of industry ten years ago."

"I think the curriculums at UMR should be broader so that we can get a wider spectrum of people to come here-but I don't think we should lose our engineering identity."

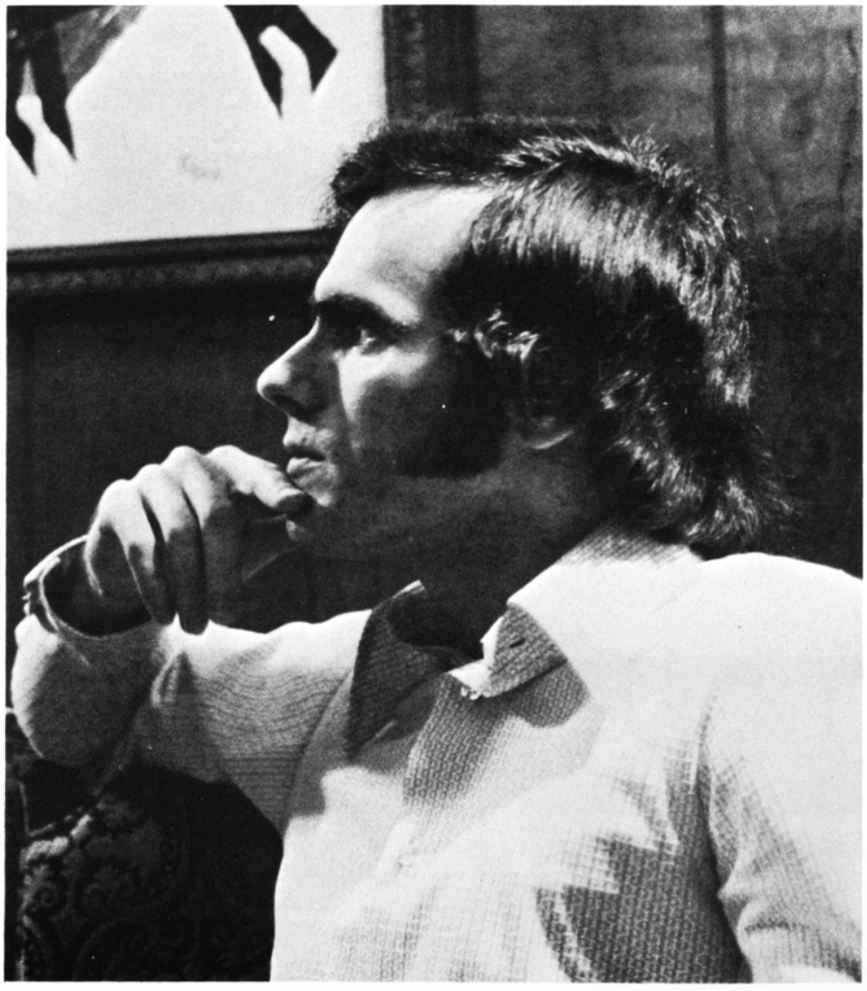
"Educationally we've isolated ourselves here. I think we've gotten so narrow that a lot of engineers are totally unaware of whats going on in the outside world."

Glenn Conger



"Having been here almost five years now, the greatest thing I've gained is being able to see people in many contexts. I believe this will be what I can apply to the problems I face in the future-almost more than the things I've learned from the engineering curriculum."

"I think for the most part, instructors are really interested in educating the students one way or another. Some in a pure technical sense while others expand their interest in teaching into the areas of extracurricular activities."

"I don't think that high school juniors and seniors are aware of the opportunities in engineering. I won't blame this on the university because they can only do so much. Right now we have what seems to be an abundance of engineers-its just a short term thing."

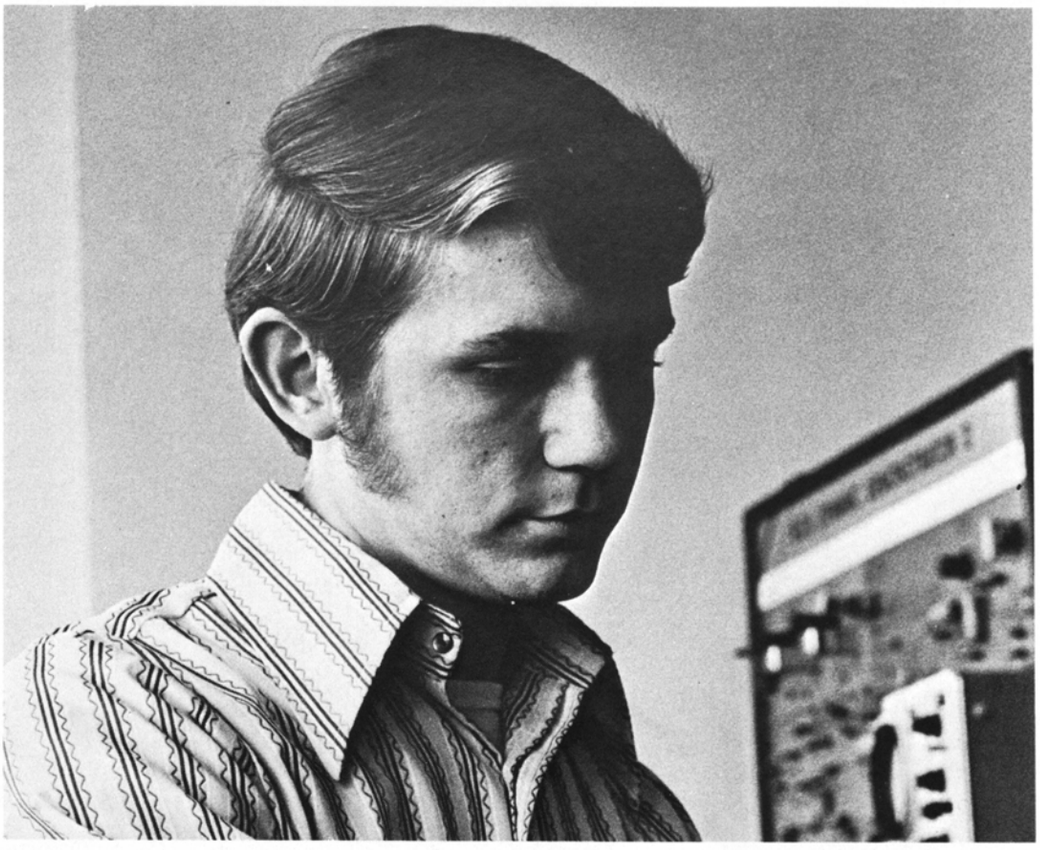
Aerospace Engineering

"I believe the greatest thing I have gained during my years at UMR, above and beyond my academic education, is a greater insight into human behavior. What I have learned about people and how to deal with them will be a valuable aid to me in future years--perhaps more so than what I have learned in the classroom."

"According to the records, UMR has one of the finest Civil Engineering Departments in the country. During the past, my own laziness has kept me from gaining as much from the C.E. Department as I would have liked - I truly regret this, but the fact remains and I can't change it now."

Steve Biederman



"Its hard to tell whether or not your time has been justified until you've had a chance to actually use something you've learned. A college student tends to get the impression that a lot of what he's been studying is just pure theory, and in the real world a great percentage of it will not hold true-but it is practical and it is the type of stuff they use in industry today."

"Four years ago the campus was plain ugly-thats the best way to put it. I've noticed a lot of improvements since I've been here. I'm for it and I'd like to see all these improvements made if it will make the place more pleasant to look at-we need it."

Editor's Note

Charlie Laderoute deserves most of the credit for the completion of this yearbook. He spent many June and July afternoons in the darkroom taking care of "final touches". He also helped complete the sports section and living units section. Bob Brennecke had over one hundred pages of the most difficult sections of this book, People, Activities, and Academics. Carol Langemach, editor of the organizations section, holds the distinction of being the only editor to meet her deadline. Craig Korkoian helped with the sports section as well as editing the seniors section. Reggie Rowe edited the queens section and took many of the pictures in this book. Dave Barczewski took care of the financial activities necessary for the publication of the ROLLAMO. Tom DePauw deserves credit for the many hours that he spent making sure that there was adequate photographic coverage of all UMR activities. Pictures are the most important part of this yearbook and the ROLLAMO photographers did a great job.

I would like to thank the ROLLAMO staff for their much needed help and enthusiasm. They helped with the distribution of the 1971 ROLLAMO, typing, layouts, and completion of the student index. I would also like to thank Bill Juedemann for designing the cover and Paul Coram for his continued help despite the fact that only one deadline was met. Most of all I would like to thank Lance Williams for the encouragement that he provided as our advisor, for remembering things that I'd forget, and for his constant support throughout the year.

Editing the 1972 ROLLAMO has been a very rewarding experience. I am extremely grateful to the UMR student body for making it all worthwhile.

Mike Zirkle
